
**ORANGE, Cal.**—Orange grammar school board has asked electors to meet at the Intermediate school on April 4th at 7 p. m., to discuss advisability of holding bond election to provide funds for a new building to replace the present Lemon St. school.

**LANCASTER, Los Angeles Co., Cal.**—The Lancaster School District defeated the \$70,000 school bond issue on March 18.

**PITTSBURG, Contra Costa Co., Cal.**—Antioch and Live Oak High School District defeats proposal to issue bonds of \$175,000 to finance erection of new high school; 453 in favor and 326 against the issue.

**SAN MATEO, San Mateo Co., Cal.**—Special election will be held April 20 in San Mateo School District to vote tax of \$45,000 to finance auditorium addition to Peninsula Ave. School; remodel upstairs room now used for assembly purposes and as Kindergarten classroom in same structure and two-classroom addition to the Homestead school; 1-classroom addition to Lawrence school and purchase of site for Primary school in San Mateo Park. Wm. F. Turnbull, J. J. Casey and E. C. Lydon are trustees of district.

**SAN ANDREAS, Calaveras Co., Cal.**—Until April 4, bids will be received by county supervisors for purchase of \$125,000 bond issue of Calaveras Union High School District; proceeds of sale to finance erection of a new school.

**MARTINEZ, Contra Costa Co., Cal.**—Vine Hall School District votes bonds of \$11,000 to finance erection of new school; issue carried by vote of 53 for and 3 against.

**LAGUNA BEACH, Orange Co., Cal.**—Laguna Beach School District will hold a bond election soon to vote on question of issuing \$124,500 for the erection of a new 8-room elementary school, repairs to the present building, and the purchase of additional property. Fay R. Spangler, architect, Santa Ana.

**VENTURA, Cal.**—Avenue School District will hold an election on April 9, at which time it is proposed to vote \$55,000 for erecting an addition to the present school.

**VACAVILLE, Solano Co., Cal.**—Election will be held April 20 in Vacaville Union High School District to vote bonds of \$100,000 to finance school improvements. Issue will be divided into two proposals, one providing \$25,000 for erection of purchase of equipment for gymnasium and another for \$75,000 to finance alterations and additions to present school.

**GLEN ELLEN, Sonoma Co., Cal.**—Dunbar Union High School District votes bonds of \$39,000 to finance erection of new school building. An architect will be selected shortly to prepare plans.

**EARLIMART, Tulare Co., Cal.**—Earlilmart School District votes bonds of \$5000 to finance 2-classroom addition to present school.

**COMPTON, Los Angeles Co., Cal.**—Bonds in the sum of \$100,000 were voted March 25 by Compton school district for additional school facilities. It is planned to erect a four-room building at the Mayo St. site, a four-room building at the Compton site, and a six-room building in the White Way Vista tract.

**BERKELEY, Alameda Co., Cal.**—Board of Education refuses to consider proposal of Berkeley Public School League for special tax of 25 cents on \$100 assessed valuation to be placed on ballot at election May 3, thus raising approx. \$150,000 for school improvements. The only solution to the school financing question, the board announces, is via a bond issue.

Plans obtainable from Supt. of Bldgs., 337 17th St., on deposit of \$25, returnable. **NOTE:** This work covers the completion of the contract previously awarded to Sampel & Cody, San Francisco contractors, which was declared abandoned by the Board of Education and which body notified the contractors to discontinue all work. **See call for bids under official proposal section in this issue.**

**COLTON, San Bernardino Co., Cal.**—Architects Allison & Allison, 1005 Hibernian Bldg., have been selected to prepare plans and specifications for two new grammar school buildings to be erected at Colton. A special election is to be held Mar. 25 to vote bonds in the sum of \$140,000 for building purposes. The district has the sites. One of the buildings will contain twelve units and the other ten units.

**PASADENA, Los Angeles Co., Cal.**—Architects Allison & Allison, 1005 Hibernian Bldg., have been commissioned to prepare plans for a manual arts building to be erected at John Muir technical high school at Pasadena. Details not determined.

**AZUSA, Los Angeles Co., Cal.**—The proposed \$50,000 bond issue for erecting and equipping a new school building Azusa School District failed to carry by one vote. The trustees will call another election to resubmit the proposition as soon as possible. Train & Cressy, Western Mutual Life Bldg., Los Angeles, are the architects.

**TULARE, Tulare Co., Cal.**—Until April 7, 8 p. m., bids will be received by C. E. Harper, clerk, Tulare Union High School District, for (1) sheet metal work; (2) plastering; (3) roofing for Agricultural Building now in course of construction. Plans obtainable from clerk.

**CONTRA COSTA COUNTY, Cal.**—Moraga Co., of which State Senator A. H. Breed is president, has offered a 100-acre site as Cashin Station, 1 mile east of Moraga Station on the San Francisco-Sacramento Railroad, to the St. Mary's College officials on which to locate the proposed new college buildings to replace the structures now occupied in Oakland.

**POMONA, Los Angeles Co., Cal.**—Architect P. K. Schabarum, 409 Equitable Bldg., Los Angeles, is preparing working plans for a new academy to be erected on Holt Ave., Pomona, for the Sisters of the Academy of the Holy Names. Plans will be completed in about six weeks when general bids will be taken from a selected list of contractors. The building will be a two-story and basement structure, E-shaped, extreme dimensions, 275x130 ft., and will contain a chapel, dining rooms, kitchens, accommodations for the Sisters, gymnasium, two dormitories, two recreation rooms, assembly room with stage, classrooms, and a number of baths, lavatories and showers; brick construction, cement plaster exterior, cast stone trim, tile and composition roof, structural steel, tiled baths and lavatories, linoleum covered floors, wrought iron grilles, gas-steam radiators, refrigeration system.

**CARPINTERIA, Santa Barbara Co., Cal.**—Until 7:30 p. m., April 11, bids will be received by the Carpinteria union high school district for the erection of a 1-story frame shop building for temporary general high school use in Carpinteria. Plans and specifications may be obtained from Architects Roland F. Sauter and E. Keith Lockard, 107 E. De la Guerra, Santa Barbara, or from the board of trustees at Carpinteria upon deposit of \$2, to be refunded. Separate bids will be received as follows: (1) excavating, grading and concrete work, (2) carpenter work, (3) sheet metal work, (4) shingle roof, (5) mill work, (6) finish floors, (7) lathing and plastering, (8) painting, (9) plumbing, (10) gas-steam heating, (11) electric wiring. Certified check for 5%. G. E. Franklin, clerk. Est. cost, \$20,000.

**PALOS VERDES, Los Angeles Co., Cal.**—Until 2 p. m., April 11, new bids will be received by trustees of Palos Verdes school district, at the office of the Palos Verdes Estates, Lane-Mortgage Bldg., Los Angeles, for erecting an addition to the Malaga Cove school building at Palos Verdes. Allison & Allison, 1005 Hibernian Bldg., Los Angeles, architects. Bids will be taken separately on the general contract plumbing and heating. The building will contain four classrooms; it will be of reinforced concrete construction stucco exterior, clay tile roofing. The estimated cost is \$25,000.

**CALEXICO, Imperial Co., Cal.**—Cal exico union high school district will call for bids at once, to be opened about April 9, for the reconstruction of the main high school building. The upper story will be removed and the structure rebuilt as 1-story. It is likely that a new auditorium building will be erected in the near future. Hansen & Swearingen, architects, 46 Spreckels Bldg., San Diego, and 21 Anderson Bldg., Calexico.

**HUGHSON, Stanislaus Co., Cal.**—Architect W. J. Wright, Mail Bldg. Stockton, preparing plans for auditorium building for Hughson High School District; will be of tile veneer construction, seating 600 on main floor and 300 in balcony; 20 ft. stage, dressing rooms, etc. Est. cost \$20,000. Funds are available from a direct tax to finance construction.

**SAN DIMAS, Los Angeles Co., Cal.**—San Dimas Grammar School District Trustees, have recommended that the present grammar school be torn down and replaced with a new 11 or 12-room structure; also that a 2 or 3-room school be built in the Mexican colony \$90,000 will be needed to finance the work and it is likely that an election will be held soon to vote on question of issuing bonds for the amount. Train & Cressy, architects, 226 Western Mutual Life Bldg., Los Angeles.

**FRESNO, Cal.**—Architects Kump & Johnson, Rowell Bldg., are completing plans for the two-story, 10-classroom John Burroughs elementary school to be built at Sierra and Illinois Aves. Bids will be called for soon on both concrete and brick construction.

# PLAYGROUNDS AND PARKS

## NOTICE TO CONTRACTORS

### GENERAL WORK

#### REPAIR OF STATE ARMORY

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock P. M., April 19th, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials, and labor required for the completion of the **General Work** for the Repair of State Armory, 14th and Mission Streets, San Francisco, California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

The work in general consists of constructing a reinforced concrete and steel frame balcony and stairs within the Drill Court, furnishing and installing steel sash and fixed seats, Painting, Electric Work, and miscellaneous alterations. All of the required work is to be included in the Contract for "General Work."

Cash, a Bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for General Work, State Armory, San Francisco, California."

## NOTICE TO CONTRACTORS

### (Golden Gate School Completion—Oakland)

OFFICE OF THE SECRETARY OF  
THE BOARD OF EDUCATION OF  
THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, **until Thursday, the 7th day of April, 1927, at 4:15 P. M.**, at which time said bids will be opened for the erection and completion of the Golden Gate School Unfinished Area, of the Oakland School District, located on the Eastern side of San Pablo Avenue between 62nd and 63rd Streets, in the City of Oakland, County of Alameda, State of California. These bids shall be presented in accordance with plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and

specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned, and in each case shall be returned within ten (10) days after securing same, to the Superintendent of Buildings. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for such mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5000.00) Dollars, but for all bids of less than Fifty Thousand (\$50,000.00) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Thursday, the 7th day of April, at 4:15 P. M., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEMOND,  
Secretary of the Board of Education  
of Oakland, California.

Secretary of the Board of Education  
of Oakland, California.

## NOTICE TO CONTRACTORS

### (San Leandro High School Completion)

OFFICE OF THE SECRETARY OF  
THE BOARD OF EDUCATION OF  
THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland High School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, **until Thursday, the 7th day of April, 1927, at 4:30 P. M.**, at which time said bids will be opened, for the erection and completion of the San Leandro Junior High School Building, of the Oakland High School District, to be erected on the North side of Estudillo Avenue, 2285 feet West of Foothill Boulevard, and in accordance with that certain contract dated February 23, 1926, executed by the Oakland High School District of Alameda County, State of California, and J. H. Sempel and Wm. F. Cody, a co-partnership doing business under the firm name and style of Sample & Cody in the City and County of San Francisco, State of California, which contract was declared abandoned by the Board of Education on March 15, 1927, and Sample & Cody notified by the Board of Education to discontinue all work. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings and Grounds, 337 17th Street, Oakland, California.

Bids will be received for:

- (1) General Work.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications, together with a list of

defective workmanship and materials which are to be removed and replaced in accordance with plans and specifications, may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned, and in each case shall be returned within ten (10) days after securing same, to the Superintendent of Buildings. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland High School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided, however, that in no case shall said check be required to be in excess of Five Thousand (\$5000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Thursday, the 7th day of April, 1927, at 4:30 P. M., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDMOND,  
Secretary of the Board of Education  
of Oakland, California.

#### **BID FOR CONSTRUCTION OF FOURTEENTH STREET WHARF SHED**

(Oakland, Calif.)

The Board of Port Commissioners of the City of Oakland, at its office at 424 Oakland Bank Building, will receive sealed bids on Monday, April 11th, 1927, between the hours of 4:30 p. m. and 5:30 p. m., for furnishing labor and materials for construction of a wharf shed located at the foot of Fourteenth Street in the Outer Harbor, City of Oakland. Plans, specifications and blank forms of proposal will be furnished by the Secretary of the Board on deposit of twenty-five dollar check. Bond in the full amount of the contract price for faithful performance of the contract to be given by successful bidder. Contract to be entered into within five days after award. Work to be commenced within ten calendar days after date of contract and to be completed within one hundred twenty calendar days thereafter.

G. B. HEGARDT,  
Secretary, Board of  
Port Commissioners.

#### **NOTICE TO CONTRACTORS**

Office of the Board of State Harbor Commissioners, Union Depot and Ferry House, San Francisco, California, March 28, 1927.

Sealed proposals or bids will be received by the Board at its regular meeting in the Board Room, Room 19, Union Depot and Ferry House, at 2 o'clock p. m., Friday, April 22, 1927, for furnishing and installing doors in the extensions of sheds on Piers 30 and 32, on the waterfront of the City and County of San Francisco, in accordance with plans and specifications approved by the Board March 25, 1927, and on file in this office, to which special reference is hereby made.

The work to be done under these specifications consists in furnishing and installing all steel rolling doors in the Extensions of Sheds on Piers 30 and 32.

The materials to be used in this work consist of the requisite quantities of structural steel, castings, galvanized iron, bolts, chains, paint materials, etc.

No bid will be received unless it is

made on a blank form furnished from this office and is accompanied by a certified check for an amount equal to five (5) per cent of the amount of the proposal, to be made payable to the Secretary of the Board, conditioned that if the proposal is accepted and the contract awarded, and if the bidder shall fail or neglect to execute a contract and give the bond required within six (6) days after the award is made, in that case the said sum mentioned in said check shall be deemed liquidated damages for such failure and neglect, and shall be paid into the San Francisco Harbor Improvement Fund.

Bids will not be considered by the Board unless delivered to the Board at its regular meeting in the Board Room, Room 19, Union Depot and Ferry House, at 2 o'clock p. m. on Friday, April 22, 1927, at which time and place the bids will be publicly opened.

The Board reserves the right to reject any or all bids if deemed for the best interests of the State.

Plans and specifications for this work to be had at Room 18, Union Depot and Ferry House, upon depositing \$10.00 for same, which will be returned on return of plans and specifications, provided said plans and specifications are returned within 30 days after date of receiving bids.

Bidders are requested to mark envelope containing bid: "Bid for installing Doors in the Extensions of Sheds on Piers 30 and 32."

C. L. TILDEN,  
FRANK C. SYKES,  
PAUL SCHARRENBERG,  
Board of State  
Harbor Commissioners.  
FRANK G. WHITE,  
Chief Engineer.  
J. L. PHELPS, Secretary.

#### **NOTICE TO CONTRACTORS**

(Sequoia Aqueduct—East Bay Municipal Utility District)

Sealed proposals will be received at the office of the East Bay Municipal Utility District, 1924 Broadway, Ray Building, Oakland, California, until 7:30 p. m., Friday, April 15, 1927, and will at that hour be opened, for furnishing materials for and constructing the Sequoia Aqueduct, Station 145+05 to Station 150+43. Specifications may be obtained by application to the office of the District.

JOHN H. KIMBALL,  
Secretary.  
Oakland, California, March 26, 1927.

#### **STATE OF CALIFORNIA CALIFORNIA HIGHWAY COMMISSION**

##### **NOTICE TO CONTRACTORS**

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock P. M. on April 25, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

San Benito County, a reinforced concrete girder bridge across Pacheco Creek about 6 miles north of Hollister (V-S.Bt-22-B), consisting of three 60-foot spans and two 28-foot spans.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the

proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
E. FORREST MITCHELL,  
Secretary.

Dated: March 28, 1927.

#### **NOTICE TO BIDDERS**

**TURLOCK IRRIGATION DISTRICT  
AND MODESTO IRRIGATION DISTRICT,  
STANISLAUS AND  
MERCED COUNTIES  
CALIFORNIA**

**MATERIALS AND LABOR TO COMPLETE THE TWO 7,500 K. W. UNITS AT DON PEDRO POWER HOUSE**

Sealed proposals will be received at the office of the Turlock Irrigation District at Turlock, California, until 2 p. m., April 10, 1927, for "Materials and Labor to Complete the Two 7500 K. W. Units at Don Pedro Power House." The work requires 3,000 barrels of cement; 75,000 lbs. structural steel; installing two turbines, two generators, transformers and switchboards; furnishing and installing the necessary wiring, conductors and cables; installing motor generator set and furnishing windows.

Plans and specifications may be inspected at the office of the Turlock Irrigation District. The contract will be let to the lowest bidder, but said Boards reserve the right to reject any or all bids.

Each proposal must be accompanied by a certified check for 5% of the amount of the bid payable to the order of the Treasurer of the Turlock Irrigation District for the benefit of said Districts as a guarantee that the bidder will, if successful, execute a satisfactory contract and furnish a bond in the sum of not less than 25% of the amount of his bid for the faithful performance of the work in accordance with the specifications and the bond for 50% as provided in Chapter 303 of the Statutes of 1919 of the State of California, said bonds to be approved by said Boards.

The proposal must be marked "Proposal for Materials and Labor to Complete the Two 7500 K. W. Units at Don Pedro Power House," and addressed Turlock Irrigation District and Modesto Irrigation District, Turlock, California.

Done in pursuance of the order of the Boards of Directors of the Turlock Irrigation District and the Modesto Irrigation District this 22nd day of March, 1927.

ANNA SORESENSEN, Secretary,  
Turlock Irrigation District.  
C. S. ABBOTT, Secretary,  
Modesto Irrigation District.

#### **NOTICE TO CONTRACTORS**

(Testing Laboratory, Substation, Etc.  
— East Bay Municipal  
Utility District)

Sealed proposals will be received at the office of the East Bay Municipal Utility District, 1924 Broadway, Oakland, California, until 7:30 o'clock p. m., Friday, April 15, 1927, for furnishing materials for and constructing a testing laboratory and electric substation and distributing system at Camp Pardee, Mokelumne River Project.

Plans and specifications for this work may be obtained by application to the office of the district.

(Signed) J. H. KIMBALL,  
Secretary.  
Oakland, California, March 28, 1927.

## THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

## ILLINOIS BUILDING CODE PASSES SENATE

A building code which has met the approval of all of the various elements in the construction industry of the state of Illinois has been drafted and has already passed the Senate and will no doubt receive the approval of the lower house during the present session of the state legislature. The bill provides for a Building Regulation Commission to consist of five members. The State Fire Marshal and the State Architect shall be ex-officio members of the commission, and the other three members shall be designated from time to time by the governor. But the three members designated by the governor to serve on the commission at any one time shall consist of one licensed architect, one licensed structural engineer of not less than 19 years experience in responsible charge of work and one building contractor of not less than 10 years practical experience. One of the outstanding features of the bill is the provision that any one who believes that any rule or regulation as laid down by the commission is unjust to him may apply for a hearing regarding the rule. If the commission decides against such person the circuit court of the county where the structure is to be erected shall have power to review the proceedings of the commission regarding the hearing by writ of certiorari to the commission. Provision is further made for the review of the opinion of the lower court by the Supreme Court but only upon writ of error.

## FEW BUILDING TRADES COMING TO THIS COUNTRY

In order that contractors may not grow lax in carrying on the splendid work which has been started in the way of training apprentices in the construction industry it is well to consider from time to time just where we stand with regard to replenishing of our labor supply from Europe. Recent statistics compiled by the Bureau of Immigration of the United States Department of Labor show that from July, 1926, to January, 1927, only 8912 skilled building craftsmen were admitted to this country. During this same period 1934 building mechanics left the country, leaving a net gain of only 6978. During the same period the influx of common laborers was 28,069 while the emigration figures for this class of labor stood at 21,311 leaving a net gain of only 6758. Obviously not all of the skilled or common labor gain of the last half of 1926, is now employed in the building industry. Consequently all hope of filling the gaps in the labor supply caused by death or retirement becomes increasingly apparent and it therefore is obvious that the building tradesmen of the future must be recruited and trained among the children and youth of the country.

## CALIFORNIA TIMBER VALUE EXCEEDS GOLD

Many times greater than the value of all the gold produced in California since the days of '49, the value of timber products of the State of California has reached huge proportions and it is fitting that California play an important part in the observance of American Forest week, says a statement by the national committee at Washington.

Proclaimed by President Coolidge, April 24 to 30, American Forest week is the annual call for all citizens to take part in bringing about better forest conditions. Governor Young is chairman of the state committee and Californians interested in forestry are urged by the national committee to offer him co-operation in the local observance of the week.

In the last twenty years the value of California's lumber and timber products has increased from \$18,275,891 a year to \$72,815,489. In 1925, 2,042,991,000 board feet of lumber was cut in California, giving the state sixth rank in lumber production.

## BONDS FOR STATE BUILDING EXTENSIONS SOLD

The \$1,250,000 bond issue to finance the completion of the State Capitol group of buildings at Sacramento have been sold by State Treasurer Chas. G. Johnson.

On a premium offer of \$18,552, a group comprising the Anglo-London-Paris Company and the Bank of Italy and associates was the successful bidder for the offer.

Keen competition in bidding featured the sale. E. R. Gundelfinger offered

only one dollar less than the purchasing group—\$18,551—while the California National Bank of Sacramento bid \$18,500, and E. H. Rollis, \$18,350.

The bonds bear 4½ per cent interest.

Funds for the completion of the two extension buildings now become available almost immediately. They will be used, mostly, for finishing the interior work and for equipment.

State officials estimate that the buildings will be completed by the end of the present year and preparations are being made to move the several state offices that will be housed in the new structures immediately after January 1st.

## SAN FRANCISCO BUILDING IN MARCH TOTALS \$4,685,162

San Francisco building operations during the month of March, 1927, total 900 permits for improvements, estimated to cost \$4,685,162, as compared with 1,010 permits for the corresponding period in 1926, when the improvements were valued at \$3,944,343, and 623 permits during the month of February, 1927, when construction was estimated at \$3,210,978.

During the past month five public improvements were included in the valuations, comprising two structures for the State Board of Harbor Commissioners, valued at \$10,700, and three buildings erected by the municipality estimated to cost \$458,883. The figures of the past month covered the erection of 434 frame buildings, mostly residences, costing \$2,588,105.

March, 1926, permits included 504 frame buildings, mostly residences, estimated to cost \$2,289,322, and for two public buildings estimated to cost \$231,786.

February, 1927, activities included 283 frame buildings, mostly homes, estimated to cost \$1,683,932. The total of this month also included one building for the State Harbor Board valued at \$356,000 and one public building valued at \$36,774.

Following is a segregated report of the March, 1927, activities, as compiled by the Bureau of Building Inspection of the Department of Public Works:

Class A .....	2	\$ 205,000
Class B .....	2	218,000
Class C .....	22	808,843
Frame .....	434	2,588,105
Alterations .....	435	395,631
Harbor buildings....	2	10,700
Public buildings.....	3	458,883

Totals ..... 600 \$4,685,162

## LUMBER CHIEF DECLARES STATE LUMBER SHORTAGE EXAGGERATED

That the lumber shortage in California is greatly exaggerated was the statement of Arthur H. Hood, president of Lumbermen's Credit Bureau of Minneapolis, Minnesota, who was in Oroville making a survey of the lumber manufacturing conditions. Hood, who is also snark of Hoo Hoo, fraternal order of lumbermen, says the present slump in the lumber market is due largely to the lack of co-ordination among the various branches of the industry. He says the timber stand in California is conservatively estimated at 253,000,000,000 board feet.

## San Jose Brick Company Reorganized — Plans Expansion

Financial and business reorganization of the San Jose Brick Company, operator of a brick plant on Fruitdale Ave., San Jose, and the formation of a new company, the San Jose Brick & Tile Company, to take over the business and plant is announced by the president of the new firm, C. C. Jamieson of Oakland.

Doubling of the output of the plant, which has been in operation since 1868, and the development of the local market are planned in the immediate future. Improvements in the plant are under consideration. The plant, now capable of an annual output of eight or nine million bricks will be increased approximately to 20 million bricks. Fifty men are employed at the local plant under the direction of the resident superintendent, Harry Rediker, who was assistant superintendent in charge of the plant under the San Jose Brick Company.

The plant, which has been a producer of high-grade common brick, tile, brick dust and ground clay for

more than 57 years, is well known to building material consumers from San Luis Obispo to Redding. It is estimated that 75 per cent of the products of the plant are consumed in the bay region.

The plant and clay beds extend over a tract of 47 acres. It is estimated that the present clay beds will provide sufficient material for the plant to operate at capacity for 50 years.

An effort will be made at once to develop local trade. A San Jose sales office is located at the plant, under the direction of H. E. Kiefer, general sales manager.

In effecting the business reorganization, the new company has secured an agreement with the Rhodes-Jamieson Company of Oakland to take a large part of the output of the plant. The Rhodes-Jamieson Company is one of the largest building material and fuel firms in Northern California, operating six yards in Oakland, Alameda and Berkeley.

so well set in California landscapes?

This seems to be a new question. But if we go back to the other side of the "ginger-bread era" in California, is there not an indication that the earlier Californians saw the problem and had started to solve it? Those houses of Monterey, for example, built by the early settlers, solved the question of a background for their American furniture while conforming to the influence of Spanish predecessors.

In place of the painted wooden exterior of a New England home we find a plaster wall, which, of course, from a practical and artistic point of view, is better suited to a semi-tropical climate and vegetation. In place of the single roof we find the hand-made tile and the hand-made redwood shakes. And in place of the severely plain New England silhouette we find the overhanging balcony and informal outlines typical of Spanish work in the mother country and her colonies.

So this question of a California style that is distilling out of the welter of "ginger-bread" and "jazz" periods has its solution begun. May it not be that Californians will take up this beginning and work out a true California style of architecture which will harmonize with Ambassador Bryce's inspiring compliment to Californians.

### ARCHITECTURAL TREATMENT OF CONCRETE

Architectural treatment of reinforced concrete and mass concrete work, to be in keeping with the material, should be based upon the properties of the material and upon the method by which the structure is erected. Steel, brick and stone all have their particular properties and each have developed a basic architectural form of mass and enrichment of their very own. Tradition has handed down those things by which the designer now profits. Yet many an idea translated in one or another of the basic materials has proven not in keeping with that material, but has rather been evolved during older days to fit a material no longer used. The great Gothic spires suggest the primeval forest, yet even in the middle ages were they built of stone—not lumber.

Today we have a new material—concrete. It is plastic, and this has led to the following of traditions that need not apply. It is possible, rather, to develop a new technique—one that more truly expresses the properties of that material.

The thought suggested by F. L. Ackerman at the convention of the American Concrete Institute should lead to new and pleasing designs. The engineer and the architect might well cooperate to develop them.

The two features that govern are the plasticity of the material—and the form method by which it is given shape. Design, to truly express the material, should then, consist of a broad treatment of horizontal and vertical planes, enriched by diagonal planes and bevels that are but a natural part of the form itself. The proper handling of masses to gain the most pleasing silhouette will result in pleasing effects. Textural treatment by means of form marks, exposed aggregates, stucco and so on, would place greater variety in the hands of the designer. And thus will the architect add another note of pleasing interest to our cities and our countryside.—(Engineering & Contracting).

## California Architecture As Seen By An Architect

(By William E. Schirmer, Architect, Oakland, Calif.)

When James Bryce said of California, "the finest Anglo-Saxon civilization yet developed," he meant that Californians not only knew how to live well but with their present intelligence and inclinations will continue to adjust changing conditions to so doing.

There is no more pleasing evidence of this to visitors from other communities than the rich variety of architectural style in California homes and the ever-present underlying attention to the fact that folks, California folks, are going to make real domestic use of those buildings; and furthermore intend them to show hospitality to guests.

During the past forty years, since the "ginger-bread" style of building and decoration became universally discerned as ugly, tiresome and ridiculous, there has been in California an interesting architectural development. The character of Californians has made this development not only a search for suitable architectural styles already existent but for adaptations of these styles, or even creations of new styles peculiar to and suitable for California.

The range of styles evolved in this period has been almost unlimited. No section of any country can display such a variety of attempts to find the best in architecture and building. Undoubtedly much of this has gone wrong. Some efforts have proved that determined ingenuity can produce a building of such amazing ugliness as to be unique in its particular display of that quality. We are still daily confronted with examples of these adventures in design, ranging from the would-be cozy Chinese bungalow with painted tin tile roof to the Mission garage with wooden bells in a campanile.

But while this exuberant development of architecture has at times been painful for those of trained observation and discrimination to watch it has not been without interest and it

has certainly given every opportunity to new creations of design. Furthermore, it may be looked at as having a wholesome effect. For, having tried all the departures from the laws of nature in the field of design and found the result inevitably displeasing, people are turning to architecture that continues to satisfy day in and day out and always arouses feelings of happiness and contentment through harmony with natural laws.

In domestic architecture we are apparently passing through an extreme period but there are still plenty of indications on all sides that this is passing and we are settling down to two more or less distinct types, loosely termed English and Mediterranean, in both of which good work is being done.

There is a charm about the Mediterranean style that is peculiarly fitted to many sections of California, where both climate and topography are akin to those of the style's native country. It is hoped that work in this type of architecture will continue and not be cast aside for experiment in some direction novel to the United States but with little else to recommend it.

But while there is a picturesque quality in Mediterranean style that is fascinating to the eye the appeal to the Anglo-Saxon heart of the English style is always exerting a faithful pull on the affections. It is a type developed by those people who believe that from the Anglo-Saxon point of view there has been but one real architectural interpretation of the word "home": the old English or the Colonial, its Georgian offspring.

These people at the same time realize the inappropriateness of the English style in a very considerable section of California terrain. So they are torn between the eye and the heart.

What style or type can be suggested that will retain the charm and "liveable" qualities of the English home with the romance and picturesque quality of the Mediterranean house.

# Origination Of Set-Back Idea Is Claimed By S. F. Architect

The honor of originating modern setback" architecture—buildings reduced in size from the bottom up, on the Egyptian pyramid plan—as well as the idea of extensive civic centers for large American cities, is claimed by a San Francisco architect, Normand Mohr. "New York tries to take the credit for the 'setback' style of architecture, but it rightfully belongs to San Francisco," said Mohr. "Cass Gilbert and other well-known Eastern architects point to some of their plans and models that go back as far as ten years. 'I have plans that were made at least sixteen years ago. The original idea for building the Panama-Pacific Exposition of 1915 out on the Marina, along with a parallel development of the Civic Center where it now stands, was worked out by my brother, Oscar and me in collaboration. Some of the basic ideas for those plans were started as far back as 1911. We worked them up in 1912 and submitted completed plans in 1913.

## Printed in 1914

"A comprehensive illustrated article on those plans was published in the San Francisco Chronicle on January 6, 1914. Examination of that article or the original drawings will show that the buildings were designed along the setback' principle. It was the publication of this article that really broadcast the 'setback' system to the world, and this city deserves full credit as the place of its origin. "In saying this, I do not indulge in

idle fancy or put forward extravagant claims. I am willing to post a substantial forfeit, to be given to charity, for any architect who can successfully challenge my claim of being the first to apply the 'setback' idea to modern city buildings.

## Used in Egypt

"Of course, the basic design is not by any means new. Some of the ancient Egyptian pyramids and temples follow the same general lines, the cliff dwellers of old and the pueblos of today have distinct similarities, the graded levels of Chinese pagodas, as well as the recessed geometric designs of the old Aztec and Maya temples in the Americas, all follow something of the same lines.

"My contention is that I was the first to embody these principles in designs for modern utilitarian buildings. I did it for a purely practical purpose, namely, to graduate the upper levels so that the lower part of the building would not be excluded from light and air.

## Center Idea New

"The idea of an extensive civic center also was new. Every city had a city hall and some public buildings, but the idea of grouping them together around a central parked area originated in San Francisco. Since then many cities have adopted the idea. In New York right now there is extensive agitation to establish a civic center in that largest of all American cities."

## Why License Contractors?

(Reprint From The Master Builder, Portland, Ore.)

"That's easy; give us a hard one," says one.

"Well, why, if it's so easy?"

"Why, to shut out the irresponsible man, of course."

And there you are. For it is a fact at both assembly bill No. 1050 and senate bill No. 758 presented to the California legislature this year have as their object. The first is sponsored by the Builders' Exchange of Alameda County and the second by the Builders' Exchange of Pasadena. At least the Builders' Exchanges of our state have life enough to incubate the kind of a bill. It creates discussion on an exceedingly interesting question, at any rate.

As we see it, the sole and only object that would justify any state or city in passing laws or ordinances of this kind is that they are aimed to prevent violations of building laws and ordinances in existence that were enacted in the interest of the general public. We hold there can be no effective licensing of a contractor where there is no building code but merely a will of a commission to be violated. Good building does not come from a national code but from a good building idea. But when there are good building codes there should be ample power vested in executive hands to see to it they are not wilfully abused whether by responsible or irresponsible men, and not from a credit or dollar and cent basis, but of actual workmanship. A contractor may be ever so "irresponsible" in the sense used in these proposed laws and still be "re-

sponsible" when it comes to observing the strict provisions of the code, and a contractor may be ever so "responsible" as to the discharge of his financial obligations and yet wilfully violate the code and be grossly incompetent from a code point of view. See if you cannot think of at least one such case.

Boston takes this view and has held to the vision for 14 years until now "even the performance of the smallest structural work is regulated" by a licensed man on the job—not to pay the bills, but to observe the code.

North Carolina has a law to the effect that construction work of \$10,000 must be done by a licensed general contractor who has passed a satisfactory examination before a competent state board and been granted a license—not to pay his bills, but to properly do the work. And the board may revoke the license upon a showing of "fraud or deceit in obtaining the license, or for gross negligence, incompetency or misconduct in the practice of his profession." Not because he chews tobacco or tells a dirty story. Boston revokes a license for "carelessness or negligence in the performance of duty in connection with the work" and "violation of building laws." (1) Carelessness, (2) negligence, (3) violation of building laws—and leaves credit matters out.

But these angel breeders of California propose to revoke a contractor's license for (1) making a substantial misrepresentation, (2) making a false promise of a character likely to influ-

ence, persuade or induce, (3) continued and flagrant course of misrepresentation, (4) any other CONDUCT which constitutes dishonest dealing.

With the above in the law and no state building code law, how could building bureaus improve building construction? At first glance at these proposed laws it would appear California proposed to do away with her lien law and change her system of collecting bad bills for material men by substituting this contractors' license law.

Another thing in these legislative doughballs—the license extends to general contractors, sub-contractors, etc., "any person that installs material, furnishes power, appliances, teams or purchases material or employs labor for the construction, alteration, addition to, or repair, either in whole or in part, of any building." They are all contractors in the meaning of this law and must be licensed. They must provide a \$5000 bond to the state and file a copy in the county where the work may be.

And if the contractor breaks a contract or does not pay any bill for labor or material, the injured party may recover on this bond. To violate the law is a misdemeanor, but they not so much as whisper that anything will happen if the rules of good construction are violated.

From the specific mention of painting and repair it is clear that sub-contractors are included in the provisions for license and bond and in this we have the state going over the general contractor to legislate for his sub-contractors, requiring the same size bond from each of them. So that on any given job they have invested in bonds:

General contractor .....\$ 5,000  
20 sub-contractors, \$5000 each. 100,000

Total .....\$105,000

At a premium of 1 per cent for the bonding companies, \$1050, whether the work be large or small, much or little. Verily it looks as though the evangelical alliance and the surety bond people had slipped one over on the Builders' Exchanges of the sunny southland, with a live realty board in the offing.

Gen. R. C. Marshall, at Asheville, N. C., laid the blame for the irresponsible contractor upon the surety bond companies and material men, but these two proposed laws provide a \$5000 bond for all kinds and classes of contractors and direct the material men to dip into the fund thus created for bills unpaid, thus financing anyone who can get a bond without examination or other requirement than satisfactory (?) proof of honesty, truthfulness, good reputation and allegiance to Aimee or Billy, and—Oh, yes, a "fair knowledge of English, including reading, writing, the elements of arithmetic and a fair understanding of the rudiments of building contracts, the reading of blue prints, the erecting, alteration, painting (must have been a painter in that Builders' Exchange committee) and repair of buildings and other structures and fair understanding of the obligations between principal and agent, as well as the California building act."

From the fig leaf covering of Eden to the fig leaf bungle-ohs of the golden west is a long way in years but the builder is about where he was at first in some things.

## CERTIFICATES GRANTED

California State Board of Architecture, Northern Division, has granted certificates to practice architecture in California to Edward H. Russ, 1338 Shattuck Ave., Berkeley, and Stanley P. Koch, 1711 San Lorenzo Ave., Berkeley.

# THE OBSERVER

## WHAT HE HEARS AND SEES ON HIS ROUNDS

**SAN FRANCISCO—"The City That Knows How."** But do we? Apparently not—as regards the carpenters' strike. At least, such is the opinion of O. G. Hughson, editor of the Master Builder of Portland, Ore., the official publication of the Master Builders' Association of the rose city.

Hughson is known as a fellow who throws a "wicked pen." He sums up the San Francisco carpenters' strike settlement in six paragraphs, as follows:

It looks as though the carpenters' strike in San Francisco were settled by a series of conferences between parties involved. We have seen it stated that the carpenters had agreed to go back to work side by side with non-union men, but such is not the case.

A \$9 per day wage scale was agreed upon, the carpenters agree to discontinue the material house they had established, the material men agree to withdraw their system of permits and "all parties hereto pledge themselves to the practice and principle of adjusting disputes between employers and employes over hours and wages by conferences to the end that strikes and lockouts may be avoided."

In the Portland agreement between the Master Builders' Association and the District Council of Carpenters it is stated: "There shall be no strikes or lockouts or stoppage of work without the sanction of the BOARD," which is composed of six men, three from each side, with full power to act, penalties for non-compliance being provided.

It may be said there has been no dispute since this arrangement was made effective and the chances are none will arise that this board will not be amply able to handle.

When Portland was considering this arrangement strong opposition was voiced from San Francisco, in view of which it is interesting to read the above extract from the terms of the San Francisco settlement. Portland can show 'em a thing or two when it comes to sanity in matters of this kind.

It cost a year of expensive strife before adoption of this simple expedient, which was adopted here before there was any trouble even in sight—a splendid illustration of the advantage economically of foresight over hindsight.

U. S. Civil Service Commission announces open competitive examinations for positions of associate architect at a salary of \$3000 a year and assistant architect at a salary of \$2400 a year to fill vacancies in the supervising architect's office at Washington, D. C., and in the classified service throughout the country. Applications will be received at Washington until June 30.

A nickel alloy, known commercially as earlyte, has been patented by John P. Early, president of the W. J. Early Sons Foundry Company at Pittsburgh, Pa. The alloy, according to Early, is harder than many kinds of steel, will withstand high temperatures and is unique in that it can be made to form a hard chilled surface in a sand mold.

Announcement is made by the Ransome Concrete Machinery Company that it has developed a pneumatic method of placing concrete vertically to a height of 105 ft. A test made on a construction job in New York City recently showed that with an average of 70 lbs. of air a 7 cu. ft. batch could be shot to that height in 15 seconds. Heretofore it has been considered feasible to operate pneumatic placers horizontally only. Development of vertical pneumatic placer will make possible the use of this method in erection of buildings and other structures. An advantage claimed for it is that by placing the concrete under pressure uniform destiny and freedom from voids can be obtained.

As a result of a meeting of the contracting plasterers of Glendale at which the Mayor and members of city council, the building inspectors of San Diego, Los Angeles and Beverly Hills and others were guests, an ordinance to regulate plastering will be drafted and presented to the city council of Glendale.

Selection of William Templeton Johnson of San Diego as architect for the United States Government buildings at the international exposition at Seville, Spain, next year, is announced by Thomas E. Campbell, United States commissioner general to the exposition. Mr. Johnson, architect for the prize winning fine art gallery at San Diego was selected partly because of his familiarity with Spanish architecture, which will be the complimentary style used by the American Government at Seville.

A meeting will be held under the auspices of the California Development Association at 10:30 A. M., April 12, at the Alexandria Hotel, Los Angeles, for the purpose of discussing the white ant or termite problem and its effect on the lumber industry throughout the state.

Preparation of a new housing code and a new building code for the city of Berkeley in the near future is announced by S. P. Koch, chief building inspector, who has been instructed to spend all time available on the work so that it may be completed at the earliest possible date.

Walter R. Simons of the Simons Brick Company, Los Angeles, was elected a vice-president of the Common Brick Manufacturers Association of America, at the recent convention held in Chicago.

Hayward (Alameda County) city trustees contemplate the enactment of a building ordinance and the appointment of a building inspector.

## TRADE NOTES

Truscon Steel Company with works at Youngstown, Ohio, has announced plans to enter the manufacturing field on the Pacific Coast, with an initial investment of about \$250,000. The first fabricating plant, to be located in Los Angeles, will manufacture steel products from raw materials purchased from Coast steel mills. The company will ship neither raw nor manufactured materials from the East, it is said. Warehouses in San Francisco, Portland and Los Angeles will be supplied from the new plant, which will be in operation in about four months after the site is chosen this week. The working force will number 150, to be increased, and new factory units built as business justifies.

Union Lumber Company of Bakersfield announces the sale of its Bakersfield and Taft properties to the Hayward Lumber & Investment Company of Los Angeles and the Delano and McFarland branches to the King Lumber Company of Bakersfield. The sale was consummated by S. T. Hayward, vice-president and general manager of the purchasing company of which C. A. Hayward is president. The personnel will remain the same. In obtaining the Kern county lumber business the Hayward Lumber & Investment Company has lengthened its chain of properties in the San Joaquin valley and southern California to 22 yards. Six yards are held by the Hayward interests in the valley at Bakersfield, Taft, Delano, Corcoran, Los Banos and Manteca.

Oliver E. Smith, for the past sixteen years identified with the building material business in the Bay district, has become a member of the firm of the Melrose Building Materials Co., with headquarters in Tidewater Avenue near High St., Oakland. Smith will act in the capacity of secretary and manager. Frank W. Miller is president and Henry L. Manning, vice-president of the company.

The Sacramento Brick Company has filed a complaint with the State Railroad Commission, alleging that the Western Pacific and Southern Pacific Railroads contemplated the inauguration of a rate production, which would discriminate against their project. The Sacramento concern declares the railroads were planning to cut the present rates charged for hauling from Stockton to Marysville. The complaint asks the commission to prevent such a change.

Valley Concrete Pipe & Products Company with headquarters at Yuba City has purchased a three and one-half acre tract in the Stege section of Richmond, Contra Costa County, and will expend approximately \$40,000 in establishing a plant for the manufacture of concrete pipe and other concrete products. G. D. Williamson is president and J. G. Williamson is vice-president of the company.

Finance Building Corp. of Oakland capitalized for \$200,000, has been incorporated. Directors are: Robt. A. Shuey of Berkeley; Carl T. Doell of Oakland; Jas. T. Narbett of Richmond; Frederick H. Reimers, Oakland and C. A. Henning of San Francisco.

The entire plant and holdings of the Shasta View Lumber Co., at Klamath Falls, Ore., was recently sold at a court action to the Stockton Box Company of Stockton. The highest bidder for \$90,000. The sale was conducted by Robert F. McGuire of Portland, master in chancery, to satisfy a judgment against the company obtained by Tarter, Webster & Johnston of San Francisco.

Pacific Rolling Mill Company of San Francisco announces the removal of Los Angeles offices from the Chamber of Commerce Building to the Board of Trade Building, with John L. Brickels in charge as sales manager.

Increased business in the Sacramento Valley area prompts the erection of a \$30,000 annex to the present plant of Holbrook, Merrill & Stetson at Eighteenth and R Sts., Sacramento, it is announced by J. D. Hubbard, Sacramento branch manager. The company carries a complete line of plumbing supplies and sheet metal products.

National Steel Fabric Co., 717 Union Trust Bldg., Pittsburgh, Pa., has issued a new booklet covering reinforced plaster construction. Copies will be furnished on request without charge.

Roy and Harry A. Matheny, with twenty-two years experience in the lumber business in Northern California, have taken over the business of the Mokelumne Lumber Company at Lodi and will operate under the name of Matheny Brothers.

Maurice Siegman and George Wilson will operate from 2125 Polk street, San Francisco, under the firm name of Superior Sheet Metal Works.

Lawrence Matzen, Herman E. Ramm and Geo. T. Thompson have formed a partnership and will operate under the trade name of Coast Cabinet Company with offices at 42 Ritch Street, San Francisco, where construction of a new plant and office has been started.

Bertram C. Collupy will operate from 681 Market street, San Francisco, under the firm name of Western Engineering & Equipment Company.

## ALONG the LINE

Fred H. Tibbetts, consulting engineer, is scheduled as the principal speaker at the bi-monthly dinner meeting of the Engineers' Club, San Francisco, April 19. He will describe in detail the Nevada Irrigation District, including organization of the district, details of design of the various structures now nearing completion and co-operative agreement with the Pacific Gas & Electric Company for hydro-electric development. The talk will be illustrated with a motion picture film.

Bates & Borland, general engineering contractors of Oakland, announce the removal of Los Angeles branch office from Merchants National Bank Bldg. to Sun Finance Building.

W. R. Pickering, 77, chairman of the Board of Directors of the Pickering Lumber Company, died in Kansas City, Mo., April 1. He was one of the most extensive manufacturers of yellow pine in the Southern states.

L. E. Richardson, city building inspector of Alhambra, has resigned to become associated as an engineer with the C. J. Kubach Company, general contractors of Los Angeles. Pending the appointment of a successor, Arthur Veit, assistant inspector, will be in charge of the office.

J. W. Reagan has resigned as chief engineer of the Los Angeles County Flood Control District and E. Court Eaton, his assistant, has been appointed acting flood control engineer. To advise the flood control district, the county supervisors have named the following as consulting engineers: J. B. Lippincott, Chas. H. Paul and J. W. Reagan.

Chas. A. Wagner, structural engineer, has opened offices at 320 Market street, San Francisco.

### MONOLITH PORTLAND CEMENT CO. TO EXPAND

Launching an expansion program that will enable them to distribute their cement products over a large territory in the inter-mountain states as well as throughout the Pacific Coast region, officers of the Monolith Portland Cement Company have just announced the organization of the Monolith Portland Midwest Company with large holdings near Laramie, Wyo., where a new cement plant is to be erected and put in operation. The Monolith Midwest is a separate corporation directed by the same officers, and their new plant will serve points in Wyoming, Colorado and Nebraska, where they will have favorable freight rates over a territory where the cement consumption last year exceeded 1,300,000 barrels, an amount three times greater than the capacity of the proposed plant. Officers and directors of the two companies include Coy Burnett, president; Wilmar Evans, vice-president and general manager; J. J. Calkins, secretary and treasurer; W. S. Trueblood, general superintendent in charge of operations at the Monolith Mills; C. A. Low, director of sales, and Tom Larson, traffic and assistant sales manager.

### 1926 IRON ORE IMPORTS

Imports of iron ore into the United States during 1926 were greater than those over any similar period since 1920 with the exception of 1923, according to the iron and steel division, Department of Commerce. In all, 2,555,441 gross tons of iron ore were received in the various ports of entry of the United States during 1926, as against 2,190,697 tons in 1925, 2,047,055 tons in 1924 and 2,768,000 tons in 1923.

Of the 1926 receipts a little more than one-half was supplied from mines in Chile, about one-fifth came from Cuba and approximately one-eighth originated in Algeria and Tunisia. Large tonnages were also received from Newfoundland and Labrador, from Spain and from Sweden.

### ENAMELED SANITARY WARE EXPORTS LESS IN FEBRUARY

February shipments of enameled sanitary ware, as reported to the Department of Commerce by the 21 manufacturers who comprise the entire industry totaled 314,494 pieces, as compared with 353,578 pieces in January and 331,898 pieces in February, 1926.

### STATE TO HOLD EXAMINATIONS FOR POSITIONS

California state civil service commissions announce examinations for civil, mechanical and electrical engineering drafting positions. April 30 is the last day for filing applications. The positions include junior engineering draftsman, Grade 1, salary \$75 to \$130 a month; assistant civil engineering draftsman, Grade 2, salary \$135 to \$165 a month; civil engineering draftsman, Grade 3, salary \$170 to \$230 a month; assistant electrical engineering draftsman, Grade 2, \$135 to \$165 a month; electrical engineering draftsman, Grade 3, \$170 to \$230 a month; mechanical engineering draftsman, Grade 3, \$170 to \$230 a month. Employment for civil engineering draftsmen is open at Sacramento, San Francisco, Los Angeles, Fresno, Redding, San Bernardino, San Luis Obispo, Willets and Bishop; mechanical and electrical engineering draftsmen at Sacramento and San Francisco.

### BUILDING RESTRICTION HIT BY COURT RULING

The restriction of certain areas of a city to erection of residences exclusively was dealt a blow by a State Supreme Court opinion handed down in the Wellington Square case of Los Angeles. Three members of the court dissented from the majority opinion.

According to the decision, the growth of a business district adjacent to the restricted property so changed the character of that property as to nullify the residence aspect it had when the tract was opened in 1912. It is believed the decision will have a wide influence on future restriction activities of real estate firms, though the majority opinion disclaims establishment of a precedent.

### NATIONAL BOARD FOR AWARDS RENDERS DECISION

The National Board for Jurisdictional Awards in the Construction Industry at its last meeting held in Washington rendered the following decision, "In the matter of the dispute between the Elevator Constructors and the Electrical Workers on the question of all electrical work on elevators, it is agreed that the electrical work involved in the installation of signal systems, fans, telephones, electric light fixtures, illuminated thresholds and feed wires to the controller on all elevators is the work of Electrical Workers; also the electrical work in connection with the interlocking devices on other than automatic elevators is awarded to the Electrical Workers." The term 'automatic elevator' as used in this award includes the full automatic, double push button, signal control and department store control elevators.

The next meeting of the Board will be held in the city of Chicago during the week beginning May 2nd, 1927.

### CANADIAN STEEL

Specifications and bookings of iron and steel in Canada thus far in March show a substantial increase over February tonnage, according to most sellers, and a further quickening in trade is anticipated, says the current issue of "Canadian Machinery and Manufacturing News."

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## WAGE INCREASES IN BUILDING INDUSTRY NOTED BY LABOR BUREAU

As between May, 1925, and May, 1926, the building trades as a whole had an increase from an average of \$1.199 to \$1.278 per hour. The bricklayers went from an average of \$1.475 to \$1.565, carpenters from \$1.184 to \$1.267, painters from \$1.232 to \$1.305, plasterers from \$1.485 to \$1.595, plumbers from \$1.281 to \$1.381. Similar changes took place in the other building trades. Stone cutters had an increase from \$1.288 to \$1.404 per hour. The figures quoted are drawn from Bulletin 431, published by the Bureau of Labor Statistics of the U. S. Department of Labor and recently off the press. The bulletin includes reports for 824,313 trade union members employed at time rates in 66 leading cities. Trades in which the workers are employed at piece rates are not included in the study. The workers in these time work trades had an average full time of 45.4 hours per week. The building trades are almost entirely on a 44-hour week with 8 hours per day and 4 hours on Saturday. The grand average for the building trades was 43.8 hours per week. The union trades referred to, as a whole, had a time wage rate per hour in 1926 2.5 times the hourly rate of 1913 and 2.8 times the hourly rate of 1907. Between 1913 and 1926 full-time hours per week were reduced 7.2 per cent. The building trades, as a whole, had an average rate in 1926 2.43 times the rate in 1913.

## PROPOSED STATE LICENSE LAW TABLED BY ASSEMBLY

Plans of building interests to establish a state building department patterned along lines of the real estate department, and requiring the examination and licensing of contractors, failed when Assembly Bill No. 1050 was tabled by the committee March 31, due to opposition from labor interests.

The bill was opposed by Paul Scharenberg, secretary of the California State Federation of Labor. With the tabling of the bill, Assemblyman Kelsey, its author announced that he will redraft it and attempt to get it before the assembly at the present session.

## OAKLAND ADOPTS LICENSE ORDINANCE

Approved by the Alameda County Builders' Exchange and the crafts involved, the Oakland city council has passed to print an ordinance which will require all contracting roofers, masons and plasterers to be licensed and bonded. They must also obtain permits for each job, according to the terms of the ordinance, for which a fee in proportion to the cost of the work must be paid.

## SEEKS LARGER MEMBERSHIP

Members of the Monterey County Builders' Association, at a meeting in the Forest Hill Hotel, Monterey, March 30, voted to promote a drive for a larger membership. A personal canvas will be made by the members.

## PALO ALTO CONTRACTORS GRANT FIVE DAY WEEK

(Special Correspondence)

Announcement is made that on and after April 15 the five-day week of forty working hours will be recognized in Palo Alto by nine local contractors. All but four building trades crafts are already on that schedule, it is reported. Those now working five and one-half days are the carpenters, plasterers, sheet metal workers and laborers. The five-day week is already effective in San Mateo county.

Palo Alto contractors signing the five-day agreement are Wells P. Goodenough, L. A. Bachelder, Ralph W. Pollmer, E. J. Schmaling, H. H. Dabinett, Chas. Baker, John Madsen, Minton Lumber Company and George Bertsche.

## REFRIGERATOR ASS'N FORMED

Organization of the Electrical Refrigeration Association of Northern California is announced. Officers chosen include: O. A. Brandel, president; George Campe, vice-president, and Harold L. Reakin, secretary-treasurer.

## SAN FRANCISCO ARCHITECTURE LAUDED BY ALLISON

"San Francisco architecturally is becoming the most beautiful city in the United States. Your ever changing skyline is remarkable, a thing of beauty. Every time I come here I am impressed with the changes."

This was the opinion voiced by David Allison, noted Los Angeles architect, who designed the old Southern Branch of the University of California and is now working on plans for the new college.

"San Francisco's City Hall is one of the most beautiful in all the world," he declared, "and your Civic Center is one is one of the beauty spots of the country."

"San Francisco is one of the few cities which has realized that beautiful buildings have commercial worth. Your great telephone building is one of the finest examples of the set-back style in the country."

"The Russ building, too, is a thing of beauty. America has produced a new school of architecture. As in medieval times, the religious urge gave to the world the great cathedrals, so today American business has given to the world the sky-scraper, the cathedral of business."

## FRESNO BUILDERS TO ELECT

Election of officers of the Fresno Builders' Exchange will be held tomorrow. It is announced by H. L. Hardman, secretary-manager of the exchange. A president, vice-president, treasurer and secretary-manager will be named.

## PRECAST CONCRETE MEN- TO CONVEAT AT ASTORIA

The Northwest Concrete Products Association will hold its second mid-year convention at Astoria, Ore., July 22 and 30. Architects, engineers and contractors are invited to attend the sessions. Manufacturers from all sections of the Pacific Northwest will participate in the discussion of matters affecting the trade.

## NAPA BUILDERS ELECT

Frank A. Pond, painting and decorating contractor, has been elected president of the Napa County Builders' Exchange with headquarters at Napa. Other officers chosen were: A. B. McNair of St. Helena, vice president and William Noble of Napa treasurer. C. C. Money Jr. was reappointed secretary for the year.

## PACIFIC PORTLAND CEMENT BUY LIME DEPOSITS IN KERN

Declared to be one of the biggest mining deals of the year in the Kern County section, involving a consideration of \$100,000 or more, the Pacific Portland Cement Company has purchased 2800 acres of lime land in the Oak Creek district, ten miles west of Mojave. Deeds to the property, which did not indicate the consideration were filed for record at Bakersfield.

The big acreage was secured from Robert Burns, Jennie C. Henderson and Robert B. Henderson. From Jennie Henderson and Robert Burns, the cement company secured 800 acres in Sections 12 and 26, 11-14 and 10-15. The property is known as Lime Deposit No. 1 and Overlooked Nos. 1 and 2, acquired under the placer mining law from the government. The company also acquired fee title to all of Sections 13, 23 and 27, and 80 acres in Section 15, all in township 11, range 14, from Robert Henderson.

The Oak Creek deposits are located south of Tehachapi and not far from the Monolith Cement Company plant, one of the largest cement manufacturing firms in the western states.

## H. E. HELLER COMPANY CAN PAY DEBTS IS CLAIM

Creditors of the H. E. Heller Company and the Builders' Iron Works, both Stockton firms, the latter owned by the former, are urged to retain confidence in the company a short time longer and to submit itemized statements of their claims, according to a letter circulated from the Board of Trade of San Francisco.

A meeting of creditors, most of them from Stockton, was held recently in San Francisco. On examining the condition of the company they expressed confidence in H. E. Heller, its president.

It was pointed out that the company expects soon to liquidate \$165,000 of its liabilities on the Saw Pit Dam contract, and realize \$76,000 on its Sugar Loaf gravel plant. Accounts receivable are given as \$131,667 and accounts payable as \$127,214.

Western Ave., is preparing working plans and will build a 3-story 42-rm. brick apartment building on Winona St. near Hollywood Blvd. for self; 12 double and 18 single apartments, large lobby; stucco exterior, tile roof, wrt. iron, steel, tiled baths and showers, storage water heaters, gas steam heating system, hardwood and tile floors, hardwood and pine trim, wallbeds, electric refrigeration, incinerator; \$125,000.

## BONDS

**SAN DIEGO, Cal.**—The city of San Diego defeated the \$4,350,000 bond issue at election held on March 29. The proceeds were to have been used to cover the cost of a five-year school expansion program, \$2,500,000 for elementary schools and sites and the remainder for high school buildings. The proposition will probably not be resubmitted for some time.

**SOUTH PASADENA, Los Angeles Co., Cal.**—The South Pasadena board of education expects to call a bond election before June 15 to vote on the question of providing about \$350,000 for the erection of a new junior high school. An additional sum will be asked to expand the 4-acre site now owned by the district. Several architects have consulted with the board relative to plans.

**UPLAND, San Bernardino Co., Cal.**—Until April 18 bids will be received by San Bernardino County for the purchase of Upland junior high school district bonds in the sum of \$110,000.

**LAGUNA BEACH, Orange Co., Cal.**—Laguna Beach school district will hold a bond election on April 27th at which time it is proposed to vote \$124,000, proceeds of which would be used for the erection of a new eight-room elementary school, repairs to the present building, and the purchase of additional property. Fay R. Spangler, Santa Ana, will prepare plans for the new building. A. B. Marshall is clerk of the school board.

**MONTEBELLO, Los Angeles Co., Cal.**—Montebello school district will hold a bond election April 22, at which time it is proposed to vote \$175,000 for the erection of a new grammar school building. L. P. Strayhorn, R. A. Bel-yea and W. G. McMillan are trustees of the district.

**BURLINGAME, San Mateo Co., Cal.**—May 24 is date set by city to vote bonds of \$85,000 to finance purchase of site, erect new fire house and purchase of equipment.

**SAN DIMAS, Los Angeles Co., Cal.**—San Dimas school district will hold a bond election on April 26, at which time it is proposed to vote \$90,000 for the erection of a new 12-room school; also a smaller school in the Mexican Colony of San Dimas. Train & Cressey, architects, 226 Western Mutual Life Bldg., Los Angeles. Mrs. F. H. Harwood, Roy Huston and H. E. Walker are trustees.

**QUINCY, Plumas Co., Cal.**—Quincy Grammar School District votes bonds of \$12,000 to finance erection of additions to present grammar school.

**SUNNYVALE, Santa Clara Co., Cal.**—May 3 set by city to vote bonds of \$35,000 to finance erection of civic auditorium, library and city hall building.

**VISALIA, Tulare Co., Cal.**—Until May 2, bids will be received by county supervisors for purchase of \$9500 bond issue of Earlhart School District; proceeds of sale to finance school improvements.

**MODESTO, Stanislaus Co., Cal.**—Stanislaus County Bar Assn. will campaign for election to vote bonds of \$500,000 to finance erection of new county courthouse. The association has adopted resolutions declaring the present structure is out of date, is a fire menace and not adequate for county business.

**SUISUN, Solano Co., Cal.**—County sells \$10,000 bond issue of Suisun School District for premium of \$250; proceeds of sale will finance erection of new school at Mankas Corners.

**SANGER, Fresno Co., Cal.**—Sanger Union High School District defeats proposal to issue bonds of \$198,000 to finance erection of a new high school; 573 in favor and 293 against. Two-thirds majority was necessary to carry the proposal.

**MARYSVILLE, Yuba Co., Cal.**—Yuba County Supervisors will sell \$15,000 bond issue of Linda School district; proceeds of sale to finance erection of new school building near Dunning Corners.

## CHURCHES

**ENCINITAS, San Diego Co., Cal.**—Encinitas residents will meet on April 24 for the purpose of organizing a community church and discussing plans for a building. Rev. Lawson Watkins is in charge of the project.

**Reinforcing Steel Bids Wanted CHURCH** Cont. price, \$250,000. **SACRAMENTO, Cal.** 13th and N Sts. Church bldg., reinforced concrete construction.

Owner — Westminster Presbyterian Church.  
Architect — Dean & Dean, City Library Bldg., Sacramento.  
Contractor — Campbell Construction Co., 800 R St., Sacramento.

**Ready for Figures in Three Weeks CHURCH** Cost, \$120,000. **BERKELEY, Alameda Co., Cal.** Dana bet. Durant St. and Bancroft Way. First unit of brick and reinf. concrete church (auditorium and chapel).  
Owner — Trinity M. E. Church.  
Architect — Geo. Rushforth, 254 Pine St., S. F.

**STOCKTON, San Joaquin Co., Cal.**—First Unitarian Church is inspecting sites on which to erect new edifice. Services are now held in the Hotel Clark. Rev. Allen C. Dempster, pastor of the church, announces a site will definitely be selected following the election of a board of trustees.

**HANFORD, Kings Co., Cal.**—Architects Swartz and Ryland, Rowell Bldg., Fresno, are preparing plans for Catholic Church to be erected in Hanford; est. cost \$55,000. It was previously reported that this structure was to be erected in Tulare, which was in error.

Tune: "It Ain't Gonna Rain No More"

Oh! We have with us this evening  
Our old friend Sandy Pratt,  
With crushed rock in his gizzard  
And concrete in his hat.

Oh! He ain't gonna ship no more,  
no more,  
He ain't gonna ship no more  
Of his messed up rock and gravel  
To Bill Dean's lumber store,

SANDY PRATT is again.

AT RICHARDSON'S Springs.

IN BUTTE County.

WHERE THE Chico Rotarians.

ARE HOLDING.

THEIR ANNUAL birthday dinner party.

AND THE above song.

WAS SUNG.

AT THE 1926 party.

AND BILL Dean mentioned.

IN THE last line.

IS AT the head.

OF THE Diamond Match Company.

WHO SELL lumber (and sand).

LEE RICHARDSON owns the springs.

AND THEY say the water.

IS VERY beneficial.

ONLY YESTERDAY:

A FELLOW came here.

ON A pair of crutches.

AND THEY fell.

INTO THE spring.

AND THE crutches.

WALKED AWAY.

JIM TRANSPORTATION Rowray, General Manager.

OF THE Sacramento Northern R. R.

IS "TRAFFIC Manager."

OF THE Sacramento Rotarians.

WHO ARE here.

IN VAST numbers.

IKE ADAMS is president.

OF THE Chico Rotary Club.

AND MAY ask Sandy.

TO MAKE a speech.

ABOUT SANDY'S clean sand.

AND CLEAN rock or gravel.

PRODUCED AT Prattrock (near Folsom).

MARYSVILLE AND Sacramento.

PRATTCO (MONTEREY County).

AND MAYHEW (Sacramento County)

FOR WALTER Jansen, president.

OF THE Lincoln Rotary Club.

MADE SANDY talk.

ON ADVERTISING.

AND WOULD not let Sandy.

ADVERTISE HIS sand business.

TOM KELLY of Chico.

IS A "dry" goods man.

SELLS LADIES dresses.

AND NOT liquor.

ANYWAY THE Rotarians.

FROM SACRAMENTO.

TO THE Oregon line.

ARE HERE in droves.

BUT SANDY.

AS THIS goes to press.

HAS NOT sold one carload.

OF HIS sand or rock.

ALTHOUGH SANDY is "rotating."

WITH THE Rotarians.

"I THANK you."

If Lee Richardson's springs go dry then the Rotarians of Northern California will cry. Sandy Pratt, president of the Pratt Building Material Company, producer of sand, rock and gravel, will be at the "springs" again next "spring."

SAN FRANCISCO, Cal.—Until April 13, 3 p. m., bids will be rec. by Board of Public Works to fur. and del. pole line insulators for the Coast Range Division Transmission line of the Hetch Hetchy project, under Contract No. 117; est. cost \$5,000. CONTINUOUS OPERATION SINCE 1887

**GLENDAL, Los Angeles Co., Cal.**—Architect Geo. M. Lindsey, Union Insurance Bldg., Los Angeles, has been selected to prepare plans for additions to be erected at the Broadway high school, Glendale, for Glendale Union High School district. The additions contemplated include a boys' gymnasium and a shop building. Preliminary plans and estimates will be presented to the Board of Education on April 14 to determine what amount to include in the proposed bond issue. Preliminary plans and estimates will be presented at the same meeting by Architect Alfred F. Priest, 719 Fay Bldg., Los Angeles, for the new high school to be erected at the Glenwood road site at a cost of about \$650,000. The Board of Education is also considering the erection of a new building to accommodate the students at the Harvard High School and converting this building into a junior college. The bond election will probably be held in June and the amount of the proposed issue will total nearly \$1,000,000.

**OAKLAND, Alameda Co., Cal.**—The following bids were received by John W. Edgemond, secretary, Board of Education, to erect Lakeview Junior High School in Harrison Blvd., near 25th St. Will be three stories in height, of Class C brick construction; estimated cost, \$270,000. Plans prepared by Architect E. Geoffrey Bangs, 360 17th St., Oakland.

 St., Oakland.  
**Plumbing and Heating**—Feary & Moll,  
 1075 40th St., Oakland.

As previously reported: Wood Stairs,  
 J. K. Stewart, 3150 18th St., San Fran-  
 cisco; Reinforcing Steel, Frederick  
 Steel Co., Alameda; Electric Work,  
 Mellman Electric Co., 2131 Broadway,  
 Oakland.

**Preliminary Plans Completed**  
**OFFICE BLDG.** Cost, \$2,000,000  
**SACRAMENTO**, Cal. N E 17th and J  
 Streets.  
 Sixteen-story and basement fireproof  
 offices, 80x100 feet.  
 Owner's name withheld until plans are  
 further advanced.  
 Architect—Geo. C. Sellon & Co., Sacra-  
 mento.

Options on the site have already been  
 closed. The structure will be known as  
 the Financial Center Building and  
 will contain 285 offices. Exterior will  
 be faced with pressed brick and terra  
 cotta trimmings. Four high speed ele-  
 vators will be provided. The four top  
 floors of the structure will be offered  
 for lease to the Sutter Club of Sacra-  
 mento. Lindgren-Swinerton, Standard  
 Oil Bldg., San Francisco, will probably  
 be the contractors.

**VALLEJO**, Solano Co., Cal. — John  
 Sullivan, Vallejo, awarded contract to  
 erect 1½-story brick stores at n. e.  
 Georgia and Sacramento Sts.; 50x50 ft.;  
 for R. J. R. Aden and L. G. Harrier.

**STOCKTON**, San Joaquin Co., Cal.—  
 The following bids were received by  
 Architect Jos. Losekann, Elks Bldg.,  
 Stockton, for the construction of six-  
 story steel frame building with brick  
 walls, to contain 40 two, three and  
 four-room apartments, and a 2-story  
 steel frame and brick building, to con-  
 tain ten offices and a garage in the  
 rear, 90x140 feet. Both buildings are  
 to be erected for Senator Frank S.  
 Boggs, on North El Dorado St. and  
 East Acacia, Stockton. Estimated cost  
 of both buildings \$280,000.

**Excavating and Concrete**—Frederick-  
 son Bros., First National Bank  
 Bldg., Stockton, \$24,790.

**Brick and Terra Cotta**—E. L. Morrison,  
 1605 Argonne, Stockton, \$52,135.

**Structural Steel**—Sellers Iron Works,  
 945 S. Pilgrim, Stockton, \$17,892.

**Tile and Marble**—H. P. Fischer, 744 E.  
 Webster, Stockton, \$11,598.

**MH Work**—Electric Planning MH,  
 Hazelton and Monroe, Stockton, \$29,-  
 861.

**Painting**—E. J. Blanchard, 616 East  
 Main St., Stockton, \$9264.

**Electrical Work**—William Hill.

**TURLOCK**, Stanislaus Co., Cal.—Neil  
 & Wirtner, Turlock, have been award-  
 ed contract for the erection of a two-  
 story concrete and tile store and of-  
 fice building, 25x90 ft., at Ceres for  
 Loren E. McGee.

**VALLEJO**, Solano Co., Cal.—Koepeke  
 Bros., Federal Bldg., Oakland, award-  
 ed contract to erect one-story fireproof  
 store bldg. at the s. e. corner of Vir-  
 ginia and Marin Sts. for Albert Bern-  
 heim, Vallejo. Will be 100x130 ft. Con-  
 struction will be started about June 1.

**MONTEREY**, Monterey Co., Cal.—  
 John Clark, Monterey, at approx. \$75,-  
 000 has contract to erect two-story re-  
 inforced concrete store and office build-  
 ing at Perry and Tyler Sts. for A. C.  
 Hinkle; will be 72 by 95 ft. containing  
 6 stores and 25 offices; provision made  
 in plans for foundations and walls to  
 carry two additional stories. Wesley  
 W. Hastings, Monterey, architect.

**LOS ANGELES**, Cal.—Fell & Para-  
 dise, 507 Fine Arts Bldg., are prepar-  
 ing plans for store front and interior  
 fixtures, in building to be erected at  
 615 S. Olive St., for Alexander & Oviatt;  
 the building will be 60x170 ft. and the  
 store will occupy the basement, first,  
 second, third and mezzanine floors.  
 steel lockers, plate glass, marble and  
 tile work, ornamental and wrought  
 iron work, plastering, stone work,  
 painting and decorating, hardwood fix-  
 tures and trim, electric light fixtures,  
 etc.; \$160,000.

**MARYSVILLE**, Yuba Co., Cal.—Con-  
 struction will be started shortly on a  
 two-story brick and concrete business  
 block in D St.; est. cost \$40,000. Founda-  
 tion and walls will permit the erec-  
 tion of a third story. Structures now  
 occupying the site will be razed at  
 once.

**SACRAMENTO**, Cal.—Geo. D. Hud-  
 nutt, Inc., 1915 S Street, at approx.  
 \$35,000, has contract to remodel struc-  
 ture at 1018-22 K Street for 4 stores;  
 Mrs. J. W. Hughes, owner.

**GLENDALE**, Los Angeles Co., Cal.—  
 Architects Dodd & Richardson, 905  
 Brack-Shops Bldg., have completed  
 plans for a six-story and basement  
 Class A bank and office building to be  
 erected at the southwest corner of  
 Brand Blvd. and Broadway, Glendale,  
 for Pacific Southwest Trust and Sav-  
 ings Bank. It will be 50x150 feet, re-  
 inforced concrete construction, face  
 brick and terra cotta exterior, plate  
 glass, steel sash, marble and tile work,  
 hardwood trim, elevators, steam heat-  
 ing bank fixtures and vaults. The cost  
 will be about \$400,000. Bids will be  
 taken as soon as plans are formally  
 approved which will probably be this  
 week.

**SANTA MONICA**, Los Angeles Co.,  
 Cal.—Architect M. Eugene Duffee, 221  
 Commercial Exchange Bldg., Los An-  
 geles, has completed preliminary plans  
 for a two-story and part three-story  
 Class C store and office building to be  
 erected at the corner of 4th St. and  
 Broadway, Santa Monica, for A. P.  
 Creel; the upper floors will be occupied  
 by the Bay Builders' Exchange and the  
 first floor will have several stores; 60x  
 100 ft., brick construction, pressed brick  
 and stucco, tile and composition roof-  
 ing, plate glass, cement and hardwood  
 floors, gas heating, skylights, steel  
 sash.

**PASADENA**, Los Angeles Co., Cal.—  
 Architect Joseph J. Blik, Dodworth  
 Bldg., is preparing plans for an addi-  
 tion and remodeling store building at  
 Broadway and Union St., Pasadena, for  
 Fred C. Nash. The addition will be  
 two stories, 76x100 ft., Class B con-  
 struction, brick walls, steel columns  
 and beams, stucco front, plate glass.  
 The present building which has a  
 frontage of 190 ft., will be remodelled  
 and an entire new front constructed  
 on account of widening the street.  
 The new front will be of stucco with  
 steel beams and plate glass windows.  
 The cost will be \$100,000.

**MARTINEZ**, Contra Costa Co., Cal.—  
 Dedute word from Washington is to  
 the effect that the Post Office Dept. has  
 accepted the offer of D. L. Hilson to  
 erect a new structure for post office  
 quarters at Castro and Ward streets  
 for lease to the Gov't. Plans for the  
 structure will be started at once.

**LOS ANGELES**, Cal.—Lange & Berg-  
 ström, Washington Bldg., have been  
 awarded the contract to erect a five-  
 story and basement class A store and  
 loft building on the east side of Broad-  
 way between 8th and 9th Sts. for the  
 Platt Music Co. Walker & Eisen, West-  
 ern Pacific Bldg., are the architects.  
 Plans are being completed and work  
 will be started May 1. The building  
 will be designed for 12 stories. It will  
 be of steel frame construction, 60x148  
 ft., reinforced concrete filler walls and  
 floors, terra cotta facing, plate glass,  
 marble and tile work, elevators, steam  
 heating, steel sash. The cost will be  
 about \$450,000.

**LOS ANGELES**, Cal.—H. M. Baruch  
 Corp., 1015 Lincoln Bldg., has the gen-  
 eral contract at about \$115,000 for the  
 erection of a two-story and basement  
 store and studio building at the north-  
 west corner of Wilshire and Oxford  
 Bldgs., for the Sun Realty Co.; there  
 will be a three-story tower, reinforced  
 concrete and brick construction, stucco  
 exterior, cast stone trim, plate glass,  
 wrought iron work, tile and composi-  
 tion roofing, pine trim, oak and acid  
 stained cement floors, tile work, gas  
 heating, elevator. Morgan, Walls &  
 Clements, 1131 Van Nuys Bldg., archi-  
 tects.

**SAN DIEGO**, Cal.—L. A. Smith, Film  
 Exchange Bldg., Vermont Ave. and  
 Washington St., Los Angeles, has com-  
 pleted plans and will probably take  
 bids in about one week for a 12-story  
 and basement Class A office building,  
 fronting on B and C Streets, between  
 4th and 5th Sts., San Diego, for Mundy  
 & Black, and associates; arcade stores  
 and offices, 70x200 feet, reinforced con-  
 crete construction, terra cotta and face  
 brick exterior walls, travertine in-  
 terior walls, copper and composition  
 roof, marble stairways, steam heating  
 system, tile, cement and hardwood  
 floors, pine and hardwood trim, five  
 elevators, copper store fronts, plate  
 glass, marble base; \$1,000,000.

**LOS ANGELES**, Cal.—Architects Mor-  
 gan, Walls & Clements, 1131 Van Nuys  
 Bldg., are preparing working plans for  
 a class A publishing building to be  
 erected at the northeast corner of 35th  
 and Hope Sts. for the Shopping News.  
 It will be three stories with a base-  
 ment and mezzanine floor and will be  
 designed for twelve stories. Dimen-  
 sions, 150x159 ft., steel frame con-  
 struction, reinforced concrete filler  
 walls, floors and roof slab, stucco ex-  
 terior with terra cotta or cast stone  
 trim, plate glass, steel sash, steel roll-  
 ing doors, three elevators, gas heating,  
 ventilating system. The cost will be  
 about \$350,000.

**SANTA BARBARA**, Cal.—Architect  
 Frederick Whitton, 369 Pine St., San  
 Francisco, has been commissioned to  
 prepare plans for a new telephone ex-  
 change building to be erected at San-  
 ta Barbara for Santa Barbara Tele-  
 phone Co.

## THEATRES

**Plans Being Prepared**  
**THEATRE AND STORE** Cost, \$75,000  
**BURLINGAME**, San Mateo Co., Calif.

Reinforced concrete theatre and  
 store building.

Owner—Withheld.  
 Architect—Edward A. Eames, 393 Sacra-  
 mento St.

The owners will return from the east  
 in two weeks, at which time bids will  
 be taken.

**REDLANDS**, Riverside Co., Cal.—L.  
 A. Smith, Film Exchange Bldg., Wash-  
 ington St. and Vermont Ave., Los An-  
 geles, has completed preliminary plans  
 for a 2-story class A theatre, store &  
 office building at Redlands; owner's  
 name withheld; theatre auditorium to  
 seat 1300, reinforced concrete con-  
 struction, plaster exterior, tile roof,  
 wrought iron, heating and ventilating  
 system, tile, cement and wood floors,  
 copper store fronts, plate glass, mar-  
 ble base, marble and tile work; \$200,-  
 000.

**Bids Wanted—To Be Opened April 14, 2 P. M.**  
**THEATRE** Cost, \$—  
**SAN JOSE**, Santa Clara County, Cal.  
 Franklin St. bet. Lafayette and Washington Sts.  
 Class A theatre (height and type of construction not decided).  
 Owner—Victor A. Scheller, attorney, 1st National Bank Bldg., S. Jose.  
 Architect—C. A. Meussdorffer, Humboldt Bank Bldg., S. F.  
 Lessee—Kinema Theatre Co.

**Contracts Awarded**  
**THEATRE** Cost, \$150,000  
**SAN FRANCISCO**, S Taraval 94 E 20th Ave.  
 Class A motion picture theatre (reinforced concrete).  
 Owner—Johnson & Erlendson, care of architect.  
 Architect—Clausen & Amandes, 1127 Hearst Bldg.  
**Concrete Work**—Mission Concrete Co., 180 Jessie St.  
**Electric Work**—Dowd-Seid Electric Co., 2369 Mission St.  
**Plumbing**—John Rehn, 1919 Mission St.  
**Plastering**—J. Johnson.  
**Heating**—Atlas Heating & Ventilating Co., 557 Fourth St.  
**Painting**—Olmstead & Jacobson.

**LOS ANGELES**, Cal.—English Electrical Co., 1571 W. Jefferson St., has been awarded a contract at \$150,000 for electrical installation in the Class A theatre, store and office building being erected at the northeast corner of Hollywood Blvd. and Wilcox Ave., for Warner Bros. Albert Landsburgh, 937 Consolidated Bldg., architect. Lange & Bergstrom, Washington Bldg., have the general contract.

## WHARVES & DOCKS

**SAN FRANCISCO**—Bids will be received by the State Board of Harbor Commissioners, Ferry Bldg., until 2 p. m., April 22, for furnishing and installing steel rolling doors in connection with the construction of sheds on piers No. 30 and No. 32. No date has been set for opening. Frank G. White, chief engineer.

**SAN FRANCISCO**, Cal.—Frank G. White, chief engineer, State Harbor Commission, Ferry Bldg., in report to commission, favors foot of Webster St. as logical site for new terminal for the Northwestern Pacific Railroad's Sausalito-Tiburon auto ferry service. Soundings prove that ferry slips can easily be constructed two blocks west of the government transportation docks.

## MISCELLANEOUS BUILDING CONSTRUCTION

**Plans Being Figured**  
**DAY NURSERY** Approx. \$40,000  
**BERKELEY**, Alameda Co., Cal. Sixth and Addison Sts.  
 One and one-half story frame and stucco day nursery (stucco exterior, slate roof); English type of construction.  
 Owner—Berkeley Day Nursery.  
 Architect—W. H. Ratcliff, Chamber of Commerce Bldg., Berkeley.  
 A feature of the structure will be an auditorium with a seating capacity of 250 persons. Bids are being taken for a general contract.

**Plans Being Prepared**  
**IL STATION** Cost, \$—  
**EL MONTE** Hotel De Monte. Oil station (Spanish type) in conjunction with entrance to hotel).  
 Owner—Hotel Del Monte.  
 Architect—Clarence Tantau.

**MARTINEZ**, Contra Costa Co., Cal.—Robert Miller, operating a taxicab business in Martinez, has purchased one-half block of property in Haven Street at Pacheco Blvd. and Willow Street and will improve the site. Type of improvements yet to be determined.

**Reinforcing Steel Contract Awarded.**  
**MAUSOLEUM** Cost, \$300,000  
**EL CERRITO**, Contra Costa Co., Cal.  
 Sunset View Cemetery.  
 Concrete mausoleum (marble and bronze interior).  
 Owner—Sunset View Mausoleum Co., Rm. 1211, 1 Montgomery St., S. F.  
 Architect—Wallace A. Hubbert, Room 808, 110 Sutter St., S. F.  
 Contractor—Mahony Bros., Flood Bldg., S. F.  
**Reinforcing Steel**—Gunn-Carle & Co., 444 Market St., S. F.

**Bids Being Taken From Selected List Of Contractors.**  
**MORTUARY** Cost, \$20,000.  
**WOODLAND**, Yolo Co., Cal. Second and North Streets.  
 One-story frame and plaster mortuary.  
 Owner—Julius H. and Emil K. Kraft, Woodland.  
 Architect—Dean & Dean, California State Life Bldg., Sacramento.

**Sub-Bids Awarded**  
**COLUMBARIUM** Cost, \$—  
**OAKLAND**, Alameda Co., Cal. Piedmont Ave. Reinforced concrete and granite columbarium.  
 Owner—California Crematorium, 4499 Piedmont Ave., Oakland.  
 Architect—Julia Morgan, Merchants Exchange Bldg., San Francisco.  
 Contractor—Conner and Conner, 1733 Francisco St., Berkeley.  
**Millwork**—Oakland Planing Mills, 2nd and Washington St., Oakland.  
**Sheet Metal**—Grady Sheet Metal Works, 2112 McKinley, Oakland.  
**Glass and Glazing**—Fuller & Goepp, 1103 Jackson St., Oakland.  
**Roofing**—A. K. Goodmundson, 45th and Clement St., Oakland.  
 As previously reported: Lumber, Hogan & Foss Lumber Co.; glass, W. P. Fuller Co., 259 10th St., Oakland; structural steel, Herrick Iron Works, 18th and Campbell Sts., Oakland; plastering, etc., awarded to Henri Gregoire, 357 12th St., San Francisco.

**SANTA ROSA**, Sonoma Co., Cal.—A. M. Hildebrand, 406 Fourth St., Santa Rosa, awarded the following sub-contracts in connection with the construction of a reinforced concrete passenger and freight depot for the Petaluma and Santa Rosa Railway in block bounded by Fourth, Wilson, Third Sts. and the railroad. It will be of Mission type of architecture:  
**Steel Sash, Reinforcing Steel, Steel Rolling Doors**—Dwan & Co., 534 Sixth St., S. F.  
**Mill Work**—Santa Rosa Planing Mill, Santa Rosa.  
**Roofing**—Mastercraft Tile & Roofing Co., 136 McAllister St., S. F.  
**Painting**—Cambini & Co., 521 5th St., Santa Rosa.  
**Wiring**—Mundell Electric Co.  
**Glass**—W. P. Fuller & Co., 301 Mission St., S. F.  
**Sheet Metal**—E. L. Kindig, Santa Rosa.  
**Plumbing**—E. Sugarman, 3624 Geary St., S. F.  
**Ornamental Iron**—Michel & Pfeffer Iron Works, Harrison and Tenth Sts., S. F.

**TORRANCE**, Los Angeles Co., Cal.—California Compress & Warehouse Co., 435 Cotton Exchange Bldg., Los Angeles, will purchase a 25-acre tract of land at Torrance and are planning to erect a cotton compress plant at a cost of \$500,000. There will be a group of buildings which will cover the entire site. No architect has been retained.

**TEHAMA COUNTY**, Cal.—Martin Construction Co., Sacramento, at \$4095 awarded contract by State Highway Commission to erect foreman's cottage, bunkhouse, truckshed, oilhouse, blacksmith shop and septic tank at Maintenance Yard, 17 mi. east of Red Bluff; eng. est. \$5300.

**PASADENA**, Los Angeles Co., Cal.—Arthur H. Fleming, president of the Pasadena Art Institute, announces that plans are being drawn by Architect Clarence S. Stein, New York City, for a new art museum to be built in Carmelita Park, Pasadena. It will be a Spanish style structure, 350x250 ft., with a 140-foot tower, and will cost \$1,500,000, a portion of which has been raised by the directors of the Pasadena Art Institute.

**SAN FRANCISCO**, Cal.—Latourette-Fical Co., 699 Fourth St., Oakland, at \$9,325.88, awarded contract by Board of Public Works for water services, drainage and marking in connection with Municipal Airport near Millbrae, San Mateo county.

**SAN FRANCISCO**, Cal.—Elliott and Grant, 180 Jessie St., at \$7,968 awarded contract by Board of Public Works to erect administration building at Municipal Airport near Millbrae, San Mateo county.

**PASADENA**, Los Angeles Co., Cal.—Architect Myron Hunt, 1107 Hibernian Bldg., Los Angeles, is preparing plans for a large addition and for the general reconstruction of the Rose Bowl stadium, at Pasadena, for the Tournament of Roses Association, H. W. Hall, Secy.; the work will include the excavating of the playing field 4 feet and the banking of this earth in the south end of the bowl and the erection of concrete and frame grandstand in the south end. The seating capacity of the bowl will be increased from 52,400 to between 75,000 and 76,000. The old stands will be reconstructed and repaired. There will be two reinforced concrete ventilating tunnels, 16x20 ft. under the new stands. The cost of the proposed work will be approximately \$150,000. W. A. Taylor & Sons, 32 W. Union St., Pasadena, will probably be the contractors.

**SAN JOSE**, Santa Clara Co., Cal.—Until May 2, 11 A. M., bids will be received by Henry A. Pfister, county clerk, to fur, and erect wire fences at county hospital and county almshouse. Plans on file in office of clerk.

**SAN FRANCISCO**, Cal.—Latourette-Fical Co., 699 Fourth St., Oakland, at \$5,485 submitted low bid to Board of Public Works for lighting hangar at Municipal Airport, near Millbrae, San Mateo Co. Other bids were:  
 Enterprise Electric Works.....\$5,725  
 Colman Electric Co. .... 5,998  
 J. M. Carlson ..... 6,540  
 Abeel Co. .... 6,554  
 M. E. Ryan ..... 7,979

**SACRAMENTO**, Cal.—Sacramento County Humane Society has taken an option on property at Fifth and Y Sts. on which it is planned to erect a \$20,000 animal hospital. H. J. Winters, County Humane Officer, is chairman of the building committee.

## BUSINESS OPPORTUNITIES

**SAN FRANCISCO**—Further information regarding these opportunities may be obtained from the office of Larsen Advance Construction Reports, 818 Mission St., San Francisco, either by phone, letter or personal call. Requests for additional information should be made to the Business Opportunities Department. Such requests must be accompanied by the Index Number of each opportunity.

**D-2401**—Los Angeles, Cal. Electric refrigeration company, having marketed its product throughout the east since 1914, is now ready to appoint a distributor for San Francisco, Oakland and Berkeley. Individual with merchandising ability and financial backing is desired.

**D-2402**—Jersey City, N. J. Manufacturers of a safety bumper for automobiles, claimed to prevent accidents and loss of life, desire to get in touch with San Francisco firms interested in the manufacture or distribution of this bumper in San Francisco or the state of California. The safety bumper has the appearance of an ordinary tube bumper, but will open, forming a net which will pick up anything that comes in the path of the car. It can be sold for less than the price of common bumpers.

**D-2404**—Chicago, Ill. Manufacturers of an inexpensive lawn edger are seeking connections with a suitable sales organization sending out canvassing agents to the consumer, and also those that send out salesmen to the retail hardware and seed stores, to handle the distribution of their product in this territory.

D-2405—Cincinnati, Ohio. Manufacturers of a complete line of conveying machinery wish to locate a live wire agent or commission representative to handle their line in this territory. They prefer an organization of engineers or a machinery house specializing in equipment of similar character, but not now connected with any conveying machinery manufacturer.

D-2407—Long Beach, Cal. Manufacturers and distributors may be interested in the services of an experienced representative who will do intensive specialty work throughout Southern California and Arizona. He has knowledge of credit conditions and knows his territory. Reference supplied.

D-2310—Sonora, Cal. Party has 60 pounds or more of quartz crystals which are clear and of various sizes. He would appreciate hearing from interested purchasers of this quartz.

11464—Bologna, Italy. Gentleman with connections throughout Italy desires to get in touch with San Francisco manufacturers or exporters of products which could be profitably sold in Italy. He is particularly interested in iron and steel articles which could compete in price with similar articles of German manufacture. References given.

11466—Radolfzell, Germany. Manufacturers of all types of pumps, particularly the original Allweiler semi-rotary wing pumps, suction hand pumps, etc., desire to get in touch with San Francisco firms interested in handling a line of European-made pumps.

11468—Goslar, Germany. The export agent for a new metal alloy, called Volomit, is seeking suitable representation in the various centers of industry and commerce in the United States, and is interested in appointing a representative to cover California, Nevada and possibly Arizona. Volomit is a specially prepared alloy employed in the manufacture of tools of all kinds.

11471—Leeuwarden, Holland. An exporter of strawboards wishes to establish business connections with San Francisco box manufacturers or corrugating industries.

11474—San Francisco, Cal. An old-established San Francisco house, well equipped for export to the Pacific Islands and Australia and New Zealand, will be glad to hear from manufacturers who are desirous of opening up business in the above territory on an agency basis. Replies will be treated in strict confidence.

11478—Santiago, Chile. The owner and operator of numerous mines in Chile offers the products of the various mines for sale. He is also interested in hearing from organizations or individuals wishing to buy the mines or exploit them. The mines comprise manganese, iron, kaolin, double silicate of alumina and potash, colored earth, kieselguhr, sulphate of alumina, sulphur, asbestos, mica, bitumen, apatite or phosphate of lime, pure zinc, lead, tin, nitrate, onyx and marble.

#### PLASTER-STUCCO REINFORCEMENT DESCRIBED IN FOLDER

The American Steel & Wire Company, 208 South La Salle St., Chicago, Ill., has issued an illustrated folder describing their perfected Plaster-Stucco Reinforcement. This is a combined base and reinforcement for plaster and stucco work. It consists of an electrically welded wire mesh, a waterproof Kraft paper sheet, and a wire backing passing through the paper at intervals and there welded to the mesh on the opposite side, furring the mesh out from the paper. The mesh and the wires are of cold drawn galvanized steel wire, the former making a continuous reinforcing throughout the plaster or stucco slab. The sheets are fastened to the structure with hook nails supplied for that purpose. Directions for lathing and plastering with this material are included in the booklet, together with several testimonials. The folder is of the standard architectural file size, and marked for convenient filing.

#### SUGAR PINE LUMBER PLANTS TO START OPERATIONS

Plants of the Sugar Pine Lumber Company are expected to start on their spring run sometime between April 10 and 15, according to W. P. Johnson, in charge of the company in the absence of E. A. Cannon, at present in Michigan. Once started the plants will continue throughout the year, Johnson said.

The Sugar Pine plant of the Madera Sugar Pine Company will start operations Monday, according to J. B. Hemphill, assistant general manager of the company, who with President E. H. Cox has just completed an inspection of the plant and camps at Sugar Pine.

#### GERMAN BRASS INSTITUTE IS FORMED

An organization similar to the American Copper & Brass Research Association has been organized in Germany, known as the Deutsches Kufer und Messinginstitut (German Copper & Brass Institute). This is to perform the same function in Germany as the organization does in the United States, "the popularizing of the manifold uses of copper and brass, which to some extent have been lost sight of by the public in the stress of war and inflation times."

#### CALIFORNIA'S STRUCTURAL MINERAL VALUE TOLD

"California's greatest mineral wealth is yet to come from structural and minerals of industrial value," declared Lloyd L. Root, State mineralogist, speaking before the Lions' Club of Sacramento. "Most people think of mining wealth in terms of gold," he said, "but last year the gold mined in the State amounted to \$11,000,000 and cement alone was estimated at \$25,000,000 with sand gravel and rock about \$15,000,000."

Each bid must be accompanied by a certified check for 10 per cent of the amount of the bid and made payable to the Mayor of the City of Santa Barbara as a guarantee that the bidder will, if successful, execute a proper contract with bond for the faithful performance of said contract.

The right is reserved to reject any or all bids or to waive any formalities in any bid.

E. A. ROLISON,  
City Manager.

## NOTICE TO CONTRACTORS

### (Quarters—Canacao, P. I.)

SEALED BIDS, indorsed "Bids for Quarters, Specification No. 5326," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a. m., June 1, 1927, and then and there publicly opened for quarters at the Naval Hospital, Canacao, P. I. The work includes plain and reinforced concrete; asbestos shingle roofing and sheet metal work, mastic flooring, metal lathing and furring, plastering, wood framing, doors, sash and trim, and plumbing and electrical systems. Specification No. 5326 and accompanying drawings may be obtained on application to the Bureau, to the Commandant, Naval Station, Cavite, P. I., or to the Commandant, Navy Yard, Mare Island, Calif. Deposit of a check or postal money order for \$20, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the drawings and specifications.

L. E. GREGORY,  
Chief of Bureau.

February 7, 1927.

## NOTICE TO CONTRACTORS

### (Columbia School—Fresno)

Pursuant to an order of the Board of Education of the City of Fresno School District of the County of Fresno, duly made and entered in its minutes this 24th day of March, 1927, public notice is hereby given that the

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

said Board will receive up to 5 o'clock p. m. on the 12th day of May, 1927, at the office of the said Board in the Hawthorne School Building, 2425 Fresno Street, Fresno, California, sealed proposals for the furnishing of labor and materials for the construction of the Columbia School addition and Toilet Building, as per plans and specifications prepared by Charles E. Butner, architect, Cory Building, Fresno, California.

Segregated bids will be received for this building, and reference is hereby made to "General Information to Bidders," Building Form No. 6, for further particulars regarding all bids.

Plans and specifications together with forms for submitting all bids and further details regarding any and all bids may be obtained from the undersigned Secretary of said Board of Education, at the office of said Board above designated.

A bidder's surety bond or certified check equal to at least 10 per cent of the amount of the bid submitted must accompany all proposals.

The Board of Education reserves the right to reject any and all bids. By Order BOARD OF EDUCATION.

City of Fresno School District.  
L. L. SMITH, Secretary.

## NOTICE TO CONTRACTORS

### (Carpinteria Union High School Dist.)

Notice is hereby given that sealed bids will be received and opened by Board of Trustees of the Carpinteria Union High School District, County of Santa Barbara, State of California, in the present High School building in Carpinteria, California, at 7:30 p. m., Monday, April 11, 1927, for the erection and completion of a Shop Building for temporary general High School use in Carpinteria, County of Santa Barbara, State of California, according to plans and specifications prepared for the same by Roland F. Sauter and E. Keith Lockard, Architects, 107 E. De la Guerra, Santa Barbara, California.

Separate bids will be received on each of the following parts of the work along with their alternate proposals.

No. 1—Excavating and Grading and Concrete Work.

No. 2—Rough and Finish Carpenter Work.

No. 3—Sheet Metal Work.

No. 4—Shingle Roof.

No. 5—Mill Work.

No. 6—Finish Floors.

No. 7—Lathing and Plastering.

No. 8—Painting.

No. 9—Plumbing.

No. 10—Gas Steam Heating.

No. 11—Electric Wiring.

Plans and specifications may be seen at the office of the Architects, 107 E. De la Guerra St., Santa Barbara, California, or at the office of the Board of Trustees, Carpinteria, California.

A deposit of \$2.00 will be required for each set of plans and specifications taken from the said offices, this deposit to be returned to contractor when plans and specifications are brought back in good shape.

All bids should be presented on bid forms furnished by the architects. Each bid must be accompanied by a certified check on some responsible California Bank in the sum of Five Per Cent (5 per cent) of the amount of bid, made payable to the President of the Board of Trustees of the Carpinteria Union High School District.

Each bid must be enclosed in a sealed envelope and addressed to the Board of Trustees of the Carpinteria Union High School District, Carpinteria, California, and endorsed, "Proposal for Shop Building."

The Board of Trustees reserve the right to reject any and all bids.

Bids must be delivered to the undersigned Clerk of the Board at the present High School Building in Carpinteria, California, at the time and place of meeting above stated, or any time up to the hour of opening of said bids.

G. E. FRANKLIN,  
Clerk of Carpinteria U. H. School.

## INVITATION FOR PROPOSALS

### (Test Well—Marine Hospital)

SEALED PROPOSALS will be received at this office until 2:00 o'clock P. M., April 7th, 1927, and then opened for new test well, at the U. S. Marine Hospital, San Francisco, California, in accordance with the specification, copies of which may be obtained from this office in the discretion of the District Engineer.

WM. ARTHUR NEWMAN,  
District Engineer.

## STATE OF CALIFORNIA

### CALIFORNIA HIGHWAY COMMISSION

#### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock P. M., on May 2, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Humboldt County, between Orick and the northerly boundary (I-Hum-1-K), about fourteen and nine-tenths (14.9) miles in length to be graded and surfaced with crushed gravel or stone.

Alameda County, between Livermore and Dublin (IV-Ala-5-B), about eight and nine-tenths (8.9) miles in length, to be graded and paved with Portland cement concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. #### NOTICE TO CONTRACTORS

(Drainage District No. 100—Butte Co.)

Notice is hereby given that the Board of Directors of Drainage District Number 100 of Butte County, California, will receive sealed bids up to the hour of 7 o'clock P. M., Tuesday, April 12, 1927, at the office of the District in Richvale, California, for the cleaning and construction of drainage ditches.

The work involves the cleaning and enlarging of 10,300 lineal feet of old ditch and 9,000 lineal feet of new work.

Plans and specifications are on file in the office of the District at Richvale, or may be seen at the office of Polk & Robinson, Consulting Engineers, Chico, California.

A certified check or bidder's bond for not less than 10 per cent of the amount of the bid made payable to Drainage District Number 100 of Butte County, must accompany each bid to insure the execution of the contract by the successful bidder.

Board of Directors reserve the right to reject any or all bids.

(Signed) MRS. C. B. HARRIS,  
Secretary Drainage District Number 100 of Butte County.

#### NOTICE TO BIDDERS

(Fan Blower—Fort Mason)

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Calif. — Sealed proposals will be received here until 11:00 a. m., April 11, 1927, for installing Fan Blower at Fort Mason, Calif. Further information upon application.

#### NOTICE TO CONTRACTORS

(Oakland High School)

OFFICE OF THE SECRETARY OF THE BOARD OF EDUCATION OF THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland High School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 3rd day of May, 1927, at 9:45 A. M., at which time said bids will be opened for the erection and completion of the Oakland High School Building, to be erected on the Southwest corner of Park Boulevard and Hopkins Street. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

Separate bids will be received for:

(1) General Work.  
(2) Awning Type Window Fixtures and Hardware.

(3) Slate Blackboards.

On a deposit of Fifty (\$50.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office herebefore mentioned. Plans taken out by bidders on General Work on or before May 3, 1927, shall be returned on May 4, 1927; plans taken out by bidders on other work shall be returned within three days. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland High School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award or to give bonds required for the faithful performance of the contract or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided, however, that in no case shall said check be required to be in excess of Five Thousand (\$5000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 3rd day of May, 1927, at 9:45 A. M., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEWORTH,

Secretary of the Board of Education of Oakland, California.

#### NOTICE TO CONTRACTORS

Office of the Board of State Harbor Commissioners, Union Depot and Ferry House, San Francisco, California, March 28, 1927.

Sealed proposals or bids will be received by the Board at its regular meeting in the Board Room, Room 19, Union Depot and Ferry House, at 2 o'clock p. m., Friday, April 22, 1927, for furnishing and installing doors in the extensions of sheds on Piers 30 and 32, on the waterfront of the City and County of San Francisco, in accordance with plans and specifications approved by the Board March 25, 1927, and on file in this office, to which special reference is hereby made.

The work to be done under these specifications consists in furnishing and installing all steel rolling doors in the Extensions of Sheds on Piers 30 and 32.

The materials to be used in this work consist of the requisite quantities of structural steel, castings, galvanized iron, bolts, chains, paint materials, etc.

No bid will be received unless it is made on a blank form furnished from this office and is accompanied by a certified check for an amount equal to five (5) per cent of the amount of the proposal, to be made payable to the Secretary of the Board, conditioned that if the proposal is accepted and the contract awarded, and if the bidder shall fail or neglect to execute a contract and give the bond required within six (6) days after the award is made, in that case the said sum mentioned in said check shall be deemed liquidated damages for such failure and neglect, and shall be paid into the San Francisco Harbor Improvement Fund.

Bids will not be considered by the Board unless delivered to the Board at its regular meeting in the Board Room, Room 19, Union Depot and Ferry House, at 2 o'clock p. m. on Friday, April 22, 1927, at which time and place the bids will be publicly opened.

The Board reserves the right to reject any or all bids if deemed for the best interests of the State.

Plans and specifications for this work to be had at Room 18, Union Depot and Ferry House, upon depositing \$10.00 for same, which will be returned on return of plans and specifications, provided said plans and specifications are returned within 30 days after date of receiving bids.

Bidders are requested to mark envelope containing bid: "Bid for installing Doors in the Extensions of Sheds on Piers 30 and 32."

C. L. TILDEN,  
FRANK C. SYKES,  
PAUL SCHARRENBURG,  
Board of State  
Harbor Commissioners.  
FRANK G. WHITE,  
Chief Engineer.  
J. L. PHELPS, Secretary.

#### NOTICE TO CONTRACTORS

##### GENERAL WORK

##### REPAIR OF STATE ARMORY

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock P. M., April 19th, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials, and labor required for the completion of the General Work for the Repair of State Armory, 14th and Mission Streets, San Francisco, California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

The work in general consists of constructing a reinforced concrete and steel frame balcony and stairs within the Drill Court, furnishing and installing steel sash and fixed seats, Painting, Electric Work, and miscellaneous alterations. All of the required work is to be included in the Contract for "General Work."

Cash, a Bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for General Work, State Armory, San Francisco, California."

NOTICE TO CONTRACTORS

(Rockridge School Addition—Oakland)

OFFICE OF THE SECRETARY OF THE BOARD OF EDUCATION OF THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 12th day of April, 1927 at 9:45 A. M., at which time said bids will be opened for the erection and completion of the Rockridge School Addition of the Oakland School District, to be erected on the North side of Clifton Street approximately 530 feet East of Broadway. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

- Separate bids will be received for:
- (1) General Work.
  - (2) Slate Blackboards.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned. Plans taken out by bidders on or before April 4, 1927, shall be returned on April 4, 1927; plans taken out on and after April 4, 1927, shall be returned April 13, 1927. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award or to give bonds required for the faithful performance of the contract or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided, however, that in no case shall said check be required to be in excess of Five Thousand (\$5000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 12th day of April, 1927, at 9:45 A. M., in the Board Room, 211 Second Floor, of said City Hall in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEMOND,  
Secretary of the Board Education of Oakland, California.

INVITATION FOR BIDS

UNITED STATES DEPARTMENT OF AGRICULTURE, BUREAU OF PUBLIC ROADS, DISTRICT NO. TWO, 807 Sheldon Bldg., San Francisco, California, March 29, 1927.—Sealed bids subject to the conditions contained herein, will be received at the above address, until 10 o'clock a. m., on the 20th day of April, 1927, and then publicly opened, for furnishing all labor and materials and performing all work for constructing certain sections of the Placerville-Lake Tahoe National Forest Highway Route No. 32, lying between Pacific Station and Riverton, located within the Eldorado National Forest, State of California, County of Eldorado. The length of the project to be

constructed is 2.93 miles and the principal items of work are approximately as follows:

Excavation, unclassified	104,000 cu.yds.
Crushed rock surfacing	7,026 cu.yds.
Class A Concrete	60 cu.yds.
Reinforcing Steel	6,060 Lbs.
Cement Rubble Masonry	20 cu.yds.
Corr. Metal Pipe, placing	906 lin.ft.

Bids must be submitted upon the Standard Government Form of Bid and the successful bidder will be required to execute the Standard Government Form of Contract for Construction. These standard forms, together with the plans and specifications may be examined or obtained at the following address: District Office, 807 Sheldon Bldg., San Francisco, Calif. C. H. SWEETSER, District Engineer.

NOTICE TO CONTRACTORS

(Sequoia Aqueduct—East Bay Municipal Utility District)

Sealed proposals will be received at the office of the East Bay Municipal Utility District, 1924 Broadway, Itay Building, Oakland, California, until 7:30 p. m., Friday, April 15, 1927, and will at that hour be opened, for furnishing materials for and constructing the Sequoia Aqueduct, Station 145+05 to Station 150+43. Specifications may be obtained by application to the office of the District.

JOHN H. KIMBALL,  
Secretary.  
Oakland, California, March 26, 1927.

Orientalstucko

A Chinaman, doing a hauling job for a building material dealer, in San Francisco, was informed that he could not get his money until he had submitted an itemized statement. After much meditation he evolved this bill: "3 comes and 3 goes at 4 bits a went—\$3.00."

TO RESUME OPERATIONS

The Santa Cruz Lumber Company will resume lumbering operations on a large scale at its mill about 10 miles above Boulder Creek, Santa Cruz County, shortly. Bad weather for a number of months past has prevented the mill from running to any extent. J. M. Maddock, manager of the company, states that the mill will employ about 120 men, which will make it possible to mill between 45,000 and 50,000 feet of lumber per day.

**THE CONTRACTORS' ROOM**

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room  
where plans and specifications may be filed by Architects, Engineers and  
Owners for the convenience of bidders in San Francisco and the Bay Coun-  
ties.

Architects, Engineers and Owners are invited to forward plans of  
their projects to BUILDING AND ENGINEERING NEWS. No charge for  
this service. The plans will be returned in good condition when con-  
tract for work is let.

## LEGAL NOTICE

**STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912, OF BUILDING AND ENGINEERING NEWS,** published weekly at San Francisco, Calif., for April 1, 1927.

Before me, a Notary Public in and for the State and County aforesaid, personally appeared J. I. Stark, who, having been duly sworn according to law, deposes and says that he is the Publisher and Owner of the Building and Engineering News, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse side of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher, J. I. Stark, 1250 Francisco St., San Francisco.

Editor, J. P. Farrell, 1258 39th Ave., San Francisco.

Managing Editor, J. P. Farrell, 1258 39th Ave., San Francisco.

Business Manager, J. I. Stark, 1250 Francisco St., San Francisco.

2. That the owner is:  
J. I. Stark, 1250 Francisco St., San Francisco.

3. That the known bondholders, mortgages, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: None.

J. I. STARK, Publisher.  
Sworn to and subscribed before me this 9th day of April, 1927.

(SEAL) CHALMER MUNDAY,  
Notary Public in and for the City and County of San Francisco.  
(My commission expires Oct. 17, 1929)

City of Monterey by a vote of 614 in favor and 570 against, adopted the city manager form of government.

## BAKERSFIELD HOSPITAL SUES CONTRACTOR FOR \$70,171.73

Mercy Hospital of Bakersfield, Inc., has filed suit against William G. Reed, general contractor, and his bondsmen, the United Fidelity & Surety Company, asking judgment for \$70,171.73, for alleged failure of Reed to settle the claims accruing through the building of a new wing to the structure, which, it is averred, the contractor had pledged to liquidate. The complaint is signed by Sister Mary Veronica, president of the institution.

Claims aggregating \$55,563.20 have been filed against the hospital since the completion of the wing, the complaint declares, and, in addition, \$7083 in claims has been presented without legal action having been taken. The bond of the United Fidelity & Surety Corporation is for \$195,000. The Title Insurance & Trust Company holds a \$400,000 mortgage on the property in the form of a trust, as guarantor of a bond issue.

The suit will be tried in the Kern County Superior Court, and is the result of numerous liens for materials, placed against the hospital, because of the alleged default of the contractor in settling obligations he incurred as the work was in progress.

## RATE HEARING ON BRICK SET BY R. R. COMMISSION

The State Railroad Commission has set May 3 as the date to hear the complaint of the Sacramento Brick Company, which concern alleges that the Western Pacific and Southern Pacific Railroads contemplated the inauguration of a rate production, which would discriminate against their product. The Sacramento concern declares the railroads were planning to cut the present rates charged for hauling from Stockton to Marysville. The complaint asks the commission to prevent such a change.

The hearing will be held before Examiner W. P. Geary of the railroad commission.

EDITOR'S NOTE:—According to word from Marysville, the complaint of the Sacramento Brick Company is due to the fact that Marysville interests want brick manufactured in Marysville to go into the proposed new high school to be erected in that city and for which the general contract was awarded to Tucker & Riley of Stockton. The contractors, who propose to use Stockton brick, it is said, have obtained a rate from the Southern Pacific to haul the brick, the rate being 7½ cents per 100 lbs. in carload lots. The rate from Sacramento to Marysville, according to the Sacramento Brick Company, is 7 cents per 100 lbs. The former rate between Stockton and Marysville was 10½ cents. The rail board is asked to suspend the proposed 7½ cent rate and fix a rate that will not be unjust and unreasonable to the Sacramento concern.

Travertex Stone Corp. of San Francisco, capitalized for \$25,000, has been incorporated. Directors are: M. W. Morris, M. O'Hara, R. A. Smith, M. Schwab and Wm. Klein.

## SAMPEL AND CODY FILE SUIT ON SCHOOL PROJECT

Again tying up work on San Leandro Junior High School, suit by J. H. Sampel and W. F. Cody, San Francisco contractors, against the Oakland Board of Education, alleging their contract was abrogated without cause and seeking to collect \$132,615, is on file in superior court.

Copies of the complaint were handed to the Board just as it was to award a new contract for finishing the \$350,000 structure, completion of which already has been delayed nearly five months.

Pending the legal fight between Sampel & Cody and the Board, all work on the school must be held up. The job is 85 per cent complete, according to W. E. Whalin, superintendent of school construction.

A low bid of \$59,800 to do the remaining work has been submitted by Sullivan & Sullivan.

The complaint of Sampel & Cody declares that their contract was abrogated "arbitrarily and without cause" by the school board and that the contractors were "at all times ready and willing" to complete the job.

This is contrary to the report of Whalin, on whose recommendation the Board on March 15 terminated the Sampel & Cody contract.

Whalin testified under oath, as did several of his aides, that the contractors at no time had sufficient men or materials on the job and for several days last month kept only one carpenter at work. Not only had Sampel & Cody not followed the plans and specifications in all details, but they had disregarded his warnings against their "apparently deliberate abandonment of the job," Whalin asserted.

The contractors allege in their suit that they have spent \$266,674 on the building and have received payment of only \$134,068 from the Board.

## COURT OF APPEAL UPHOLDS BUILDING BANS

The right of a real estate subdivider or grantor to impose restrictions relative to the erection of residences in a tract was upheld April 4 in the Third District Court of Appeals at Sacramento.

The opinion affirms an injunction of the Los Angeles Superior Court preventing Richard and Mary Fierman from erecting a building which, it was alleged by Ida B. Gamble, does not meet the requirement of the subdivision. Among the restrictions were those providing that no building costing less than \$2500 shall be erected, and that buildings must be twenty feet from the lot line.

In handing down its decision, the court remarked:

"The language of the deed would indicate that the covenant is imposed not simply for the personal benefit of the grantor, but for the benefit of the balance of the property owners of the tract."

# Quantity Surveys As Regards—Owner, Architect, Engineer And The Contractor

By Oscar Euphrat, Vice-President, American Institute of Quantity Surveyors

In the course of the architect's or engineer's business he "puts on the market" plans and specifications for some project and invites bids. The number of bidders varies from a minimum of two or three to a maximum which has practically no limit. Immediately a host of contractors begin their work on quantity surveys, in preparation of bids or proposals on every trade entering into the construction.

Now some plans and specifications are good, some are bad and some indifferent. During the period between sending out invitations for bids and the time they are received by the architect, he is besieged by bidders for interpretation of plans and specifications and during this siege he is asked many questions; some sensible and some foolish. This period, as can readily be seen, is the source of frequent interference in the efficient routine of his business. During this period there are also brought to the architect's attention discrepancies in plans or specifications or both — inconsistencies, omissions, etc. The number of the discrepancies, inconsistencies, omissions, etc., vary, of course, with the plans, which are good, bad or indifferent.

Interpretations, explanations, etc., are sometimes given verbally and then only to the individual who raises the question. Frequently bulletins, supplementary plans and specifications are issued to clear up errors or doubtful points. In any case the architect can never be assured that all such instructions or interpretations, verbal or written, can or will reach each bidder in each trade affected before his bid is submitted.

## Architect or Engineer

The architect, of course, after bids are submitted and before contracts are awarded, endeavors to adjust all the matters at issue and has more or less trouble doing so. In any event, this situation gives rise to misunderstanding and friction between architect and contractor and also quite frequently places the architect in an embarrassing and unfavorable position with the owner. A change from present methods that will overcome most of the annoyances and avoid much that is unfair and that will certainly eliminate a tremendous waste should be welcomed by all concerned, particularly by the architect. Such a change will be found under a quantity survey system which would operate as follows: When the architect's plans and specifications are ready "for the market," he places them in the hands of independent quantity surveyors, "independent" only in the sense that they have no relation or connection with any bidder who may submit a bid, independent in his relation to the architect or owner as the architect is to the contractor or bidder. The quantity surveyor prepares a quantity survey of each trade and the same questions arise as before as to interpretation, etc. The architect's interpretations and corrections, etc., are reconciled, not only with the quantity survey when it shall have been finished, but also with the plans and specifications. The plans and specifications then are more nearly correct than they were before quantity surveys were made and are now

turned over to the prospective bidders together with copy of the quantity survey and there is no more necessity for the contractor duplicating the work of the quantity surveyor than there is for him to duplicate the work of the architect.

Of course this is on the assumption that the plans and specifications are "good" and also that the quantity survey is "good" and there is abundant evidence to show that both can be made so.

The architect generally favors the quantity survey system. This is true, more particularly of the architect whose plans and specifications are "good" and also in a lesser degree of the architect whose plans are indifferent and still less of the architect whose plans are bad. A complete and comprehensive quantity survey cannot be made unless plans and specifications are good; that is, unless they show clearly and state definitely the quality and quantity of material and workmanship required in the final execution of the contract. It must then be evident that the architect who has been accustomed to make indifferent or bad plans and specifications, will be obliged to mend his ways and improve his work or go out of business. This will reflect to the advantage not only of the "good" architect but also the "good" contractor and last but not least, the owner, who really suffers most from the "bad" architect.

## The Contractor

In every walk of life, whether it be farming, trade, manufacture, contracting or the professions, the individual engaged therein is confronted with competition. This competition is composed of two elements; first, quality, and second, price. A third element presents itself to the contractor and to the contractor alone, because in no other field does competition in quantity manifest itself, but it is ever present and persistent in the business of the contractor.

Can anyone conceive the havoc which would result if competition in quantity were introduced in every business? One illustration will suffice. Suppose a manufacturer desired to purchase coal to operate his power plant, and sent out invitations to a number of coal dealers to submit quotations on a sufficient quantity of coal to operate the plant for one year. The invited bidders would then make a survey of the purchaser's plant and estimate the probable requirements of the purchaser for one year and quote a price, not per ton, but a lump sum and give a bond for faithful performance of contract, etc. You immediately see the unfairness of the proposition and the waste and confusion it would cause and you conclude the idea is ridiculous, and we agree with you. Will you then agree with us that the same proposition applied to the contractor's business is just as ridiculous? Yet that is what happens every day in the contractor's business.

The contractor quotes a lump sum price for a sufficient quantity of material including necessary labor to install it in a finished structure. He has no assurance from the purchaser what constitutes a sufficient quantity, but is shown some drawings and told to find out as best he can. He must do this by

a survey of the drawings, which leads him to an estimate of quantity which may be required and he quotes a lump price to furnish what will be required no matter how this may vary from what he estimates may be required. All his competitors, of course, are in the same position and there are as many different estimates of quantity as there are bidders. Here, then, he has competition in quantity before he encounters the usual competition of quality and price.

It should therefore be no source of wonder that there is frequently a wide variation between bids submitted on the same project. A further reason for this wide variation is the fact that in probably no other business does the seller quote a price for a finished product when it has not even been started. This means, of course, that he must quote his selling price before he can possibly have ascertained his cost on the projected operation. These are some of the difficulties of the contractor's business which do not appear in other lines, although the difficulties occasioned through fluctuating material and labor markets, seasonable activity or depression are also his, in common with others.

For solving his problem of arriving at a reasonably correct selling price, we have no formula to offer, but suggest that perhaps the best solution lies in the maintenance of a comprehensive cost-keeping system which will furnish a record of past performances, on which future performance may be predicated. In this connection it should also be borne in mind that seldom, if ever, is any operation exactly like any other which has gone before.

For solving his problem of quantity competition we have a formula in the quantity survey system, by means of which each contractor may base his bid on the same quantity of material and eliminate at least this serious element of competition in his business and which is readily conceded by all to be demoralizing and wasteful in the extreme. Many contractors avail themselves of a quantity survey service wherever possible and the number doing so is increasing rapidly each year.

## The Owner

Under the usual procedure leading to a contract for a building operation, there is a very considerable waste of money, due to the vast duplication of effort by contractors in preparing bids.

The architect or owner will invite three or four, sometimes a dozen or more general contractors to submit bids. The general contractor in turn will invite numerous sub-contractors to bid on the work. Each bidder, whether general contractor or sub-contractor, preparatory to submitting a bid must make a quantity survey of that portion of the work or that trade on which he submits a bid. The result is that numerous quantity surveys are made for each trade entering into the construction. All the time the money spent for these surveys, except for one in each trade, is absolutely wasted. We know of no statistics which may have been compiled, but a moment's reflection by anyone who is familiar with the building industry will bring the conviction that this waste is tremendous.

The burden of this waste is borne by the owner. Of course he does not pay directly for the time spent by unsuccessful bidders on his project, but he certainly does pay for time wasted on other projects which have gone before, as this wasted time must be and is figured in as a part of the contractor's cost. Nor is this the whole story, as too frequently, after must time and money have been expended by numerous contractors in submitting bids, the prospective owner abandons the entire project and pays absolutely nothing for the havoc and waste he has occasioned, but passes the bills to the next owner who proceeds to a conclusion with his project.

Obviously, then, it would be in the interest of fairness, at least, if the owner paid only for those expenditures of time and money caused by him and not by others who have gone before, and certainly in the interest of economy if he paid for one quantity survey for each trade instead of the extensive duplications he pays for under the present methods. A system by which the quantity survey for each trade would be prepared at the owner's expense and furnished by him to all invited bidders would eliminate the wastefulness of present methods and would reflect materially to the owner's financial advantage.

To inaugurate such a system throughout the country at one time would seem necessary in fairness to the owner, but this is obviously impossible. To upset precedent which has been as firmly established (even if unscientific or wasteful) as present methods of bidding, requires time, but in our country any proposal which will eliminate undue waste is quickly accepted when once understood and rapid progress is being made to that end.

During recent years quantity surveys have established themselves in many of the larger cities of the country and have rendered a valuable service to the building industry in not only furnishing quantity surveys on many projects but also in pointing out to the owner, architect, contractor and the public in general the urgent need of a quantity system of bidding in place of the wasteful methods of the past.

As an indication of the rapid progress being made, attention is called to the organization in June, 1926, of The American Institute of Quantity Surveyors, whose purpose among others is to extend the system with a consequent increase in the efficiency of building operations and a consequent saving to the owner, architect and contractor.

**TWO NEW A. G. C. CHAPTERS IN CALIFORNIA**

Two new chapters of the Associated General Contractors of America have been formed in California through the efforts of H. A. Nugent, Pacific coast field secretary of the A. G. C. Following the organization of a chapter at Sacramento, one has been formed at Santa Barbara with the following contractors enrolled: D. H. McQuidley, Cornwall Construction Company, Chas. M. Urton, R. L. Richardson, Ira Hodson and J. F. Sullivan. Mr. Nugent tendered his resignation as field secretary effective April 1.

The annual convention of the A. G. C. Northwest Branch will be held at Seattle April 8 and 9. The matter of forming a regional association of A. G. C. chapters on the Pacific coast will be discussed by the executive board of the Northwest Branch.

**ALONG the LINE**

John Furness, building contractor, was arrested April 12, charged with felony embezzlement. The warrant was sworn to by S. B. Duryea who accuses Furness of appropriating for his own use \$500 given him last October to pay sub-contractors on a building being erected for the complainant. Duryea caused the contractor's arrest when bills came to him for payment.

M. E. Kavanaugh, Menlo Park contractor, has been arrested on a warrant from San Francisco, charging him with "non-payment of wages." The charge was sworn to by Leo Quinn, an alleged employee. Kavanaugh was booked at the county jail in Redwood City.

Wm. K. Reed, civil engineer, succeeds John N. Bidwell as city engineer of North Sacramento. Mr. Bidwell resigned to enter private practice.

Thos. A. Kearney, electrical engineer of Reno, Nevada, died in that city April 11, due to blood poisoning caused by a sliver wound in his finger.

M. E. Hopper, Oakland contractor, has petitioned the Federal Court to be adjudged a voluntary bankrupt, listing his liabilities at \$45,595.56 with assets of \$17,890.39. Most of the claims are owing to San Francisco and Oakland merchants.

James Henry Condy, building contractor of Stockton, died in that city April 3, following a year or more of affliction due to injuries suffered in an automobile accident. He was a native of Pennsylvania, aged 65 years.

A. W. Schmuck, superintendent for the California State Highway Commission, Division No. 7, Los Angeles, was killed in a fall from a grader, April 9. R. M. Morton, state highway engineer, is advised by S. V. Cortelyou, division engineer at Los Angeles.

Manuel G. Riggs, for several years chief of the Hayward Fire Department, has been named city building inspector of Hayward, Alameda county. A new building ordinance has been adopted and is effective at once.

George W. Borden, Nevada State Highway Engineer, has been informed by the newly organized state highway board that his term of office will expire June 1. S. C. Durkee, division engineer in the Reno section, is slated for the position. In requesting the resignation of Engineer Borden, the highway board adopted a resolution declaring his services had been "eminently satisfactory during his entire term of office." Borden has been Nevada state highway engineer since 1921 when he succeeded C. C. Cottrell. Prior to that time he was assistant to Cottrell.

**LICENSE ORDINANCE ADOPTED**

An ordinance to license building and painting contractors has been adopted by the Reno, Nevada, city council. These crafts will pay an annual license fee of \$50, payable in advance, before they may be engaged in their respective activities in Reno. The measure is aimed at "fly-by-night" contractors.

**ARCHITECT E. J. KUMP ADDRESSES FRESNO OPTIMIST CLUB**

Ernest J. Kump, Fresno architect, addressed the Fresno Optimist Club at The Californian, Fresno, April 11. His topic was "Constructive Architecture." "The first architecture came as a result of necessity," he said. "Primitive man needed shelter from the elements and built a crude hut from mud, sticks and the hides of animals. From that humble start evolved our present architecture."

**LICENSE ORDINANCE ADOPTED IN OAKLAND**

Favored by masons, plasterers and roofers, an ordinance licensing members of these crafts and providing that they must obtain permits to do their work has been given final passage by the Oakland city council. The ordinance is effective at once and is designed to improve workmanship in the building trades. Hereafter, masonry, roofing and plastering contractors must submit plans for their jobs to A. S. Holmes, building inspector, and receive approval. Cost of providing this inspection will be paid in the form of license and inspection fees.

**MONTEREY PAINTERS DENIED WAGE INCREASE**

Two Monterey county painting contractors are without the services of union painters. According to members of the Painters' Union, a request was issued 90 days ago to all Monterey contractors for a \$9 a day wage, an increase of \$1 a day. The increase was met by all painting contractors, according to reports, but two. Fourteen painters refused to return to work as a result and accepted employment with the other contractors. Ninety per cent of the union painters on the Monterey Peninsula are engaged, union officials announce. The union denies the incident as a strike.

**PAUL LANGWORTHY RESIGNS AS L. A. EXCHANGE SECRETARY**

Paul F. Langworthy, for the past three years secretary-manager of the Los Angeles Builders' Exchange, has resigned to devote his time to his private interests. Mr. Langworthy is well known in the construction industry throughout the southwest, having been engaged in the business for many years prior to taking an executive position with the Exchange. His tenure of office covered one of the most important eras in the history of the Exchange, marking the erection and occupation of the Exchange's own building.

**SEEK TO PROMOTE SALES OF INSULATING MATERIALS**

Thirty-two representatives of the leading makers of insulation met in conference at the Waldorf Astoria, New York, March 24, at the invitation of the National Better Business Bureau for discussion of business practices, and to set up standards for future advertising and selling methods of the industry for the better information of the public regarding the value and nature of insulating materials. Fourteen insulation manufacturing companies and seven advertising agencies were represented in addition to the American Institute of Architects and the American Society of Heating and Ventilating Engineers.

## TRADE NOTES

Western Plywood Co., which recently absorbed the Plywood Products Company and the latter's plant at Martinez, has been incorporated. The company is capitalized at \$500,000 and has its principal place of business at Reno, Nevada. Directors are: T. L. Smith, H. H. Meday, T. Ferrari, W. McElroy and E. Armstrong.

Derborn Construction Co., Inc., of Seattle, Wash., has opened a San Francisco office at 315 Montgomery street. Oro McDermith is president and John B. Bonny, vice-president of the company. The Seattle office is located in the Colman Building.

Oliviero, Esperiano, Alemanno and Divo Granucci will operate in San Francisco, under the firm name of Granucci Hardware Company.

Standard Heating & Refrigerating Company of California with headquarters in San Francisco, has filed articles of incorporation in Oakland. The company is capitalized for \$25,000. Directors are: Milton A. Nathan, Phillip A. Nathan, S. Wolff, A. L. Pierovich and Harold Abraham, all of San Francisco.

Frank M. Purdy and Frederick A. Purdy will operate in San Francisco under the firm name of F. M. Purdy Lumber Company.

Dannenbaum Paint Company of San Francisco, capitalized for \$50,000, has been incorporated. Directors are: M. J. Dinkelspiel, F. R. Rogers and D. K. Lener.

Liberty Ornamental & Iron Works of Oakland, capitalized for \$50,000 has been incorporated. Directors are: P. Romik, F. Banchio and R. S. Rushing, all of Alameda County. The company will specialize in the manufacture of metal ornaments of all kinds, including those made of copper, brass and nickel.

J. H. Graham and G. A. Graham, operating under the firm name of Graham & Son, general contractors, with headquarters at Dinuba, Cal., announce a dissolution of partnership. J. H. Graham, senior member of the firm, has established an office at Salinas and will do business in that territory. G. A. Graham will continue to operate in the San Joaquin Valley under the firm name of Graham Company.

Westcoast Sash Hardware Co. has moved from 681 Market street to 290 Fremont street, San Francisco.

Amlot & Boehm, cabinet makers, have opened quarters at 341 Commercial St., San Francisco.

Gelger Iron Works of Stockton plans to expend \$20,000 for factory expansion, according to Joseph Gelger, operating the concern. The company owns a site with a 300 foot frontage in Scott street and 200 feet in Pilgrim street, Stockton, served with a Santa Fe spur track and specializes in the manufacture of special machinery in addition to doing a general repair business. The expansion plans will provide for additional buildings and the installation of more equipment.

## \$45,577,898 Is Pacific Coast Construction Total For March

A reduction of ten per cent in the building activity of Pacific Coast cities during the first quarter of the year as compared with the same period of 1926, is shown by an analysis of the reports from 95 cities tabulated in the National Monthly Building Survey of S. W. Straus & Co. Building permits totaling 37,537 and calling for building costs aggregating \$110,339,530 were issued in these cities during the first three months of 1927.

The March total, 15,424 permits for buildings to cost \$45,577,898, issued in these 95 cities, reflects a 6% reduction from the comparable figures of 1926, but a 45% increase over the February figures of this year. February's total was 6% below that of last year and the January figure showed a 12% reduction.

Los Angeles, issuing 8916 permits for buildings to cost \$26,815,877 during the first quarter of 1927, shows an 8% reduction from the 1926 record. The March figures are 19% below those of last year.

San Francisco's first quarter record of 2215 building permits issued, involving \$11,425,095 in construction costs, is 17% below the 1926 total. The March figures, however, reflect an 18% gain over last year.

Portland issued 2913 permits for buildings to cost \$9,028,580 during the first quarter of 1927. This is 10% greater than the comparable figure for 1926. The March total reflects a 33% reduction.

Seattle's first quarter total of 2640 building permits issued, involving \$7,340,745 in construction costs, is 28% below the 1926 record, but the March figures show a 21% increase over last year.

The following table shows the construction cost figures for the first quarter of 1927 and 1926 and for the month of March, 1927 and 1926, as reported by building department executives from 95 cities comprised in the Pacific Coast Section of the National Monthly Building Survey of S. W. Straus & Co.:

City	March, 1927 No.	Cost	March, 1926	1st quarter, 1927 No.	Cost	1st quarter, 1926

 \*Note: Hollywood figures included in Los Angeles totals.

An ordinance requiring sprinklers in office buildings hereafter erected in Fresno, has been prepared for submission to the Fresno City Council by City Attorney L. A. Butts. The proposal has the approval of the Fire Prevention Bureau.

At the instigation of the Japan Forest Society, the Japanese Government has decided to introduce a bill in the present session of the Diet proposing an increase of duties on general importations of lumber. American lumber from the Pacific Coast forms one of the largest transpacific commodities, amounting to approximately 500,000 to 600,000 tons of space monthly. United States shipping companies, such as the American Mail Line, are to combine with lumber importers and societies in Japan to protest the proposed introduction of new rates.

Hope that the proposed uniform building code for Pacific Coast cities will be completed by September and ready for submission to cities desiring to adopt the regulations, was expressed at the recent three-day meeting of the Pacific Coast Building Officials Conference in session at Fresno.

Louis A. Geisler, contractor on the new Ventura County hospital building, was fined by Louis Bloch, chief of the state bureau of labor, for alleged violation of the 8-hour law on public work. Seven men are alleged to have been employed more than 8 hours for three days and the penalty was fixed at \$210.

At the recent annual convention of the Common Brick Manufacturers Association of America at Chicago, discussion brought out the need for more definite information on the cost of brick in the wall, the need for more bricklayers apprentices, a closer connection with building supply dealers and extension of the associations publicity program. It was stated by E. L. Bowman of Columbus, O., director of the National Clay Products Extension Bureau, that there are fewer bricklayers today than in 1910 and fewer bricklayers per 1000 population than in 1850.

## HARDWARE DEALERS ENTERTAIN AT SACRAMENTO

About forty persons attended the Ladies' Night and annual dinner meeting of the Sacramento Valley Retail Hardware Association, Monday evening, April 11 at the Hotel Senator, Sacramento. Following a brief business session during which officers were elected, the party attended the Senator Theatre. Committee members arranging the program were: Chas. E. Trowse, chairman; Guy Lukens of Auburn and W. Lang of Newcastle.

## C. P. JENSEN ELECTED PRESIDENT OF ENGINEERS' CLUB

Chris. P. Jensen, county surveyor of Fresno County, has been selected president of the Fresno Engineers' Club, succeeding L. J. Moore. H. C. Burbridge was named first vice-president; C. W. Manly, second vice-president and Lee Duncan, secretary-treasurer. Committee will be appointed at an executive meeting to be held in the immediate future. The nominating committee consisted of A. Segal, chairman; M. C. Paulsen, J. Allen Hall, J. W. Jourdan and Fred Gamboni.

## THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

M. M. O'Shaughnessy, San Francisco city engineer, in a report to the Board of Supervisors recommends an appropriation of \$3,535,000 to finance construction of "certain long-needed sewer system" including the Islais Creek sewer, estimated to cost \$1,200,000; Fillmore Street sewer, \$750,000; Fifteenth street sewer, \$300,000 and College Hill sewer, \$350,000. In addition to this, he urges the construction of the following boulevards, from state-derived funds: Bay Shore Highway, estimated to cost \$250,000; Alemany Boulevard, \$250,000; Bernal Cut, \$100,000; Laguna Honda Boulevard, \$150,000. Appropriations are also sought for certain extensive street extensions and smaller street projects.

Los Angeles' building total for March, 1927, showed a gain of 47 per cent over that for February but fell nearly 20 per cent under that for March a year ago. Comparing it with the normal average of the last nine months, however, it is very satisfactory. The number of permits issued was 3596 and the estimated valuation was \$11,111,774. For February, 1927, the number of permits was 2476 and the estimated valuation was \$7,547,354 while for March, 1926, the number of permits was 3849 and the estimated valuation was \$13,879,558.

The Inman bill which would automatically declare the Industrial Association of San Francisco in violation of the anti-trust provisions of the Cartwright Act was killed in the senate April 12. By a vote of 22 to 16 the Senate voted against reconsideration of the bill which had been previously defeated.

A ruling is made by Deputy District Attorney James L. King of San Bernardino County that school authorities are not prevented awarding contracts to persons who are not citizens of the U. S. An opinion was asked in connection with informal protests made against the award of a contract for the erection of the San Bernardino Valley Union Junior College to J. J. Bakker and J. N. Robinson on the ground that Bakker, who is a native of Holland, who had taken out citizenship papers three years ago, had not yet received his final papers.

The Shasta County Supervisors have ordered a warrant drawn to pay the claim of Palmer & Petersen on their contract to repair the Anderson bridge in 1922. The supreme court recently gave the bridge firm judgment against the county for \$8,840.63, with interest added on that sum at 7 per cent from April 21, 1924.

Final steps for the \$50,000,000 bond election have been taken by the San Francisco Board of Supervisors and a date for the election will be set next week. Included in the issues will be the Spring Valley Water purchase, \$40,000,000; War Memorial, \$4,000,000; Municipal Railway Extensions, \$4,700,000; Bernal Cut, \$1,400,000.

A \$5,000,000 pulp and paper mill will be erected at Bellingham, Wash., if efforts of the Bloedel-Donovan Lumber Co., to secure a site on the harbor area in that city are successful, it is announced by J. H. Bloedel, president of the company. The plant will be located near the company's sawmill. A building 700 feet in length with a daily capacity of 110 tons is contemplated.

# Water-Cement Ratio Specification Completed By Portland Cement Association

By W. E. Hart, Manager, Structural and Technical Bureau,  
Portland Cement Association

The water-cement ratio strength law may be stated roughly as follows:

"The strength of concrete is inversely proportional to the amount of water per sack of cement used for mixing, provided that the mix is a plastic, workable one, and that the aggregates are clean and hard."

From this it follows that the strength of concrete is controlled by fixing the amount of water used in mixing, and not by proportioning the cement, sand and stone. In order to apply this law, specifications which give the proportions of cement and aggregates, but ignore the ratio of water to cement, must be superseded by modern ones in which the number of gallons of water to be used with each sack of cement are definitely stated.

The following specification for concrete shows how the water-cement ratio strength law can be embodied in a group of directions to the contractor:

## Water Cement Ratio

Concrete for structural members shall be proportioned to give the necessary workability without exceeding the following quantities of mixing water for the strength indicated:

Strength of concrete — lb. per sq. in.	U. S. gal. water per sack (94 shown on the plans lb.) of cement
3000	6
2500	6 3/4
2000	7 1/2
1500	8 1/4

These water-cement ratios are the maximum permissible. The mixes shall be proportioned for somewhat lower ratios so that with the normal fluctuations from batch-to-batch these ratios will not be exceeded. Moisture held by the aggregate must be included in computing the water-cement ratios. Water absorbed by the aggregate in a period of 30 minutes may be deducted in computing the water-cement ratio.

The water-cement ratios specified shall not be changed except by the engineer. In the event that the engineer finds it necessary to change the water-cement ratios from those specified, adjustment covering amount of cement and aggregates affected will be made as an extra or a credit under the provisions of the contract.

## Measuring Moisture in the Aggregate

Moisture in the aggregate shall be measured by a method satisfactory to the engineer, which will give results within 1 lb. for each 100 lb. of aggregate.

## Concrete Proportions and Consistency

The proportions of aggregate to cement for concrete of the water-cement ratios specified shall be such as to produce concrete that can be puddled readily into the corners and angles of the form and around the reinforcement without excessive spading and without segregation or undue accumulation of water or laitance on the surface. In no case shall concrete be placed which shows a slump outside of the following limits:

Part of Structure	Slump—Inches Minimum Maximum
Foundations .....	1 4
Heavy walls, slabs, beams ...	3 7
Thin walls and columns .....	4 8

The proportion of fine and coarse aggregate shall be such that the ratio

of the coarse to the fine shall not be less than —\* nor more than —\* nor shall the amount of coarse material be such as to produce harshness in placing or honeycombing in the structure. When forms are removed, the surface and corners of the members shall be smooth and sound throughout.

## Control of Proportions

The methods of measuring materials shall be such that the proportion of water to cement can be closely controlled during the progress of the work and easily checked at any time by the engineer or his representative.

To avoid unnecessary or haphazard changes in consistency, the aggregates shall be obtained from a source which

(Continued from Page One)

will insure uniform quality and grading during any single day's operation, and they shall be delivered to the work and handled in such a manner that variations in moisture content will not interfere with the steady production of concrete of a reasonable degree of uniformity.

## Tests of Concrete

Frequent tests may be made by the engineer throughout the work to determine the quality of concrete. These tests will be made at the expense of the owner, and will, in general, be made on 6 by 12-in. concrete cylinders loaded in compression at 7 and 28 days, in accordance with the Standard Method of Making and Storing Specimens of Concrete in the Field (Serial Designation: C31-21) of the American Society for Testing Materials.

\*The following limits in the proportion of coarse to fine aggregate are suggested:

Maximum Size of Coarse Aggregate Inches	Ratio of coarse to fine aggregate on basis of dry and rodded volumes
	Minimum Maximum
3/4	0.4 0.8
1	0.6 1.5
1 and over	1.0 2.0

The contractor shall co-operate in every way to the end that concrete of the desired quality be obtained. He shall provide, at cost, such housing as may be required for testing equipment and storage of test specimens: Such cost to include only labor and materials actually used.

## Portland Cement

Portland cement shall conform to the Standard Specifications and Tests for Portland Cement of the American Society for Testing Materials (Serial Designation: C9-26).

## Fine Aggregate

Fine aggregate shall consist of natural sand having clean, hard, strong, durable, uncoated grains, free from injurious amounts of dust, lumps, soft or flaky particles, shale, alkali, organic matter, loam, or other deleterious substances. The sand shall be of such sizes that it shall all pass a 3/4-in. sieve, at least 15 per cent shall be retained on the No. 8 sieve, and the fineness modulus shall not exceed 3.20.

## Coarse Aggregate

Coarse aggregate shall consist of gravel, crushed stone, crushed air-cooled blast-furnace slag weighing not less than 70 lb. per cu. ft. or other approved inert materials, having clean, hard, strong, durable, uncoated particles free from injurious amounts of

soft, friable, thin elongated or laminated pieces, alkali, organic or other deleterious matter. Coarse aggregate shall not have more than 10 per cent finer than the No. 4 sieve and the maximum size shall not exceed —.

## Storage of Aggregates

Aggregates shall be stored so as to avoid inclusion of foreign materials. Frozen aggregate or aggregate containing lumps of frozen materials shall be thawed before using.

## Water

Water for concrete shall be from the city water supply or other approved source.

## Mixing Concrete

The concrete shall be thoroughly mixed in a batch mixer of approved type. The mixer shall be equipped with suitable charging hopper. A water-storage and water-measuring device shall be provided. The mixing of each batch shall continue for at least one minute after all the materials are in the mixer during which time the mixer shall rotate at a peripheral speed of approximately 200 ft. per minute.

## Depositing Concrete

Concrete shall be handled from the mixer to place as rapidly as practicable and in a manner that will prevent segregation of the ingredients. It shall be deposited in the forms as nearly as practicable in its final position to avoid rehandling. Concrete as it is deposited shall be puddled with suitable tools until forms are completely filled and reinforcement and embedded fixtures thoroughly incorporated in the mass.

Concrete shall be deposited continuously and as rapidly as practicable until the unit of operation, approved by the engineer, is completed.

Concrete when deposited shall have a temperature of not less than 40 degrees F. and not more than 120 degrees F. In freezing weather suitable means shall be provided for maintaining the concrete at a temperature of at least 50 degrees F. for 72 hours or more after placing, or until the concrete has thoroughly hardened. The methods of heating the materials and protecting the concrete shall be approved by the engineer. Salt, chemicals, or other foreign materials shall not be mixed with the concrete for the purpose of preventing freezing.

## Protection of Concrete

Exposed surfaces of concrete shall be protected from drying for a period of at least 7 days after being deposited.

## HYDRO-ELECTRIC PROJECT IS CONTEMPLATED

Walter L. Huber, San Francisco engineer, has filed application with the State Department of Public Works, Division of Water Rights, at Sacramento, seeking authorization to construct five restraining dams on the Middle Fork of the American River for a hydro-electric power project. The dam sites are located in El Dorado and Placer counties. The application seeks to divert a total of 1060 cubic feet and store 100,000 acre feet of water annually. No estimates of cost are disclosed in the application.

**LOS ANGELES, Cal.**—A large site at Sixth St. and Commonwealth Ave. has been donated by Mrs. Clara R. Shatto to the First Congregational Church on condition that the church commence the erection of a new church building on the property within two years. The site has a frontage of 300 ft. on Sixth St., 220 ft. on Occidental Blvd., and 185 on Commonwealth Ave. The church is now located at 845 S. Hope St., which property is valued at \$600,000 and will probably be sold to finance a building on the new site.

**SAN FRANCISCO, Cal.**—City Architect John Reid, Jr., in report to Board of Supervisors estimates the cost of erecting a chapel at San Francisco Hospital at \$32,000. No previous funds for the structure are available at present.

**VENTURA, Cal.**—Architect Thos. P. Barber, 2008 W. Seventh St., Los Angeles, has completed preliminary plans for the erection of a new church bldg. at Ventura for the First Methodist Church of Ventura; the first unit will cost about \$45,000, probably frame and stucco construction.

**FILLMORE, Ventura Co., Cal.**—Fillmore Presbyterian Church has decided to proceed with the erection of a new edifice at the southwest corner of Central Ave. and 1st St.

**HANFORD, Kings Co., Cal.**—St. Bridget's Catholic Church has accepted plans for its new edifice to be built on N. Douty St. at a cost of approximately \$75,000.

**EAGLE ROCK, Los Angeles Co., Cal.**—A. J. Schroeder, 15 E. El Molino Ave., Pasadena, is preparing plans for a new edifice to be built at the northeast corner of Maywood and Chickasaw Aves., Eagle Rock, for the First Lutheran Church of Eagle Rock, Rev. Lawrence Faulstick, pastor.

**LOS ANGELES, Cal.**—Architect Robert H. Orr, 1305 Corporation Bldg., is preparing plans for an educational building to be erected at 1183 W. 25th St., for Magnolia Avenue Christian Church. The construction will be changed from concrete to brick. The building will be two stories and basement, 80x112 ft., brick walls, stucco exterior, composition roofing. Cost, \$75,000. Bids for the building in concrete construction were taken in February at which time J. S. Metzger & Son were low bidders at \$69,130.

**LOS ANGELES, Cal.**—Church of the latter Day Saints has purchased a site for a new church building at the corner of Manhattan Pl. and Country Club Dr. and will erect a building in the near future. The property is 450x220 ft. The church will be built at a cost of about \$250,000 and will cover only a portion of the property, the remainder to be the site for a proposed temple of cost approximately \$1,000,000. No date has been set for the maturity of the temple, although the church will be erected at once.

**LOS ANGELES, Cal.**—Architect Albert C. Martin, Higgins Bldg., will take bids this week for erecting a Catholic church at n. e. cor. of Ninth and Green sts. for Roman Catholic Bishop of L. A. and San Diego; Francis J. Conaty, pastor. It will be 66x175 ft., steel frame construction, brick filler walls, ice brick and stone exterior, clay tile roofing, heating and ventilating. Est. cost \$150,000.

923 Folsom St.

TUCSON, Ariz.—The Southern Metho-  
dist Hospital and Sanatorium of Tuc-  
son, L. J. Cox, president, 411 Fleming  
Bldg., Phoenix, and W. T. Dudgeon,  
secretary, route No. 1, Tucson, has in-  
corporated for the purpose of estab-  
lishing a sanatorium in the vicinity of  
Tucson.

OROVILLE, Butte Co., Cal.—County  
Surveyor Harry H. Hume preparing  
estimates of cost for additional build-  
ings at county hospital, involving new  
isolation ward, new quarters for quar-  
antine patients, larger quarters for  
women inmates and an addition to the  
surgical ward with the possibility of a  
new structure for this department.  
Plans will be ordered when estimates  
of cost are completed. C. F. Belding,  
county clerk.

POMONA, Cal.—Until May 10, 2 p. m.,  
bids will be received by State Depart-  
ment of Public Works, Division of Ar-  
chitecture, Forum Bldg., Sacramento,  
for general work in connection with  
commissary and kitchen building (one  
building) and laundry building at Pa-  
cific Colony, Spadra, near Pomona.  
General work includes all work except  
plumbing, heating and electrical work.  
Separate bids for the two buildings  
will not be considered. Separate bids  
will be received for the mechanical  
work which will include plumbing,  
heating and electric work. Separate  
bids will be considered on these last  
named, also for combined bids cover-  
ing two or all branches of the me-  
chanical work. Construction will be  
of reinforced concrete, one story. See  
calls for bids under official proposal  
section in this issue.

SAN MATEO, Cal.—A group of Pen-  
insula society women are planning the  
erection of a preventorium, to care for  
150 children. An architect will be se-  
lected when more definite arrange-  
ments have been made. The following  
are the officers of the contemplated  
preventorium: Mrs. H. W. Coett, pres-  
ident; Mrs. H. S. Dana, president em-  
eritus; Mrs. Lawrence Strassburger,  
vice-president; Mrs. Thomas Breed,  
vice-president; Miss May Lansdale,  
secretary, and Mrs. Philip Lillenthal,  
treasurer.

will be the height of a five-story struc-  
ture, but will have only four floors  
and will be for the Elks Lodge No.  
1884.

SUNDAY APRIL 17th is Easter.

AND MANY California cities.

LIKE SAN Francisco.

WILL HAVE sunrise services.

AT 5:31 A. M. (sunrise).

ON MT. Davidson, San Francisco.

SANDY PRATT, President.

OF THE Pratt Building Material Co.

PRODUCER OF crushed rock.

CLEAN SAND and washed gravel.

WILL SERVE as Chairman.

OF THE committee on arrangements.

TO HELP the 25,000 worshipers.

WITH THEIR sunrise devotion.

WHILE SANDY Pratt, "Mayor."

OF BEAUTIFUL Westwood Park.

AND MONTEREY Heights.

IS ON Mt. Davidson.

THE GOOD people of Placerville.

WILL WORSHIP.

ON SACRAMENTO Hill.

NEAR THEIR wonderful city.

DO YOU know.

THAT ARMOUR sold bacon.

AND STUDEBAKER made wheelbar-  
rows.

AT PLACERVILLE.

IN THE pioneer days.

AUBURN WILL worship.

AT AEOLIA Heights.

ABOVE THEIR pretty city.

OVERLOOKING THE American River.

THAT PRODUCES sharp sand.

FOR SANDY Pratt's company.

THE FOLKS in Marysville.

HOME OF Sandy's Marysville sand.

OUT OF the Yuba River.

WILL GO to Sutter County.

TO THE "Marysville Buttes."

AND AT sunrise.

ATTEND CHURCH services.

CHICO WILL also assemble.

ITS GOOD citizens.

ON EASTER morning.

SO WILL many other cities.

AND AT the sunrise services.

ON MT. Davidson last year.

TWENTY-FIVE PER cent of the  
people.

THAT CLIMBED the mountain.

WERE NON-CHURCHGOING people.

SO THESE services.

SHOULD BE encouraged.

AND THIS is the reason.

SANDY TAKES an active part.

IN SAN Francisco's sunrise service.

"I THANK you."

This photo taken before sunrise at  
the 1924 Easter Services on the top  
of Mt. Davidson, San Francisco, shows  
the cross that Sandy Pratt, producer  
of clean, sharp sand, hard, crushed  
rock and washed gravel, assisted in  
erection. The cross is 76 feet high  
and the arms are 26 feet across.

# Official Proposals

## INVITATION FOR BIDS

UNITED STATES DEPARTMENT OF THE INTERIOR, NATIONAL PARK SERVICE, Washington, D. C., April 6, 1927—Sealed bids (single copy only) subject to the conditions contained herein, will be received by the District Engineer, District No. 2, U. S. Bureau of Public Roads, 807 Sheldon Bldg., 461 Market St., San Francisco, Calif., until **10 o'clock a. m. on the 27th day of April, 1927**, and then publicly opened, for furnishing all labor and materials and performing all work for constructing 4.43 miles of the Southwest Entrance Road project located within the Lassen Volcanic National Park, State of California, Counties of Tehama and Shasta. The principal items of work are approximately as follows:

Clearing, 8 acres.  
Excavation unclassified, 79,000 cu. yds.  
Excavation borrow, 2000 cu. yds.  
Corrugated Metal Pipe, placing 1212 lin. ft.  
Crushed Rock surfacing, 8100 cu. yds.

Bids must be submitted upon the Standard Government Form of Bid and the successful bidder will be required to execute the Standard Government Form of Contract for Construction. These Standard forms together with the plans and specifications may be examined or obtained at the following address: District Office, 807 Sheldon Bldg., San Francisco, Calif.

C. H. SWEETSER,  
District Engineer.

## NOTICE TO CONTRACTORS

(Recesses—San Diego Post Office)

TREASURY DEPARTMENT, Office of the Supervising Architect, Washington, D. C., April 7, 1927. SEALED BIDS will be opened in this office at **3 P. M., May 5, 1927**, for new recesses in the Post Office screen for additional boxes, etc., at the United States Post Office and Custom House, San Diego, Calif. Drawings and specifications may be obtained from the Custodian of the building, or at this office in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

## NOTICE TO BIDDERS

Modesto Irrigation District and Waterford Irrigation District, Stanislaus County, California

Sealed proposals will be received at the office of the Modesto Irrigation District at Modesto, California, until **3 p. m., May 2, 1927**, for materials and labor to construct a drain ditch known as Ketcham Brothers Drain. The work requires the excavation of 15,000 cubic yards of earth from a trench 4,200 feet in length.

Plans and specifications may be inspected at the office of the Modesto Irrigation District. The contract will be let to the lowest responsible bidder, but said Board reserves the right to reject any or all bids.

Each proposal must be accompanied by a certified check for 5% of the amount of the bid payable to the order of the Treasurer of the Modesto Irrigation District for the benefit of said District as a guarantee that the bidder if successful, execute a satisfactory contract and furnish a bond in the sum of not less than 25% of the amount of his bid for the faithful performance of the work in accordance with the specifications and the bond for 50% as provided in Chapter 303 of the Statutes of 1919 of the State of California, said bonds to be approved by said Boards.

The proposal must be marked "Proposal for Materials and Labor to Construct Ketcham Brothers Drain," and addressed Modesto Irrigation District

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

and Waterford Irrigation District, Modesto, California.

Done in pursuance of the order of the Boards of Directors of the Modesto Irrigation District and the Waterford Irrigation District this 9th day of April, 1927.

C. S. ABBOTT,

Secretary,

Modesto Irrigation District.

C. W. QUINLEY,

Secretary,

Waterford Irrigation District.

## NOTICE TO CONTRACTORS

(Ammonia Compressor—Mare Island)

SEALED BIDS, indorsed "Bids for Six-ton Ammonia Compressor, Automatic, Specification No. 5360," will be received at the Public Works Office, U. S. Navy Yard, Mare Island, California, until **11 o'clock a. m., April 27th, 1927**, and then and there publicly opened, for one 6-ton ammonia compressor, single acting, automatic control with gauges, thermometers, electric motor, belt drive, starting panel, all installed and inter-connected with existing equipment with foundation included.

Specification No. 5360, may be obtained on application to the Bureau or to the Commandant, Navy Yard, Mare Island, California.

Deposit of a check or postal money order for \$10.00, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the specification.

L. E. GREGORY,

Chief of Bureau.

April 6th, 1927.

## NOTICE TO CONTRACTORS

(Mechanical Work—Pacific Colony)

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Bldg., Sacramento, California, up to and including **2 o'clock p. m., Tuesday, May 10th, 1927**, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the Mechanical Work, Commissary and Kitchen building (one building) and the Laundry

building, Pacific Colony, Spadra (near Pomona), California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Mechanical Work includes plumbing, heating and electrical work, and separate bids will be received for each branch of the work. Combined bids will also be received covering two or all three branches of the work. Bids must be submitted on forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond, made payable to the State of California, or a certified check made payable to the "State Engineer," Department of Public Works, in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five dollars (\$25.00) will be required on plans and specifications, the deposit to be returned immediately on the return of plans and specifications to the said Division of Architecture, at Sacramento, California, in good condition. Requests for the names of applicants for plans will not be responded to.

The Division of Architecture, State Department of Public Works, reserves the right to reject any and all bids, and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Bldg., Sacramento, California, and plainly marked on the envelope: "Proposal for Mechanical Work, Commissary and Kitchen Building, Pacific Colony."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE,

GEO. B. McDOUGALL, State Architect.  
PAUL BAILEY, Director of Public Works.

## NOTICE TO CONTRACTORS

#### NOTICE TO CONTRACTORS

(Police and Fire Station—Palo Alto)

The Board of Works of the City of Palo Alto, Santa Clara County, California, will receive sealed proposals up until 4 P. M., April 25, 1927, at the Palo Alto City Hall, 439 Ramona St., Palo Alto, California, at which time and place said bids will be opened and read in public for furnishing the required labor and materials for and erecting and completing a Central Police and Fire Station, in accordance with plans and specifications therefor by Birge M. Clark, Architect, 310 University Avenue, Palo Alto, California.

Bids will be received separately for the different parts of the work as follows:

General Contract, Contract No. 1.  
Steel Cell Contract, Contract No. 2.  
Cashier's or certified check or bidder's bond for amount not less than five per cent of amount of bid shall accompany each proposal, drawn payable to the order of Edward L. Beach, Clerk of the City of Palo Alto, as a guarantee that the bidder will, if requested within five days after receiving notice of the acceptance of bid, enter into a contract with said Board of Works of the City of Palo Alto in accordance therewith and furnish the required bonds, said check or bond to be forfeited to the Board of Works should the bidder fail to execute contract and bonds as above mentioned.

All bids to be made out on forms furnished by the Architect.

Plans and specifications for all the above work may be seen and secured at the office of the Architect, Birge M. Clark, 310 University Ave., Palo Alto, California.

A deposit of \$20.00 will be required from all contractors receiving plans, said deposit to be refunded when plans and specifications are returned in good condition. The said Board of Works reserves the right to reject any and all bids and waive any informality in any bid received.

By order of the Board of Works of the City of Palo Alto.

By EDWARD L. BEACH,  
City Clerk.

#### NOTICE TO CONTRACTORS

(Reinforcing Steel—L. A. Winchell School)

Pursuant to an order of the Board of Education of the City of Fresno School District of the County of Fresno, duly made and entered in its minutes this 7th day of April, 1927, public notice is hereby given that the said Board will receive up to 5 o'clock P. M., on the 22nd day of April at the office of the said Board in the Hawthorne School Building, 2425 Fresno Street, Fresno, California, sealed proposals for furnishing of labor and installing reinforcing steel for the L. A. Winchell School, as per plans and specifications prepared by Kump & Johnson, Architects, Rowell Building, Fresno, California.

Reference is hereby made to "General Information to Bidders." Building Form No. 6 for further particulars regarding all bids.

Plans and specifications, together with forms for submitting all bids and further details regarding any and all bids may be obtained from the undersigned Secretary of said Board of Education at the office of said Board above designated.

A bidder's surety bond or certified check equal to at least ten per cent of the amount of the bid submitted,

must accompany all proposals.

The Board of Education reserves the right to reject any and all bids.

By Order Board of Education, City of Fresno School District.

L. L. SMITH, Secretary.

#### STATE OF CALIFORNIA

#### CALIFORNIA HIGHWAY COMMISSION

#### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock P. M., on May 2, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Humboldt County, between Orick and the northerly boundary (I-Hum-1-K), about fourteen and nine-tenths (14.9) miles in length to be graded and surfaced with crushed gravel or stone.

Alameda County, between Livermore and Dublin (IV-Ala-5-B), about eight and nine-tenths (8.9) miles in length, to be graded and paved with Portland cement concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
E. FORREST MITCHELL,  
Secretary.

## BRIDGES

GLENDALE, Cal.—City Eng. John F. Johannsen presented with county's plans to widen San Fernando road bridge over Verdugo Wash. from present width to a 56-ft. roadway with a 10-ft. walk on east side. Reinf. conc. with ornamental railings. If his approval is secured, work may proceed shortly. Wm. Armstrong, chief county bridge engineer.

LOS ANGELES, Cal.—Plans for First St. viaduct have been completed by chief bridge Engineer Merrill Butler. Proposed structure will be 2,062 ft. in length, including approaches, with the 1,200 ft. length of the present bridge, extending from Vignes St. on the west to Mission road on the east side of the river. There will be an overall width of 71 ft. with a 56-ft. roadway and two 5-ft. sidewalks. Est. cost, \$975,000.

GRAND CANYON, Ariz.—An appropriation of \$230,000 has been made available to const. 600-ft. bridge 400 ft. high to span the Colorado at the Grand Canyon.

LOS ANGELES, Cal. — City Street Opening and Widening Committee has approved widening of 6th St. from Alameda St. to the river (100 ft. to Mateo, 127 ft. to Mesquite St.) to provide an approach for the bridge to be built across the river at that point. Est. cost of this structure, \$1,000,000, to be shared by the city and the railways affected.

LOS ANGELES, Cal.—Until April 25, 2 p. m., bids will be rec. by county supervisors for flood control district, to fabricate and erect two 100-ft. (Cooper E-50 loading) Deck Plate Girder spans for combination railroad and highway, with side brackets to carry highway loading, and end brackets to connect timber trestle approaches, at a point about seven miles north of Azusa, on the San Gabriel Ry. Plans obtainable from Chief Engineer of the Flood Control Dist., 202 N. Broadway.

SAN BERNARDINO, Cal. — Until 11 A. M., April 25, bids will be rec. by county to const. steel and conc. bridge over San Timoteo Creek at Allesandro Rd. at Mulvihill south of Redlands. Howard L. Way, county surveyor.

CLARK COUNTY, Nev.—Until May 4, 2 p. m., bids will be rec. by Geo. W. Borden, state highway eng., to const. steel and concrete structure over Union Pacific Ry., near Jean, Clark County, Nev., a length of approx. 104 ft. Project involves 200 cu. yds. excav. unclassified (rdwy.); 210 cu. yds. struc. excav.; 210 cu. yds. class A conc.; 14,900 lbs. struc. steel (in place); 32,700 lbs. reinf. steel; 1600 lin. ft. woven wire guard fence. Plans obtainable from above and on file in office of U. S. Bur. Pub. Rds., Sheldon Bldg., San Francisco.

SAN BENITO COUNTY, Cal.—As previously reported, bids will be rec. by State Highway Commission, April 25, to const. reinf. conc. girder bridge over Pacheco Creek, 6 mi. north of Hollister, consisting of three 60-ft. and two 28-ft. spans. Project involves 480 cu. yds. structure excavation; 300 cu. yds. class B, 495 cu. yds. class A and 24 cu. yds. class E cem. conc.; 103,000 lbs. reinf. steel; 230 cu. yds. struc. backfill.

LOS ANGELES, Cal.—L. J. Bristow Co., 17th and Colorado, Santa Monica, awarded cont. by county at \$16,790 to const. conc. bridge on Pomona Blvd. over San Jose Creek.

SAN BERNARDINO, Cal.—Until 11 a. m., April 25, bids will be received by county to const. steel plate girder highway bridge 84 ft. in length, and for const. of two concrete abutments and one concrete curtain wall and a reinf. conc. floor for said bridge, located on Allesandro Rd., across San Timoteo Creek, immediately south of the city limits of Redlands. Howard L. Way, county surveyor. Certified check, 5%. F. J. Atkinson, clerk of the board.

RIVERSIDE, Cal.—County supervisors have decided that best interests of county would be served by const. of permanent type of structure to span Santa Ana River at Auburndale. County Engineer A. C. Fulmor's estimate is \$114,000. Two other bridges, estimated to cost nearly \$100,000, are those at Temecula and at Gilman's Relief Hot Springs.

EUREKA, Humboldt Co., Cal.—The county rejects bids to construct two small conc. bridges, one over Fielder Creek and another over Healey Creek, near Carlotta. Bids were considered too high.

## DREDGING, HARBOR WORKS AND EXCAVATIONS

TUCSON, Ariz.—Election will be held May 9 to vote \$173,000 bond issue to const. flood control system.

BAKERSFIELD, Kern Co., Cal.—Civic Commercial Assn. backs proposal to form levee district to protect Bakersfield and adjacent territory; cost of levee is estimated at \$40,000; would be 3 mi. in length, 30 yds. wide at base and 10 yds. at top.

## IRRIGATION PROJECTS

PROBERTA, Tehama Co., Cal.—R. A. Dodson, Chico, at \$32,052.50 awarded cont. by El Camino Irrigation District to const. pipe lines.

WATERFORD, Stanislaus Co., Cal.—Until May 2, 3 p. m., bids will be rec. by C. S. Abbott, secty., Modesto Irrigation District, to const. drain ditch known as Ketcham Brothers Drain, involve 15,000 cu. yds. of earth from a trench 4200 ft. long. Cert. check 10% payable to treasurer of Modesto Irrigation District req. Plans obtainable from secty. See call for bids under official proposal section in this issue.

ENCINITAS, Cal.—Crump Irrigation & Supply Co., organized with a capital of \$50,000, is preparing to install various irrigation systems on a time basis.

## LIGHTING SYSTEMS

HUNTINGTON BEACH, Cal.—City plans to replace all gas lights on city streets with electricity. J. A. Armistage, secretary of the chamber of commerce, has been securing data.

PASADENA, Cal.—Until 10 A. M., April 19, bids will be rec. by the city for ornamental lights, Union metal lights standards No. 792, on Mentor St., bet. Green and Del Mar. W. C. Earle, city eng. Bessie Chamberlain, city clerk.

RIVERSIDE, Cal.—City Eng. Campbell preparing plans for ornamental lights in Brockton and Stewart Sts.

LONG BEACH, Cal.—Until 9 a. m., April 19, bids will be rec. by city for ornamental lights in 7th St., bet. Alamitos Ave. and east R/W L. A. County flood control district; 1911 act. H. C. Waup, city clerk.

SAN BERNARDINO, Cal.—City plans ornam. lights in Mount Vernon Ave. and Santa Fe Viaduct.

NEWPORT BEACH, Cal.—City Eng. Paul E. Kressly, H. W. Hellman Bldg., Los Angeles, preparing spec. for ornamental lighting system, walks and curbs with landscape work in Corona del Mar.

LOS ANGELES, Cal.—City plans ornamental lighting system in Hauser Blvd., bet. Wilshire and San Vicente Bvds., and other streets; conc. posts; 1911 act.

SANTA ROSA, Sonoma Co., Cal.—Petitions in circulation for presentation to city council seeking installation of electrolight system in Fifth St.

SAN JOSE, Santa Clara Co., Cal.—City declares inten. (3506) to install 34 electrolights with wiring, etc., in Santa Clara St., bet. 1st and 7th Sts. 1911 Act; Bond Act 1915. Protests May 9. John J. Lynch, city clerk. Wm. Popp, city engineer.

LOS ANGELES, Cal.—City plans ornamental lights in Vineyard Ave., bet. Venice and Washington Bvds., and portions of other streets in Venice Blvd. and Vineyard Lighting District; concrete posts. 1911 act.

ALHAMBRA, Cal.—Until 8:30 a. m., April 26, bids will be rec. by city for ornamental lights in Front and other streets. Plans obtainable from city clerk, R. B. Wallace; 1911 act. Otto N. Rugen, acting city eng.

LOS ANGELES, Cal. — Harold N. Jackson, 414 S. Myrtle Ave., Monrovia, sub. low bid to county at \$18,335 for ornamental lights in I. No. 614, California Ave., Home Gardens, bet. Tweedy and Abbott Rd. and south boundary of South Gate, involving 82 Union Metal posts.

SAN BERNARDINO, Cal.—Until 7:30 p. m., April 25, bids will be rec. by city for ornamental lights in Mount Vernon Ave, bet. 8th and 4th Sts.; conc. posts; 1911 act. John H. Osborn, city clerk. Chas. E. Johnson, city engineer. Est. cost \$17,000.

LOS ANGELES, Cal.—City Improvement Co. sub. low bid to Bd. Pub. Wks. at \$24,991 for ornamental lighting system in Pico Blvd., bet. Robertson Blvd. and Beverly Dr.

MACHINERY & EQUIPMENT

LONG BEACH, Cal.—Until April 18, 8 P. M., bids will be received by Long Beach High School District, to furnish equipment for new shop building at Avalon School, Santa Catalina Island. Spec. obtainable from G. W. Scott, Supt. of Bldgs. and Grounds, 1615 California Ave., Long Beach.

SAN FRANCISCO—Until April 14, 11 a. m., under Order No. 8099-1069, bids will be rec. by U. S. Engineer Office, 35 Second St., to fur. and del. Rio Vista, Solano County, one 10-ton traveling crane, 3 ball and socket joints, 21-in. O. D. 90-deg. elbow and miscellaneous castings. Further information obtainable from above office on request.

EUREKA, Humboldt Co., Cal.—Until May 2, 7:30 p. m., bids will be rec. by Geo. B. Albee, city supt. of schools, to fur. one Pierce-Arrow 6-cylinder dual valve 220-in. wheel base Model Z motor bus with Gruss air springs front, 35-passenger school bus body, and one Dodge sedan. Further information obtainable from above.

MADERA, Madera Co., Cal. — Until May 3, 10 a. m., bids will be rec. by I. W. Cooper, county clerk, to fur. one new Adams One-Man Road Maintainer, No. 6, f.o.b. Friant, Cal. Further information obtainable from clerk.

BAKERSFIELD, Kern Co., Cal.—Cousins Tractor Co., at \$5,000 awarded contract by city to furnish 16-h. p. caterpillar tractor. Haynes Co., at \$1,350 awarded cont. to fur. grader, planer and scarifier.

RAILROADS

PHOENIX, Ariz. — Election will be held April 30 to vote \$750,000 bond issue to rehabilitate and reconstr. city street railway system. Hugh Callahan, city clerk.

FIRE EQUIPMENT

RIVERSIDE, Cal. — \$75,000e bond election for fire equipment and additions to department will be held in

MISCELLANEOUS SUPPLIES

LIVERMORE, Alameda Co., Cal.—Bids will be asked at once by city to fur. and del. 250 double faced street designation signs. Samples to be submitted with bid. Further information obtainable from city clerk.

PITTSBURG, Contra Costa Co., Cal.—Columbia Steel Corp. has contract to fur. 400 tons of sheet steel for the manufacture of 1923 motor vehicle license plates for the State of Washington.

BERKELEY, Alameda Co., Cal.—Until April 19, 10 A. M., bids will be rec. by Emma M. Hann, city clerk, to ur. 2350 gals. lubricating oil, during fiscal year commencing July 1; delivery f. o. b. Corporation Yard, Berkeley. Cert. check \$100 req. with bid.

BERKELEY, Alameda Co., Cal.—Until April 19, 10 A. M., bids will be ec. by Emma M. Hann, city clerk, to ur. 4000 gals. kerosene during fiscal year commencing July 1; delivery to f. o. b. Corporation Yard, Berkeley.

SAN FRANCISCO—Until April 18, 11 A. M., bids will be received by Leonard S. Leavy, city purchasing agent, to ur. rafter hose for Park Commission. Further information obtainable from above.

RESERVOIRS AND DAMS

SONORA, Tuolumne Co., Cal.—Johnson & Atkinson, 402 S. Manhattan, Los Angeles, sub. low bid to Waud, Ramelli & Lewis, 428 Oak St., Ventura, Cal., at \$11844 to const. multiple arch dam for Twain Harte Realty Co., 11 miles northeast of Sonora, Cal., on Mono state highway, involy. 245 cu. yds. of Class B conc., 168 cu. yds. B conc., 55 cu. yds. solid rock, 21,600 lbs. reinf. steel, 7,700 sq. ft. Gunitite. Other bids: H. C. Whitty, \$13,485.63; C. B. Davison, \$15,136.50; R. B. McKenzie, \$16,900; Matthews Constr. Co., \$18,204.

PALO ALTO, Santa Clara Co., Cal.—R. B. McKenzie, Gerber, at \$33,275 sub. low bid to city to const. reservoir on Stanford lands, involy. 14,000 cu. yds. excavation; 1209 cu. yds. fill; 1500 yds. reinf. conc.; storage capacity 3,500,000 gals. Complete list of bids follow:

SEWAGE DISPOSAL PLANTS

LIVINGSTON, Merced Co., Cal.—Engineer John S. Bates, Fresno, has been selected by city to prepare estimates of cost for proposed new water and sewage system. Bonds of approximately \$85,000 will be voted to finance the work.

SAN LUIS OBISPO, Cal. — \$25,000 bond issue for Imhoff sewage disposal plant carried at recent municipal election.

WEIMAR, Placer Co., Cal.—Until May 5 2 p. m., bids will be received by W. W. Russell, clerk, Weimar Joint Sanatorium Committee, at office of Board of Supervisors, Courthouse, Sacramento, to construct sewage disposal syste mand outfall sewer line on Weimar Joint Sanatorium grounds. Cert. check 10% req. with bid. Plans on file at office of county surveyor at Woodland and office of Medical Director of Sanatorium at Weimar.

TUCSON, Ariz.—\$120,000 bond issue for extensions to sewer system and \$100,000 bond issue for sewage disposal system will be voted on at special election May 9. Black & Veatch, Ferguson Bldg., Los Angeles, engineers, on work.

LEMOORE, Kings Co., Cal.—C. C. Kennedy, consulting engineer, call Bldg., San Francisco, commissioned by city to make survey for proposed new sewage disposal plant.

MISCELLANEOUS CONSTRUCTION

TUCSON, Ariz.—Election will be held May 9th to vote \$54,000 bond issue to enlarge barbage disposal system.

LONG BEACH, Cal.—Until 10 a. m., April 18th, new bids will be rec. by City Manager Chas. S. Henderson to const. 10,000,000 cu. ft. gas holder. W. A. White supt. of gas plant. Previous bids rejected due to technicality in low bid, viz: a time limit on the \$500 per diem penalty. The specifications did not permit a time limit on the penalty. The new specifications will be changed to permit this.

OAKLAND, Cal. — Preliminary surveys to determine most feasible route for a new tunnel through the hills into Contra Costa County to relieve congestion on the Tunnel Road have been completed by J. R. Graham, engineer for the Joint Tunnel Engineering Commission, recently appointed to study the question. According to the report, there are three possible routes reaching Broadway in the vicinity of the Sacramento Short Line right of way and the Claremont Country Club property. The tunnel lengths vary from 2300 to 2530 feet on this route, while on the Shepherd Canyon route the length for the single route thus far surveyed is 2690 feet.

LOS ANGELES, Cal.—Until 10 a. m., April 25, bids will be rec. by board of public works to const. pedestrian subway across Western Ave. at 35th Pl. Plans on file at office of city engineer, 242 S. Broadway.

CALIFORNIA — State Department of Public Works, Division of Water Rights, Sacramento, during the month of March granted the following permits to appropriate water:

Permit 2735, Application 4959 (Butte Co.), issued to Gray Lodge Gun Club, Sacramento, for 15 cu. ft. per sec., for irrigation of 2184 acres. Est. cost \$10,000.

Per. 2736, App. 4741 (Calaveras Co.), Calaveras Cement Co., San Francisco, 2.50 cu. ft. per sec., for industrial purposes at cement plant. Est. cost, \$4000.

Per. 2741, App. 5236 (San Diego Co.), Mrs. R. Silva, El Cajon, Cal., 0.15 cu. ft. per sec., for domestic use and irrigation of 12 acres. Est. cost \$1500.

Per. 2742, App. 5019 (Trinity Co.), Charles F. Willard, Los Angeles, 25 cu. ft. per sec., for hydraulic mining. Est. cost \$30,000.

Per. 2743, App. 3364 (Solano Co.), Geary Rich, San Francisco, for 356 ac. ft. per annum and 10 cu. ft. per sec., for municipal purposes in Cordelia, Vallejo, Benicia, Suisun, Fairfield and adjacent territory in county of Solano. Est. cost \$2,000,000.

Per. 2744, App. 5134 (Tuolumne Co.), Yosemite Power Co., San Francisco, 175 cu. ft. per sec. and 65,000 ac. ft. per annum, for power purposes. 66,303 T. H. P. to be developed. Est. cost \$5,500,000.

Per. 2745, App. 5086 (Humboldt Co.), Wm. Campbell, Salyer, Cal., 5 cu. ft. per sec., for power purposes at sawmill. 11 T. H. P. to be developed. Est. cost \$1200.

Per. 2749, App. 5347 (Calaveras Co.), Bear Mountain Development Co., San Francisco, for 10.62 ac. ft. per annum, for mining and domestic purposes. Est. cost, \$3100.

Per. 2750, App. 5264 (Santa Barbara Co.), Daniel J. Filloponi, Santa Maria, 0.006 cu. ft. per sec., for stock and domestic purposes. Est. cost \$1000.

Per. 2751, App. 4523 (Los Angeles Co.), La Joya Lodge Corporation, Los Angeles, for 0.025 cu. ft. per sec., for domestic purposes near point of diversion. Est. cost \$5175.

Per. 2752, App. 4668 (Los Angeles Co.), La Joya Lodge Corporation, Los Angeles, 2275 gallons per day, for domestic purposes near point of diversion. Est. cost \$2300.

Per. 2755, App. 5088 (Sierra Co.), L. Hull, Downieville, 2.5 cu. ft. per sec., for power purposes, 85 T. H. P. to be developed. Est. cost \$2000.

Permit 2757, App. 5107 (Humboldt Co.), Oscar L. Nottley, Eureka, for 10 cu. ft. per sec., for power purposes, 321 T. H. P. to be developed. Est. cost \$32,000.

Per. 2758, App. 1987 (Stanislaus Co.), West Stanislaus Irrigation District, Westley, Cal., 262.15 cu. ft. per sec., for irrigation of 20,972 acres.

CALIFORNIA—State Department of Public Works, Division of Water Rights, during the month of March, received following applications for permits to appropriate water:

App. 5391 (Nevada Co.) Charles H. Munro San Francisco, for 50 cu. ft. per sec. from Bloody Run Creek and six tributaries, tributary to Middle Fork Yuba River for mining purposes. Est. cost, \$400,000.

App. 5393 (Riverside Co.) City of San Diego, San Diego, for 155 cu. ft. per sec. from Colorado River for power

purposes, 18,580 T. H. P. to be developed.

App. 5396 (Inyo Co.) Sam K. Adams, et al, Darwin, Calif., for 0.37 cu. ft. per sec. from Grape Vine Spring, Adam Spring, Burro Spring Willow Spring and Mesquite Spring for mining purposes. Est. cost, \$6,000.

App. 5380 (Los Angeles Co.) Ralph Bennett, Central Bldg., Los Angeles, for 5000 ac. ft. per annum from Big Rock Creek tributary to Antelope Valley Drainage for agricultural purposes. Est. cost, \$25,000.

App. 5381 (Inyo Co.) E. A. Ludwick, Box 675 Big Pine, Calif., for 0.25 cu. ft. per sec. from McMurray Springs for mining purposes. Est. cost, \$25,000.

App. 5382 (Sierra and Nevada Counties) Charles H. Munro, Hobart Bldg., San Francisco, for 182.5 cu. ft. per sec. from Middle Fork of Yuba River tributary to Yuba River for mining purposes. Est. cost, \$800,000.

App. 5384 (Merced Madera and Fresno Counties) San Joaquin River Water Storage District, care of Harry Barnes, Bank of Italy Bldg., Los Banos, for 1000 cu. ft. per sec. from Reservoirs of Southern California Edison Company and San Joaquin Light & Power Corporation, tributary to San Joaquin River for irrigation purposes on 552,000 acres. Est. cost, \$29,732,400.

App. 5385 (Alameda Co.) Emil Enquist and George Warnmark, Davis Creek, Calif., for 400 ac. ft. per annum from two Unnamed Ravines, tributary to Goose Lake for irrigation purposes on 236 acres. Est. cost, \$2400.

App. 5386 (Merced Co.) Geo. S. Bloss Jr., % F. W. Henderson, Atty., Merced, for 20 cu. ft. per sec. from Duck Slough tributary to San Joaquin River for irrigation purposes in 1625 acres. Est. cost, \$10,000.

App. 5387 (San Diego Co.) Cromwell D. Eddy and Alvin W. Killam, 1132 20th Street, National City, for 0.25 cu. ft. per sec. from Spring tributary to Sweetwater River, for irrigation and domestic purposes on 20 acres. Est. cost, \$1000.

App. 5369 (Trinity Co.) O. E. Freeman, 4259 S. Normandie St., Los Angeles, for 1000 cu. ft. per sec. and 150,000 ac. ft. per annum from Trinity River tributary to Klamath River for power purposes. 17,000 T. H. P. to be developed.

App. 5374 (Sacramento Co.) F. A. Wadsworth, Sacramento, for 2.50 cu. ft. per sec. from Sacramento River for irrigation purposes on 200 acres. Est. cost, \$2000.

App. 5376 (Placer Co.) Brockway Tahoe Vista Corporation, 693 Sutter St., San Francisco, for 1.00 cu. ft. per sec. and 3.00 ac. ft. per annum from Griff Creek tributary to Lake Tahoe for domestic and irrigation purposes on 80 acre lawn of golf course. Est. cost, \$15,000.

App. 5377 (Contra Costa Co.) Town of Walnut Creek, % E. B. Anderson, Box 6 Walnut Creek, for 150 ac. ft. per annum from Walnut Creek tributary to Suisun Bay for municipal purposes. Est. cost, \$50,000.

App. 5378 (San Joaquin Co.) Banta-Carbona Irrigation District, Drawer Z, Tracy, for 5 cu. ft. per sec. from Corral Hollow Creek, tributary to San Joaquin Watershed for irrigation purposes on 5120 acres. Est. cost, \$7000.

## WATER WORKS

MENROVIA, Cal.—A series of conferences are being held bet. trustees and local property owners and citizens regarding proposal to call bond election to vote from \$200,000 to \$250,000 for a water extension program, in accordance with a report of City Engineer O. A. Gierlich. A reservoir of from 2 to 2½ million gallon capacity, a 20-in. pipe line from the San Gabriel wells to the Lime St. reservoir, are among the items proposed.

HEALDSBURG, Sonoma Co., Cal.—De Laval Steam Turbine Co. at \$1690 awarded cont. by city to install 1200-gal. centrifugal pump and 100-h. p. motor for water works. Other bids: Fairbanks, Morse Co., \$1254; Pelton Water Wheel Co., \$1989.

PROBERTA, Tehama Co., Cal.—Byron Jackson Pump Mfg. Co., Berkeley, at \$3906 awarded cont. by El Camino Irrigation District to fur. and install 3 pumping plants.

LOS BANOS, Merced Co., Cal.—E. W. Redman, Fresno, at \$15,505.80, submitted low bid to city to install c. i. mains, hydrants, etc., in connection with water system. Other bids: Geo. C. DeGolyer, \$15,990; H. Gould, \$17,000; Jasper-Stacy Co., \$17,045; W. J. Tobin, \$22,000. Taken under advisement.

WOOLAND, Yolo Co., Cal.—Diamond Match Co., Chico, awarded contract by city to fur. R. W. tanks for municipal water system; two 18-ft. tanks, \$1894; two 20-ft. tanks, \$2146.

WALNUT CREEK, Contra Costa Co., Cal.—K. Nass, consulting engineer, in report to town trustees regarding proposed water system, submits following estimates of cost: Purchase of reservoir site, \$19,500; intake line from creek to dam, \$10,000; supply line from dam to Walnut Creek, \$10,000; settling tank and filters, \$8,000; total, \$47,500.

SAN BERNARDINO, Cal.—Until 7:30 p. m., April 19, bids will be rec. by city water comm. to fur. 7,850 lin. ft. 6-in. 14-gauge riveted steel pipe, Cert-check or bond, 10%. John H. Osborn, city clerk.

BEVERLY HILLS, Los Angeles Co., Cal.—Engineers Salisbury, Bradshaw & Taylor, 745 Petroleum Securities Bldg., Wm. Thomas, architect, are preparing plans for a two-story and part one-story aeration plant to be erected at Beverly Hills as a part of the municipal water system for the city of Beverly Hills. It will be 200x280 feet, with a central tower 100 feet high. It will be of reinforced concrete construction, Spanish style, with stucco exterior, clay tile roofing. The cost is estimated at \$200,000.

SANTA ANA, Cal.—Layne & Bowler, 900 Santa Fe Ave., Los Angeles, awarded cont. by city at \$1600 for turbine pump, and Fairbanks, Morse & Co., 427 E. 3rd St., at \$2030 for booster pump.

BEVERLY HILLS, Cal.—Crane Co., 319 E. 3rd St., Los Angeles, awarded cont. by city at \$2.50 ft. for bet. 2000 and 3000 ft. Matheson steel pipe for water system.

CHICO, Butte Co., Cal.—Proposal to vote bonds of \$99,810 for domestic water system in South Chico district failed to carry by 52 votes.

LA MESA, Cal.—Pacific Tank & Pipe Co., 4820 Santa Fe Ave., Los Angeles, sub. low bid to La Mesa Irrigation Dist. at about \$3000 for 20,000-gal. redwood tank with cov. r. L. H. King, La Mesa, engineer.

LIVINGSTON, Merced Co., Cal.—Engineer John S. Bates, Fresno, has been selected by city to prepare estimates of cost for proposed new water and sewage system. Bonds of approximately \$85,000 will be voted to finance the work.

REDWOOD CITY, San Mateo Co., Cal.—Ravenswood Water District votes bonds of \$30,000 to finance installation of water system; 87 in favor and 13 against proposal. Geo. A. Kneese, Courthouse, Redwood City, engineer of district.

SANTA ANA, Cal.—National Cast Iron Pipe Co., 903 Hellman Bank Bldg., Los Angeles, awarded cont. by city at \$9159.60 to fur. C. I. pipe (2676 ft. 14-in., 576 ft. 20-in. and 264 ft. 16-in.)

OAKDALE, Stanislaus Co., Cal.—Western Well Works, at \$1,314.70 sub. low bid to city to fur. electrically equipped centrifugal pump, 600 to 800 gal. capacity per min. Other bids, all taken under advisement, were: Pomona Manufacturing Co., \$1,350; Sterling Pump Works, \$1,553; Byron Jackson Co., \$1,557. Geo. Macomber, city engineer.

## THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

## HARDWARE MEN ELECT

Alex H. Smith of Sacramento was elected president of the Sacramento Valley Retail Hardware Association, at the annual meeting of that body in the Hotel Senator, Sacramento, April 11. The other officers are: W. Lang, Penryn, vice president; M. Burchell, Wheatland, treasurer; R. Fitzgerald, Sacramento, secretary.

## PAINT, OIL AND VARNISH MEET SET FOR PORTLAND

The Portland Paint, Oil & Varnish Association will be host to the Western Zone convention of the National Paint, Oil & Varnish Association which will be held in Portland, Ore., July 6, 7 and 8.

This is a convention of paint manufacturers and distributors of the western states. Fully 300 delegates and wives are expected. Headquarters will be at the Multnomah Hotel. A feature of the convention will be the 175-mile Mt. Hood loop trip with a banquet at the Columbia Gorge Hotel.

J. H. Jones of W. P. Fuller & Company, will be in charge of publicity for the convention.

## CEMENT LOADED BY AIR BLAST ON LAKE BOATS

Blowing a ship's cargo into its compartments by means of compressed air, and removing it in the same way, sounds fanciful, but that is the procedure in the Daniel McCool, a lake boat carrying bulk cement between Manitowoc, Milwaukee, and Chicago, on Lake Michigan, says Popular Mechanics Magazine. The air method saves handling bags with the attendant bother and loss from breakage. The cement is blown through pipes to the boat directly from the works, although there is a bagfilling apparatus on the craft for the delivery of small orders. Diesel engines and electrically driven propellers, as well as many other modern features, are found on the boat, which is said to be the only one of its kind.

## ELECTRICAL PRODUCTS COMPANY WINS SIGN SUIT

Permanent injunction against the General Sign Company in favor of Electrical Products Corporation was granted April 19 by Federal Judge James in United States District Court, Los Angeles. The injunction restrains the defendant company from use of the plaintiff's patents.

The patents involved in the suit are those taken out by Claude Neon and are used in the manufacture of electric signs by Electrical Products Corporation. The making of the injunction permanent follows the temporary order entered by the court several weeks ago.

News of the decree was received at the Oakland office of the corporation in a telegram from Los Angeles, which said, in part: "This injunction is weeping and fully confirms Claude's patents relating to electrodes."

## OREGON LUMBER CUT NINE PER CENT HIGHER

An increase of nearly nine per cent over the 1925 figures of lumber cut in Oregon and Washington is revealed by the forest service and board of census in their annual estimates.

In 1925, approximately 11,243,000,000 board feet was cut while in 1926, 12,583,000,000 board feet was the output. Oregon's increase, according to the estimate, was about 5 per cent with 4,266,000,000 feet cut, while that of Washington was nearly 11 per cent or 8,320,000,000 feet.

Information was based on identical mills representing 65 per cent of the total output of the two states.

Oregon and Washington are said to be furnishing about one-third of the total lumber cut of the United States,

## CEMENT MAGNATE AMAZED AT PACIFIC COAST PROGRESS

Visiting the Pacific coast for the first time in eight years, G. S. Brown, president of the Portland Cement Association, composed of 86 companies, expressed himself as being literally amazed at the tremendous progress he is encountering on every side. Mr. Brown is president of the Alpha Portland Cement Company of Easton, Pa., and Chicago, one of the largest cement concerns in the country. In company with C. A. Irwin, vice-president of the company, he is making a tour of the Pacific coast states.

"This district leads the country in the use of cement for city streets, I have learned, and is right up in the front rank with the most progressive states in the building of paved highways," said Mr. Brown.

"Your architects here have certainly worked wonders with their adaptations in concrete and stucco. Every home, every building and even your industrial structures where exterior adornment is unexpected, show a distinct artistic character that is unusually striking.

"During my trip through the east, southeast and middle west I failed to find that there is any indication of a definite wane in building activities as has been reported at various times by some industrial writers. They should come out here and take a tour through your end of the country to regain their optimism.

"I cannot persuade myself that we have anything about which to feel the least bit downhearted. The cement industry is comparatively new. Thirty years ago we showed a national production of less than 3,000,000 barrels, while last year ended with a record of 164,000,000 barrels, and this year looks better than last. That production represents an investment of nearly \$500,000,000.

"There are only two distinct menaces which we have to combat. One is the importation of foreign cements which are admitted free of duty from Europe and other countries where the almost pauper labor permits a production cost that American wage scales and living standards make it impossible to even approximate. The other is the over-production of cement in certain parts of this country which must eventually be absorbed by a system of wider distribution and increased consumption through greater and faster construction improvement in both public and private projects."

## SACRAMENTO VALLEY ENGINEERS ENJOY BANQUET

Approximately seventy-five engineers, members of the Sacramento Valley Electrical Society met at the College of Agriculture, Davis, April 13 as guests of the division of engineering of the agricultural college. Professor L. E. Reukema of the University of California spoke on the subject. What Is Electricity? A banquet was part of the program which was in charge of B. D. Moses.

## PROPOSE TO STANDARDIZE SPEED OF MACHINERY

Standardization on a national scale of the speeds of machinery is proposed by the National Electrical Manufacturers Association in a request to the American Engineering Standards Committee to take the matter up with the purpose of simplifying and clarifying the existing situation which is stated to constitute a serious burden on industry through the resulting waste and confusion.

In making the request the Association states:

"Under present conditions the curve of the speeds of driven machinery is practically a random distribution without any logical ordering of the values used. As a result of this, the sizes of pulleys, gears, sprockets, etc., which manufacturers have to produce, and which manufacturers, jobbers, dealers and users must keep in stock have been multiplied almost endlessly.

"While the need for simplification of driving and driven connections has been apparent for years, particularly to producers of electric motors, steam plished, because without co-ordination and standardization of the speeds of driven and driving machinery considered together, not satisfactory solution can be obtained."

It is the view of the electrical manufacturers that the proposed standardization which should result in a relatively small number of co-ordinated speeds for the almost innumerable kinds of machinery, would afford an easy approach to the problem of simplification and standardization of pulleys, gears, sprockets, etc., and would permit much greater flexibility in the selection and use of both power units and driven machinery, greatly promoting interchangeability of such units, and providing economies for innumerable industries dependent upon such equipment.

As the first step, the American Engineering Standards Committee will convene a general conference of the principal trade associations, technical societies, and other groups interested in this subject.

## E. A. GARIN, 52, ARCHITECT, DIES OF FRACTURED SKULL

E. A. Garin, 52, San Francisco architect, was found dead in his bed April 17. His skull had been fractured. Police are investigating to determine if he had been slugged and robbed by bandits. Mr. Garin, on his arrival home, complained of illness, and was put to bed by his children. He had been ill for some time.

He fell into a sound sleep and apparently died without awakening.

The skull fracture was discovered by the autopsy surgeon.

Relatives said Mr. Garin usually carried considerable money, and the fact that he returned home with his pockets empty was taken by police to indicate that he had been slugged and robbed. He is survived by three children.

# No Substitute For Lime Is Claim Of Construction Chief

"The prospective home-owner of today will do well to remember, when he discusses with his architect and builder the plaster, mortar, stucco or concrete to be used, that there never has been a substitute for lime in construction, and there never will be," asserts J. S. Elwell, head of the construction department of the National Lime Association, in discussing the use of lime in these important phases of building.

"This has been proven by existing buildings for thousands of years," continues Mr. Elwell, "and it is because lime is the best material for making these that its use has been so general and that it has been found to be indispensable in construction. Just as lime always has been used, so will it always be used wherever economical and permanent building is carried on."

"Stucco is fundamentally a covering to conceal and protect whatever method of construction is used. It must be composed of materials that will withstand all weather conditions, and the proof that lime stucco meets this requirement is its universal use. The excessively damp climate of England has not affected it in hundreds of years. Germany knew no other stucco in the past and finds lime equally good today. In hot, dry Mexico, lime stucco is now used as extensively as it was generations ago. The long, cold winters of New England and Canada do not bother the lime stucco that has stood there for years."

"No use of lime is more important than its use in plastering. It has su-

perior rust resisting, fire retarding and sound insulating properties. Whether wood lath or metal lath is used, the durability of the surface depends on the action of the plaster on metal. If the metal lath or the nails in the wood lath are not protected from corrosion, the plaster is liable to failure and occupancy of a building may become actually hazardous. It has long been known that lime prevents rust, and is a preservative of the metal upon which it is placed."

"The general public knows lime as something to stick bricks together, and that knowledge is correct, although incomplete. It is not necessary to add other materials to lime mortar. It stands alone, durable and strong. There are countless examples of straight lime mortar being used where strength was the most important single factor considered."

"The fact that lime is added to concrete by the biggest men in the construction industry indicates its value. Structural, or building concrete, is generally difficult to work into the forms because of small sections and heavy or complex reinforcing. Workability, or the ability of concrete to be worked into place, is obtained by adding either water or lime. As excess water reduces the strength of the concrete and lime does not, it follows logically that if the required workability is obtained by lime and the amount of excess water is reduced, the concrete will be stronger. Where concrete is used in the construction of private homes, the same condition exists."

## Standards Bureau Reports On Test Of Brick Masonry

Progress of tests on brick masonry carried on for the last year by the Bureau of Standards of the U. S. Department of Commerce in co-operation with the Common Brick Manufacturers Association of America is recounted in the Technical News Bulletin of the bureau for February. "While brick masonry is one of the oldest recorded types of construction, there has been practically no data on which to erect standards," says the Bulletin. "This lack of fundamental information is probably largely responsible for the present unsatisfactory state of specification writing as applied to brick and the wide variation in building-code requirements concerning brick masonry."

"The investigation may be considered as divided into two sections. The first section consists of an investigation of the properties of individual bricks. These bricks are representative of four types of commercial production and are believed to be typical. Information gained from the results of this work has been made use of already by one of our national societies devoted to standardization. The second section consists in the construction of test walls as hereinafter described. The results obtained from the individual tests, correlated with results obtained from the masonry tests give information directly applicable to the formulation of standards and specifications for brick."

"The program consists of tests on 153 walls, divided into four series. The variables consist of two types of workmanship, four kinds of clay brick, three kinds of mortar, and different types of construction covering eight and twelve-inch solid walls and the various eight and twelve-inch hollow walls used by the Common Brick Manufacturers Association. Tests on the association's 4-in. economy wall are also included."

"The results secured from the tests on hollow walls of brick will be of interest because they will help to answer the questions as to whether the traditional solid masonry may not be in part replaced by a wall which will permit a more economical utilization of the material."

"The two types of workmanship have several distinctive features, the chief one being the practical absence of vertical joint filling for walls in series 1 as against complete filling of joints in series 2, 3 and 4. Series 1 was constructed by contract, to secure a grade of workmanship comparable to unskipped commercial work. Series 2, 3 and 4 are constructed by day labor with rather careful supervision. However, no laboratory refinements are introduced for the walls."

"The mortars are a 1:3 lime sand, a 1:1:6 lime-cement-sand, and a 1:3 cement-sand, all by volume, though the actual mixing is by weight, correction being made for moisture content of

the sand. In series 2, 3 and 4 an amount of hydrated lime equal to 10 per cent by volume of the cement is added to the 1:3 cement-sand mortar. It was originally intended to have the four grades of brick (one for each series) correspond to the four grades specified by the American Society for Testing Materials, viz., soft, medium, hard and vitrified. On testing the brick it was found that they graded as follows:

Brick for Series	A. S. T. M. grade in			
	Compression	Modulus of rupture	Absorption	
Series 1	Medium	Vitrified	Medium	
Series 2	Medium	Hard	Soft	
Series 3	Hard	Hard	Soft	
Series 4	Vitrified	Vitrified	Hard	

"In addition to the tests made to determine the A. S. T. M. grade, additional tests were made for tensile strength and strength in shear, and for absorption without boiling, and for rate of absorption."

"The walls are 6 feet long by approximately 9 feet high and of nominal thickness of 4, 8 and 12 inches, depending upon the type of construction. For each wall a corresponding small wall or walette, 18 inches long by 34 inches high, is built. The walls are tested by loading concentrically to the maximum in the 10,000,000-pound compression machine. Strain measurements are taken both horizontally and vertically. On some walls readings are taken for repeated application of load."

"At the time of writing the investigation is incomplete, hence only the most general and obvious conclusions can be drawn:

"1. Using brick of the same grade and the same construction, walls having all joints filled give greater strength than walls with open joint work."

"2. On solid walls, the stronger the mortar the greater the strength of the wall."

"3. For solid walls the strength of the wall depends upon the strength of the brick; the stronger the brick the stronger the wall."

"4. Uniformity in the size and the shape of the individual bricks has bearing on wall strength."

"5. The transverse strength of the brick has no definite relation to wall strength for any type of construction."

"6. The ratio between the ultimate stress (lbs./in.<sup>2</sup>) in the large walls and the walleets is not constant for different types of construction."

### MACOMBER STEEL ISSUES NEW METAL LATH CATALOG

The Macomber Steel Co., Canton Ohio, manufacturers of Massillon bar joists, has just issued Metal Lath Catalog A. 1. A. No. 20-B-1, comprising eight pages and illustrated. The purpose of the catalog is to place useful information in the builders' hand regardless of the brand of lath he may use on his project inasmuch as the catalog classifies metal lath by the different methods of manufacture and by the use for which each is adapted. Definite recommendations are given for each use of lath as a plaster base or as form-work and reinforcement for concrete slabs and walls. This is tabulated taking into account the rigidity, weight, type of key and spacing supports.

The Macomber Steel Company was formed to take over the assets and organizations of The Massillon Steel Joist Company and The Canton Bridge Company. The company is headed by the same management and officers they have headed the Massillon Bar Joist organization since its inception with Stanley Macomber, president and general manager.

# Official Grading Of Building Costs As Compiled In Rochester

Here is the latest official information as to the comparative costs of buildings built of the principal building materials. The Rochester (N. Y.) City Board of Assessors, in making assessments of property valuation for taxation purposes, uses the cost of \$15 per square foot as the basis of computation.

This basis, which establishes the comparative cost of many classes of buildings and other buildings, is calculated for the board by a large number of experienced builders. Every reliable source of information, according to the Board of Assessors, was used in setting these values. The leading contractors, architects, materials dealers and realtors of Rochester gave their time and assistance most generously, and costs entering into every phase of the construction of a large number of buildings were carefully analyzed.

The resulting consensus of opinion established that for the cheaper types of dwellings for which common brick is used, houses with brick walls cost 10% more than those of frame construction covered with shingles or siding. Stucco on frame construction extended straight frame construction in cost by 4%. Brick veneer on frame cost 10% more than straight frame construction.

The use of face brick on hollow tile or common brick backing is exemplified in only one class of single dwellings, where it was found to cost about 10% more than straight frame.

Two-family dwellings in Rochester invariably accommodate one family in each story and are known as "Boston houses." When built with brick walls they were found to cost 15% more than similar dwellings of frame construction, this figure applying only for the cheaper types in which common brick are used. The same cost differential exists, however, between high grade two-family frame structures and those of face brick on tile backing. Stucco on tile costs 9% more than frame construction.

Four-family dwellings are almost entirely of frame construction, the

cost ranging from \$15 per square foot of ground area for good frame buildings to \$15.60 for stucco on frame and \$16.50 for brick veneer on frame.

Row houses are infrequent in Rochester and practically none are built of common brick. Large, two-story row dwellings of good construction range in cost per square foot of ground area from \$10 for straight frame to \$11 for brick veneer on frame and \$11.50 for face brick on tile backing.

In classes of buildings more utilitarian in character, the additional cost of masonry enclosure walls is more apparent. Two-story buildings with the first floor used for commercial purposes and the upper floor for a dwelling cost 22.5% more when built with brick on tile backing than when built of straight frame construction, and nearly 30% more when built of straight brick.

The Board of Assessors gives total construction costs for typical private garages as follows:

## Construction Cost

	A, siding shingle; C, cement block;	B, frame stucco; D, brick.	C	D
1-car	\$325	\$400	\$450	\$600
2-car	550	675	750	900
3-car	700	850	950	1175

For private garages of a higher type with some attention to architectural detail the construction costs are given as follows:

## Construction Cost

	A, shingle or siding; C, tile and stucco; E, brick.	B, frame and stucco; D, tile and brick.	3-car
1-car	\$450	\$750	\$1000
2-car	550	925	1200
3-car	650	1100	1400
4-car	725	1225	1575
5-car	775	1300	1700

It is notable that use for row dwellings, ordinarily held to make for economy, does not in the opinion of these investigators reduce the increased cost of brick over frame construction. The same cost ratios hold for high grade and low grade construction, indicating that percentage relations of this character may be used with confidence for dwelling construction in general.

increases from 50 cents to \$2 a day and the iron workers demand a five-day week. The employers will only agree to a continuation of the 1926 wage scale and the 44-hour week.

"The prices of building materials have been showing a downward trend, but it is not anticipated that the recession will be of major importance. It is well known that production has been keyed up to an abnormally high level to meet the demand of a boom construction period and competition is keen. There may be some further price cutting, but an upward swing in the late Spring would not seem unlikely.

"Taking the situation as a whole, however, it would seem that builders and others who had held up contemplated projects awaiting lower costs are again doomed to disappointment in 1927, and would do well to get their operations underway at once.

"Prospects of increased Spring building, higher living costs increased transportation costs, give little hope of any material reduction in construction costs in the near future."

## ECONOMICAL USE OF LUMBER IN MANUAL TRAINING SEEN

Manual training teachers in the schools of the country and leaders in the boy scouts, camp fire girls and other organizations which conduct manual training courses can do effective work in training students in the economical use of lumber, says the Forest Service, United States Department of Agriculture.

In much of the work done in manual training courses cheap grades of lumber can be used to just as good purpose as absolutely clear stock, it is declared.

The Forest service cites the example of a manual training teacher at one of the junior high schools who instructed a pupil to buy 16-foot clear boards a foot wide which were cut up into short and, in some cases, very narrow strips for the building of a set of shelves for a cabinet. This tendency to use clear lumber for such purposes is believed to be prevalent. This not only brings about an unnecessarily high expense to the students but runs counter to the present day tendency for more complete and effective utilization of lumber. The small pieces called for by much of the manual training work can be cut from low grade lumber containing knots and other defects. To do so would be to help the movement for better utilization of low grades of lumber. Many industries that use small pieces of standard sizes buy them from mills that salvage slabs, poor boards, and cull logs for this purpose. One of the greatest wastes of timber, the Forest Service declares, come from our failure to find or devise uses for the lower grade materials, and in some measure this comes from the American tradition of demanding the best lumber, no matter what use is to be made of it.

The structure occupied by the Sacramento Builders' Institute in the east side of Tenth Street between J and K Streets, Sacramento, has been purchased by C. F. Vining, Sacramento electrical contractor. The consideration involved in the transfer was approximately \$65,000. Vining acquired the structure for investment purposes.

# Building Wages Trend Toward Higher Level

Building trades worker's wages are trending slightly toward higher levels, according to the monthly review of the national building situation issued by the Building Economic Research Bureau of the American Bond and Mortgage Company, New York.

While reports from many cities indicate that there will be little likelihood of any radical widespread revision of existing scales this Spring," the review stated, "it appears at this time, however, that wage increases will be limited in a number of localities.

Contractors and builders appear generally agreed that there is not much chance of any material relief through wage reductions during the present year, unless there is a much later recession in building activity. As this does not appear likely for some time. It has been suggested, however, that the efficiency of labor will increase, and thus contribute in a small way to lower building costs.

"Contractors, through the National Association of Building Trades Employers, have united in opposition to further increases and it is possible that many demands will not be granted. There is a surplus of mechanics in all lines, except the mason trades, and this condition may have an important influence on Spring wage adjustments.

"Ten cities have reported higher wages in one or more trades since January 1st. These include Chicago, Philadelphia, Pittsburgh, Indianapolis, Salt Lake City, Utah, Oklahoma City, Dayton and Seattle. Practically all crafts here increased in San Francisco. Demands for increases from 5 to 12½ cents per hour are now pending in more than a dozen cities, including Cleveland, Boston and Cincinnati.

"In Pittsburgh approximately \$100,000,000 worth of construction is tied up by a strike of 1500 structural iron workers, hoisting engineers, steam fitters and cement finishers. They seek

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Apartment houses, already existing in a restricted single family zone, may be altered or enlarged to practically any extent which the owners desire. This assertion is made in an opinion from City Attorney Eugene K. Sturgis to Commissioner Frank Colbourn and the Oakland city building department. Owners of residences in these restricted zones have contended that apartment houses cannot be enlarged. Sturgis said that the ordinances, and adjudicated court cases, point to the conclusion that restricted district does not necessarily mean a restricted house in any place.

American Institute of Steel Construction, 285 Madison Ave., New York City, has issued a booklet "Steel Never Fails" which tells the story of structural steel as it has never been told before. The booklet makes clear, in terms understandable by the layman as well as by those versed in various phases of construction, just what qualities are responsible for the outstanding service performed by steel in the erection of structures of all types, from dwellings to bridges and skyscrapers. Copies of the booklet will be furnished on request to the Institute without charge.

The Headley Good Roads Company, Franklin Trust Bldg., Philadelphia, announces a new line of asphalt paints. One is designed for structural iron and steel, one for the interior and exterior of water pipes, one for boilers and piping of a heating plant, one for patching a leaky roof, one for smokestacks, one for the protection of concrete, and another for the hulls and bilges of ships. These paints are said to be acid proof, heat proof, alkali proof, water proof, and rust proof. The water pipe paint is said to impart no taste or odor to the water and to last the life of the pipe.

Labor won a fight in the Assembly April 14 when a bill designed to prevent "open shop" employers from requiring their employees to sign agreements that they will not join union labor organizations during the period of employment, passed by a 41 to 35 vote. A call of the house was necessary to muster enough votes to pass the measure. Contrary to expectations, there was no debate before the roll call on the bill.

Zellerbach Paper Co., San Francisco, submitted the highest bid to the Agricultural Department April 15 for the purchase of timber in Alaska to be used in manufacture of newsprint paper. If awarded the contract, the Zellerbachs plan an investment of several million dollars in establishing paper manufacturing mills near Ketchikan, Alaska.

Unfilled tonnage of the United States Steel Corporation decreased 42,979 in March. Unfilled tonnage on March 31, aggregated 3,553,140, against 3,597,119 on February 28.

The search for some manner of treating wood so as to make it fireproof is going on in many parts of the world. The latest achievement in this line is reported from Oslo, Norway, by the United States Tree Commissioner F. B. Lyon, located at Holsingfors, Finland. According to the report, a Norwegian engineer has developed a method of impregnating wood and even wall paper with a material that makes frame houses fireproof both internally and externally. A building has been erected in Oslo treated with this solution and in the course of repeated tests it was impossible to set fire to it. It is stated that the industrial manufacturers of lumber impregnated with the fireproofing material will soon be undertaken.

Municipally-owned utilities of Los Angeles are managed in a capable and efficient manner by the Commissioner of Water and Power, it is stated by John O'Toole, San Francisco City Attorney, who at the request of the Board of Supervisors visited that city to study workings of the municipal commission with a view to the preparation of a proposed charter amendment which would provide a similar system in San Francisco.

The Western Pacific Railroad Company has filed a petition with the Railroad Commission for a rehearing of its complaint against the Northwestern Pacific Railroad Company, in which the complainant asks the Railroad Commission to establish a through route and joint rates for the transportation of lumber between the lines of the two carriers.

More wood is used every year to heat the houses of the American people than to build them. Surprising as it is to learn that a greater quantity of wood, used as fuel, goes up in smoke each year than goes into our dwellings and other buildings, the fact is borne out by statistics of the U. S. Department of Agriculture which show annually for fuel and \$256,000,000 for lumber.

A quantity estimating department has been organized by the Structural Steel Board of Trade, an organization of the steel fabricators of New York City and vicinity, according to an announcement just issued by Charles L. Eidlitz, chairman. The new practice is expected to reduce the liability of mistakes, in the interest of both bidders and owners. Franklin H. Branin has been retained as engineer of the estimating department.

The City of Minneapolis recently adopted an ordinance which requires master lathers to be licensed with attendant fee of \$25 for the operator and a bond of \$2,000 conditioning them to the performance of their work in conformity to the city ordinance. Journeyman lathers must be registered. Permits to them are to be issued by the building inspector.

California State Senate has passed Senate Bill No. 319, providing for a division of school planning within the state board of education to pass upon plans for new schools and appropriating \$20,000 for such work.

More than one-half of the 500 painters, members of the Brotherhood of Painters and Decorators Union, who struck in Passaic and Bergen Counties, N. J., and in Rockland County, N. Y., returned to work on April 1st when the employers granted their demand for an increase of \$1 a day making their daily wage \$12.

More than 1500 plumbers, members of the Plumbers and Gasfitters' Union Local 1, of Brooklyn, went on strike April 1st in an effort to force the granting of their demands for \$13.20 a day and a working week of five days. Approximately the same number of plumbers' helpers joined the strike, making a total of more than 3000 men out.

A program for the developing of "Certified Heating" is being pushed by the Heating & Piping Contractors National Association. The authorization of the publication of a "Program for Establishing Certified Heating" has been made and this may be obtained by interested parties who write in to the national association whose headquarters are at 50 Union Square East, New York City.

By unanimous vote, the Senate on April 14 passed constitutional amendment No. 18, which would be submitted to the people at the next general election to vote \$10,000,000 bond issue for the abolition of grade crossings in the state.

General Electric Co. has announced successful development of metal railroad ties from used rails. The Delaware and Hudson Railroad has decided to adopt the new ties, it is stated, as the result of experiments made by William Dalton of the General Electric Company and H. S. Clarke, engineer for the railroad. The metal ties cost 60 cents to fabricate, wood ties cost, \$2.80.

The Long-Bell Lumber Co., Longview, Wash., has started a comprehensive plan to maintain a permanent supply of merchantable timber. It has already reforested 280 acres logged in 1924.

Joseph Losekann, architect and city building inspector of Stockton, has tendered his resignation to the city council. The resignation is effective at once. It is understood that Mr. Losekann proposes to devote all his time to private work. He has recently awarded contracts in connection with a \$150,000 apartment building in Stockton and has commissions for plans on several more projects. Mr. Losekann has been city building inspector for the past year. His successor has not been named.

# TRADE NOTES

Stockton is now recognized as a plumbing center by the plumbing and heating supply jobbers, as a result of two years' effort on the part of the Stockton Master Plumbers' Association, and the wholesale price of plumbing and heating supplies will hereafter be the same in Stockton as in San Francisco, reports E. H. Grogan, president of the Stockton organization. This new condition will result in a saving of approximately 5 per cent to the Stockton trade, which is the amount saved in freight, states Grogan. Stockton now has two plumbing jobbing houses. The Walworth-California Company has had a branch in Stockton for many years and the Morstulsaft Company has recently installed a branch in that city.

A. P. Sinclair, until recently with the Missouri Paint & Varnish Co., is now associated with Hill, Hubbell & Co., manufacturers of paints and varnishes, San Francisco. The latter company has obtained the right to manufacture and sell L & S Portland Cement and Mr. Sinclair will devote his time to the distribution of this product, as well as the company's line of house paints, varnishes and enamels.

G. W. Clanton has opened quarters at 177 West Santa Clara St., San Jose, and will carry a complete line of Glidden paint products. He will operate under the firm name of Clanton's Paint Store. Associated with him in the business are: Wm. Millard, shop manager; K. A. Scott, formerly of the Glidden factories and J. S. Odell, field salesman.

Bakersfield Rock & Gravel Company, operating in northeast Bakersfield near the Kern River, has recently completed plant improvements involving an expenditure of \$25,000 and proposes to expend an additional \$25,000 in the installation of a sand conveyor system and storage tanks for rotary clay, a product which hereafter will be marketed by the company. Directors of the concern are: A. H. Karpe, C. Sharpenberg, W. J. Walters, A. J. Rutz, J. C. Burke and C. F. Smith.

Chas. E. Prentiss and Roy L. Ballenger have purchased the paving business, plant and property of Raymond Crummey at Fifth and Keys Sts., San Jose. Prentiss, formerly connected with the Crummey plant as general superintendent for 12 years, has been recently doing paving work in the bay region. Ballenger has been doing paving contracting in California and Arizona for a number of years. In announcing the purchase of the Crummey plant, Prentiss stated that it will be conducted along the same aggressive lines as under Crummey.

Chas. J. Thelen will operate from 36 Howard St., San Francisco, under the firm name of Thelen Electric Supply Company.

E. N. Sherman and Walter L. Sherman will operate from 692 Geary St., San Francisco, under the firm name of Sherman Electric Company.

Scott's Lacquer Products, Inc., has opened new quarters at 42 Ninth St., San Francisco.

A. E. Larson, representing the Larson Roofing & Supply Co., Sacramento, has placed agencies for his product with the Union Lumber Co. in Marysville and the Nason Lumber Company at Yuba City.

J. H. Mockbee, formerly in charge of the plumbing department of the Minton Company, has entered the plumbing business for himself with headquarters at 500 Dana street, Mountain View.

Hoyt Heater Co. has moved from 285 O'Farrell street to 1277 Mission street, San Francisco.

National Refrigerating Co., has opened new quarters at 1129 Folsom street, San Francisco.

Anderson & Sons, plastering contractors, have been admitted to membership in the San Francisco Builders' Exchange.

Sierra Magnesite Co., operating a plant at Porterville, Tulare County, has moved its San Francisco offices from 404 Balfour Building to Room 901 233 Sansome street. The company specializes in crude, calcined, powdered and dead burned magnesite. Offices are also located in Chicago and New York.

Electric Construction Co. announces removal to larger quarters at 1228 H street, Fresno.

## ALONG the LINE

E. T. A. Bartlett has been named city engineer of Tracy. The office was recently declared vacant by the city trustees.

H. K. Fox will operate from 2510 Stuart St., Berkeley, under the firm name of University Hardware Company.

M. B. Harris of Fresno, a former member of the State Senate, has been named as the third member of the California State Highway Commission. The membership of the commission is now complete being composed of Ralph Bull of Eureka, chairman; J. B. Baumgartner of Santa Ana and Mr. Harris. The commissioners receive \$5000 a year.

George Posey, Alameda county surveyor, has requested the Board of Supervisors to adopt a definite policy on the construction of roads in subdivisions which later become the property of the county. At the present time Posey told the board, the county is paying high maintenance costs on poorly constructed roads.

Richmond city council contemplates a bond issue for \$395,000 to finance harbor improvements, comprising dredging, wharf and cargo building.

Edward C. Murphy, the first engineer of the water resources branch of the U. S. Geological Survey to be retired under the act for the retirement of employees in the classified civil service, will make his home in Berkeley.

Frank A. Nikirk, former city engineer of San Leandro, has been appointed supervisor of construction sales by the Caterpillar Tractor Company with headquarters at San Leandro.

Chas. Houser will succeed Sumner Clement as a member of the Berkeley City Planning Commission. The latter has tendered his resignation, effective June 1.

## ADD NEW VARIETY TO PAVING BRICK STANDARDS

At its annual meeting in Washington March 31 the Standing Committee on Simplification of Varieties of Paving Brick added the 2½x4x8½-in. plain wirecut brick to the "recognized" list, thus increasing the number to five. This is the first time that a variety has been added, previous action of the committee having always been the elimination of varieties or the approval of previous action.

The 2½x4x8½-in. plain wire-cut brick was one of the 55 varieties excluded from the recognized list at the first conference in 1921. Its shipments in the previous year had been only 2.3 per cent of the total. This percentage was maintained in 1921 and 1922. In 1923 its shipments rose to 2.7 per cent, in 1924 to 4.4, in 1925 to 8.9 and in 1926 to 14.1.

In a report from all producing companies submitted to the committee, and made at the request of the Department of Commerce, the total shipments in 1926 were shown to be 413 million brick, compared with 353 million in 1925. Of the total 65 per cent were in the four recognized varieties, as against 74.2 per cent in 1925. The decrease was due to the rapid increase in shipments of 2½-in. brick. With the shipments of this brick, now a recognized variety, added to the four earlier recognized varieties, the shipments of the five in 1926 totaled 79.1 per cent. The details are as follows:

	Per Cent of Total	
	1925	1926
Plain wire cut		
2½x4x8½.....	8.9	14.1
3x4x8½.....	40.7	38.2
3½x4x8½.....	5.5	5.9
Repressed lug		
3½x4x8½.....	21.0	14.5
Wire-cut lug (Dunn)		
3½x4x8½.....	7.0	6.4

## KERN COUNTY ENGINEERS CONTRACTOR SUE

George J. Frateis, Oakland contractor, and the city of San Mateo are named defendants in a suit for \$2,898.06 filed in the superior court at Redwood City by the Union Paving Company. The company alleges it furnished Frateis with asphaltic paving and labor for widening San Mateo drive last year, and that it has not been paid for. The city of San Mateo is holding this amount, the plaintiff company alleges.

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## SUPREME COURT UPHOLDS BAN ON UNIONS

Labor unions and their members may be enjoined for refusing to work when their acts constitute a restraint of interstate commerce, the U. S. supreme court held (April 11) in a case brought by the Bedford Cut Stone Company and 23 other corporations against the Journey-Men Stone Cutters' Association of North America, its local unions and officers.

The national and local stone cutters' union required members to refrain from working on "unfair" stone and the Indiana Limestone companies, affected by the order, sought in federal courts to enjoin enforcement, contending that it restrained interstate commerce in violation of the federal anti-trust laws. The lower federal courts refused the injunction.

"The evidence shows many instances of interference with the use of petitioners' stone by interstate customers and expressions of apprehension on the part of such customers of labor troubles if they purchase the stone," the court opinion declared.

"The evidence makes plain that neither the general union nor the local had any grievance against any of the builders—local purchasers of the stone—or any other local grievance; and that the strikes for the sole purpose of preventing the use and consequently the sale and shipment of interstate commerce of petitioners' product, in order, . . . . . to force petitioners to the alternative of coming to undesired terms with the members of these unions. . . . ."

"From a consideration of all the evidence it is apparent that the enforcement of the general order to strike against petitioners' products could have no purpose other than that of coercing or inducing the local employers to refrain from purchasing such product."

Justices Holmes and Brandies dissented.

## S. F. SOCIETY OF ENGINEERS HOLDS MONTHLY MEET

The regular monthly meeting of the Society of Engineers was held in the Blue Room, Palace Hotel, San Francisco, April 12.

Captain G. B. Landenberger, U. S. N., for many years commanding officer of the destroyer squadron in Chinese waters, gave an outline of conditions in China and the possible causes for the trouble over there at this time.

The Pacific Telephone & Telegraph Co., through their special representative, Mr. Geo. W. Van Buren, gave a practical demonstration in the use and operation of the telephone. He was assisted by six ladies from the central office.

Muscle for the evening was furnished by a girls' trio from the Kearny branch of the Pacific Telephone & Telegraph Company.

The meeting was the largest ever held by the society, there being an attendance of approximately 300.

## SACRAMENTO MATERIALMEN ENDORSE NEW BUILDING ORDINANCE

General approval of Sacramento's new building code, adopted last January, was voiced at the dinner-meeting in the Elks' Temple, Sacramento, April 12, by the Material Dealers' Credit Association of that city. The gathering of 150 men included material dealers, contractors, architects, realty men and others interested in the construction industry. J. R. Shields, Sacramento city building inspector, was the principal speaker. He sketched the salient points in the new ordinance and urged his hearers to co-operate with the building inspection department by reporting any defects experienced in the working out of the ordinance. Other speakers included E. W. Florence, Sacramento division manager for the Pacific Gas & Electric Co., Pat Kern, appliance sales manager for the same company, Walter Campbell, general contractor and others.

## A. G. C. CONTRACTORS ELECT

W. H. Feigenson, a member of the general contracting firm of Lindstrom & Feigenson, Portland, Ore., was unanimously elected president of the Pacific Northwest Chapter, Associated General Contractors at a two-day session in Seattle, recently.

Guy F. Atkinson, also of Portland, was elected treasurer, and George B. Herington, secretary of the Portland chapter, was named secretary of the branch.

The vice presidents elected were: Thomas W. Baker of the Baker Construction Company of Portland; C. F. Amberg of Spokane, and A. S. Downey of Seattle.

George W. Gauntlett of Aberdeen, Wash., is retiring president of the Chapter.

## FRESNO BUILDERS ELECT

Thomas M. Robinson was re-elected president of the Fresno Builders' Exchange at the organization meeting of the recently elected directorate. With him were chosen Oliver I. Lines, as vice-president; A. L. Loper, treasurer and H. L. Hardman, secretary-manager, these also being re-elected. A general meeting of the membership will be held at the Californian Hotel, Fresno, May 17 in the form of a banquet.

Technical Engineers, Architects and Draftsmen's Union No. 11, has notified the San Francisco Board of Supervisors that a new wage scale as follows, has been adopted with the endorsement of the International organization and the San Francisco Labor Council: Assistant engineers, \$300 a month; surveyors, \$275; building inspectors, \$250; draftsmen, \$275; blue printers, \$225. The supervisors are asked to make provision in the next budget to conform with the new scale as it applies to city employees.

## NORTHERN CALIF. ARCHITECTS WILL FEATURE EXHIBIT

The Northern California Chapter of the American Institute of Architects will hold an exhibition of architecture at the M. H. de Young Memorial Museum in Golden Gate Park, San Francisco, beginning May 1, and continuing throughout the month.

The exhibition will consist of plans, photographs, sketches, drawings and models of buildings erected since the last exhibition in 1924. The exhibition will be held in Statuary Hall, one of the largest galleries in the museum and it is expected that the exhibit will exceed in number those at the 1924 exhibition, when 470 exhibits were seen.

## ORGANIZE CLUB

Organization of the Kern County Engineers' Club was perfected at a recent meeting in Taft. F. S. Wheeler of the Standard Oil Company was elected temporary president and O. R. Boyd, civil engineer for the Fourth Road District of Kern County, was installed as secretary. The purpose of the organization, comprising twenty engineers, will be to advance the economic and social status of the profession. Informing the club the engineers are receiving the old Kern County Chapter of the American Association of Engineers. The next regular meeting of the club will be held in Taft, May 10.

## CONCRETE PRODUCTS MEN TO MEET AT ASTORIA

July 29 and 30 have been set as the dates for the mid-summer meeting of the Northwest Concrete Products Association. Astoria, Oregon, located at the mouth of the Columbia river, is the meeting place.

The Northwest Concrete Products Association now lists among its members, 42 operating products plants manufacturing every kind and type of precast concrete units. Differing from many other products associations, concrete pipe is included as one of the principal products.

## ASSOCIATED GRAVEL COMPANY CONSOLIDATION EFFECTIVE

In a letter to the trade, the Associated Gravel Co. announces the consolidation of the Niles Sand, Gravel & Rock Co., The River Rock Gravel Co., Riverbank Sand Co., and Coyo Gravel Company, effective March 1. There is no change in the management of the business, the company announces.

"Our two new plants under construction at Coyote, 12 miles south of San Jose, will, when completed, be the most modern and efficient on the Pacific Coast," says Wm. H. Fox, president of the company. "The locations of the several links in our chain of plants affords us unusual facilities for rendering prompt service throughout Central California at all times. Main offices of the Associated Gravel Company are located at 704 Market street, San Francisco.

## APARTMENTS

**Working Drawings Being Prepared**  
APARTMENTS Cost, \$—  
SAN FRANCISCO. Marina District.  
Nine-story reinforced concrete apartment bldg. (all modern conveniences).

**Owner—Withheld.**  
**Architect—George E. McCrea, Hearst Bldg.**  
Plans will be ready for figures in 60 days.

**Contract Awarded.**  
APARTMENTS Cont. Price, \$16,200  
SAN FRANCISCO. Junction Mason, Francisco and Water Sts.  
Three-story frame and stucco apartment and store building with tile roof (four 4-room apts. and one store).

**Owner—Giovanni Vannucci.**  
**Architect—Henry Shermund, Hearst Bldg., San Francisco.**  
**Contractor—A. G. Mattson, 250 Dublin St., San Francisco.**

**Contract Awarded**  
APARTMENTS Cost, \$100,000  
SAN FRANCISCO. N W Fillmore and Chestnut Sts.

Five-story and basement class C (40) apartments.  
**Owner—Ridgway Investment Co.**  
**Architect—H. C. Baumann, 251 Kearny St.**  
**Contractor—Monson Bros., 251 Kearny St.**

**Permit Applied For.**  
APARTMENTS. Cost, \$20,000  
SAN FRANCISCO—W Fillmore St. 32 S Page St.  
Three-story and basement frame (12) apartments.  
**Owner—W. W. Magill, 185 19th Ave., San Francisco.**  
**Architect—None.**  
**Contractor—C. T. Magill, 185 19th Ave., San Francisco.**

**Plans Completed.**  
APARTMENTS Cost, \$15,000  
OAKLAND, Alameda Co., Cal. E Sixty-second Ave 100 N E-14th St.  
Two-story 18-room frame apartment building.  
**Owner—Hattie B. Davis, 1723 Webster St., Oakland.**  
**Architect—G. E. Ellinger, 1723 Webster St., Oakland.**

**Building Being Wrecked.**  
APARTMENTS Cost, \$—  
SAN FRANCISCO: Jones and Washington Streets.  
Eight-story Class A apartment building to contain 16 apartments.  
**Owner—1360 Jones, Incorporated.**  
**Architect—W. E. Schirmer, Thayer Bldg., Oakland.**

**Contract Awarded.**  
APARTMENTS Cost, \$80,000  
OAKLAND, Alameda Co., Cal. Park Blvd. and E-Nineteenth St.  
Three-story and basement steel and brick store and apartment building (4 stores and 28 3 and 4-room apartments).  
**Owner—W. Goldman.**  
**Architect—Clay N. Burrell, American Bank Bldg., Oakland.**  
**Contractor—Felix Sommarstrom, 728 E-17th St., Oakland.**

**Plans Being Prepared.**  
APARTMENTS Cost, \$145,000  
SAN FRANCISCO. Leavenworth St.  
Six-story steel frame and brick store and apartment building (100x100 feet) 45 2 and 3-room apts.  
**Owner—Withheld.**  
**Architect—Clay N. Burrell, American Bank Bldg., Oakland.**

**Contract Awarded**  
APARTMENTS Cost, \$16,000  
OAKLAND, Cal. E 73rd Ave., 100 S Hillside.

Two-story, 16-room apartments and a one-story garage.  
**Owner—Geo. Phillips.**  
**Architect—None.**  
**Contractor—G. R. Sterne, 623 Hillside St., Oakland.**

**Completing Plans**  
APARTMENT BLDG. Cost, \$135,000  
SAN FRANCISCO, Cal. N E O'Farrell and Franklin.

Six-story and basement Class C steel frame apartment building (84 2 & 3-room apartments, modern conveniences).  
**Owner—1051 O'Farrell Investment Co.**  
**Architect—Albert H. Larsen, 447 Sutter St.**  
Ready for figures May 1st.

**Plans Being Figured**  
APARTMENTS Cost, \$175,000  
SAN FRANCISCO, Cal. Hyde St., near Greenwich.

Fourteen-story Class A apartment building (12 apartments).  
**Owner—C. Schaffer, 560 Sutter St.**  
**Architect—R. C. Sisson, 468 Crescent St., Oakland.**  
Bids wanted for general contract.

**Completing Plans**  
APARTMENTS Cost, \$200,000  
SAN FRANCISCO, Cal. SE Pacific Ave. and Baker St.

Six-story basement and sub-basement brick and steel apartment house (90 rooms; 3, 4 and 5-room apartments, two elevators).  
**Owner—Roy A. Lee, 105 Montgomery St., San Francisco, and Ed. V. McKenzie.**  
**Architect—Albert H. Larsen, 447 Sutter St., San Francisco.**  
Ready for figures May 1st.

**Excavating Contract Awarded**  
APARTMENTS Cost, \$150,000  
SAN FRANCISCO. S E Broadway and Laguna St, 60x112-6 ft. Six-story steel frame and concrete apartment building (12 apartments), modern conveniences.

**Owner—Withheld.**  
**Architect—Hyman & Appleton, 68 Post St.**  
**Contractor—Hayes - Oser, Call Bldg., San Francisco.**  
**Excavating—McClure & Chambers, 608 Octavia St.**

LOS ANGELES, Cal.—Merrill & Rahn 617 Financial Center Bldg., are preparing plans for a four-story class C apt. house to be erected at 435 S. Alexandria Ave. for A. G. Neff, 119 rooms; dimensions, 70x155 ft., brick construction, stucco exterior, cast stone trim; est. cost \$125,000.

**Contract Awarded.**  
APARTMENTS Cost, \$40,000  
SACRAMENTO, Cal. No. 2125 J St.  
Forty-eight-room apartment and store building.  
**Owner—F. Delahunty, 2020 W St., Sacramento.**  
**Architect—None.**  
**Contractor—W. R. Saunders, 2614 I St., Sacramento.**

**Ready For Figures Within a Week.**  
APARTMENTS Cost, \$45,000  
SAN FRANCISCO. S Jackson St. — E Hyde St.  
Three-story frame and stucco apartment building (12 three and four-room apts.)  
**Owner—Leo Hass.**  
**Architect—Walter Falch, Hearst Bldg., San Francisco.**  
Bids will be taken for a general contract.

**Plans Being Prepared.**  
APARTMENTS Cost, \$150,000  
SAN FRANCISCO. NW Broadway and Gough St.  
Six-story steel frame apartment building (125 2, 3 and 4 room apts.; 2 basements).  
**Owner—Edward Jose, 251 Kearny St., San Francisco.**  
**Architect—H. C. Baumann, 251 Kearny St., San Francisco.**

**Contract Awarded.**  
ALTERATIONS Cost, \$15,000  
SAN JOSE, Santa Clara Co., Cal. Julian and Third Streets.  
Alter apartment building.  
**Owner—Harold Vining, 296 N-Third St., San Jose.**  
**Architect—None.**  
**Contractor—A. A. Douglass, 396 N-18th St., San Jose.**

**Plans Being Figured.**  
ADDITION Cost, \$25,000  
SAN FRANCISCO. N Post St. 137 N Larkin St.  
One-story brick addition to apartments  
**Owner—M. Solomon.**  
**Architect—Clausen & Amandes, Hearst Bldg., San Francisco.**

LOS ANGELES, Cal.—Arch. Chas. C. Frye, 406 Grosse Bldg., has applied for building permit to erect a 4-story 204-room 98-family reinforced concrete apartment house at s. e. cor. N. Broadway and Sichel St. for Preferred Income Properties, Inc., owner; 188x145 feet, cast stone trim, gas radiators, wall beds, refrigerators, 800-gallon automatic storage water heater, laundry trays, automatic sprinkler system, garage; \$300,000.

LOS ANGELES, Cal.—Architect Richard D. King, 1124 Van Nuys Bldg., has prepared plans for a four-story class C apartment house to be erected at 1644 North Winona Blvd. for Chas. A. Schieb. It will contain 92 rooms; 60 x 135 ft., brick walls, cast stone trim; \$100,000.

PASADENA, Los Angeles Co., Cal.—J. H. Woodworth & Son, 200 E. Colorado St., Pasadena, will erect a 3-story and basement brick apartment building at 149 S. Los Robles Ave., Pasadena, for Livingston Apartment House Co., Inc. Myron Hunt and H. C. Chambers, associate architects, 1107 Hibernian Bldg., Los Angeles. Ruffled brick exterior, tile and composition roofing, electric refrigerator system, steam heating system, elevator, incinerator; \$160,000.

Architect—Owner.

Contractor—Alvin J. Stern, Alexander Bldg., San Francisco.

# Official Proposals

## INVITATION FOR BIDS

UNITED STATES DEPARTMENT OF THE INTERIOR, NATIONAL PARK SERVICE, Washington, D. C., April 6, 1927—Sealed bids (single copy only) subject to the conditions contained herein, will be received by the District Engineer, District No. 2, U. S. Bureau of Public Roads, 807 Sheldon Bldg., 461 Market St., San Francisco, Calif., until 10 o'clock a. m. on the 27th day of April, 1927, and then publicly opened, for furnishing all labor and materials and performing all work for constructing 4.43 miles of the Southwest Entrance Road project located within the Lassen Volcanic National Park, State of California, Counties of Tehama and Shasta. The principal items of work are approximately as follows:

Clearing, 8 acres.  
Excavation unclassified, 79,000 cu. yds.

Excavation borrow, 2000 cu. yds.  
Corrugated Metal Pipe, placing 1212 lin. ft.

Crushed Rock surfacing, 8100 cu. yds.  
Bids must be submitted upon the Standard Government Form of Bid and the successful bidder will be required to execute the Standard Government Form of Contract for Construction. These Standard forms together with the plans and specifications may be examined or obtained at the following address: District Office, 807 Sheldon Bldg., San Francisco, Calif.

C. H. SWEETSER,  
District Engineer.

## NOTICE TO CONTRACTORS

(Recesses—San Diego Post Office)

TREASURY DEPARTMENT, Office of the Supervising Architect, Washington, D. C., April 7, 1927. SEALED BIDS will be opened in this office at 3 P. M., May 5, 1927, for new recesses in the Post Office screen for additional boxes, etc., at the United States Post Office and Custom House, San Diego, Calif. Drawings and specifications may be obtained from the Custodian of the building, or at this office in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

## NOTICE TO BIDDERS

Modesto Irrigation District and Waterford Irrigation District, Stanislaus County, California

Sealed proposals will be received at the office of the Modesto Irrigation District at Modesto, California, until 3 p. m., May 2, 1927, for materials and labor to construct a drain ditch known as Ketcham Brothers Drain. The work requires the excavation of 15,000 cubic yards of earth from a trench 4,200 feet in length.

Plans and specifications may be inspected at the office of the Modesto Irrigation District. The contract will be let to the lowest responsible bidder, but said Board reserves the right to reject any or all bids.

Each proposal must be accompanied by a certified check for 5% of the amount of the bid payable to the order of the Treasurer of the Modesto Irrigation District for the benefit of said District as a guarantee that the bidder if successful, execute a satisfactory contract and furnish a bond in the sum of not less than 25% of the amount of his bid for the faithful performance of the work in accordance with the specifications and the bond for 50% as provided in Chapter 303 of the Statutes of 1919 of the State of California, said bonds to be approved by said Boards.

The proposal must be marked "Proposal for Materials and Labor to Construct Ketcham Brothers Drain," and addressed Modesto Irrigation District

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this office.

and Waterford Irrigation District, Modesto, California.

Done in pursuance of the order of the Boards of Directors of the Modesto Irrigation District and the Waterford Irrigation District this 9th day of April, 1927.

C. S. ABBOTT,

Secretary,

Modesto Irrigation District.

C. W. QUINLEY,

Secretary,

Waterford Irrigation District.

## NOTICE TO CONTRACTORS

(Ammonia Compressor—Mare Island)

SEALED BIDS, indorsed "Bids for Six-ton Ammonia Compressor, Automatic, Specification No. 5360," will be received at the Public Works Office, U. S. Navy Yard, Mare Island, California, until 11 o'clock n. m., April 27th, 1927, and then there publicly opened, for one 6-ton ammonia compressor, single acting, automatic control with gauges, thermometers, electric motor, belt drive, starting panel, all installed and inter-connected with existing equipment with foundation included.

Specification No. 5360, may be obtained on application to the Bureau or to the Commandant, Navy Yard, Mare Island, California.

Deposit of a check or postal money order for \$10.00, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the specification.

L. E. GREGORY,  
Chief of Bureau.

April 6th, 1927.

## NOTICE TO CONTRACTORS

(Mechanical Work—Pacific Colony)

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Bldg., Sacramento, California, up to and including 2 o'clock p. m., Tuesday, May 10th, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the Mechanical Work, Commissary and Kitchen building (one building) and the Laundry

building, Pacific Colony, Spadra (near Pomona), California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Mechanical Work includes plumbing, heating and electrical work, and separate bids will be received for each branch of the work. Combined bids will also be received covering two or all three branches of the work. Bids must be submitted on forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond, made payable to the State of California, or a certified check made payable to the "State Engineer," Department of Public Works, in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five dollars (\$25.00) will be required on plans and specifications, the deposit to be returned immediately on the return of plans and specifications to the said Division of Architecture, at Sacramento, California, in good condition. Requests for the names of applicants for plans will not be responded to.

The Division of Architecture, State Department of Public Works, reserves the right to reject any and all bids, and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Bldg., Sacramento, California, and plainly marked on the envelope: "Proposal for Mechanical Work, Commissary and Kitchen Building, Pacific Colony."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

Geo. B. McDougall, State Architect.  
PAUL BAILEY, Director of Public Works.

## NOTICE TO CONTRACTORS

(General Work—Pacific Colony)

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Bldg., Sacramento, California, up to 2 o'clock p. m., May 10th, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the erection and completion of the General Work, Commissary and Kitchen building (one building), and the Laundry Building, Pacific Colony, Spadra (near Pomona), California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

General Work includes all manner of work except plumbing, heating and electrical work. Separate bids for the two buildings will not be considered.

Cash, a bidder's bond, made payable to the State of California, or a certified check made payable to the "State Engineer," Department of Public Works, in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition. Requests for the names of applicants for plans will not be responded to.

The Division of Architecture, State

13. Composition Flooring.
14. Marble Work.
15. Glass and Glazing.
16. Finish Hardware.

Plans and specifications may be seen at the office of the Architect, W. H. Weeks, 369 Pine St., San Francisco, or at the office of the Clerk of the Board at the High School Building in the City of Taft.

All bids should be presented on bid forms furnished by the Architect. Each bid must be accompanied by certified check on some responsible California bank in the sum of not less than five per cent (5%) of the amount bid, made payable to the Clerk of the Board of Trustees of the Taft Union High School for the purpose stated in the specifications.

Each bid must be enclosed in a sealed envelope and addressed to the Clerk of the Board of Trustees and endorsed:

"Proposal for — on the Science Building, Taft Union High School."

The Board reserves the right to reject any and all bids.

Bids must be delivered to the Clerk of the Board at the High School Building in the said City of Taft, at the time and place above stated or any time up to the hour of opening of said bids.

(Signed) B. RINTOUL,

President of Board of Trustees.

(Signed) H. E. OSBURN,

Clerk of Board of Trustees.

#### NOTICE TO CONTRACTORS

(Memorial Building—Hollister)

Notice is hereby given that sealed bids will be received by the Memorial Hall Commission at Hollister, San Benito County, California, for the General or Segregated Construction, and Plumbing and Heating and Electric work and the complete erection of the Memorial Building to be erected in Hollister, San Benito County, California, in accordance to plans and

specifications on file with the Secretary, L. E. Lertora, Hollister, Calif., also at the office of Jens C. Petersen, Architect and Engineer, California State Life Bldg., Sacramento, Calif.

On a deposit of \$25 with the architect, a complete set of plans and specifications may be had by any prospective bidder and retained until the opening of the bids. The deposit will be returned on return of the plans and specifications in good condition.

Bids must be made on proposal blanks furnished by the Architect and accompanied by a certified check of 2% of the bid or proposal made payable to the Secretary, said check to be forfeited to and be retained by the Commission should the party or parties to whom the contract shall be awarded fail to enter into contract after the award or to give bonds as may be required within ten days of the award; or bidder may furnish a bidders bond in lieu of the certified check for 2%.

All bids must be filed with the Secretary of the Memorial Hall Commission not later than 2 o'clock p. m., on the 10th day of May, 1927, at the Court House, San Benito County, California. The Memorial Hall Commission of Hollister and the Architect reserve the right to reject any and all bids.

MEMORIAL HALL COMMISSION,  
Hollister, San Benito County, California.

L. E. LERTORA,  
Secretary.

Hollister, California.

#### NOTICE TO CONTRACTORS

(Thermalito Irrigation District)

Sealed bids will be received by the Board of Directors of the Thermalito Irrigation District at the office of the Board, Oroville, California, until 8 o'clock P. M., May 4th, 1927, for furnishing 7960 lineal feet of riveted slip joint pipe with all fittings such as tees, bends, wye branches, crosses, tapers and valves for 3600 lineal feet of trenching and backfilling and hauling, distributing and installing pipe and fittings. Contract will be let to lowest responsible bidder.

Plans and specifications can be seen at the office of the Board, Oroville, California.

R. A. LEONARD,  
Secretary Thermalito Irrigation Dist.

#### NOTICE TO CONTRACTORS

OFFICE OF THE BOARD OF STATE HARBOUR COMMISSIONERS, Union Depot and Ferry House, San Francisco, California, April 15, 1927.

Sealed proposals or bids will be received by the Board at its regular meeting in the Board Room, Room 19, Union Depot and Ferry House, at 2 o'clock P. M., Friday, April 29, 1927, for making Serpentine or Shale Fill for Islais Reclamation Project No. 2, on the waterfront of the City and County of San Francisco, in accordance with plans and specifications approved by the Board April 1, 1927, and on file in this office, to which special reference is hereby made.

The work to be done under these specifications consists in furnishing all necessary materials, labor and equipment for making Serpentine or Shale Fill for Islais Reclamation Project No. 2.

The work to be done includes the furnishing of approximately 60,000 cu. yds. of fill of the quality hereinafter specified and depositing the same at the location shown on the plan, and in the manner hereinafter specified. The material to be used for fill shall be shale, serpentine, sandstone or any rock deposit which contains sufficient coarse material to prevent washing when deposited at high tide.

No bid will be received unless it is made on a blank form furnished from this office and is accompanied by a certified check for an amount equal to five (5) per cent of the amount of the proposal, to be made payable to the Secretary of the Board, conditioned that if the proposal is accepted and the contract awarded, and if the bidder shall fail or neglect to execute a contract and give the bond required with-

in six (6) days after the award is made, in that case the said sum mentioned in said check shall be deemed liquidated damages for such failure and neglect, and shall be paid in to the San Francisco Harbor Improvement Fund.

Bids will not be considered by the Board unless delivered to the Board at its regular meeting in the Board Room, Room 19, Union Depot and Ferry House, at 2 o'clock p. m. on Friday, April 24, 1927, at which time and place the bids will be publicly opened. The Board reserves the right to reject any or all bids deemed for the best interests of the State.

Plans and specifications for this work to be had at Room 18, Union Depot and Ferry House, upon depositing \$10.00 for same, which will be returned on return of plans and specifications, provided said plans and specifications are returned within 30 days after date of receiving bids.

Bidders are requested to mark envelope containing bid "Bid for Making Serpentine or Shale Fill for Islais Reclamation Project No. 2."

C. L. TILDEN,

FRANK C. SYKES,

PAUL SCHARRENBURG,

Board of State Harbor Commissioners

FRANK G. WHITE, Chief Engineer.

J. L. PHELPS, Secretary.

#### STATE OF CALIFORNIA CALIFORNIA HIGHWAY COMMISSION

##### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock p. m. on May 18, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Los Angeles and Orange Counties, between Naples and Anaheim Bay Bridge (VII—L. A.—Ora—60—E—A), about one and five-tenths (1.5) miles in length, to be paved with Portland cement concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,

J. P. BAUMGARTNER,

California Highway Commission.

R. M. MORTON,

State Highway Engineer.

E. FORREST MITCHELL,

Secretary.

Dated: April 18, 1927.

#### STATE OF CALIFORNIA CALIFORNIA HIGHWAY COMMISSION

##### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock p. m. on May 2, 1927, at which time they will

be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Humboldt County, between Orick and the northerly boundary (I-Hum-1-K), about fourteen and nine-tenths (14.9) miles in length to be graded and surfaced with crushed gravel or stone.

Alameda County, between Livermore and Dublin (IV-Ala-5-B), about eight and nine-tenths (8.9) miles in length, to be graded and paved with Portland cement concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,

J. P. BAUMGARTNER,

California Highway Commission.

R. M. MORTON,

State Highway Engineer.

E. FORREST MITCHELL,

Secretary.

##### INVITATION FOR PROPOSALS

(Marine Hospital—Alterations)

SEALED PROPOSALS will be received at this office until 12 o'clock noon, May 2, 1927, and then opened for alterations and repairs, etc., at the U. S. Marine Hospital San Francisco, California, in accordance with the drawing and specification, copies of which may be obtained at this office in the discretion of the District Engineer.

WM. ARTHUR NEWMAN,

##### CANCELLATION OF BUILDING CONTRACT

San Francisco County

Apr. 20, 1927—BUILDING CONTRACT recorded Mar. 25, 1927. John I. and Alice R. and E. A. Olsen to whom it may concern.

##### ARCHITECT FABRE IN FRANCE

Albert Fabre, San Francisco architect, on a four months tour of Europe, arrived in France April 21, according to advices received here yesterday.

Mr. Fabre is on a combined business and pleasure trip and during the four months period will visit and study architecture at the principal places of interest in France, Italy, England, Holland, Belgium and Germany.

Taylor Bros. Hardware Co., has opened quarters in the Grayson Bldg. at Santa Maria. Bruce Taylor, formerly with the Dunham-Carrigan-Hayden Co. of San Francisco and Donald Taylor, formerly with Baker, Hamilton and Pacific Co., also of San Francisco, will operate the business.

#### SCHOOL BUILDING COSTS IN BUFFALO

School buildings in Buffalo of the reinforced concrete structural frame type vary in cost from 30 to 45 cents per cubic foot of volume. This range is due to the fact that the figures include construction costs of four different types of school buildings. According to Ernest Crimi, Architect for the Board of Education of Buffalo, the costs for these type are as follows:

For three-story reinforced concrete skeleton buildings, an average of 30 cents per cubic foot.

For two-story structures of the same design, made up entirely of class rooms, from 40 to 42 cents per cubic foot.

Two story schools of the design in which a gymnasium and auditorium are included, an average of 37 cents per cubic foot.

For 16-room and 20-room additions of reinforced concrete skeleton construction, from 35 to 45 cents per cubic foot.

These are actual construction costs, based on the volume of the structures. They do not include architects' fees or equipment.

The board has used the reinforced concrete skeleton type of construction exclusively since 1919, when the major building program was started. This type of structure meets all building code requirements for fire-safety and lateral resistance to wind pressure.

The building of these schools has been carried on under the direction of Mr. Crimi and of James F. Gill, structural engineer for the Buffalo Board of Education.

#### MASTER PAINTERS TO BANQUET

Arrangements are being made for the annual dinner-dansant of the Master Painters' Association of San Francisco it is announced by Sam Cohen, chairman of the committee in charge of the event. The affair will be held in the Elks' Club, Saturday evening, June 4. A program of entertainment will be a feature.

M. Rosenberg, 2449 Lake St., and M. Santoccone, 78 Circular St., San Francisco, have formed a partnership and will operate under the firm name of American Painting & Decorating Company with shop and offices at 938 Howard street.

J. F. McSwain, formerly in the employ of the Gilmore Oil Co. of Los Angeles, has been reappointed Northern California representative by that concern.

Francis W. Reid, architect, is no longer connected with Walter King Co., San Francisco architects, and has opened new offices at 1630 Josephine street, Berkeley.

## BRIDGES

**LOS ANGELES, Cal.**—Salih Brothers, 1114 Quinby Bldg., awarded cont. by University of California at \$99,050 to const. rein. conc. and brick bridge on campus near Westwood. The award was based on bid of \$108,874, less \$3824 for the omission of a portion of flanking balustrades.

**EUREKA, Humboldt Co., Cal.**—Until May 10, bids will be rec. by Fred M. Kay, county clerk, to const. four trestle bridges on Green Rd. one reinf. conc. bridge over Woods Creek on Green Rd. and one reinf. conc. bridge over Singley Creek on Ferndale-Petrola Rd. Plans on file in office of clerk.

**SACRAMENTO COUNTY, Cal.**—Fredrickson & Watson, Builders' Exchange Bldg., Oakland, at \$43,871 awarded cont. by State Highway Comm. to construct upgrade crossing in Sacramento County under tracks of Southern Pacific Company, 1 mi. south of Ben Ali, consisting of 2 conc. abutments with wing walls, sidewalks and graded roadway.

**SUTTER COUNTY, Cal.**—Assembly has passed Bill No. 1175 providing for \$200,000 appropriation to finance the construction of the causeway across the Sutter By-Pass in Sutter County.

**MARIPOSA COUNTY, Cal.**—Until May 4, 10 a. m., bids will be rec. by J. H. Sweetser, dist. eng. U. S. Bureau of Public Roads, Sheldon Bldg., to const. five bridges in Yosemite National Park, involv. 6010 cu. yds. borrow; 1320 cu. yds. dry struc. excav.; 940 cu. yds. wet structure excav.; 22,000 sta. yds. overhaul; 1359 cu. yds. "A" conc.; 2498 cu. yds. "B" conc.; 50,000 lbs. reinf. steel; 1788 sq. yds. rock facing; 1312 lin. ft. rock curbs; 70 cu. yds. handlaid riprap; 2450 sq. ds. membrane waterproofing. **See call or bids under official proposal section in this issue.**

**SANTA ANA, Cal.**—County votes to const. two 50-ft. spans as an addition to South Tustin St. bridge across Sanjago Creek, doubling length of that bridge. New spans will be of girder type and cost \$17,500, according to estimate.

**OAKLAND, Cal.**—Baldwin Bros., 1809 Spruce St., Berkeley, at \$52,706.25 was awarded contract by county to const. ridge over Arroyo de la Laguna, near Hacienda. Project involves 550 cu. yds. excav. below elevation 275; 570 cu. yds. excav. above elevation 275; 80 cu. yds. roadway excav.; 5,650 sq. ft. 4-in. gravel surface; 480 cu. yds. "A" conc.; 440 cu. yds. "B" conc.; 110,000 lbs. reinf. steel; 319,000 lbs. struct. steel; remove existing bridge; 100 ft. 2-in. (12 gauge) corr. pipe; cut through existing conc. Other bids were:  
 Valter N. Willitt.....\$53,325  
 J. E. Gildersleeve.....52,921  
 Decca & Coletti.....54,237  
 McDonald & Maggiora.....54,289  
 Frederickson & Watson.....55,113  
 J. A. Bruce & Son.....55,273  
 L. B. McGowan.....55,573  
 W. Kitchen.....63,929  
 B. Cowden.....61,137

**NAPA, Napa Co., Cal.**—Eng. Dept. of Southern Pacific R. R., 65 Market St., San Francisco, has filed application with War Dept. for permit to const. ridge over Napa River at Napa. Plans provide for reconstruction of present bridge with fixed span, having horizontal clearance of 70 ft. and vertical clearance of 19 ft.

**OAKLAND, Cal.**—Until May 16, 10:30 a. m., bids will be rec. by Geo. E. Gross, county clerk, to underpin center pier of High Street Bridge; est. cost \$8,700. Deposit of \$25 req. for plans, obtainable from office of county clerk. George A. Posey, county surveyor.

**STOCKTON, San Joaquin Co., Cal.**—H. C. Whitty, at \$5745, awarded cont. by county to const. three small bridges on Everett School Rd., Frederickson Bros., \$5747; D. McDonald, \$5563; Nelson Bros., \$5840, and C. C. Gildersleeve, \$6185, were other bidders.

**NAPA, Napa Co., Cal.**—City Eng. H. A. Harrold has completed plans for reinf. conc. bridge, 161 ft. long, 60 ft. wide, with steel girders, over Napa River in Third St. Plans will be forwarded to War Dept. at once for approval.

## DREDGING, HARBOR WORKS AND EXCAVATIONS

**RICHMOND, Contra Costa Co., Cal.**—United Dredging Co., 414 13th St., Oakland, at \$997 cu. yd. sub. low bid to U. S. Engineer Office for dredging in Richmond Inner Harbor, involv. approx. 2,344,000 cu. yds. Other bids: San Francisco Bridge Co., \$107; American Dredging Co., \$108. Referred to Washington for award.

**SAN FRANCISCO, Cal.**—Until April 29, 2 p. m., bids will be received by the State Board of Harbor Commission, Frank White, engineer, Ferry Bldg., for 60,000 cu. yds. of rock fill, for the Islais Creek.

**RICHVALE, Butte Co., Cal.**—Geo. R. Freeman, Willows, at \$2665 awarded cont. by Drainage Dist. No. 100 to clean and enlarge 10,300 lin. ft. old ditch and 9000 lin. ft. new work.

**RICHMOND, Contra Costa Co., Cal.**—Chamber of Commerce petitions city council to call election in August to vote bonds of \$610,000 to finance harbor imps., involv. dredging, wharves, training wall and cargo building. The dredging is estimated at \$395,000 to secure 32-ft. depth; wharf, tracks and cargo bldg. would cost \$245,000.

## IRRIGATION PROJECTS

**OROVILLE, Butte Co., Cal.**—Until May 4, 8 P. M., bids will be rec. by R. A. Leonard, Secty., Thermalito Ir-

rigation District, to fur. 7960 lin. ft. riveted slip joint pipe with fittings such as tees, bends, wye branches, crosses, tapers and valves and for 3600 lin. ft. trenching, backfill, haul, distribute and install pipe and fittings. **See call for bids under official proposal section in this issue.**

## LIGHTING SYSTEMS

**PASADENA, Cal.**—City plans conduits, etc., in Broadway, bet. Green and Walnut Sts., and portions of Green St., Colorado St., Union St., Holly St. and other streets, for ornamental lighting power etc.; 1911 act.

## RAILROADS

**LOS ANGELES, Cal.**—Apparent low bidders on three of principal items in list of track materials for San Gabriel Canyon Ry. for which bids were rec. by the county supervisors, are:

Frogs and switches: Bethlehem Steel Co., \$171.18 each.

Bolts and spikes: U. S. Steel Products Co., bolts, \$4.01 cwt., spikes, \$3.01 cwt.

Plates: United Commercial Co., 16.59c each.

## FIRE EQUIPMENT

**RIVERSIDE, Cal.**—Board of public utilities has ordered the installation of 17 fire hydrants. Edward R. Bowen, consulting engineer, Central Bldg., Los Angeles.

## MISCELLANEOUS SUPPLIES

**LIVERMORE, Alameda Co., Cal.**—Until April 25, 8 P. M., bids will be rec. by Elmer G. Still, town clerk, to fur. 250 double-faced street-designation signs, 4x16-in., for 50 Sts. Further information obtainable from clerk.

**SAN FRANCISCO, Cal.**—Until April 26, 11 a. m., under Order No. 8181-1086, bids will be rec. by U. S. Engineer Office, 85 Second St., to fur. and del. Rio Vista, Solano Co., 3,000 lbs. welding rods, 3-16 in. by 14 in., in 50 lb. bundles. Further information obtainable from above office.

## RESERVOIRS AND DAMS

**LINDSAY, Tulare Co., Cal.**—City trustees contemplate immediate construction of a reservoir at the new city well on the Young tract, north of the town.

## PIPE LINES, WELLS, ETC.

**SEQUOIA, Cal.**—The following bids were submitted for furnishing and laying 500 ft. of pipe for the aqueduct at Sequoia, Stations No. 115 plus 05 and No. 150 plus 43:

	54x12-in. Pipe	61x12-in. Pipe
Tuehy Bros. and J. E.	\$19,075	\$20,975
Frederickson & Watson	16,783	18,308

Carbide Flare Lights  
 OxyAcetylene Equipment  
 Goggles—Respirators  
 First Aid Supplies

## SEWAGE DISPOSAL PLANTS

LOS ANGELES, Cal.—Will F. Peck, 1120 Las Palmas, awarded contract by board of public works April 13 at \$362,975 for constructing storm drain complete in La Brea Ave. and other streets, in what is known as the La Brea Storm Drain System. Engineer's estimate, \$421,500.

SACRAMENTO, Cal.—Following bids taken under advisement by city to fur. equipment for Sewage Pumping Station No. 2. (a) three pumps; (b) three motors; (c) three pumping units; (d) three 36-in. gate valves; (e) one pump; (f) one pump:

Byron Jackson Co., (a) \$11,215, (c) \$20,565, (e) \$832, (f) \$492.

Worthington Co., (a) \$17,090, (b) \$9225, (c) \$26,315, (e) \$870, (f) \$870.

General Electric Co., (b) \$8421.

American Well Works, (a) \$15,536, (f) \$415.

Fairbanks-Morse Co., (a) \$16,207, (b) \$10,014, (f) \$350; alt. bid, (a) \$15,661, (b) \$13,495.

Latourrette-Fical Co., (b) \$8870, (c) \$26,509, (f) \$470.

DeLaval Steam Turbine Co., (a) \$17,265, (f) \$475.

Water Works Supply Co., (d) \$1690.

Allis Chalmers Mfg. Co., (a) \$23,850, (b) \$13,060, (c) \$29,045, (e) \$940, (f) \$410.

Kennedy Valve Mfg. Co., (d) \$2468.

Sacramento Pipe Works, (d) \$5325.

Bids referred to City Eng. A. J. Wagner for report.

## MISCELLANEOUS CONSTRUCTION

LONG BEACH, Cal.—Stacy Bros. Gas Construction Co., Cincinnati, Ohio, sub. low bid to city at \$619,000, bidding on wet holder for const. of proposed 10,000,000-cu. ft. gas holder for the city gas plant. Bartlett-Hayward Co. bid \$640,000 on the wet type and \$645,000 on the dry.

## WATER WORKS

LOS ANGELES, Cal.—Until 3 p. m., April 26, bids will be rec. by water and power commission for 60M ft. 6-in. welded steel bell and spigot pipe; No. 805. Jas. P. Vroman, secretary.

LOS ANGELES, Cal.—Until 3 p. m., April 26, bids will be rec. by water and power commission for welded steel pipe as follows: 600 ft. 24-in. plain end, 0.27-in. shell, free delivery Humboldt St. and Santa Fe Ry. R/W east of Los Angeles River; 3930 ft. 24-in. bell and spigot, 0.27-in. shell, trench-side Humboldt St. from Ave. 18 to Ave. 29; 1070 ft. 24-in. bell and spigot, 0.27-in. shell, trench-side Ave. 18 to Humboldt St. Spec. 801-C. James P. Vroman, secretary.

YREKA, Siskiyou Co., Cal.—City declares inten. (3-13) to install water distributing system, including lay and relay pipes; const. manholes in Oregon St. from north town limits to Miner St. 1911 Act. Bond Act 1915. Protests April 28. U. E. Brown, city clerk.

LOS ANGELES, Cal.—Until 10 a. m., April 25, bids will be rec. by L. A. Stock and Gravel Corp., 1735 N. Main St., for furnishing (by lease or sale) 6000 ft. 12-in. not less than 10-gauge, riveted or welded steel pipe, slip joint or plain coupling (no w or used).

LAGUNA BEACH, Cal.—Until 1 p. m. April 23, bids will be received by Laguna Beach County Water District for taking up and relaying cast iron pipe and fittings, involving 4000 ft. 8-in., 16,000 ft. 6-in., with necessary valves and fittings. Plans may be obtained from the secretary, Leslie C. Welsgerber, upon payment of \$5.

RIVERSIDE, Cal.—The sum of \$111,000 will be required to complete the last unit of the program for the improvement of the municipal water system, according to estimates submitted

to the board of public utilities recently by Superintendent W. A. Scott and Consulting Engineer Edward R. Bowen. The work referred to is the laying of 12,563 ft. of pipe from the Linden St. storage reservoir to the intersection of Seventh and Market Sts. The plans call for the laying of 3200 ft. of 42-in. concrete pipe on Linden St. from the reservoir to Chicago Ave.; 5500 ft. of 36-in. steel pipe with gunite coating from Chicago Ave. on Linden St. and East Seventh St. to Park Ave.; 1850 ft. of 30-in. steel pipe with gunite coating on Seventh St. from Park Ave. to Mulberry St., and 2013 ft. of 18-in. cast iron pipe on Seventh St. from Mulberry St. to Market St.

RIVERSIDE, Cal.—Edward R. Bowen, consulting engineer, Central Bldg., Los Angeles, completes plans for water line in Linden St., involv. approx. 12,500 lin. ft. of steel pipe, comprising 36-in., 30-in. and 42-in. diameter pipe, also some 18-in. c. i. pipe.

LA MESA, Cal.—Until 10 a. m., May 10, bids will be rec. by La Mesa, Lemon Grove and Spring Valley Irrigation District for work as follows:

FIRST CONTRACT: Item 1. Dig 12,500 lin. ft. trench 24-in. wide by 42-in. deep and back fill same. Item 2. Fur. and const. 5,000 lin. ft. of 12-in. dia. pipe. Bids are requested on Riveted Steel pipe, Mathison Joint pipe or equal. Item 3. Fur. and const. necessary fittings for proper operations of pipe line together with gate valves.

SECOND CONTRACT: Item 1. 10,000 ft. of ¾-in. stand. screw, galv. pipe with couplings. Item 2. 4,500 ft. of 1-in. stand. screw, galv. pipe with couplings. Item 3. 2,000 ft. of 1½-in. stand. screw, galv. pipe with couplings. Item 4. 5,000 ft. of 2-in. stand. screw, double asphaltum dipped pipe with couplings. Item 5. 3,500 ft. of 2½-in. stand. screw, double asphaltum dipped pipe with couplings. Item 6. 2,000 ft. of 3-in. stand. screw, double asph. dipped pipe, with couplings. Item 7. 1,500 ft. of 4-in. stand. screw, double asphaltum dipped pipe, with couplings. Item 8. 3,000 ft. of 4½-in. O. D. beveled end, lap welded pipe. Pipe to be dipped and wrapped with Pabco or its equal.

Plans obtainable from T. H. King, chief eng. of district. Cert. check or bond of 5% to accompany each bid. John C. Scott, secretary.

## PLAYGROUNDS AND PARKS

GILROY, Santa Clara Co., Cal.—City contemplates bond election for \$10,000 to finance purchase of site and equipment for new public park and children's playground; \$7000 for site purchase and \$3000 for equipment.

## SEWERS &amp; STREET WORK

OAKLAND, Cal.—City declares intention to improve B St. bet. 85th and 92nd Aves., involving grade, pavement, curbs, gutters. 1911 Act. Protests May 5. W. W. Harmon, city engineer.

OAKLAND, Cal.—Until April 28, 12 noon, bids will be received by Frank C. Merritt, city clerk, to imp. 76th Ave. bet. Hamilton and Spencer Sts., involv. grade; pave; curbs; walks; gutters. 1911 Act. Cert. check 10% payable to city req. W. W. Harmon, city eng.

SACRAMENTO, Cal.—City declares inten. (2-175) to imp. 13th Ave. bet. 47th St. and Stockton Blvd., involv. conc. curb, gutter, walks, c. i. drains; vit. sewer; reconstr. manhole; 1-in. water main connections; grade; asph. conc. pave, with seal coat. 1911 Act. Bond Act 1915. Protests May 5. H. G. Denton, city clerk. A. J. Wagner, city engineer.

PETALUMA, Sonoma Co., Cal.—City will start proceedings at once to imp. portions of Madison and Vallejo Sts.; oil bound macadam, conc. curb, gutter. Est. cost, \$4,911.

ORMSBY & DOUGLAS COUNTIES, Nevada—Until May 11, 2 p. m., bids will be rec. by State Highway Commission to construct highway between Carson City and Cradlebaugh's, including 3.77-mi. from Ormsby County Hospital to Pedrol Ranch, total distance of 9.51 mi., involv. grading, structures and gravel surface. Plans obtainable from office of commission at Carson City and on file in office of Bureau Public Roads, 461 Market St., San Francisco. Geo. M. Borden, state highway engineer.

LOS GATOS, Santa Clara Co., Cal.—California Const. Co., 58 Second St., San Francisco, at \$63,433.63 awarded cont. by city to imp. portions of University Ave., Saratoga Ave., etc., involv. 275,556 sq. ft. 5-in., 15,049 sq. ft. 6-in., and 39,355 sq. ft. 7-in. conc. pave; conc. curbs; walks; manholes; vit. pipe sewers; corr. pipe culverts; catchbasins; 9,000 cu. yds. grading, etc.

SACRAMENTO, Cal.—City declares inten. (2-176) to imp. V St. bet. 2nd and 6th Sts., involv. conc. curb, gutter; c. i. drains; vit. sewer; conc. manhole; grade; asph. conc. pave, with seal coat. 1911 Act. Bond Act 1915. Protests May 5. H. G. Denton, city clerk. A. J. Wagner, city eng.

LOMPOC, Cal.—Until May 3, 7:30 p. m., bids will be rec. by Geo. Saunders, city clerk, to fur. and del. 800 ft. 6-in. vit. sewer pipe; 25 6-in. by 4-in. Y's; 3 6-in. tees; 25 4-in. stoppers; 6 6-in. stoppers.

BEVERLY HILLS, Cal.—City plans to imp. Beverly Blvd. bet. Pacific Electric Ry., Hollywood line, to east city limits; 5-in. asph. conc. paving with 2-in. Warrenite surface, gutters, curbs, walks, storm sewer catch basin, house connection sewers. 1911 Act. B. J. Firminger, city clerk. J. C. Albers, city eng.

OAKLAND, Cal.—City declares inten. to imp. portions of Holly St., bet. 88th and 90th Aves., involv. grade, curb, gutters, walks, paving. 1911 Act. Protests May 12. Frank C. Merritt, city clerk. W. W. Harmon, city eng.

MARTINEZ, Contra Costa Co., Cal.—City to start proceedings at once to pave Alhambra Ave., for its full width from Haven St. to city limits. It is the intention of the city trustees to complete paving of all unimproved streets this year.

AZUSA, Cal.—Will F. Peck, 1120 Las Palmas, Los Angeles, awarded contract by city at \$85,629.50 to imp. streets, involv. 30,900 lin. ft. curb, 45c ft.; 167,800 sq. ft. walk, 14c sq. ft.; 960,000 sq. ft. ¾-in. oiled macadam, 44c sq. ft.; 52,300 sq. ft. 5-in. oiled macadam, at 10½c sq. ft.; 10,000 sq. ft. 2-in. oiled macadam, 5c sq. ft.

PETALUMA, Sonoma Co., Cal.—City plans early const. of storm sewer extension in Edith St.

ANAHEIM, Cal.—Until 8 p. m., April 28, bids will be rec. to imp. Chestnut St., bet. S. Los Angeles St. and S. Palm St.; 64,400 sq. ft. 6-in. asph. conc. paving, etc.

Bids, same date, to imp. North and South Palm Sts., bet. Romneya Drive and West Broadway; 370,600 sq. ft. 6-in. asph. conc. paving; 3000 sq. ft. conc. paving; 18,600 sq. ft. walk; etc. Edw. B. Merritt, city clerk.

MERCED, Merced Co., Cal.—Valley Paving and Const. Co., Visalia, at \$22,500 awarded cont. by city to imp. 16th St. bet. I and J Sts., involv. grade, 5-in. Willite asph. conc. pave; conc. curb, gutters, and intersections of 17th and J. 17th and M and 20th and L Sts. and 16th St. bet. K and M Sts., involv. repave with Willite; main and branch corr. iron culverts on conc. bases.

SAN MATEO COUNTY, Calif.—Bids will be asked shortly by State Highway Commission for 49-ft. macadam roadway on Bay Shore Highway bet. South San Francisco and Burlingame; 5 miles in length; est. cost, \$400,000. A fill in connection with this project was made about 2½ years ago.

**STOCKTON, San Joaquin Co., Cal.**—Until May 2, 5 p. m., bids will be rec. by A. L. Banks, city clerk, to const. stormwater sewers in Weber Avenue from Edison St. west to city limits and in Edison St. from Weber Ave. north to Stockton Channel; also an outfall sewer stormwater sewer in Weber Ave. from city limits west to Mormon Channel. Cert. check 10% payable to city auditor req. with bid. Plans obtainable from W. B. Hogan, city eng.

**LOS ANGELES, Cal.**—Martter & Bock 1250 S. Gramercy Pl., sub. low bid to Bd. Pub. Wks. at \$60,286 to imp. 5th St., bet. Flower and Koylston Streets, involv. grade at \$22,500; asph. and concrete pavements, curbs, etc.

# TIMPIE HYDRATED LIME

(a true dolomite lime)

for Brick Mortar, White Coat and Sand Float Finish, and for inducing plasticity in and water proofing Portland Cement Concrete.

Used in approximately \$70,000,000 High Class Pacific Coast construction in last 3 years.

*EXAMPLES:—*

New Standard Oil Building, San Francisco	Central Bank, Oakland
Oakland Savings Bank	New Subway Terminal Building, Los Angeles
New Mark Hopkins Hotel, San Francisco	Federal Reserve Bank, San Francisco
New Hunter-Doolin Building, San Francisco	New Russ Building, San Francisco
Pacific Telephone and Telegraph Building, San Francisco	

*Sold by most progressive dealers throughout Pacific Coast.*

## CLEVELAND SELECTED FOR 1928 ROAD EXHIBITION

The 1928 convention and road show of the American Road Builders' Association will be held in Cleveland, Ohio, January 9 to 13th. The exposition will be held in Cleveland's Auditorium and annex where there is available 45 per cent more area than was used in Chicago, with facilities such as railroad tracks immediately adjacent to the exhibition building.

The American Road Builders' at the present time is organizing a Division of county Officials and one of the features of the 1928 convention will be County Officials' Day, when papers and discussions covering the problems of county officials will be presented. The entire day will be given up to the activities of county officials and the officers of the day will be selected from county officials.

Due to the fact that there will be very few legislatures in session during 1928, it has been decided to observe Governors' Day and it is expected that a large number of Governors from the various states will be in attendance.

The great success of Pan American day, which was participated in by twelve Pan American countries at the 27 convention, has demanded that this day be observed at the 1928 convention and extra effort will be made to have a larger number of countries represented. The Pan American countries will be invited to send exhibits and these, together with the exhibits presented by the several states, will form a special exhibit in one of the large exhibition halls.

Highway engineering problems and traffic problems will be important features of discussion at the convention.

## Building Permits In Principal Cities In The United States—1926

The Bureau of Labor Statistics of the U. S. Department of Labor annually collects data concerning building permits issued for cities having a population of 25,000 and over. Data have been collected for 1926 from 294 cities. A few cities did not report.

These 294 cities had an estimated population of 42,700,350 on July 1, 1926, according to the Census Bureau. The per capita expenditure for new buildings in these cities was \$84.90, of which \$49.39 was for housekeeping dwellings. The per capita expenditure for repairs was \$8.42 and the total per capita expenditure was \$93.32.

In these 294 cities housing accommodations were provided in new buildings for 480,773 families, or at the rate of 112.6 families to each 10,000 of population. The estimated population of the 272 cities reporting in 1925 was 41,131,940 and provided for 508,147 families, or at the rate of 123.5 to each 10,000 of population. Figures are available for 257 cities since 1921.

Number and Per Cent of Families Provided for in the Different Kinds of Dwellings in 257 Identical Cities in 1921, 1922, 1923, 1924, 1925 and 1926

Year	Number of Families Provided For in—				Per Cent of Families Provided For in—		
	One-family dwell-ings	Two-family dwell-ings*	Multi-family dwell-ings**	All classes of dwellings	One-family dwell-ings	Two-family dwell-ings*	Multi-family dwell-ings**
1921	130,873	38,858	54,814	224,545	58.3	17.3	24.4
1922	179,364	80,252	117,689	377,305	47.5	21.3	31.2
1923	207,632	96,344	149,697	453,673	45.8	21.2	33.0
1924	210,818	95,019	137,082	442,919	47.6	21.5	30.9
1925	226,159	86,145	178,918	491,222	46.0	17.5	36.4
1926	188,074	64,298	209,742	462,114	40.7	13.9	45.4

\*Includes one-family and two-family dwellings with stores combined.

\*\*Includes multi-family dwelling with stores combined.

The total number of families provided for in these 257 cities in all classes of dwellings during 1926 was 462,114. This is a reduction of 6 per cent as compared with 1925, the peak year, but is the second highest number shown in the six-year period, and is more than twice as many housing units as were provided in 1921.

The figures in the above table would tend to show that we are becoming a race of cliff-dwellers, for in the year 1926 accommodations were provided in apartment houses for 209,742 families, or 45.4 per cent of all families provided for during that year, while one-family dwellings provided for only 188,074, or but 40.7 per cent of all families provided for. This is the first year that apartment houses have provided more new family accommodations than have one-family dwellings.

Compared with 1921 there has been an increase of 105.8 per cent in the number of families provided for in all classes of dwellings. During this same period, however, the number of families accommodated in apartment houses increased 282.6 per cent, while the number provided for in one-family dwellings increased only 43.7 per cent. The number of family units provided for by two-family dwellings increased 65.5 per cent over the six-year period.

## California State Board Of Architecture Elects Officers

(By Mr. Albert J. Evers, Secretary, California State Board of Architecture)

At the annual meeting of the California State Board of Architecture held in San Francisco, April 12-13, the following officers were elected:

Mr. John J. Donovan, Oakland, was elected President of the "State Board," as well as President of the "Northern District Board."

Mr. A. M. Edelman, Los Angeles, was elected Secretary and Treasurer of the "State Board," as well as Secretary-Treasurer of the "Southern District Board."

Mr. William H. Wheeler, San Diego, was elected President of the "Southern District Board" and thereby becomes Vice-President of the "State Board."

Mr. Albert J. Evers, San Francisco, was elected Secretary-Treasurer of the "Northern District Board," being Assistant Secretary of the "State Board."

The members of each District Board, comprising the "State Board of Architecture" are as follows:

### Northern District

John J. Donovan, President.  
Albert J. Evers, Secretary-Treasurer.  
James S. Dean.  
Frederick H. Meyer.  
James H. Plachek.

### Southern District

Wm. H. Wheeler, President.  
A. M. Edelman, Secretary-Treasurer.  
Wm. H. Dodd.  
Myron Hunt.  
John H. Parkinson.

Material changes to the "Rules and Regulations" governing the Board were adopted at this meeting, and will soon be in the hands of the State Printer to be published in pamphlet form, which will be available to any one interested.

# Homes For Workers Via Taxation Solves Post-War Housing In European Countries

European countries are meeting the post-war housing crisis by building hundreds of thousands of new homes for the workers, according to information furnished the Building Economic Research Bureau of the American Bond and Mortgage Company by the International Labor office at Geneva.

Federal, state and municipal authorities in more than twelve countries are active in aiding new construction by providing large funds for housing through various forms of taxation.

Holland is practically the only country that is without a housing shortage. The government has been active in the house-building campaign, which cost more than \$400,000,000. It has been a pay-as-you-go plan, and has been so successful that the country has neither a shortage or over-building situation.

The greatest progress toward solving the housing situation is being made by Great Britain. It is estimated that, since the war, upwards of 817,000 houses have been built or authorized to be built in Great Britain, under successive systems of public aid or by unaided private industry, at a cost to the taxpayer of more than \$480,000,000 (\$2,332,800,000). The government is taking steps with a view to the reduction, and possible ultimate suppression, of state subsidies for housebuilding, but at the same time arranging grants in aid of rebuilding or improvement of houses for rural workers.

## Build 195,895 Homes

Of the 195,895 houses built during the year ended September 30, last, 131,895 are classified as subsidy houses and 64,000 as non-subsidy houses. Not only are the normal yearly needs being met (about 100,000 houses per year; 70,000 to meet the increase in population, and 30,000 to replace old houses which become unfit for occupation), but a great effort is being made to wipe off the arrears which have accumulated owing to the cessation of house-building during the war.

This effort has not been accomplished without heavy sacrifices on the part of the state and the municipalities, which have already had to disburse large sums, and will have to continue to do so for some years, the public contribution to building taking in most cases the form of annual payments over a period of several decades.

An interesting estimate made by the Garden Cities and Town Planning Association of the total cost to the taxpayer of the houses built in Great Britain since the war, up to June 30, 1926, under the different policies, follows:

System	Number of Houses	Cost to the Authorized Taxpayer
"Addison" Act, 1919:		
Building by municipalities .....	174,648	\$427,200,000
Grants to private builders .....	39,186	9,498,157
"Chamberlain" Act, 1923 .....	303,008	22,725,600
"Wheatley" Act, 1924 .....	137,273	21,686,875
Non-subsidized building .....	163,820	
	817,935	\$481,110,632

Germany apparently has the most serious housing problem. The present deficit is estimated at 800,000 houses, increasing each year by 150,000. Leading trade unions in that country have issued a manifesto embodying a na-

tional program for the construction of at least 250,000 dwellings per year for five consecutive years, at an annual cost estimated at over 2,500,000,000 marks (\$585,000,000).

## German Situation Acute

The houses to be constructed should be of specified dimensions, their average construction cost being estimated at 10,000 marks. In view of the fact that it cannot be expected that persons of small means should directly or through mutual benefit societies, bear a share exceeding 500 marks of the necessary expenditure, and also in view of the fact that it is impossible to reckon on such a rise in rents as would give an adequate return on the capital involved, the manifesto proposes that for each dwelling 4000 marks may be borrowed on mortgage at 6 per cent interest, plus 1 per cent for amortization. This, for the program involved, would represent an annual sum of 1,000,000,000 marks. It is believed that it would not be difficult for the savings banks to utilize 60 per cent of their existing deposits for the purpose, and thus to supply 600,000,000 marks on mortgage; the remaining 200,000,000 marks might be found among the other mortgage banks, credit institutions and social insurance institutions.

The balance of the necessary capital (i. e., 1,375,000,000 marks, calculated on a basis of 5500 marks per house) would be advanced by the authorities out of the revenues from the tenant tax, the collection of which would have to be tightened up to an appreciable extent.

In the event of the revised tax proving inadequate, official loans could be floated in order to obtain the necessary resources.

The labor manifesto considers that all possible measures should be taken to reduce construction costs to a minimum. Among other recommendations may be mentioned: The concession of state lands on advantageous terms; tax exemptions in favor of expenditure on road and canal constructions; and standardization of building material in such a way as to employ the full productive capacity of these industries even during "off" season.

## Russia Has Garden Cities

In Soviet Russia where the ownership of all real estate is vested in the city, the government is making progress toward relieving the housing crisis through a new city housing scheme which embraces the construction of garden cities outside the towns and industrial areas, but connected by a system of railways or tramways.

Many of Russia's little garden cities have already been built outside the larger towns. The houses are detached or semi-detached and stand on about  $\frac{1}{4}$  or  $\frac{1}{2}$  of an acre of ground. The houses themselves are built on the latest recognized housing plans with high rooms, up-to-date sanitary appliances and labor-saving devices. They vary in size, but usually consist of four rooms, kitchen and bath.

A single house is costing the government about \$3800 and a double, or semi-detached house, is costing approximately \$5800.

As these garden cities become inhabited, the flats in the larger cities are

gradually evacuated, giving greater comfort to the city workers.

The extent of the housing crisis in Russia is indicated by the fact that Leningrad is about the only city where there is no shortage. It is about the only town in Russia where a whole flat is obtainable for one family. In other cities in Russia, families are confined to two or three rooms.

The matter of housing in Moscow and many other large cities in Russia has presented quite a problem because the poorer classes, following the revolution, forcibly requisitioned blocks of the better class of residential buildings and their poorer dwellings were neglected and consequently fell into a hopeless state of disrepair. Many of the buildings taken over by the workers themselves depreciated to such an extent they were rendered uninhabitable.

Since the Socialist government gained control in Vienna in 1920, much progress has been made toward solving the housing situation. There have already been built, or under way, 25,000 flats besides a large amount of public building. In addition, there has been appropriated \$9,000,000 by the state for the erection of 5000 more flat buildings for residential purposes this year. It is estimated that nearly \$50,000,000 will be spent on the construction program for construction in Vienna during 1927, besides a large amount of public improvements such as parks, bridges, street lighting, garbage plants, etc.

## Rent Taxes Aid Building

In Prussia, Minister for Public Welfare Hirtsiefer has recommended the construction in 1927 of 200,000 houses, and in order to obtain the necessary capital proposes to levy a rent tax amounting to 30 per cent as from April 1, 1927, and the total revenue from the taxes collected during the following nine months would be devoted to building.

The Serb-Croat-Slovens Kingdom has established a fund under the Ministry of Social Welfare to facilitate the construction of houses for state officials individually or to state officials' co-operative societies. The annual interest on the loans is five per cent, repayment must be made in six monthly installments by individual officials within 15 years and by co-operative societies within 20 years.

In Switzerland the federal government no longer intervenes directly in housing questions. The last measures for protection of tenants were repealed on November 1, last, by federal decree. Several cantonal authorities, however, are aiding in providing of housing, as well as municipalities. In addition, provision has been made for the cantonal bank to advance on mortgages up to three-quarters of the real value of subsidized houses.

In Sweden, Poland, Austria, Belgium, Hungary, Italy and Lithuania, there is still an urgent need for housing. Government in these countries, however, is limited and the progress is slow.

Much of the building abroad is cottages or single family houses. In a number of places, it has been found necessary to construct flats in order to reduce costs and immediately supply suitable accommodation for a population residing in a given district.

# Effect Of Metal Lath On Radio Reception Is Told

A number of articles have appeared in magazines recently concerning the effect of metal lath on radio reception. The discussion thus far seems to have been based on guess work and hearsay.

In order to determine what effect, if any, metal lath had on radio reception, a series of scientific tests were conducted by the manufacturers of metal lath, the results of which are set forth in the accompanying article. The tests were conducted by K. A. Hathaway, Radio Service Department, Chicago Daily News, for the Associated Metal Lath Manufacturers, Inc.

The tests were conducted over a period of four weeks, which time included the necessary design and arrangement of instruments, test laboratory, etc. The room prepared especially for the tests was one side of a double garage located at 5326 Warwick Avenue, Chicago, Ill. The metal lath was attached to frames provided according to specifications furnished by The Associated Metal Lath Manufacturers. The room used was of normal size, approximately 10 feet by 14 feet.

Metal lath completely covered the walls and ceiling of the room and was laid upon the floor to determine what would be the effect, if any, of metal lath on the ceiling of the floor below.

## Test Apparatus

The test apparatus consisted of a standard six-tube receiver of an exceptionally high grade operated from a loop. For the purpose of making comparisons a local oscillator circuit was installed in such a way that the grid circuit of the oscillator stage was connected into the set through the loop, one-half of the loop being utilized for the input from the oscillator. A milliammeter connected into the oscillator circuit gave a definite reading for the input to the receiver. Another milliammeter inserted in the output of the receiver served to give a definite reading on the plate consumption, an indication of the strength of the radio frequency field.

## Operation

Stations both local and distant were used in with the readings recorded as above noted. The numerical values obtained will be of no value since they cannot be expected to be found similar in any other case. The first readings were taken with the walls and ceiling intact. This was followed by removing the windows which were also covered with the metal lath. The walls were removed, one section at a time; the floor was laid, insulated from the ground and later grounded; the ceiling was removed; and the metal lath was grounded thoroughly. The loop was moved about in the room un-

der varying conditions, long leads being provided to allow portability.

## Results

From the readings taken the indications are that the metal lath, if anything, has the effect of strengthening the radio frequency field. The first tests made brought out the fact that if the loop were placed within about two inches of the metal lath the signal strength and the corresponding volume was decidedly cut and the radio waves were apparently absorbed by the metal lath. But, it was found that on returning the set (adjusting the dials) the condition was overcome and the signal strength even in the proximity of metal lath was as great as at a distance.

The leads to the loop were lengthened to allow the loop to be moved to approximately the center of the room. The indication at first was a large decrease in the volume produced by the loud speaker and a corresponding drop in the instrument readings indicating a loss of signal strength. The presumption was then that the field set up by the metal lath concentrated in the center of the room and though it is not likely that a receiver will be installed in such a fashion in a home, the readings were taken for the purpose of determining the effect under such a condition. On returning the set, however, and placing the circuits in resonance, the readings showed an increase of approximately three per cent in the strength of the radio frequency signal.

The directional effect of the loop was not affected by the metal lath, and in fact was more effective on distant stations than with the metal lath removed.

## Recommendations

It would seem from the findings of the tests that the principal thing required is an educational program for the radio users living in the metal lath equipped buildings. Those who live in buildings using other materials of construction no doubt have logged their sets and attempted to use the same dial settings for the building constructed using the metal lath.

not as well known to the technical men as they might be and this is the reason for the campaign."

Architectural, engineering, building and lumber trade publications will be used for the structural timber advertising campaign and a special drive to co-ordinate with the publicity is planned by the bureau's field staff of technical engineers. These will work in co-operation with sales representatives of bureau member mills and with retail dealers stocking the structural grades of Douglas fir.

Quite a number of west coast mills are now cutting all the structural grades and others have signified their intention of backing up the program by adding these stocks to their regular lists.

The structural grades are different from other lumber grades in that they have been established by the Forest Products Laboratory, the American Society of Railway Engineers and other technical bodies on the basis of thousands of timber tests while the ordinary lumber grades have been made either by the manufacturer or the retail dealer to suit the necessities of manufacturing or selling. Strength, stiffness and toughness are the principal factors for which structural timbers are graded and the method of determining these in individual timbers is based on laboratory testing experience with the same species. The percentage of summer-wood, rings per inch, direction of grain and location and size of defects are the important considerations in cutting and grading structural timbers. Properly cut and graded structural timbers are accepted by engineers and architects as standard materials subject to established strength tables.

"The present differential between No. 1 Common Douglas fir and other structural timbers is from \$15 to \$30 per thousand," the bureau declared, "and yet our timber, when cut and graded in the best way, is unsurpassed from every standpoint for this purpose. Moreover, it can be readily obtained in sizes that can not be secured from logs of other comparable species. It is this better-priced cutting that our timber campaign is aiming at."

## GRADE CROSSING ACCIDENTS

The American Railway Association reports an increase in grade-crossing accidents during 1926. Throughout the United States there were 5921 crossing accidents last year, in which 2492 persons were killed and 6991 injured, while in 1925 there were 5479 accidents in which 2206 persons were killed and 6555 injured.

Union Rock Company has complained to the Railroad Commission against alleged excessive and discriminatory rates for the transportation of crushed rock, sand and gravel, maintained by The Atchison, Topeka and Santa Fe Railway Company, Pacific Electric Railway Company and Southern Pacific Company, between producing points in Southern California and points of distribution, and asking the commission to require defendant carriers to remove alleged discriminations, and to publish proper rates for such service.

June 14 is the date officially set by the San Francisco Board of Supervisors to vote bonds of \$40,000,000 to finance purchase of the Spring Valley water system; \$4,000,000 to finance erection of the War Memorial Buildings in the civic center; \$1,400,000 to finance the Bernal Cut project and \$4,000,000 for municipal railway extensions.

# West Coast Lumber Bureau To Advertise Douglas Fir

A special national campaign in behalf of Douglas fir structural timbers announced to begin in June by the West Coast Lumber Bureau, with headquarters at Seattle. Details of the plan are agreed upon between a special lumber grading committee of the West Coast Lumbermen's Association and bureau officials. Extensive advertising field work, both of a technical nature, and directed chiefly toward architects and engineers, will be used by the bureau to bring a larger amount

of this class of trade to west coast mills.

"Douglas fir mills in Washington and Oregon can supply the most exacting requirements in structural timbers," the bureau stated, "and on many of the most important pieces of timber construction undertaken in America during recent years, Douglas fir structural timbers were specified by the responsible architects and engineers. However, the quality, size and availability of our structural timbers are

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

State Senate, by a vote of 23 to 9, has passed S. B. No. 885, by Senator Roy Fellom, San Francisco, which provides for a state investigation relative to taking over control of the toll bridges operating in this state. The bill was originally intended to apply only to the Carquinez Straits bridge, but later amended to include all toll bridges in the state. Under this bill the state highway commission will make an investigation relative to the purchase of these bridges and to make a report to the next session of the legislature concerning the advisability of this step. The bill was opposed by Senator Will R. Sharkey, Martinez, who contended its passage would discourage further bridge projects in which private capital was interested.

The California highway system will profit to the extent of \$700,000 from funds set aside for the maintenance of convicts in the state penitentiaries. The State Board of Control has proposed plans for the transfer of the funds to the State Highway Commission. It was discovered in going over the appropriations that the penitentiaries would be relieved of large items of expense in sending out convicts to do road work.

The University of Western Australia is inviting architects of the British Empire and the U. S. to submit designs for a group of buildings to cost \$750,000. Prizes of \$15,000, \$1000 and \$500 are offered. The competition closes at Perth, Western Australia, Aug. 23. Copies of conditions may be obtained from the commissioner for Australia in the U. S., at 44 Whitehall St., New York. A scholarship valued at \$500 is offered the Class A student in the architectural department, Beaux-Arts Institute of Design, who obtains the greatest number of values in competitions during the school year. This is known as the Walter L. Hopkins scholarship.

Cast iron is being tried out as paving material at Le Mans, according to word from Paris. Ten tons of plates are being laid on a part of a main highway, the Avenue Leon Bollee, named after the automobile designer, and the experiment is being watched by engineers. Old iron has been shipped out of France in great quantities and General Gasconin long has urged that it be used for paving. The government's chief of road engineers designed a paving plate, sufficiently rough to prevent horses and cattle from slipping, but suitable, above all, for automobile traffic.

During the first quarter of 1927 sixteen lumber mills reported 88,630,000 ft. of redwood cut, 103,069,000 ft. shipped and 118,763,000 ft. sold, while 51,726,000 ft. of orders were unshipped. The same mills also cut 22,037,000 ft. of whitewood, shipped 17,194,000 ft. and sold 19,728,000 ft. Unfilled orders for whitewood totalled 7,707,000 ft. Southern California absorbed nearly one-fourth of the redwood shipped.

Richmond-San Rafael Ferry Company will make application to the Contra Costa County Supervisors shortly seeking a franchise to bridge the lower section of San Pablo Bay, it is announced by Harold T. Gill, secretary of the company. According to preliminary plans prepared by James J. Walsh, San Francisco consulting engineer, the structure will be of the high-level type, three and one-half miles in length, from Point San Quentin in Marin county to Point Castro in Contra Costa county. It will consist of a series of long spans across the total deep water area between the two points with gradual approaches at either end. The cost of construction is estimated at \$10,000,000.

Sonoma County Master Plumbers' Association at a joint meeting in Santa Rosa with the journeymen plumbers of the county, voted to urge the Santa Rosa city council to adopt a new plumbing ordinance.

Sacramento insurance brokers have requested the Sacramento city commissioners for endorsement of a proposition to have contractors doing municipal work to buy their surety and bidder's bonds through Sacramento agents. The matter has been referred to H. F. Bottorff, city manager, for report.

Building codes of the future will require the owners to have a competent engineer to inspect large structures before they can be put into use, according to Col. John W. Oehmann, chief inspector of buildings in the District of Columbia. This plan is at present being used in the nation's capital, where it insures sound construction and thorough inspection without additional cost to the city. Only the engineers who have been approved by the chief inspector of buildings may be employed under this law. A rigid standard regarding the approval of inspectors permits only an experienced engineer to hold this position. He must make a continuous inspection during construction of the building, and then make a report on it in which he may recommend that it be approved for use. This system makes him responsible for its structural safety.

## ALONG the LINE

Harry T. Compton, 70, resident of Stockton and a civil engineer, died in that city April 24, following an illness of several years. Before reaching the age of 21 years, Mr. Compton was elected city engineer of Stockton and later as county surveyor of San Joaquin County, a position he held for many years. His later public service was as city engineer of Stockton, after which he retired, due to failing health. A brother, W. B. Compton, of San Francisco, survives.

Herbert W. Stitt, after fifteen years of service as city electrical inspector of Fresno, has tendered his resignation to the city council, to become associated with the California Electrical Bureau in the San Joaquin valley section, operating between Lodi and Bakersfield. He will make his headquarters at Fresno. Mr. Stitt succeeds George Rankin who has been transferred to the Los Angeles division of the bureau.

George Wm. Kelham, architect, now occupying quarters in the Sharon Building will move to larger quarters at 315 Montgomery street, May 1st, where he has leased the entire 16th floor.

Julius Merriam Howells, 68, consulting engineer for the Great Western Power Company, died in San Francisco April 22 following a stroke of apoplexy. A widow, two sons and a daughter survive.

Burnett Hamilton, city engineer of Alameda, has returned to his desk after being a victim of influenza for a week. He lost 12 pounds in less than a week and stands ready to recommend the "flu" as a very efficient and speedy weight reducer.

William Arthur Newman, Pacific Coast district representative for the U. S. Supervising Architect's Office, Treasury Department, has left for Washington to confer with government heads with regard to new federal buildings to be erected in the Pacific Coast district.

L. Ebbets, architect, has opened offices at 251 Kearny street, San Francisco.

## TRADE NOTES

Amador Mill & Lumber Company of Jackson, Calif., has been incorporated. Capitalization \$50,000. Directors are: E. N. Matson, West Point; L. A. Spinetti, Jackson; L. A. Socal, Sutter Creek; A. H. McCarthy, Stockton, and Elmer Matson, West Point.

The eleventh annual convention of the National Retail Lumber Dealers' Association is scheduled for August 22-25 at Tacoma, Wash.

Industrial City Lumber Co., capitalized for \$50,000, has been incorporated in San Francisco. Directors are: F. G. Flaherty, L. S. Drake and L. Patricio.

J. A. Burkhart and H. R. Hardy, painting and decorating contractors, operating under the firm name of J. A. Burkhart & Co., with headquarters at 1121 Palm Drive, Burlingame, announce a dissolution of partnership. The business will be continued by J. A. Burkhart.

South City Lumber & Supply Company is occupying its new \$150,000 plant recently completed at Railroad and Spruce Aves., South San Francisco. The plant comprises a mill building, 70 by 120 feet; drying shed, 30 by 140 feet and warehouse, 30 by 50 feet and office structure. W. H. Dinning and I. E. Horton, manager of the concern, superintended construction of the plant.

The Hutchinson Lumber Co. of California was sold April 22 under foreclosure proceedings for \$1,960,063.13 to A. H. Land of Oroville, one of the principal holders of the second mortgage under which the property was sold. The foreclosure was brought about by the Capitol City Bank of West Virginia. The property is appraised at \$6,234,000. It is understood that reorganization of the company will be made.

Indiana Limestone Co. with offices in the principal cities of the United States, has opened a new sales department in the Crocker First National Bank Bldg., San Francisco. L. N. Dunihue, formerly of Bedford, Ind., and more recently of New York City, will be in charge of the company's sales in the Pacific Coast section.

H. C. Boyden has been appointed lecturer for the Celite Products Co., as announced by the company's Los Angeles office. Colonel Boyden's lectures will embody the results of recent investigations carried on for the determination of the workability of different concrete mixtures as a factor affecting the quality, cost and appearance of concrete.

Barney Rosenberg, former department manager for the Valley Electric Supply Company, Fresno, has purchased the business of that company and on May 15 will open new quarters at 814 Fulton St., Fresno. Prior to entering the Fresno field, Rosenberg was for twelve years connected with the Thos. Day Company of San Francisco, manufacturers of lighting fixtures.

John Westely Williams will operate from 945 Golden Gate Ave., San Francisco, under the firm name of Security Roofing Company.

Asbestos Distributing Co. of Oakland, capitalized for \$100,000, has been incorporated. Directors are: S. M. Ample, Harry D. Leech, J. A. Turgeon, Geo. T. Ehrlich and A. E. Little, all of Oakland.

Dave Campbell, plumbing contractor, announces the opening of new shop and office quarters at 16 Mission Circle, Italy City.

Liberty Ornamental Iron & Wire Works, capitalized for \$50,000, has been incorporated in Oakland. Directors are: P. Romak, F. Banchio and R. S. Rushing, all of Oakland.

The State Supreme Court has issued a peremptory writ of mandate directing the Board of Public Works of Los Angeles to approve a paving contract with Braun, Bryant & Austin, involving more than \$1,000,000. The Los Angeles board had refused to approve the contract on the ground that it violated the city charter in the specifications of materials. The City Council had in the meantime approved the contract and bond of the company, and the mayor had signed it.

# Chamber Of Commerce Plans To Issue Classified Directory

(By the Observer)

The San Francisco Chamber of Commerce contemplates the publication of a directory of manufacturers and a classified index of merchandise of local manufacturers, wholesalers, distributors, etc.

This publication, to be issued and distributed free by the chamber, would serve as a buyers' guide for locally manufactured products and the merchandise of wholesalers, distributors, etc., and will be widely distributed among purchasing agents and buyers in all lines.

It will cost the individual nothing to have his products listed. The issuance of the directory will be a Chamber of Commerce contribution to the manufacturing and merchandising interests of the city.

## Will Prove Invaluable

Publication of such a directory will prove invaluable to every member of the construction fraternity. It will tend to permit each and every member of that great family to familiarize himself with the names of those with whom he can do business—not a few—nor the more important ones—but all of them.

Very often a query comes to the writer's desk seeking information on specialty materials or equipment. Who markets the product? Where is it manufactured? Have they a local office or representative in San Francisco? If so, who are they, and where are they located?

## Trade at Home

With a directory such as is proposed by the Chamber of Commerce such queries would not be necessary. Considerable business goes out of San Francisco every year that would otherwise be kept at home due to the failure of every business man having on hand a commodity index of local manufacturers. The proposed directory would be the means of keeping many hundreds of thousands of dollars in San Francisco that would otherwise go to other communities.

In the proposal of the Industrial Department of the Chamber of Commerce to publish this valuable "business getter and developer," San Francisco manufacturers and distributors should exercise themselves and develop the "trade at home" spirit.

The exercise is in a prompt reply to the chamber of the following questions; the development—the result of your answers—will follow shortly after the issuance of the directory.

## Questions to Be Answered

DO YOU CONSIDER THE PUBLICATION OF SUCH A DIRECTORY BENEFICIAL TO THE BUSINESS INTERESTS OF THE CITY?

DO YOU BELIEVE IT WOULD PROVE BENEFICIAL TO YOU IN PROMOTING SALES?

WOULD IT BE OF SERVICE TO YOUR PURCHASING DEPARTMENT?

## Do It Now

Don't wait until tomorrow. Answer the above questions at once. An answer is your gain. Unanswered, your loss.

Answer them today and forward them to the Industrial Department, San Francisco Chamber of Commerce, 451 California Street.

# Output Of Masonry, Natural And Puzzolan Cements Increase In 1926

Statistics of hydraulic cements, other than Portland cement, in 1926, which included masonry, natural, and Puzzolan cements, as compiled by the United States Bureau of Mines, Department of Commerce, show that the production — 2,104,891 barrels — exceeded that of 1925 by nearly 22 per cent. Shipments of these cements from mills in 1926 increased 16 per cent in quantity and about 11 per cent in gross value. Stocks at the mills also increased and were about 68 per

cent higher at the end of 1926 than at the end of 1925.

These statistics represent the output of 11 plants in 1926, which are located as follows: One each in Alabama, Illinois, Indiana, Kansas, Kentucky, Ohio, and Pennsylvania; and two each in Minnesota and New York. One new plant, in New York, began production of natural cement in 1926.

The output has been expressed in terms of 376-pound barrels to correspond with the statistics of Portland cement.

MASONRY, NATURAL, AND PUZZOLAN CEMENTS PRODUCED, SHIPPED, AND IN STOCK IN THE UNITED STATES, 1925 AND 1926

Year	Active plants	Production Barrels	Shipments Barrels	Stock (Dec. 31)	
				Value	Barrels
1925	10	1,729,343	1,751,725	\$2,551,583	107,459
1926	11	2,104,891	2,031,851	2,820,110	130,499

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## SACRAMENTO BUILDING BOARD HOLDS INITIAL MEETING

The Board of Examiners and Appeal for the city of Sacramento, authorized under the new building code and named recently by City Manager Bottorff, held its initial meeting April 25 and named W. W. Campbell, general contractor, as chairman.

The primary duty of the organization will be to act as an arbitration board in matters of dispute between the building inspector's office and prospective builders. It is empowered to review all plans and specifications and to make suggestions.

A phase of the discussion at the initial meeting was a conflict existing between the local building ordinance and the state law with reference to fire escapes. The board will prepare an amendment to take care of this situation.

M. W. Sahlberg, a structural engineer, was named vice-chairman. The other members are James S. Dean, city architect; R. L. Shinn, city attorney, and C. L. McKesson, testing engineer. Building Inspector J. Ralph Shields will be an ex-officio member.

## FRANK W. PLANE NEW EXCHANGE SECRETARY AT LOS ANGELES

Frank W. Plane has been named secretary-manager of the Builders' Exchange of Los Angeles. Mr. Plane was for three years a member of the board of directors of the Exchange, served on its executive committee and for the last year was chairman of its program committee.

To accept the position with the exchange, he resigned as manager of the sales promotion department of the E. K. Wood Lumber Company, a position he had held for three years. Prior to that he had for three years been assistant sales manager for the Hammond Lumber Company. As secretary-manager of the Exchange, he succeeds Paul F. Langworthy, who resigned to enter private business. In addition to his activities with the Builders' Exchange, Mr. Plane is a member of the harbor and foreign trade committee of Los Angeles Chamber of Commerce a member of the Hoo Hoo, the Pacific Coast Association of Fire Chiefs and the Pacific Coast Building Officials Conference.

What is the best way to increase lime tonnage? That is the question which is uppermost in every lime producer's mind. It will also be the keynote of the Ninth Annual Convention of the National Lime Association, to be held at the Greenbrier Hotel White Sulphur Springs, W. Va., May 17-18-19. A feature of the program will be the discussion, Wednesday, May 18, of the vital question of co-ordinating Promotion and Sales. This general subject will be subdivided into several phases for detailed discussion, each phase being started by a talk from a lime manufacturer who has made a special intensive study of the subject.

## STATE RETAIL LUMBER CHIEFS MEET AT STOCKTON

Seventy-six directors of the California State Association of Retail Lumbermen attended a called meeting in Stockton April 23, as members of the various Rotary Clubs which were attending a convention of that body in the Municipal Auditorium.

Herbert Graham, former national president of the Master Plumbers' Association and at present connected with the Cosmopolitan Mutual Bank & Loan Association of Oakland, addressed the group on "Credit."

The directors elected Frank Wells of Turlock to replace Elmer King of Bakersfield as Northern vice-president of the association.

## SAFETY CHIEF ADDRESSES PENINSULA CONTRACTORS

W. J. French, past president of the International Association of Industrial Accident Commission of the United States and Canada, and formerly chairman of the California Industrial Accident Commission, was the principal speaker at the April meeting of the San Mateo County General Contractors' Association held in Oak Tree Inn, San Mateo, April 21. He told the history of the present Workingmen's Compensation Act in this state, his experiences with various kinds of industrial accidents and causes thereof and preventions thereof. After the speaker had concluded, a discussion of the subjects of industrial accidents and compensation insurance was held by the members.

The next meeting of the association will be held May 19 at the Oak Tree Inn. At this meeting, nomination of officers for the second half of the year 1927 will be made.

## ANOTHER BILLION DOLLAR YEAR FOR HIGHWAYS

For several years expenditures in the highway field have run well over a billion dollars each year. That the present year will see no falling off in the road building and maintenance programs is shown by estimates given out last month by the U. S. Bureau of Public Roads. Reports obtained by the bureau from state highway departments indicate a proposed total expenditure of \$1,123,000,000 in 47 states. Connecticut is not included at this time owing to the uncertainty of pending legislation. Of the above total \$648,483,000 will be expended under the supervision of state highway departments, and \$475,000,000 by counties and other lesser subdivisions. Of the expenditures by state highway departments it is estimated that approximately \$421,000,000 will go for new road construction, \$56,000,000 for new bridges, \$27,000,000 for reconstruction and \$126,000,000 for maintenance. The state highway programs call for the construction of 7489 miles of asphalt brick or concrete roads, 12,395 miles of sandclay, gravel or macadam roads and 6957 miles of improved earth roads.—(Roads and Streets).

## \$117,474 OFFER TO SETTLE ON IRRIGATION PROJECT

The joint Oakdale and South San Joaquin Irrigation Boards, at a meeting in Oakdale last Wednesday approved a letter prepared by Chief Engineer Hartley, setting out in more detail the offer of compromise previously made to the Mathews Construction Company for a final settlement of the controversy over payment for the \$2,200,000 reservoir.

The total payments which the districts agreed to make amount to \$117,474.22, of which \$23,830.81 is balance due on the railroad and wagon road, and the balance for the reservoir proper. These make allowance for about \$10,300 withheld orders filed by various claimants against the Mathews Construction Company.

## PALMER AND PETERSON BRIDGE PROJECT AGAIN IN COURT

An echo of the recent decision which gave Palmer & Peterson, contractors for the Anderson bridge, a judgment against Shasta County in the sum of \$9750 which, with interest, is \$12,000 approximately, was heard recently at Redding when a suit was filed in the superior court by The Paraffine Companies and Griswold Lumber Company of Portland, Oregon, against Shasta county and H. H. Shuffleton, auditor, to recover \$7979.87 for materials furnished to Palmer & Peterson for work of repairing the bridge. The work was done in 1920-21, and the material furnished in those years.

The suit is brought by the plaintiffs acting as assignee of the Anderson Lumber Company.

Recently Palmer & Peterson were given judgment against Shasta county and the amount of the judgment was turned over to the auditor. The Anderson Lumber Company had, however, filed notice on Shuffleton to withhold the amount due it, which is the amount now sued for.

Numerous creditors of Palmer & Peterson have filed claims with the auditor in addition to the one of the Paraffine concern. The auditor will withhold payments on all claims until a court decision is rendered in the matter.

The plaintiffs in the suit just filed are represented by Brobeck, Cheeger & Davidson of San Francisco and Carr & Kennedy of Redding.

"Estimating Quantities of Materials for Concrete" is the title of a practical paper by Stanton Walker director, Engineering and Research Division of the National Sand & Gravel Company, Munsey Bldg., Washington, D. C., has been issued as Bulletin No. 1 of that organization. The paper gives formulas and tables for proportioning concrete, based on the fact that the volume of concrete is equal to the volume of solids in the aggregate plus the volume of cement so long as there is negligible quantity of unfilled voids or entrained air.

## APARTMENTS

Plans Being Figured.  
APARTMENTS Cost, \$45,000  
SAN FRANCISCO. S Jackson St. — E  
Hyde St.  
Three-story frame and stucco apart-  
ment building (12 three and four-  
room apts.)  
Owner—Leo Hass.  
Architect—Walter Falch, Hearst Bldg.,  
San Francisco.  
Bids will be taken for a general  
contract.

Segregated Bids Being Taken.  
APARTMENTS Cost, \$200,000  
SAN FRANCISCO. N Filbert St. 100 E  
Van Ness Ave.  
Six-story and basement Class C apart-  
ment building (72 apts., 2 and 3-  
rooms).  
Owner—E. V. Lacy, 708 Hearst Bldg.,  
San Francisco.  
Architect—C. O. Clausen, Hearst Bldg.,  
San Francisco.

Excavating and Grading Contract Let  
APARTMENTS Cost, \$350,000  
SAN FRANCISCO. Cal. N Chestnut St.  
— E Larkin St.  
Thirteen-story Class A community  
apartment house (1 apartment to  
a floor, containing 8 rooms with 4  
baths).

Owner—Marine View Apts., Inc., Geo.  
Stimmell, president; E. B. de Sur-  
ville, secretary and gen. mgr., 211  
Crocker Bldg., San Francisco.  
Architect—Willis Polk & Co., 277 Pine  
St., San Francisco.  
Contractor—Dinwiddie Construction  
Co., Crocker Bldg., San Francisco.  
Excavating—Sibley Grading and Team-  
ing Co., 165 Landers St.  
Structural Steel—California Steel Co.,  
Hobart Bldg.

Concrete Contract Awarded  
APARTMENTS Cost, \$124,000  
SAN FRANCISCO. N W Fulton and  
Scott Sts.  
Six-story and basement steel frame and  
brick (60) apartments.  
Owner—Scott-Fulton Investment Co.,  
Care of Architect.  
Architect—Albert H. Larsen, 447 Sut-  
ter St.  
Contractor—Daniel Hayes, 835 35th  
Ave.  
Concrete—Acme Concrete Co., 180 Jes-  
sie St.  
As previously reported: Grading to  
Tombo Bros.; structural steel to Dyer  
Cos., 17th and Kansas Sts.

Contract Awarded—Taking Sub-Bids  
APARTMENTS Cost, \$75,000  
SAN FRANCISCO. Divisadero and Cal-  
ifornia Sts.  
Three-story frame and stucco apart-  
ment building.  
Owner—Mrs. R. Pape.  
Architect—Angus McSweeney, 277 Pine  
St.  
Contractor—Barrett & Hilp, 918 Har-  
rison St.

Reinforcing Steel Contract Awarded  
APARTMENTS Cost, \$150,000  
SAN FRANCISCO. S E Broadway and  
Laguna St., 60x112-6 ft. Six-story  
steel frame and concrete apart-  
ment building (12 apartments),  
modern conveniences.  
Owner—Withheld.  
Architect—Hyman & Appleton, 68 Post  
St.  
Contractor—Hayes-Oser, Call Bldg.,  
S. F.  
Reinforcing Steel—The Steel Service  
Co., 1280 Indiana St.  
As previously reported: Excavating  
McClure & Chambers, 608 Octavia  
St.

Low Bidder  
APARTMENTS Approx. cost, \$45,000  
CARMEL, Monterey Co., Cal. Seventh  
and Dolores Sts.  
Two-story and mezzanine floor class  
A apartment building with terra  
cotta tile roof (2 stores, 7 offices  
and two 3-room apartments).  
Owner—Dr. R. A. Kocher.  
Architect—Wythe, Blaine & Olson.

Clubhouse type of construction not decided) and 18-hole golf course.  
**Owner—**Group of L. A. and eastern capitalists, represented by S. C. Hardin Golf Con. Co.  
**Architect and Engineer—**S. C. Hardin, 593 Market St.

**REDONDO BEACH, Los Angeles Co., Cal.** Associated Architects W. Horace Austin, 531 Pacific Southwest Bank Bldg., Long Beach, and John C. Austin and Frederick M. Ashley, Chamber of Commerce Bldg., Los Angeles, recommend to building committee that Jerzsen & Dequine, 1316 Paloma Street, Los Angeles, be awarded general contract at \$52,900 and Southwest Electric Corporation be awarded electric contract, for Masonic Temple to be erected at Ruby and Catalina Sts., 1 and part 2 stories; 160x160 ft.

**Sub-Contracts Awarded**  
**DANCE PAVILION** Cost \$200,000  
**SAN FRANCISCO, Cal.** Van Ness Ave. (extension) and Market St.  
Two-story and basement Class B reinforced concrete store and dance pavilion building.  
**Owner—**R. S. Schlessinger, Mortimer and Herbert Fleishacker.  
**Architect—**Clarence A. Tantau, Shreve Bldg., San Francisco.  
**Contractor —**Dinwiddie Construction Co., Crocker Bldg., San Francisco.  
**Detail Partitions—**D. A. Pancoast Co., 4 Harriett St.  
**Mill Work—**California Mill Co., 645 Bryant St.  
**Sheet Metal—**Forderer Cornice Works, 269 Potrero Ave.  
**Roofing—**Alta Roofing Co., 925 Gough.  
As previously reported: Heating, C. Peterson Co., 390 6th St.; steel sash, I. S. Metal Products 330 Tenth St.; plumbing, Wm. J. Forster Co., 355 4th St.; ornamental iron, Michel & Pfeffer 200 Works 10th and Harrison Sts.; electrical work, Victor Lemoge, 281 Potoma St.; steel, California Steel Co., Hobart Bldg.

**LOS ANGELES, Cal.—**Bids to erect juvenile hall building at Eastlake Ave. and Henry St. for County of Los Angeles were rejected by the supervisors April 20. The bids ran considerably above the amount of money available which is \$100,000. According to Supervisor Sidney Graves, the plans will probably be revised by the County Architectural Department under the supervision of Karl Muck, county architect.

**SACRAMENTO, Cal.—**Sutter Club of Sacramento is taking a vote by mail from the membership regarding new club quarters. Three proposals are submitted for vote, namely, purchase of site at 14th and L. Sts. for \$60,000 and erection of new building; purchase of site at 10th and N Sts. for \$35,000 and erection of new building; leasing of four upper floors of proposed Financial Center Building to be erected at Seventh and J Sts. Geo. C. Sellon & Co., Calif. State Life Bldg., Sacramento, are preparing plans for the latter structure.

**STOCKTON, San Joaquin Co., Cal.—**Deegan & Son, 710 E. Weber St., Stockton, at \$1698 and \$1286, according to type selected, submitted low bid to city to furnish and install furniture in Municipal Auditorium for Veterans of Foreign Wars. Horan & Co., Stockton, only other bidders at \$1778 and \$1351. Taken under advisement.

**SAN FRANCISCO, Cal.—**Taylor & Jackson, 290 Tehuma St., awarded the following sub-contracts, in connection with the construction of a one-story frame and stucco addition to the club and lounging rooms of the Lake Merced Golf Club. It is located on the Sloat Blvd. Plans were prepared by Architect Harry A. Thomsen, Sharon Bldg. Cost, \$50,000.  
**Concrete—**G. Massagie & Co., 147 Market St.  
**Plastering —**Leonard Bosch, 666 Mission St.  
**Glass—**Tyre Bros. Glass Co., 666 Townsend St.

As previously reported: The lumber contract was awarded to Loop Lumber and Mill Co., S. F.  
Painting bids are wanted.

**SANTA BARBARA, Cal.—**Inos. F. Cobbs, president of La Cumbre Club, states that the Board of Directors of the club is arranging to start work shortly on a new clubhouse to replace the one recently destroyed by fire. The new building will be Spanish style and will cost about \$50,000.

**PASADENA, Los Angeles Co., Cal.—**Architect David A. Ogilvie, 100 E. Colorado St., Pasadena, is completing working plans and bids will be taken next week for additions and alterations to clubhouse for Pasadena Golf Club; one and part 3-story addition, present building to be stuccoed, new plumbing, painting, electric wiring, etc.; cement and pine floors, hardwood and pine trim, steam heating system, shake roof, lockers and showers, two stone mantels; \$121,000.

HOSPITALS

**AGNEW, Santa Clara Co., Cal.—**H. P. Fisher Tile and Marble Co., 744 E. Weber St., Stockton, submitted low bid at \$899 and was awarded contract by State Department of Public Works, Division of Architecture, Forum Bldg., Sacramento, for white tile and marble work for wards No. 15 and No. 16 at the Agnew State Hospital.

**Excavating & Steel Contracts Awarded**  
**HOSPITAL** Cost, \$168,355  
**SAN FRANCISCO.** E Masonic Ave. near Ellis St.  
Three-story and basement steel frame and brick Class A hospital.  
**Owner—**Roman Catholic Archbishop (St. Elizabeth Infant Hospital)  
**Architect—**Leo J. Devlin, Pacific Bldg., San Francisco.  
**Contractor—**Clinton Constr. Co., 923 Folsom St., San Francisco.  
**Excavating—**H. V. Tucker, 300 Vermont St., San Francisco.  
**Structural Steel—**Minneapolis Steel Co., Hearst Bldg., San Francisco.  
Other sub-contracts will be awarded in about a week.

**Ready for Bids in Two Weeks.**  
**HOSPITAL** Cost, \$100,000  
**ALBANY, Marlin Ave near Masonic.**  
Three-story class B reinforced concrete hospital (60 beds).  
**Owner—**K. Schroer and Dr. Eric Kosterlitz.  
**Architect—**W. D. Peugh, 315 Montgomery St.

**Plans Being Prepared**  
**HOSPITAL** Cost, \$100,000  
**MONTEREY, Monterey Co., Cal.** Hart-St. near Webster.  
Two-story and basement reinforced concrete hospital bldg.  
**Owner—**Dr. Hugh and Horace Dormody, Ordway Bldg., Monterey, and Dr. J. P. Sandholt, Monterey.  
**Architect—**Clarence A. Tantau, 210 Post St., S. F.

**LOS ANGELES, Cal.—**Architect Lester H. Hibbard, 622 Metropolitan Bldg., is taking bids, to be in on May 2nd, for general construction of hospital and nurses' home buildings at Sunset Blvd. and Vermont Ave. for Children's Hospital Association. The nurses' home will be three stories, 252x60 ft., with stores in the first story and dormitory rooms for nurses in the upper stories. The hospital building will be four stories, 40x260 ft. Both buildings will be Class A, reinforced concrete construction, stucco exteriors, steam heating, elevators. The cost will be about \$600,000.

**LOS ANGELES, Cal.—**Architects Edward Cray Taylor and Ellis Wing Taylor 810 W. 6th St., are completing working plans and will take bids in two weeks for the erection of a two-story and basement class A medical and hospital building at the southeast corner of 5th and Lucas Sts., for Dr. Simon Jesberg; offices, consulting rooms, operating rooms, kitchen and dining room facilities and complete hospital facilities; building designed for two future stories, 45x97 ft., reinforced concrete construction, plaster exterior, steam heating system, high pressure steam system for sterilization, ventilating, refrigerating, electric elevators, Terrazzo base and sanitary cove, cement, hardwood and Battleship linoleum floors, marble and tile work; \$100,000.

“Gold Medal” Safety Scaffolding

for use on steel and concrete frame buildings saves lives, time and money.

It pays to use the best Scaffolding Equipment whenever a Scaffold is required. The risk is always great.

The Patent Scaffolding Company

270 13th Street, San Francisco Phone Hemlock 4278  
Lessor of Suspended and Swinging Safety “Gold Medal” Scaffolding.

WALLA WALLA, Wash.—Until May 17, 11 a. m., bids will be received by U. S. Veterans' Bureau, Arlington Bldg., Washington, D. C., to install telephone equipment in Veterans' Hospital No. 85, at Walla Walla. Plans obtainable from above.

SAN FRANCISCO—Roberts Mfg. Co., 663 Mission St., at \$1332 submitted low bid to Board of Public Works to furnish and install electrical fixtures in Tubercular Preventorium at Pulgas, San Mateo County. Other bids: Edw. F. Dowd, \$1375; W. W. Warren, \$1438; Severin Elec. Co., \$1450; R. A. Ryan, \$1493; Watts Electric Co., \$1495; P. S. Burchall, \$1600.

## HOTELS

Plans to Be Prepared  
ALTERATIONS Cost, \$—  
SAN FRANCISCO. S E Powell & Anson Streets.

Alterations to 4-story and basement brick and concrete hotel building for college building (Univ. Extension Division).

LOS ANGELES, Cal.—Howard J. Latimer, 1021 W. 7th St., Joseph Musgrove and W. J. Stevenson, New York, and associates, have purchased a three and one-half acre tract on the south side of West Seventh St. bet. Bixel and Garland Sts. at a purchase price of more than \$1,000,000. It is understood that the property is to be improved with a class A hotel building to contain more than 1000 rooms. The site has a frontage of 265 feet on Seventh St., extending through to Eighth St., with a depth of 600 feet and a frontage on Eighth St. of 320 feet.

VENICE, Los Angeles Co., Cal.—John A. Platt Holding Co., 7228 Sunset Blvd., will commence work shortly on the erection of a 6-story Class A store, hotel and apartment building at the northwest corner of Venice Blvd. and Second St., Venice, for itself. Plans have been completed by Meyer-Radon Bros., 6362 Hollywood Blvd. It will be 172x80 feet, with stores and cafe in

the first story and 140 hotel rooms and 20 apartments in the upper stories; reinforced concrete construction, cast stone and stucco exterior, plate glass, pine trim, marble and tile work, wall beds, elevators, steam heating; cost \$300,000.

LOS ANGELES, Cal.—Architects Postle & Postle, Van Nuys Bldg., have prepared preliminary plans for a 7-story and basement Class A hotel building to be erected at 529 South Wall St. for Ruth Beckwith. It will be 56x116 feet, reinforced concrete construction.

MARYSVILLE, Yuba Co., Cal.—I. C. Evans, 201½ D Street, Marysville, general contractor, is preparing estimates of cost for William Gern, owner of the Hotel Marysville for a 40 to 50-room addition to the present structure. Construction, however, will not be started until next fall.

MARYSVILLE, Yuba Co., Cal.—Hamilton & Rossi, operating the Hotel Marysville, contemplate construction of an annex to the present structure to provide between 40 and 50 rooms. The project is yet in a preliminary stage.

## ICE AND COLD STORAGE PLANTS

Contract Awarded—Lumber Blds

Wanted  
COOLER BOX Cost, \$30,000  
SAN FRANCISCO. S Arthur 183 E 3rd Street.  
One-story frame (ice) cooler box.  
Owner—H. Moffat Co., 1st National Bk. Bldg.  
Architect—None.  
Contractor—Barrett & Hilp, 918 Harrison St.

### "CHICK DUCK" HAS ROOSTER'S HEAD, WEB FEET

A chick-duck is the latest freak in the fowl line. It was reared by Mrs. John Solari at Mokelumne Hill, near San Andreas, Calaveras county. The fowl, now ten months old, waddles like a duck holds itself erect like a penguin, can't eat off the ground and is beginning to crow like a rooster. The thing looks like a cross between a chicken and a duck, having a rooster's head, and web feet. Mrs. Solari hatched it from a setting of eggs represented as duck eggs when she bought them.—News Item.]

MAYBE YOU think.  
THAT MRS. Solari.  
HAS A funny chicken.  
OR DUCK.  
(SEE ABOVE news item).  
BUT LOOK at the bird.  
AT END (under picture).  
OF THESE literary efforts.  
OF CLARENCE (Sandy) Pratt, President.  
OF THE Pratt Building Material Co.  
THIS BURBANK-LIKE combination.  
PATENTED BY Sandy Pratt, producer.  
OF CLEAN, sharp sand.  
AND CLEAN, sharp rock.  
AND CLEAN, well-graded gravel.  
NOW, SANDY is debating.

WHETHER TO raise this bird.  
OR CONTINUE.

TO WASH sand and rock.

OR MAYBE a better scheme.

WOULD BE for Sandy.

TO GO in partnership.

WITH MRS. Solari.

AND START a circus.

WE COULD get more freaks.

MAYBE SOME one.

WOULD SUGGEST the writer.

OF THIS stuff.

ANYWAY, SANDY, would welcome.

LETTERS OR suggestions.  
ABOUT THE circus.  
AND NOT about Sandy.  
GOING IN as a freak.  
"I THANK you."

Clarence (Sandy) Pratt's Burbank Plymouth "Itack" 1927 model chicken "hatched" in the "bed" of the American River, where Sandy's company, the Pratt Building Material Co., produces plastering and concrete sand as well as crushed rock and washed gravel at Sacramento and Mayhew (Sacramento County). Think of the head of Sandy's new bird, containing a set of brains as large as a Durham cow's and every butcher will be glad to sell them. The ears will be converted into shingles and sold by all the big butter and egg lumber men. Don't forget the "trunks." The Ivory Soap Co. will buy all the ivory in the tusks. The legs (thrown away from the ordinary Petaluma chicken variety) will be sold for fence posts by the Diamond Match Co. in the Sacramento Valley and other lumber men elsewhere. You have the body to eat and the most remarkable part of this whole story (patented at Washington, D. C.) is that Sandy has taught this marvelous bird to eat Sandy's clean, sand, rock and gravel produced at Sacramento, Marysville, Prattrock (near Folsom), Pratic (Monterey County) and Mayhew (Sacramento County)—Central office, San Francisco.

TO THE:

**Architects  
Engineers  
Contractors and  
Owners**

**Simplified Sizes****Reinforcing Bars****of Northern California**

Conforming to the idea of simplification as promoted by Secy. Hoover of the Department of Commerce, **SIMPLIFIED SIZES OF REINFORCING STEEL BARS** were adopted by the California Reinforcing Steel Institute at its last meeting held at Del Monte, California. The following sizes were adopted:

Size in Inches	Weight in Lbs. Per Foot of Bar		Area in Sq. Inches		Extras Per 100 Lbs.	Size in Inches
	Deformed Round	Deformed Square	Round Bars	Square Bars		
1/4	.17*	.22	.05	.06	1.00	1/4
5/16	.26*	. . . .	.08	.10	.70	5/16
3/8	.38	.49	.11	.14	.40	3/8
1/2	.67	.86	.20	.25	.20	1/2
5/8		1.35		.39	.10	5/8
3/4		1.94		.56	Base	3/4
7/8		2.64		.77	"	7/8
1		3.43		1.00	"	1
1 1/8		4.34		1.27	"	1 1/8
1 1/4		5.35		1.56	"	1 1/4

\*All of the above sizes to be supplied in deformed bars, with the exception of 1/4 and 5/16, as marked, which will be furnished in plain rounds.

Simplified sizes will aid the reinforcing steel distributors in giving better service to Architects, Engineers, Contractors and Owners on account of variety of sizes they are now called upon to carry in their stocks. There will be less misunderstandings to contend with and promptness of delivery can be more readily effected.

The full range of net areas is provided for the designer. The simplified sizes are to become effective as of May 1st, 1927.

*Approved by*

## POWER PLANTS

PASADENA, Cal.—Bids rec. by city directors for steam turbine electric generator unit for municipal light and power plant, are:

Allis-Chalmers Co.—(1) \$273,375, (2) part 1, \$293,056, part 2, \$290,933, (3) \$550, (4) \$35,000.

General Electric Co.—(1) \$308,000, (2) \$307,185 and \$305,000, (3) \$4400, (4) \$31,000.

American Brown-Boveri Co.—(1) \$280,500, (2) \$294,420, \$287,344, (3) \$5297, (4) \$19,500.

Westinghouse Elec. & Mfg. Co.—(1) \$275,000, (2) \$313,000, \$306,000, (3) \$3200, (4) \$37,000. Bids referred to city manager.

PASADENA, Cal.—Until 10:30 a. m., May 17, bids will be rec. by city for one steam surface condenser auxiliary, equipment and appurtenances, for city power plant. Bessie Chamberlain, city clerk.

OAKLAND, Alameda Co., Cal.—A. S. Dixon, Jenny Lind, was awarded contract on schedule No. 1 at \$2426, and T. L. Rosenbert, 419 Webster St., Oakland, awarded contract on schedule No. 2, at \$3420, by J. H. Kimball, secretary, East Bay Municipal Utility District, 1924 Broadway, to construct testing laboratory and electric substation and distributing system at Camp Pardee, Mokelumne River project.

LOS ANGELES, Cal.—E. F. Scattergood, chief electrical engineer, has announced that preliminary engineering plans are nearing completion and work will be started in the near future on the steam standby generating plant on the west basin, Los Angeles harbor.

## PUBLIC BUILDINGS

SAN QUENTIN, Marin Co., Cal.—Informal bids are being taken by State Department of Public Works, Division of Architecture, Forum Bldg., Sacramento, for white tile and marble work for the women's building at San Quentin, which is now under construction.

ST. HELENA, Napa Co., Cal.—City trustees have received report from San Francisco architect who advises it would not be practical to remodel the present city hall to accommodate the fire department. If such remodeling is undertaken the report recommends that the work be done by day labor.

BAKERSFIELD, Kern Co., Cal.—In addition to a \$250,000 addition for the Kern County General Hospital and an annex for the county courthouse, the supervisors contemplate erection of a new county library building. Bonds will be voted to finance the work.

SAN FRANCISCO—Board of Fire Commissioners requested supervisors to appropriate funds to finance erection of new fire house on city property at Geary St. and Pt. Lobos Ave., to replace "dilapidated shack" in the vicinity of the Cliff House.

SAN FRANCISCO — J. A. Tassi, 25 California St., S. F., at \$31,600 submitted low bid and was awarded contract by State Department of Public Works, Division of Architecture, Forum Bldg., Sacramento, for general work in connection with repairs at State Armory, 14th and Mission Sts., San Francisco. Construction will involve new roof, concrete balcony, windows, etc. Geo. B. McDougall, state architect. Completing Plans

CITY HALL Cost, \$75,000

LODI. Two-story reinforced concrete brick & terra cotta city hall.

Owner—City of Lodi. Architect—Davis-Pearce Co., Grant & Weber Sts., Stockton.

Bids will be called for in about two weeks for a general contract.

PALO ALTO, Santa Clara Co., Cal.—The following bids were received by Edward L. Beach, city clerk, until April 25, 4 p. m., to erect central police and fire station; two-story reinforced concrete; 65 by 95 ft. Est. cost \$74,000. Birge M. Clark, architect, 310 University Ave., Palo Alto. Will be Spanish type with reinforced concrete walls, except in cell block, which will be fireproof construction throughout.

E. K. Nelson, 77 O'Farrell St., S. F. \$51,000  
Anton Johnson, S. F. 52,487

 ers of iron and steel products quote  
 prices on corrugated bars, round bars  
 for reinforced concrete work, wire  
 rods, steel joists (American sections),  
 steel channels (American sections),  
 mild steel hoops, mild steel square  
 twisted bars.

## SABINITE ACOUSTICAL PLASTER FEATURE OF U. S. GYPSUM OFFICES

New offices of the United States  
 Gypsum Company, the third offices oc-  
 cupied in twenty-five years of business  
 existence, were opened Monday, April  
 11, with more than 600 employes and  
 executives at their desks. At its  
 present address, 300 West Adams St.,  
 Chicago, the company occupies three  
 floors, the area totalling about 62,000  
 square feet. The removal was from  
 205 West Monroe Street, where the of-  
 fices of the company had been located  
 for twenty-four years.

An effective contrast is offered be-  
 tween the quarters now occupied and  
 the meager space occupied by the  
 company at its inception twenty-five  
 years ago. Then the company was lo-  
 cated in the Women's Temple, torn  
 down this year, and was just embark-  
 ed on the gigantic task of bringing  
 order out of the chaos of the gypsum  
 industry. Few of the products manu-  
 factured now by the company had been  
 developed or had earned acceptance.  
 Nor had experience, chemists and tech-  
 nologists brought the gypsum prod-  
 ucts now regarded as standard to  
 their present status of perfection.

An interesting feature of the new  
 offices is that the walls throughout  
 are finished with Textone, and virtu-  
 ally all the ceilings with Sabinite  
 Acoustical Plaster. This last prod-  
 uct was just offered for sale by the  
 United States Gypsum Company in 1926  
 under license from Dr. Paul E. Sabine  
 of Riverbank Laboratories. Its acous-  
 tical efficiency results from its  
 ability to change a certain portion of  
 the sound energy that strikes it into  
 heat. In this way the overlapping of  
 reflected sound waves is minimized,  
 and through the application of a for-  
 mula perfected by Dr. Sabine, satis-  
 factory acoustical conditions can be  
 assured for any interior before the  
 building is constructed.

The results from the use of this ma-  
 terial, particularly as observed by the  
 layman, are interesting. Sound is  
 heard, the clicking of a typewriter, the  
 tap of a hammer or a spoken word,  
 with remarkable clarity. But let the  
 sound stop, or the combination of  
 sounds stop, and the silence is so com-  
 plete as to be noticeable.

That employes are subject to less  
 nervous strain when working under  
 such acoustical conditions is particu-  
 larly apparent in the stenographic de-  
 partment. Here a battery of some  
 sixty typewriters is in operation  
 virtually all day. Yet the first com-  
 ment of the operators was that their  
 new quarters were less noisy, less  
 "rattly" than the old.

# Official Proposals

## NOTICE TO CONTRACTORS

### Golden Gate School Shop—Oakland

OFFICE OF THE SECRETARY OF THE BOARD OF EDUCATION OF THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 10th day of May, 1927, at 9:45 a. m., at which time said bids will be opened for the erection and completion of the Golden Gate School Shop, of the Oakland School District, located on the southwest corner of Herzog and 63rd streets, in the City of Oakland, County of Alameda, State of California. These bids shall be presented in accordance with plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

On a deposit of twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned, and in each case shall be returned on or before May 11, 1927, to the Superintendent of Buildings. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for such mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5000.00) Dollars, but for all bids of less than Fifty Thousand (\$50,000.00) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 10th day of May, at 9:45 a. m., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEMOND,  
Secretary of the Board of Education  
of Oakland, California.

## NOTICE TO CONTRACTORS

### (San Luis Obispo School District—Fremont School)

Notice is hereby given that sealed bids will be received by the Board of Education of San Luis Obispo School District, County of San Luis Obispo, State of California, up until 7:30 o'clock p. m., on the 10th day of May, 1927, at which hour they will be opened at the office of A. H. Mabley, Superintendent of City Schools, which office is located in the High School Building, San Luis Obispo, for furnishing

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

ing of all materials and labor required for the construction of a (2) two-room basement addition to the Fremont School.

Bids must be on a form provided and accompanied by a certified check in the amount of 10% of the bid, and made payable to the order of C. L. Smith, Clerk of the Board of Education. Bids shall be sealed and filed with the Superintendent of the City Schools of San Luis Obispo at the above specified time. The above mentioned check shall be given as evidence that the bidder will enter into contract if awarded the work, and will be declared forfeited if the successful bidder refuses to enter into said contract after being requested to do so by the Board of Education.

The successful bidder will be required to furnish (2) two bonds of a surety company, satisfactory to the Board of Education of the San Luis Obispo School District, (1) one covering an amount equal to fifty per cent of the contract price and (1) one equal to twenty-five per cent of the contract price.

A deposit of ten dollars (\$10.00) is required for all drawings, which will be returned when the drawings are returned.

The Board reserves the right to reject any or all bids.

By order of the Board of Education of the San Luis Obispo School District.  
Dated this 22nd day of April, 1927.

CHAS. FORBES,

President.

C. L. Smith, Clerk.

## NOTICE TO CONTRACTORS

### (Toler Heights School—Oakland)

OFFICE OF THE SECRETARY OF THE BOARD OF EDUCATION OF THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Thursday, the 5th day of May, 1927, at 4:15 P. M., at which time said bids will be opened for the erec-

tion and completion of the Toler Heights School Building, of the Oakland School District, to be erected on the Easterly side of Scott Street between Thermal and 98th Avenues. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

Separate bids will be received for:

(1) General Work.

(2) Awning type Window Fixtures and Hardware.

(3) Slate Blackboards.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned. Plans taken out by bidders on or before May 5, 1927, shall be returned on May 6, 1927. If the plans and specifications are not returned within said time or if mutilated the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award or to give bonds required for the faithful performance of the contract or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided, however, that in no case shall said check be required to be in excess of Five Thousand (\$5,000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Thursday, the 5th day of May, 1927, at 4:15 p. m., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEMOND,

Secretary of the Board of Education  
of Oakland, California.

## NOTICE TO BIDDERS

### (High School—Pittsburg High School District)

Notice is hereby given that members of the High School Board of the Pittsburg High School District of Contra Costa County, California, hereby call for sealed proposals to be delivered to the Clerk of said Board at the office of said Board in the high school building at the corner of Black Diamond and Eighth Streets, Pittsburg, California, until the 20th day of May, 1927, at 2 o'clock p. m., at which time said proposals will be opened in the auditorium of the high school building, for the erection, construction and completion of a school building on those certain lots, pieces, or parcels of land, lying and being in the County of Contra Costa, State of California, and more particularly described as follows:

Beginning at a point formed by the intersection of the easterly line of the County Road running from Pittsburg to Clayton, said County Road being an extension southerly of Railroad Avenue of the City of Pittsburg and the southerly line of the Main line right of way of the Southern Pacific Com-

pany at or near Pittsburg, and running thence southerly along said easterly line of said County Road 893.5 feet; thence south 73 degrees 12 minutes 30 seconds east (being at right angles to said easterly line of said County Road) 555.55 feet to a point which is the point of the beginning of the property herein conveyed, and from said point of beginning running south 73 degrees 12 minutes 30 seconds east 800 feet; thence at right angles southerly 544.5 feet; thence at right angles westerly 800 feet; thence at right angles northerly and parallel to said easterly line of said County Road 544.5 feet to the point of beginning, in said High School District. Said construction must be in accordance with the plans and specifications prepared by Louis S. Stone, authorized architect, 354 Hobart Street, Oakland, California.

Said plans and specifications may be seen at the Architect's office, at the office of the County Superintendent of Schools of Contra Costa County, Martinez, California, or at the Builders' Exchange, 354 Hobart Street, Oakland, California, at Builders' Exchange, Richmond, Calif., during office hours.

Sealed proposals will be received on the following divisions of the work: Division No. 1, General Work; Division No. 2, Heating; Division No. 3, Lino-

leum.

Proposals must be signed by the bidders on blanks obtained from the Architect.

Proposals must be addressed to A. V. McFAUL, Clerk of the High School Board, and must be accompanied by a certified check, certified by some solvent bank, made payable to the Pittsburg High School District, to be retained by said High School District as agreed as liquidated damages should the party or parties to whom the contract or contracts are awarded fail to enter into a contract within ten (10) days after the date of the award, or give the bonds required for the faithful performance of said contract. The amount of said certified check shall be for at least ten (10) per cent of the amount of the bid "A" submitted by the bidder.

The board reserves the right to reject any or all bids, and will not necessarily, therefore, award the contract to the lowest bidder.

The Architect will require a deposit of \$50.00 for Division No. 1, and a deposit of \$25.00 for any of the other divisions should he permit the plans and specifications to be taken from his office.

By order of the High School Board of the Pittsburg High School District, California.

A. V. McFAUL, Clerk,  
Pittsburg, California, April 18, 1927.

#### NOTICE TO BIDDERS

(Landscape Work, Etc.—San Rafael)

Bids will be received by the Board of Education, City of San Rafael, for landscape gardening of a portion of the San Rafael High School grounds in accordance with plans and specifications on file with the secretary. Bids are to be segregated under the headings of Grading and Fill, Concrete Walks, Curbs and Gutters, Plants and Planting.

All bids must be entered on or before 8 p. m., May 10, 1927, with the secretary of the board at the office in the San Rafael High School.

OLIVER R. HARTZEL,  
Secretary.

#### NOTICE TO CONTRACTORS

(San Luis Obispo School District  
Hawthorne School)

Notice is hereby given that sealed bids will be required by the Board of Education of San Luis Obispo School District, County of San Luis Obispo, State of California, up until 7:30 o'clock p. m., on the 10th day of May, 1927, at which hour they will be opened at the office of A. H. Mahley, Superintendent of City Schools, which office is located in the High School Building, San Luis Obispo, for furnishing of all materials and labor required for the construction of a (1) room addition to the Hawthorne School.

Bids must be on a form provided and accompanied by a certified check in the amount of 10% of the bid, and made payable to the order of C. L. Smith, Clerk of the Board of Education. Bids shall be sealed and filed with the Superintendent of the City Schools of San Luis Obispo at the above specified time. The above mentioned check shall be given as evidence that the bidder will enter into contract if awarded the work, and will be declared forfeited if the successful bidder refuses to enter into said contract after being requested to do so by the Board of Education.

The successful bidder will be required to furnish (2) two bonds of a surety company, satisfactory to the Board of Education of the San Luis Obispo School District, (1) one covering an amount equal to fifty per cent of the contract price and (1) equal to twenty-five per cent of the contract price.

A deposit of ten dollars (\$10.00) is required for all drawings, which will be returned when the drawings are returned.

The Board reserves the right to reject any or all bids.

By order of the Board of Education of the San Luis Obispo School District.  
Dated this 22nd day of April, 1927.

CHAS. FORBES,  
President.

C. L. SMITH, Clerk.

#### NOTICE TO CONTRACTORS

(Part Time High School.—Oakland)

OFFICE OF THE SECRETARY OF  
THE BOARD OF EDUCATION OF  
THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland High School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Thursday, the 5th day of May, 1927, at 4:20 P. M., at which time said bids will be opened for the erection and completion of the Part Time High School Building of the Oakland High School District, to be erected on the Northwest Corner of East 10th Street and Third Avenue. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

Separate bids will be received for:

- (1) General Work.
- (2) Awning Type Window Fixtures and Hardware.
- (3) Slate Blackboards.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned. Plans taken out by bidders on or before May 5, 1927, shall be returned on May 6, 1927. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland High School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award or to give bonds required for the faithful performance of the contract or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided, however, that in no case shall said check be required to be in excess of Five Thousand (\$5000.00)

Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Thursday, the 5th day or May, 1927, at 4:20 P. M., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDMOND,  
Secretary of the Board of Education of Oakland, California.

#### NOTICE TO CONTRACTORS

(Painting—San Rafael)

Sealed proposals for the painting of Boyd Park Lodge, in the City of San Rafael, County of Marin, California, will be received by the City Clerk of said city at his office in the City Hall until 8 o'clock p. m., Monday, May 2, 1927, and then publicly opened.

For a description of the work reference is hereby made to the specifications on file in the office of the City Clerk.

Each bid must be accompanied by a certified check or bid bond for ten per cent of the amount of the bid, payable to the Mayor of the City of San Rafael, which will be returned to unsuccessful bidders within ten days after bidding date.

The right is reserved to reject any or all bids, or waive any informality in any bid.

EUGENE W. SMITH,  
City Clerk.

#### STATE OF CALIFORNIA CALIFORNIA HIGHWAY COMMISSION

##### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock p. m. on May 18, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Los Angeles and Orange Counties, between Naples and Anaheim Bay Bridge (VII—L. A.—Oran—60—E—A), about one and five-tenths (1.5) miles in length, to be paved with Portland cement concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willets, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
E. FORREST MITCHELL,  
Secretary.

Dated: April 18, 1927.

# Engineering News Section

## BRIDGES

**OAKLAND, Cal.**—As previously reported, bids will be rec. by Geo. E. Ross, county clerk, May 16, 10:30 A. M., to underpin center pier of High Street Bridge. Project involves 135 cu. ds. conc.; 310 lin. ft. sheet piling. Plans obtainable from Geo. Posey, county surveyor.

**LOS ANGELES, Cal.**—County Supervisors tentatively approve const. of bridge across Ballona Creek, near Barnes City district, on route of proposed Sepulveda Blvd., bet. Hermosa Beach and San Fernando Valley. Maj. Earl J. Shindler is president of the Sepulveda Blvd. Imp. District.

**SAN BENITO COUNTY, Cal.**—Following bids received April 25 by State Highway Commission, Strub Bldg., Sacramento, to const. rein. conc. girder bridge over Pacheco Creek about 6 miles north of Hollister, consisting of three 60 ft. and two 28 ft. spans:

George J. Ulrich, Modesto.....	\$24,712
Tocca & Colletti, San Rafael.....	25,383
Prante Const. Co., Watsonville.....	25,732
R. B. McKenzie, Gerber.....	25,847
A. C. Gildersleeve, Felton.....	25,968
McDonald & Regorio.....	26,265
I. C. Whitty, Sanger.....	26,875
Johnson & Atkinson, L. A.....	27,015
R. F. Smith, Santa Rosa.....	27,095
Hierbach & Sciarino, San Jose.....	27,773
Holdener Const. Co., Sacramento.....	29,405
Noble Bros., San Jose.....	29,448
Engineer's estimate.....	\$28,421

**SAN JOAQUIN COUNTY, Cal.**—State Highway Commission making surveys for bridge over Stockton Diverting Canal providing a new exit from Stockton to the north; est. cost \$45,000. R. M. Morton, state highway eng.

**SANTA ROSA, Sonoma Co., Cal.**—Until May 11, 12 noon, (to be opened 1:30 P. M.) bids will be rec. by W. S. Coulter, county clerk, to const. reinf. conc. culvert timber flume and earth fill on Sebastopol-Bloomfield Rd. in 2nd Sup. Dist., involv. 31 cu. yds. "A" conc.; 150 lin. ft. flume; 320 cu. yds. fill; est. cost \$1200. Plans obtainable from E. A. Peugh, county surveyor.

**EL MONTE, Cal.**—County Rd. Dept. completing plans to widen bridge over Rio Hondo just west of El Monte. Estimated cost \$40,000. Work is to be advertised within 30 days and work is scheduled within 60 days.

**STOCKTON, San Joaquin Co., Cal.**—H. C. Whitty, Sanger, at \$5745 awarded cont. by county to const. reinf. conc. bridges on Everett School Road, involv. 255 cu. yds. conc.; 23,386 lbs. reinf. steel. Other bids: Frederickson Bros., Stockton, \$5745; Nelson Bros., Escalon, \$5840; C. H. Gildersleeve, Napa, \$6185; D. McDonald, Sacramento, \$6568.

**CONTRA COSTA CO., Cal.**—Richmond-San Rafael Ferry Co., 564 Market St. San Rafael, will make application at once to Contra Costa County supervisors seeking franchise to bridge lower San Pablo Bay. It is announced by Harold T. Gill, Secty. of the company. Preliminary plans made by Jas. J. Walsh, consulting engineer, 112 Market St., San Francisco, provide for a structure of the high-level type, 3½ mi. in length, from Point San Quentin in Marin county to Point Castro in Contra Costa county. It will consist of a series of long spans across the total deep water area between the two points, with gradual approaches at either end. The cost of construction is estimated at \$10,000,000.

**LOS ANGELES, Cal.**—Until 10 a. m., May 23, bids will be rec. by Board of Public Works to const. reinf. conc. viaduct on North Spring St., over A. T. & S. P. Ry. and U. P. Ry. tracks. Quantities are: Arch centers, lump sum; reinf. steel, lump sum; 6,225 yds. A conc., 320 yds. C conc., 2,950 yds. D conc., grade and fills complete, lump sum; 743 ft. curb, 743 sq. ft. gutter, 1985 sq. ft. walk, construction and remodeling of storm drains, bitum. paving complete, protection curbs complete, ornamental handrails complete, lighting standards complete, remove existing bridge. Merrill Butler, chief bridge engineer.

**RIVERSIDE, Cal.**—Until 10 a. m., May 16, bids will be rec. by county to const. 3-arch reinf. conc. arch bridge 260 ft. in length, with 24-ft roadway, over Temecula River on county highway route 12-C. A. C. Fulmer, county surveyor. Cost about \$27,000. Cert. check or bond, 10%. D. G. Clayton, clerk of the board. R. V. Leeson, San Fernando Bldg., Los Angeles, consulting engineer, designed the structure.

**LOS ANGELES, Cal.**—Lynch-Cannon Engineering Co., 1027 Chapman Bldg., awarded cont. at \$106,000 to const. an overhead crossing over Pico Blvd. on Pacific Electric Beverly line for the Pacific Electric Railway Co. Certain work, including concrete walls, is to be done on a unit price basis which will increase the contract to about \$138,000. The railway company will furnish the rock and sand. McClintic-Marshall Co. has contract at \$33,000 to fur. and erect structural steel. The tracks will be elevated on a trestle about 950 ft. long and 36 ft. wide; it will have reinf. conc. pile foundations, reinf. conc. piers, structural steel girders and beams, reinf. conc. deck, stairways and retaining walls. wrought iron railings.

**CONTRA COSTA COUNTY, Cal.**—State Highway Commission making surveys for bridge over Wild Cat Creek in Contra Costa County; est. cost \$20,000. R. M. Morton, state highway eng.

**LOS ANGELES, Cal.**—E. G. Perham, 4711 Willowbrook, sub. low bid to county at \$30,400 to const. 7-span standard Howe truss bridge with 27-ft. roadway on Compton-Clearwater Road over the Los Angeles River, in Road Foreman District No. 115.

Western Construction Co., 114 N. Larchmont, low at \$25,644 to const. reinf. conc. bridge on state highway over Zuma Creek. Horton Whipple,

6372 Hollywood Blvd., sub. low at \$83,100 to const. four conc. bridges on same route. S. M. Kerns sub. bid of \$28,000 for four bridges, this apparently being an error.

Horton Whipple, 6372 Hollywood Blvd., sub. lowest regular bid to const. reinf. conc. bridge on state highway over Trancas Creek, or four bridges on same route, being low on both propositions, viz: (1) const. of one bridge, \$20,500, and (2) for const. of four reinf. conc. bridges on same route of the state highway, at \$83,100. S. M. Kerns submitted a bid of \$27,000 on (1) and \$26,000 on (2), the latter apparently being an error, using his price per bridge in place of the total for the four.

Virginia Bridge & Iron Co., Metropolitan Theatre Bldg., Los Angeles, low at \$18,840 to fabricate and erect two-deck plate girder spans for combination railway and highway, on route of San Gabriel Canyon Railway.

Mercereau Bridge & Const. Co., 313 N. Ave 22, low at \$16,344 to const. reinf. conc. bridge on state highway over Escondido Creek, at \$16,344. Horton Whipple, 6372 Hollywood Blvd., sub. low bid on proposition to const. four bridges on same route, in connection with this bridge, his bid on the four being \$83,100.

Paul M. White, 728 21st Pl., Santa Monica, low at \$22,364 to const. reinf. conc. bridge over Arroyo Sesquit on route of the state highway. Horton Whipple, 6372 Hollywood Blvd., submitted low bid on the proposition to const. four reinf. conc. bridges on the same route.

**FULLERTON, Cal.**—J. C. Wright, consulting engineer, Pacific Electric Bldg., Los Angeles, completes plans for reinf. conc. arch bridge to be built on N. Richman Ave. It will be 40 ft. in width with 5-ft. walk on each side; est. cost, \$11,000. Another proposed bridge is that at the Brea-Whittier Blvd. intersection, estimated to cost \$12,000. A third bridge is proposed for N. Malden Ave. across the barranca. Wright is preparing plans for all three. Const. will probably be financed by bond issue.

## DREDGING, HARBOR WORKS AND EXCAVATIONS

**EL CENTRO, Cal.**—C. A. Clarke has been awarded contract by Imperial Irrigation District for approx. 300 miles of ditches. He will use a new type of dredger having four caterpillar tracks, a double extension, and two upright ladder digging units.

**RICHMOND, Contra Costa Co., Cal.**—August 23 is date set by city to vote bonds of \$640,000 to finance harbor dredging and the construction of additional wharves and cargo buildings. A. C. Faris is city clerk and E. A. Hoffman, city engineer.

**MARTINEZ, Contra Costa Co., Cal.**—San Francisco Bridge Co., Nevada Bank Bldg., San Francisco, at \$69,525 was awarded cont. by city to reclaim 47 acres of city owned waterfront lands.

**NEWPORT BEACH, Cal.**—Realty Investment Syndicate, owners of ten blocks of tide lands bet. 5th and 15th Sts., apply to city for permit to build sea wall to protect nine acres of tide lands in Newport Bay. The company claims that 3 acres of its land has been dredged away. Est. cost of wall, \$150,000.

## THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when no trace for work is let.

## MASTER PLUMBERS SEEK AID OF PUBLIC IN WAGE DEAL

A public letter asking the civic organizations banks and business firms of Reno (Nevada) to undertake the responsibility of averting a threatened strike in the plumbing trade, was recently signed by the Reno Master Plumbers Association. The letter was signed by Harry Kelly, chairman of the association.

The letter says in effect that the master plumbers of Reno are now paying one of the highest wage scales on the coast, that working conditions for the employees are most favorable, and that the wage scale of eleven dollars a day and the five-day working week, demanded by the employees, is unjustifiable. At present the rate of pay is ten dollars a day and the employees work five and one-half days in the week.

"If you think that we should pay this increase at this time, we have not the least objection to doing so," the letter says. "It will not really come out of our pockets for it is an established fact that the ultimate consumer always pays the bills."

After saying the higher scale would discourage building and increase rentals, the master plumbers say in their letter: "We want the decision to come from you instead of us. If you are in favor of paying the wage increase or if you think it would be detrimental to the interest of Reno for us to do so, please let us know and also suggest to us what you think of the plan to procure an amicable adjustment without the stoppage of work."

A member of the plumbers' union, in commenting upon the letter, said the employers were attempting to shift their responsibility in the matter to the public instead of meeting it directly as the circumstances required.

## STATE HIGHWAY GAS TAX BILLS PASSED

Final approval of the Breed gas tax bill increasing the 2 cent tax to 3 cents and of the highway funds allocation measure, which distributes the funds raised for new highway construction, have been voted by the State Legislature.

The two bills are designed to provide the means of completing California's State highway system. The additional 1 cent added to the gas tax will be used entirely for new construction purposes and is estimated to bring approximately \$10,000,000 into the State Treasury yearly. At the start-off the new tax will bring in between \$8,500,000 and \$9,000,000. The average estimated over a ten-year period will be about \$10,000,000. In addition to this sum about \$2,500,000 in Federal aid money will accrue to the State for new construction.

It is estimated that about \$25,000,000 will now be available yearly for road purposes. This includes the money from all sources for new construction, maintenance and repair.

The 3-cent gas tax will be divided 1 cent to the State Highway Commission for new construction, 1 cent for reconstruction and maintenance and the remaining 1 cent will be divided among the counties of the State.

Approximately \$120,000,000 will be required to complete the present State highway system.

## LUMBER CONCERNS IN LASSEN COUNTY ARE ACTIVE

Logging and lumber activities throughout Lassen county began last Tuesday when the Southern Pacific Company put on a switch engine and a log train to handle the increased volume of business from Westwood and Susanville and log shipments from Lasco and Westwood junction.

The Red River Lumber Company at Westwood is shipping a capacity train of lumber and shook dally. The logging camps of this company are opening as rapidly as possible and within two weeks log production will be at a normal basis.

The Fruit Growers Supply Company at Susanville received first logs from the camp on Sunday and also have a fleet of trucks hauling logs from small tracts of timber to the pond.

Officials of the Lassen Lumber & Box Company report lumber and shook business in great demand. The box factory is working overtime each day and a half day on Sunday to handle fruit box orders. It was necessary to start the night shift in the big mill to increase lumber production to take care of the anticipated summer demand for box lumber.

The Red River Company has opened Camp 70 on Willow Creek where approximately 21,000,000 feet of timber will be trucked to Susanville. This timber was slightly damaged by forest fires last September.

## OPEN FIELD FOR SACRAMENTO SURETY BOND BUSINESS

Chas. Bottorff, city manager of Sacramento, has advised the city council that he deemed it inadvisable to act on the request of the Sacramento Insurance Exchange that contractors bidding on local public jobs be asked to secure surety bonds from local insurance men.

The manager held that such a course would violate the spirit and intent of the city charter, which provides for a complete and untrammelled competitive bid in all public work. He likewise held that the controller, whose business it is to approve all bonds, would not be justified in making a rule that only the bonds of local companies be accepted if the cost for doing public work were increased thereby.

The insurance exchange complained to the council that much of this business was going to men outside the city and that some unscrupulous brokers engaged in commission splitting with contractors in order to get their business.

## KANSAS CITY LABOR AGREES TO HALT STRIKES

A permanent pledge for peaceful adjustment of all future differences that may arise in the building industry in Kansas City has been mutually agreed upon by the Builders' Association and the Building Trades Council.

Under the plan, which, if observed, will mean the abolition of strikes or any temporary halt to local building operations, all differences are to be placed in the hands of a joint labor board. The decision of that body will be final. The joint board is comprised of five members representing the builders and five representing the labor groups or trades council.

This action is the outgrowth of frequent differences between the two parties in the past, having to do with wages or the jurisdiction of various building crafts. Because of these, important building operations have been tied up for long periods several times in recent years.

Leaders in both the Builders' Association and the Building Trades Council gave it as their opinion that the old order of intermittent disputes and halted operations was harmful to the interests of builders and workers and to the city as a whole. Not only was needed building interfered with but the investment of capital in local construction enterprises had been discouraged, the leaders say.

The new order of peace and uninterrupted building is welcomed by both civic and industrial leaders of Kansas City. The assurance that in no case will work be halted owing to differences over wages or other matters is the pledges of the Trades Council to furnish workmen for any type of construction in the event that any particular group of laborers should refuse to abide by the decision of the joint board.

# Building And Rental Conditions Show Housing Deficit—Survey Shows

**Reports From 458 Cities and Towns Show Danger of Overproduction Has Been Over-Emphasized—Many Residential and Business Structures Needed in Smaller Communities—Vacancies Few And Rents Are Well Stabilized**

Notwithstanding the extraordinary construction activity of the last five years a thorough investigation by the American Bond and Mortgage Company of building and rental conditions throughout the United States and Canada revealed that, in addition to the new building necessary for normal increased requirements there is still a building deficit to be made up in many cities and towns, especially those with a population of 100,000 and under.—EDITOR.

(By W. J. Moore, President, American Bond and Mortgage Co., Inc.)

More than 2000 realtors and building authorities in 458 leading cities and towns collaborated in this annual survey, which summarized the national building and rental situation as follows:

1. Danger of overproduction has been over-emphasized and there are few cities where the saturation point has been reached to an extent that would jeopardize community prosperity.

2. Slight slackening may be necessary in some localities for a brief period until the temporary surplus of structures is absorbed by growth and population, but there is no excuse for a blanket restriction on financing new construction.

3. Building activity can continue at a high rate for some time to come before the national housing deficit is completely made up.

4. Old established and reputable real estate mortgage bond houses are fully cognizant of the situation and are discouraging building where over-production is apparent.

5. Cities of 100,000 population or under in practically all sections of the country can absorb a considerable volume of residential and business types of structures, but a majority of the larger cities are fairly well caught up with their building requirements.

6. Rents, on the average for the country as a whole, are slightly lower than a year ago.

7. Few cities have an abnormal number of vacancies and no further important downward movement is expected.

8. Residential rents are well stabilized, but business rents are showing a pronounced upward tendency in many cities.

9. Supply of first mortgage money is fully ample for conservative investment, but practically no money is available for the speculative type of building.

10. Second mortgage funds are scarce throughout the country, with the cost very high.

The survey was undertaken to obtain as accurate data as possible of the rental and building situation as it exists. Working through local real estate boards and chambers of commerce, the investigation was completed during the period of February 1st to March 15th, 1927.

## Shortage in 358 Cities

Three hundred and fifty-eight or 78 per cent of the cities and towns studied

gave indisputable evidence that there still exists an unsatisfied demand for housing accommodations and business structures, in that they reported a shortage in some type or types of building. Only 34 cities, or less than 8 per cent of those reporting, indicated a general overbuilt situation which would warrant a halt in construction activities at the present time.

The rental situation was also shown generally satisfactory, with less than six per cent of the cities reporting an abnormal number of vacancies. The tendency towards stabilization was shown to be more pronounced in rents of residential property than of business property. Thirty-four per cent of the cities reporting showed rents to be advancing on business property, while slightly less than 20 per cent showed an upward movement in residential rents.

## Analysis of Survey Reports

Analysis of reports on the building situation from the 458 cities and towns investigated by the American Bond & Mortgage Company follows:

### 1. Shortage of structures was reported by

(a) 233 cities with a population of 25,000 and under. Of these, 158 cities need dwellings; 105 cities, apartments; 35, commercial buildings; 28, office buildings; 42, theatres, and 80 need hotels.

(b) 88 cities with a population of 25,000 to 100,000. Of these, 52 cities need dwellings; 49, apartments; 11, commercial buildings; 11 office buildings; 12, theatres, and 28 need hotels.

(c) 19 cities with a population of 100,000 to 250,000. Of these, 5 cities need dwellings; 6, apartments; 3, commercial buildings; 4, theatres; 9, hotels; and 1 needs industrial buildings.

(d) 18 cities with a population of 250,000 and over. Of these, 10 cities need dwellings; 5, apartments; 7, commercial buildings; 3, theatres; 4, hotels; and 1 needs industrial buildings.

### 2. Overbuilding of structures was reported by

(a) 74 cities with a population of 25,000 and under. Of these, 19 are overbuilt in dwellings; 19, in commercial buildings; 29 in office buildings; 16, in theatres; 5, in hotels; and 17 in apartments.

(b) 47 cities with a population of 25,000 to 100,000. Of these, 8 are overbuilt in dwellings; 12, in apartments;

7, in commercial buildings; 22, in office buildings; 8, in theatres and 6 in hotels.

(c) 14 cities with a population of 100,000 to 250,000. Of these, 6 are overbuilt in dwellings; 7, in apartments; 5, in commercial buildings; 7, in office buildings; 3, in theatres; and 1, in hotels.

(d) 19 cities with a population of 250,000 and over. Of these, 4 are overbuilt in dwellings; 13, in apartments; 3, in commercial buildings; 7, in office buildings; 3, theatres, and 6 in hotels.

## Little Overproduction Danger

The investigation developed that the danger of overproduction has been over-emphasized, and there are very few cities in the country where the saturation point has been reached to an extent that would jeopardize the community's prosperity.

Reports from the most authentic available sources clearly show that there is no basis in fact for applying statements of overproduction generally to the building situation as a whole. Any statement must be well qualified and narrowed down to certain definite types of buildings and certain definite locations. There are areas where the saturation point has been reached, but this situation will be for a brief period only, as there is every indication that the rapid growth and population increase will soon absorb the present surplus. This is but a normal cycle in the upbuilding and development of any country.

In many of the larger cities, the term overproduction has evidently been too generally used, and can be only applied to certain districts or sections and to certain types of structures.

A uniformly normal building situation was reported in but a few cities, and towns, only 17 per cent of the cities reporting indicating that no structures of any type were needed or overbuilt. The majority of cities in this group had a population of 25,000 or under, the only large cities being Baltimore, Portland, Ore., Seattle and Toronto.

## Need of Large Structures

Study of the survey reports indicated that the larger cities of the country are fairly well caught up on their building program. Only 18 cities of more than 250,000 population reported a need for new construction.

Although no really acute situation existed, a need for dwellings was indicated by Los Angeles, Washington, D. C., Chicago, Indianapolis, Minneapolis, Newark, Buffalo, Cleveland, Providence and Milwaukee.

None of the larger cities needed office buildings and only New Orleans, Indianapolis, St. Louis, Philadelphia, Pittsburgh, Chicago and Montreal wanted any commercial building, and the majority of these only wanted structures of special type. San Francisco requires industrial buildings.

## Large Residential Demand

The need for apartments and dwellings outside the large metropolitan areas was fairly well distributed throughout the country, although the greatest shortage appeared to be in

ities and towns in the central west and southwest and in the eastern states of New York Pennsylvania and New Jersey. On the Pacific coast, California showed the greatest shortage, 9 cities reporting a need especially for apartments, dwellings and hotels. Increased population, new industrial development and the demand for modern high grade housing accommodations were the chief reasons given by the majority of communities for new building construction. Many communities, while having sufficient structures at the present time to accommodate their needs, declared the situation was of good because there was not the surplus necessary for providing a rental market, and any further increase of population or industrial development would find the community facing an acute situation. Other cities and towns reported a surplus of old and obsolete types of homes and commercial buildings, but declared that unless new housing facilities are provided, they will face a situation of migration of population, and business will be seriously retarded, as present structures are rapidly growing unfit for habitation.

Moderate priced apartments and single family dwellings were shown to be the major building necessity throughout the country, although commercial and industrial structures are needed, especially in the south and southwest.

#### West Coast Cities Need Homes

On the west coast, San Francisco, Los Angeles, Portland, Ore., and Seattle seem to be fairly well supplied with building of all types, although more apartments and business types of structures can be absorbed. In the smaller cities, however, such as Fullerton, Huntington Beach, Ventura, Oceanside, Richmond, Wilmington and Torrance, Calif., there was shown a demand for modern structures. Fullerton reported that it was "turning people away" because of a lack of rental accommodations. New oil discoveries in the Huntington Beach section have also caused a sharp demand for housing. Hoquiam, Wash., needs all kinds of building development to meet the increase in population, due to the erection of a new \$3,000,000 pulp and paper plant, as well as several other large industries. Tacoma also needs a considerable number of new homes.

In the Rocky Mountain territory, there was also quite a demand expressed for new construction, although Denver is well supplied to meet present needs. In New Mexico, Arizona, Idaho and Nevada, practically every city and town can use some type of building construction. The same situation prevails in the northern part of the country, in Wyoming, Utah, Montana and North and South Dakota. There is practically no overbuilding in these sections, and much new construction is in progress.

#### Conclusion

Real estate mortgage bankers are fully cognizant of the building situation as it exists, and the danger of overproduction to any harmful degree is not likely to occur, as they will discourage overbuilding as soon as it becomes apparent in any given community. Building construction automatically will cease and the surplus will be taken up in a comparatively short time, for our larger cities are multiplying their population at a tremendously rapid rate and business is constantly on the increase. Rent reductions that may occur as a direct result of overproduction in some communities will be only temporary.

Where the same mortgage houses are doing business in most of the cities in which the major portion of construction is being done, their study and their opportunity permit them very effectively to accelerate or retard building operations.

Since 1919, there has been a steady increase in the amount of real estate mortgage bond financing, until the annual volume is close to one billion dollars. The accumulated housing shortage and the increasing tendency on the part of American families to seek the convenience of apartment and apartment hotel living has developed a strong demand in all of our larger cities and many of our smaller towns, for the construction of modern, up-to-date apartment and apartment hotel facilities. To this increased demand for capital has been added the need for new office buildings, commercial hotels, theatres, garages and educational and public housing types of structures, which also multiplies as the population increases and the country progresses. All these factors added to higher construction cost account for this rapidly increasing volume of real estate mortgage bond financing.

Having established public confidence in their securities, real estate bond houses are not going to violate this public trust by creating an overproduction in building construction. No reputable building or lending institution would lend its efforts or money to aid or abet further building where there actually exists an overbuilt situation, for it can gain nothing from such a procedure — only lose. But there will always be ample funds available for building projects that are necessary to the growth and progress of American cities and industries. Investors in realty securities may be assured that their interests are being adequately safeguarded and protected by the old established and reputable real estate bond houses.

#### PLUMBERS AND EMPLOYERS TO MEET AT SAN MATEO

To sponsor a stimulation in trade interest, a dinner meeting of the employing plumbers of San Mateo county will be held tonight at the Oak Tree Inn, San Mateo. A representative of Plumbers' Union, Local 467, will attend the dinner. All firms employing members of the local union are requested to have representatives in attendance at the dinner.

#### GOVERNMENT WANTS ENGINEERS AND DRAFTSMEN

U. S. Civil Service Commission, Washington, D. C., announces open competitive examinations will be held in the immediate future for the following positions: Assistant Structural Draftsman, paying \$1,500 year; Structural Draftsman, \$1,680; Senior Structural Draftsman, \$1,860; Principal Architectural Draftsman, \$2,100, and Senior Architectural Draftsman, paying \$1,860 a year. Applications for these positions must be filed with the commission at Washington not later than May 17.

An examination for Junior Engineers, qualified in naval architecture and marine engineering, will also be held in the immediate future, the commission announces. Applications for this examination may be filed not later than May 14.

#### BRICK PLANT OPERATING

Operations were started at the yards of the Marysville Brick Company, Marysville, April 28. The yards are located in the western section of the city, outside the levee, and have been idle since last Fall, as the plant is not operated during the wet season, due to the fact that the ground overflows during freshets in the rivers.

#### CANADIAN HOSPITAL FEATURES SOUND-PROOF ROOMS

One of the most modern innovations in the new Royal Victoria maternity hospital at Montreal, Quebec, is the sound-proofing of all noisy rooms or departments, and also the acoustical treatment of many of the ceilings. According to "Construction" (Toronto), the sound-proofing of rooms in which objectionable noises originate, which may in any way disturb the patients, has been done on the partitions or the ceilings or both, according to the location of the nearest patients' rooms to the noisy room. This treatment is a special partition erected to absorb all sounds. It has been thoroughly tested and proven that it can be constructed so that even violent noises that are likely to originate in almost any building cannot be heard in an adjoining room. Acoustical treatment has been applied to the corridor ceilings on the patients' floors and in other rooms where objectionable noises originate, so that they can be reduced to an absolute minimum in the rooms, and thus eliminate the reverberations throughout the building as much as possible. All rooms having this treatment have the doors treated with special gaskets to prevent the sound traveling through such openings as much as possible when the doors are closed. Pipes and vent ducts have been wrapped with heavy felt to further check the traveling of sounds.

#### OPEN SHOP CONFERENCE IN SAN FRANCISCO NEXT MONTH

The eleventh semi-annual meeting of the American Plan-Open Shop Conference will be held June 16, 17 and 18, at the Palace Hotel, San Francisco.

The American Plan-Open Shop Conference is made up of representatives from open shop associations throughout the United States and concerns itself exclusively with the consideration of the ramifications of the American plan of employment relations in industry—the Open Shop—and to a proper evaluation of industrial freedom. The Conference holds that "the right to work is just as fundamental in the development of individual responsibility, social unity, and economic progress as is the right to vote. They are handmaids of modern civilization, bringing about due respect for law and order and for the rights of one's fellows.

#### TIMBER BID ACCEPTED

U. S. Forest Service has accepted the bid of Geo. T. Cameron, publisher of the San Francisco Chronicle, and associates, for the purchase of \$35,000,000 cubic feet of pulp timber in the vicinity of Juneau, Alaska. Cameron and his associates submitted the only offer, agreeing to pay the minimum price set forth in advertisements for bids of 60 cents per 100 cubic feet for spruce pulpwood and 30 cents per 100 cubic feet for hemlock pulpwood.

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

A city-wide lockout immediately affecting 10,000 plumbers and their helpers and threatening to strangle New York's construction program, involving an expenditure of \$100,000,000, went into effect April 27. Notice of the lockout was served by the Building Trades Employers' Association. The notice constitutes an ultimatum to striking plumbers in Brooklyn, with whom the organization is now engaged in a wage and terms dispute. Continuation of the lockout for a month would throw 700,000 men in the building trades out of work and virtually terminate vast construction enterprises, until the dispute was ended. The Brooklyn plumbers are demanding an increase from \$12 to \$14 a day, a forty-hour week, double time for overtime, control of a "job" and a three-year agreement. Under the terms of an agreement between master plumbers and mechanics, the granting of a wage increase to one local is automatically applied to workers in other locals after a period of ninety days. The employers of Brooklyn steadfastly have refused to concede more than the three-year agreement.

Governor Young has signed the bills creating a new state Department of Finance and reorganizing the State Department of Public Works. The latter will include divisions of irrigation and engineering, highways, architecture and water rights. The director would receive \$10,000 a year, the chief of the division of engineering and irrigation, who would be the state engineer, \$5000; the chief of the highway division, who would be the highway engineer, \$10,000; the chief of the division of architecture \$5000, and the chief of the division of water rights, \$5000. The bill also increases the membership of the highway commission from three to five members, who will serve without pay and at the pleasure of the Governor. The State Department of Finance will have a director at a salary of \$10,000 a year and chief of service and supplies at \$5000 a year. These officers and the state controller will constitute the state board of control.

Golden Gate-Atlas Materials Company has filed application with the Board of Supervisors seeking authority to construct and maintain a spur track in the east side of Harrison street between Sixteenth and Seventeenth streets. The company was recently authorized by the Board of Public Works to construct rock bunkers and unloading pit at the same location, the latter to cost in excess of \$25,000.

Richmond Builders' Exchange at its regular monthly social, in less than five minutes, raised \$80 for the Red Cross Mississippi relief fund. The collection followed a talk by Hall W. Sanders, Richmond attorney, who spoke on the disaster.

Union Rock Company has filed a complaint with the Railroad Commission against The Atchison, Topeka and Santa Fe Railway Company, Southern Pacific Company and Pacific Electric Railway Company alleging that defendants maintain unjust and unreasonable rates for the transportation of crushed rock, sand and gravel between production points and points of destination in the city of Los Angeles and points south of Caliente and Santa Margarita and asking the commission to order the defendants to cease maintaining such alleged unjust, unreasonable, excessive, discriminatory, preferential or prejudicial rates.

Construction operations, over the entire country, as measured by money value of contracts let, may be found to have lagged behind the first quarter of 1926 but the deficit for the Jan. 1-April 1, 1927 period will not amount to more than 3½ per cent says Engineering News-Record, (New York). This statement is based on a comparison of weekly averages of contracts awarded for the first three months of 1927, with the corresponding period last year.

Public Improvements completed in Los Angeles during the calendar year 1926 aggregated \$21,103,000, according to a statement by City Engineer John C. Shaw. This total is slightly in excess of that for the fiscal year which ended June 30, 1926. During the last calendar year a total of 174.25 miles of streets were improved with permanent pavements, or more than the combined total for such improvements in New York City, Chicago and Philadelphia, during the same year.

Redwood sales at 16 mills for the year to April 9 footed up 127,441,000 ft., while 95,166,000 ft. was cut and 111,923,000 ft. shipped. Orders for 51,726,000 ft. were unfilled. The same mills also cut 24,938,000 ft., shipped 18,828,000 ft. and sold 21,600,000 ft. of white-wood.

Carl Whitmore, formerly of Oakland, has been named general manager of the Western Electric Company with headquarters in New York City, according to a wire received by his parents residing at 1029 Oak street, Oakland. Whitmore entered the employ of the Western Electric Company in 1911 as student engineer, receiving successive promotions until he reached his present position.

The National Lumber Manufacturers' Association, meeting in Chicago, April 28, raised \$5,000,000 to be spent in an effort to increase popularity of lumber as a building construction material. The action was taken due to the fact that the brick, tile and stone manufacturers have taken some of the lumber business, Frank G. Wisner, president of the National Lumber Association declared.

Masonry Waterproofing Co., Inc., 307 Herkimer St., Brooklyn, N. Y., has issued a folder explaining its "Larutan system" of membrane waterproofing which consists of a layer of cloth fabric saturated and coated with a special bituminous compound. The pamphlet describes the material and shows a number of structures upon which the system has been used.

Oro McDermith, formerly of Denver, Colo., who has been in consulting practice in Washington, has opened offices at 315 Montgomery street, San Francisco, as president of the Derbon Construction Company. He will continue consulting practice and will be consultant for the U. S. Bureau of Reclamation.

Jason Chastaine, owner of a large limestone deposit three miles west of Gazelle, Siskiyou County, has optioned the deposit to a Portland firm whose representative states it will install eighteen kilns as fast as possible, and also fertilizer machinery. The section in which the mine is located has a high grade of limestone.

William D. Thomas, wholesale lumber dealer of Sacramento, died in that city May 1, following an illness of several months. A widow and two children survive.

A. Courtney Jr., sales manager for the Pacific-Portland Cement Company, was the principal speaker at the regular monthly entertainment and banquet of the Richmond Builders' Exchange, held last Thursday evening in the exchange quarters at Richmond. His topic was "Co-operation and the Value of Business Organization."

H. E. Plummer, city building inspector of Portland, Ore., was elected president of the National Building Officials' Conference, at the annual convention of that body held recently in Chicago.

David Lupton Sons Constr. Co., has opened offices at 821 Market St., San Francisco.

The first downward revision of union wage scales in the Chicago area since 1922 tentatively has been negotiated by officers of the carpenters district council in their approval of a reduction from \$1.20 to \$1.10 an hour for approximately 2500 mill workers.

The Compton Lumber Co., Seattle claims to be the oldest strictly retail yard in the state of Washington. It started in 1892 and retailed dimension to 40 ft. at \$8.50 per M.

M. P. Heaney has been appointed as assistant engineer for the Western Asphalt Association in Orange county. It is announced by Daniel B. Miller, chief engineer of the association. Mr. Heaney will work in co-operation with chambers of commerce and other civic bodies, city and county officials in connection with public improvements.

Fuller & Goepp Co., 32 Page street, San Francisco, announces that all glass contracts of that firm covering Alameda county will be handled by the East Bay branch, located at 1107 Jackson street, Oakland.

Construction of a \$50,000 mill for the manufacture of wire will be started at once at Tanforan, San Mateo County, for the Specialty Wire Company, comprising Martin L. Spangler and Earle D. Hargraves, both of South San Francisco. Spangler was former superintendent of the E. H. Edwards Wire Company. Hargraves was formerly connected with the Worcester, Mass., plant of the American Steel & Wire Works.

Mirabel Gravel Company, operating at Mirabel Park, near Santa Rosa, has commenced the installation of additional equipment valued at \$12,000, it is announced by Fred Larsen, manager of the company and former superintendent of construction for Teichert & Sons, highway contractors. The additional equipment will permit daily shipment of ten carloads of sand and gravel.

West Stanislaus Irrigation District in Stanislaus county has called an election for May 21 to vote bonds of \$1,216,376 to finance construction of irrigation works. The district comprises approximately 20,000 acres.

Monterey Bubblestone Company has leased a site in Redwood City and will erect a plant for the manufacture of a by-product from cement, similar in appearance to brick, but of lighter material. The company of which Thos. A. Hampton is president, already operates a similar plant at Santa Barbara.

Constitutional amendment providing for a \$6,000,000 bond issue to finance acquisition of additional State land and recreational lands has received the approval of the State Assembly. Under the terms of the proposal, the bond funds would be available for expenditure by the State when matched dollar for dollar by private contributions intended for park land purchases.

Notice to contractors and builders that mixing concrete or plaster directly on San Francisco paved streets must stop, is given by the Street Committee of the Board of Supervisors. The building laws prohibit the mixing of "lime, mortar or concrete on the public paved streets except in a tight box or closed fitted platform or bed." Failure to observe the law will be followed by arrest, it is stated by members of the committee comprising Milton Marks, chairman; John B. Badaracco and Chas. F. Todd.

Constant Angle Arch Dam Company of San Francisco will be commissioned by the Seattle city council to prepare plans for the proposed \$3,400,000 Diablo Dam in connection with the Skagit River hydro-electric project.

Attorney-General U. S. Webb has advised Stephen Bamson, real estate commissioner at Los Angeles, that employees of building, loan associations are not required to obtain licenses from the real estate commissioner as long as they have building and loan association licenses.

## S. F. Building in April Breaks Monthly Record for Current Year

San Francisco building operations during the month of April represent an expenditure of \$4,939,212, according to figures compiled by the Bureau of Building Inspection of the Department of Public Works. During the month 963 building permits were issued.

The figures for April exceed those of any month this year both in number of permits and estimated valuation. The largest single project undertaken during the month covered a structure costing approximately \$200,000.

The total for the past month shows a loss as compared with the April, 1926, operations when 981 permits were granted for structures costing \$7,299,451. During this period, however, seven class A structures were erected at a cost of \$3,400,000 and 474 frame buildings at a cost of \$2,405,880.

April, 1925, operations covered 994 permits for improvements estimated to cost \$6,102,731. During this period 3 class B buildings were erected at a cost of \$1,130,000 and 467 frame buildings costing \$2,712,155.

January, 1927, permits totaled 692, the operations representing an expenditure of \$3,528,955. Those for February covered 623 permits for improvements costing \$3,210,978. During March 900 permits were issued for projects estimated at \$4,685,162.

Home building operations, as usual, lead all building operations. Of the 416 frame buildings undertaken during the past month, approximately ninety per cent covered the erection of homes. Apartments and flat buildings go to make up the balance of the operations in frame construction.

The following is a segregated report of the April, 1927, operations as compiled by the Bureau of Building Inspection of the Department of Public Works:

Class	No. of Permits	Est. Cost
A	4	\$ 975,000
B	2	225,000
C	14	572,150
Frames	416	2,364,120
Alterations, Etc.	522	578,237
Public Bldgs.	3	20,910
Harbor Bldgs.	2	203,795
<b>TOTAL</b>	<b>963</b>	<b>\$4,939,212</b>

## Seattle Flays Five-Day Week And Favors American Plan

Eight organizations representative of business and industry in Seattle have served on the building trades of that city an ultimatum declaring that they propose to resist the demands of the unions for the five-day week, and favoring the American plan of employment.

A statement, signed by the eight organizations, and resolutions approved by all declare the union demands to be unsound in principle, that the granting of the five-day week in one instance would immediately be followed by similar demands from others, that Seattle would be the first city in the country to yield the five-day week, and that such a program would not only harm the city but would react to the detriment of the tradesmen themselves.

The eight organizations which now oppose the universal five-day week in the Seattle building trades are: Seattle Chamber of Commerce Clearing House Association of Seattle, Building Owners and Managers Association, Associated Industries of Seattle, Seattle Retail Trade Bureau, Associated General Contractors of America, Associated Central Business Properties, Inc., and Seattle Waterfront Association.

Demands of the unions as presented to the contractors' organization reveal the following to be seeking increases and the five-day week:

Bricklayers, getting \$11, asking \$12; bricklayer tenders, getting \$6, asking \$7; carpenters, getting \$9, not asking increase; marble setters, getting \$10, asking \$11; stone masons, getting \$11, asking \$12; tile setters, getting \$9, asking \$10.

The following unions are now working five days and demand as follows:

Electricians, getting \$10, not asking for employment, whether they belong increase; lathers, metal, getting \$10, asking \$11; lathers, wood, getting \$10, not asking increase; painters, getting \$9, not asking increase; plasterers, getting \$11, asking \$12; plasterers tend-

ers, getting \$8, not asking increase; plumbers, getting \$11 (raised from \$10 Jan. 1); steam fitters, getting \$10, not asking increase.

The following resolution was unanimously adopted at the meeting:

"WHEREAS, Certain unions affiliated with the Seattle building trades are demanding a five-day week, effective May 1, 1927; and

"WHEREAS, This demand is unsound in principle and would work a serious injury to this city and unfairly handicap its progress and development; and

"WHEREAS, Seattle's present building expansion program, the most substantial in the city's history, would be seriously impaired, if not entirely destroyed; and

"WHEREAS, The five-day week, if allowed in the building trades, would be followed by a like demand by other unions, which would place Seattle at a disadvantage with other cities on the Pacific coast and in the west, and stifle our industrial growth; be it therefore

"RESOLVED, That the Seattle Chamber of Commerce oppose the five-day week in the Seattle building trades, and urge building owners and contractors to refuse to approve the demands of these unions; and be it

"FURTHER RESOLVED, That the Seattle Chamber of Commerce take this opportunity to reaffirm its belief in the wisdom, fairness and efficacy of the American plan of employment, as approved October 27, 1919, being persuaded that the best interests of Seattle lie in permitting employers to manage their own business, to employ their own help, whether it be drawn from union or non-union ranks, and to afford all men a full opportunity to labor unions or otherwise."

A petition of bankruptcy has been filed against Leo Frederick Snyder, head of the Peninsula Electric Company of Burlingame, showing liabilities of approximately \$7000 and assets of approximately \$2000. The petition was filed by the law firm of O'Brien, Lucey & Pennat, which represents a substantial amount of the claims.

## Building Material Prices Reported By U. S. Labor Dept.

The downward trend of wholesale prices which began in the late summer and fall of 1926 continued through March, according to information collected in representative markets by the Bureau of Labor Statistics of the U. S. Department of Labor. The bureau's weighted index number, which includes 404 commodities or price series, registered 145.3 for March, compared with 146.4 for February, a decline of  $\frac{1}{4}$  of one per cent. Compared with March, 1926, with an index number of 151.5, there was a decrease of a little over 4 per cent.

In all groups of commodities included in the comparison, except metals

and miscellaneous commodities, there were decreases in the price level ranging from less than one-tenth of 1 per cent in the case of housefurnishing goods to 5 per cent in the case of fuels. Metals and metal products averaged slightly higher than in February, while a smaller increase was shown for the group designated as miscellaneous.

Of the 404 commodities or price series for which comparable information for February and March was collected, increases were shown in 53 instances and decreases in 135 instances. In 186 instances no change in price was reported.

### Index Numbers of Wholesale Prices for Building Materials—1913=100%

	March 1926	February 1927	March
Building materials .....	175.5	167.9	166.8
Lumber .....	189.4	180.1	179.0
Brick .....	205.6	207.9	207.5
Structural steel .....	129.1	129.1	125.8
Other building materials .....	162.9	155.2	154.5

## Californians Win Lumber Prizes

E. H. Jarvis of the Fruit Growers Supply Company, Susanville, and A. A. Lund of the Lassen Lumber & Box Company, also of Susanville, have won the first and second prizes, respectively, in the California White and Sugar Pine Manufacturers Association's waste prevention contest, in co-operation with the like contest of the National Lumber Manufacturers Association.

In accordance with the innovation whereby a number of regional lumber manufacturers associations are offering prizes to employees of their member mills, for devices that are conformable to the requirements of the national contest, Messrs. Jarvis and Lund are also entries in the national contest, in which the awards will not be made until after the annual meeting of the National Lumber Manufacturers Association in Chicago, April 28-29.

Mr. Jarvis' winning idea is a spiral roll for use on an edger to hold lumber at the straight edge. Whereas the spur type of roll at the straight edge of the edger ordinarily used penetrates and marks a board so badly that it is necessary to rip off the edging, and often ruins a stile or rail in the case of shop lumber, the Jarvis roll does away with all marking and gouging. All edgers in the Susanville operations

of the Fruit Growers Supply Company are now equipt with these rolls.

Mr. Lund's invention is a piling bar or a jack, comprising a double swivelled squarehead, fitted with many small teeth and a long rectangular metal arm, used for cross piling lumber stacked from the ordinary truck or dolly, also in loading railway cars. This pile, it is claimed, will not mar rough lumber to any extent; at the same time it prevents the lumber from slipping and makes piling at least ten per cent lighter.

C. Stowell Smith, secretary-manager of the California White and Sugar Pine Manufacturers Association has notified Messrs. Jarvis and Lund of their awards and has forwarded a check for fifty dollars to the former and twenty-five dollars to the latter, also advising them that their devices have been automatically entered in the national contest. In the latter contest these men stand a chance to win anywhere from fifty to one thousand dollars.

The entries for the national contest, although not so numerous as in some of the earlier annual contests, are considered by the waste prevention committee after a superficial examination, as of a higher class as a whole than in any previous contest.

## Credit Terms Announced By Material Dealers' Association

The following letter issued by the Building Material Dealers' Association of San Francisco, under date of April 27, over the signature of Frank L. Hatch, its secretary, is self-explanatory:

At a recent meeting of the above association the following credit terms were adopted, same to take effect May 1, 1927:

"Prevailing discounts are allowed on all accounts paid on or before the 10th of the month following date of purchase. Accounts are due and payable on the 10th

of the second month following date of purchase, and if not paid by such time shall be considered delinquent and shall be held to cash in advance until paid."

The purpose of this action is to definitely establish credit terms which are fair and consistent with good business principles, and which prevail in other lines of business.

It is the sense of this association that these terms are, and have been, recognized by a large majority of the purchasers of our materials, and that they will welcome our action and will

co-operate with us in their observance.

We recognize the fact, and we believe you will, that a strict adherence to these terms on our part will do much to improve the welfare of the building interests generally, as it will enable our customers who desire to do business on good business principles, and meet their obligations fairly and promptly, to carry on without the competition of the bad credit risk and the man who will not pay his bills.

### BADT-FALK COMPANY HANDLING CRITTALL CASEMENT WINDOWS

Architects and the building trade generally will be interested in the announcement that Crittall Steel Casement windows, in custom-built and standardized types, are now handled in this territory by Badt-Falk & Company, 74 New Montgomery street, San Francisco, which concern will maintain a complete window engineering service, including consultation on unusual and difficult window problems and expert erection supervision.

Among the important local installations of Crittall Windows are the Bank of Italy Building, Federal Reserve Bank, Los Angeles City Hall and some of the more important residence projects recently undertaken in this territory.

"In beauty and in utility Crittall windows add greatly to the desirability of any structure," says R. G. Falk. "Their graceful lines and sparkling leaded panes of glass are suitable to any type of architecture and any style of interior trim and furnishings, while their heavy section, solid bronze hardware and guaranteed window and weather tightness are an assurance of genuine satisfaction throughout the life of any building."

"Both custom-house and standardized types are of the same heavy section and both are built and guaranteed in either inward or outward opening types, Falk continues. "By standardizing of certain sizes and types most frequently used, Crittall windows have been made available for use in home of the most modest type."

### HEIGHT LIMIT ORDINANCE PASSED BY SUPERVISORS

The Board of Supervisors has finally passed the ordinance limiting the height of buildings in the area bounded by Fillmore, Lyon, Jackson streets and San Francisco Bay.

The purpose of the measure is to prevent the erection of tall apartment houses and hotels, to preserve the view, afford adequate sunlight and air, and establish the character of the buildings in the district.

The limitation is placed at forty feet, thus limiting most buildings to three stories. Public buildings, churches, schools, steeples, towers, domes, chimneys, water tanks and other appurtenances of buildings are exempt from the act.

The measure was adopted by the Supervisors by a vote of 11 to 3.

### LABOR BILL BEATEN

Assembly Bill No. 177, declaring void any contracts which prevented employees from joining labor unions, was voted down in the Senate by a vote of 18 to 20. Senators, McKinley of Los Angeles, Weller of Glendale and Weller of Alameda, attacked the measure as unconstitutional, in violation of the freedom of contract.

Out in Life's garden, where sympathy grew,  
God planted a soul—'twas the soul o' you.  
Life's wonderful garden, Love, seeking went through.  
Till he found a heart—'twas the heart o' you.  
I have sought through Life's garden of roses and rue,  
And I find one sweet blossom all jeweled with dew.  
Love, Sympathy, Faith—all unchanging and true  
Are the heart of my flower—dear Mother, 'tis you.

NEXT SUNDAY is Mother's Day.

AND IF you.

BE SO fortunate.

AS TO have a mother.

SMOTHER HER with attention.

GIVE HER the "flowers."

WHILE SHE is here.

TO ENJOY them.

SHE CAN'T see them.

ON HER casket.

TAKE HER out on Sunday.

RING HER up often.

SHE LIKES attention.

WE ALL do.

REMEMBER HOW she sacrificed.

FOR YOU.

WHEN YOU were a child.

SHE LOVES your attention.

HER CHILDREN'S attention.

MORE THAN all the wealth.

IN THE world.

AND IF Sandy Pratt, President.

OF THE Pratt Building Material Co.

CENTRAL OFFICE—San Francisco.

WITH SAND, rock and gravel plants.

AT MARYSVILLE, Sacramento.

PRATT ROCK (NEAR Folsom).

MAYHEW (SACRAMENTO County).

AND PRATT CO (Monterey County).

HAS HELPED someone.

TO MAKE one mother happier.

THEN SANDY'S small efforts.

HAVE MORE than been rewarded.

"I THANK you."

Did you ever stop to consider the important part that "Mothers" played in the development of this great western empire that we enjoy and live in?

Simplified Sizes

Reinforcing Bars

TO THE:

*Architects  
Engineers  
Contractors and  
Owners*

of Northern California

Conforming to the idea of simplification as promoted by Secy. Hoover of the Department of Commerce, **SIMPLIFIED SIZES OF REINFORCING STEEL BARS** were adopted by the California Reinforcing Steel Institute at its last meeting held at Del Monte, California. The following sizes were adopted:

Size in Inches	Weight in Lbs. Per Foot of Bar		Area in Sq. Inches		Extras Per 100 Lbs.	Size in Inches
	Deformed Round	Deformed Square	Round Bars	Square Bars		
1/4	.17*	.22	.05	.06	1.00	1/4
5/16	.26*	. . . .	.08	.10	.70	5/16
3/8	.38	.49	.11	.14	.40	3/8
1/2	.67	.86	.20	.25	.20	1/2
5/8		1.35		.39	.10	5/8
3/4		1.94		.56	Base	3/4
7/8		2.64		.77	"	7/8
1		3.43		1.00	"	1
1 1/8		4.34		1.27	"	1 1/8
1 1/4		5.35		1.56	"	1 1/4

\*All of the above sizes to be supplied in deformed bars, with the exception of 1/4 and 5/16, as marked, which will be furnished in plain rounds.

Simplified sizes will aid the reinforcing steel distributors in giving better service to Architects, Engineers, Contractors and Owners on account of variety of sizes they are now called upon to carry in their stocks. There will be less misunderstandings to contend with and promptness of delivery can be more readily effected.

The full range of net areas is provided for the designer. The simplified sizes are to become effective as of May 1st, 1927.

*Approved by*

## California Reinforcing Steel Institute

74 New Montgomery St., San Francisco

and

JUDSON MANUFACTURING CO.

COLUMBIA STEEL CORP.

PACIFIC COAST STEEL CO.

**SANTA BARBARA, Cal.**—Architect Carleton M. Winslow, Van Nuys Bldg., L. A., has been commissioned to prepare plans for additions to the Cottage Hospital at Santa Barbara. **NOTICE TO CONTRACTORS**

**(Golden Gate School Shop—Oakland)**

OFFICE OF THE SECRETARY OF THE BOARD OF EDUCATION OF THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 10th day of May, 1927, at 9:45 a. m., at which time said bids will be opened for the erection and completion of the Golden Gate School Shop, located on the southwest corner of Herzog and 63rd streets, in the City of Oakland, County of Alameda, State of California. These bids shall be presented in accordance with plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

On a deposit of twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned, and in each case shall be returned on or before May 11, 1927, to the Superintendent of Buildings. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for such mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5000.00) Dollars, but for all bids of less than Fifty Thousand (\$50,000.00) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 10th day of May, at 9:45 a. m., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEMOND,  
Secretary of the Board of Education  
of Oakland, California.

**NOTICE TO CONTRACTORS**

**(San Luis Obispo School District  
—Fremont School)**

Notice is hereby given that sealed bids will be received by the Board of Education of San Luis Obispo School District, County of San Luis Obispo, State of California up until 7:30 o'clock p. m., on the 10th day of May, 1927, at which hour they will be opened at the office of A. H. Mabley, Superintendent of City Schools, which office is located in the High School Building, San Luis Obispo, for furnish-

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published.

ing of all materials and labor required for the construction of a (2) two-room basement addition to the Fremont School.

Bids must be on a form provided and accompanied by a certified check in the amount of 10% of the bid, and made payable to the order of C. L. Smith, Clerk of the Board of Education. Bids shall be sealed and filed with the Superintendent of the City Schools of San Luis Obispo at the above specified time. The above mentioned check shall be given as evidence that the bidder will enter into contract if awarded the work, and will be declared forfeited if the successful bidder refuses to enter into said contract after being requested to do so by the Board of Education.

The successful bidder will be required to furnish (2) two bonds of a surety company, satisfactory to the Board of Education of the San Luis Obispo School District, (1) one covering an amount equal to fifty per cent of the contract price and (1) one equal to twenty-five per cent of the contract price.

A deposit of ten dollars (\$10.00) is required for all drawings, which will be returned when the drawings are returned.

The Board reserves the right to reject any or all bids.

By order of the Board of Education of the San Luis Obispo School District.  
Dated this 22nd day of April, 1927.

CHAS. FORBES,  
President.  
C. L. Smith, Clerk.

**NOTICE TO BIDDERS**

**(High School—Pittsburg High School District)**

Notice is hereby given that members of the High School Board of the Pittsburg High School District of Contra Costa County, California, hereby call for sealed proposals to be delivered to the Clerk of said Board at the office of said Board in the high school building at the corner of Black Diamond and Eighth Streets, Pittsburg, California, until the 20th day of May, 1927, at 2 o'clock p. m., at which time said proposals will be opened in the auditor-

ium of the high school building, for the erection, construction and completion of a school building on those certain lots, pieces, or parcels of land, lying and being in the County of Contra Costa, State of California, and more particularly described as follows:

Beginning at a point formed by the intersection of the easterly line of the County Road running from Pittsburg to Clayton, said County Road being an extension southerly of Railroad Avenue of the City of Pittsburg and the southerly line of the Main line right of way of the Southern Pacific Company at or near Pittsburg, and running thence southerly along said easterly line of said County Road 893.5 feet; thence south 73 degrees 12 minutes 30 seconds east (being at right angles to said easterly line of said County Road) 558.55 feet to a point which is the point of the beginning of the property herein conveyed, and from said point of beginning running south 73 degrees 12 minutes 30 seconds east 800 feet; thence at right angles southerly 544.5 feet; thence at right angles westerly 800 feet; thence at right angles northerly and parallel to said easterly line of said County Road 544.5 feet to the point of beginning, in said High School District. Said construction must be in accordance with the plans and specifications prepared by Louis S. Stone, authorized architect, 354 Hobart Street, Oakland, California. Said plans and specifications may be seen at the Architect's office, at the office of the County Superintendent of Schools of Contra Costa County, Martinez, California; or at the Builders' Exchange, 354 Hobart Street, Oakland, California, at Builders' Exchange, Richmond, Calif., during office hours.

Sealed proposals will be received on the following divisions of the work: Division No. 1, General Work; Division No. 2, Heating; Division No. 3, Lino-

leum.

Proposals must be signed by the bidders on blanks obtained from the Architect.

Proposals must be addressed to A. V. McFaul, Clerk of the High School Board, and must be accompanied by a certified check, certified by some solvent bank, made payable to the Pittsburg High School District, to be retained by said High School District as agreed and liquidated damages should the party or parties to whom the contract or contracts are awarded fail to enter into a contract within ten (10) days after the date of the award, or give the bonds required for the faithful performance of said contract. The amount of said certified check shall be for at least ten (10) per cent of the amount of the bid "A" submitted by the bidder.

The board reserves the right to reject any or all bids, and will not necessarily, therefore, award the contract to the lowest bidder.

The Architect will require a deposit of \$50.00 for Division No. 1, and a deposit of \$25.00 for any of the other divisions should he permit the plans and specifications to be taken from his office.

By order of the High School Board of the Pittsburg High School District, California.

A. V. McFAUL, Clerk,  
Pittsburg, California, April 18, 1927.

### NOTICE TO CONTRACTORS

(Monterey Grammar School District)

The Trustees of The Monterey School District will receive sealed proposals up until 7:30 P. M. on the 19th day of May, 1927, at the Monterey Grammar School, 642 Pacific Street, Monterey, at which time and place the said bids will be opened and read in public, for furnishing all labor and materials for erecting and completing at the New Monterey Grammar School Building:

First—A complete Steam Heating System.

Second—A complete Program Clock System.

Third—All electric fixtures and lamps.

Fourth—A concrete retaining wall around part of School property.

Fifth—A six foot fence around part of School Property.

Sixth—Special canvas shades to windows.

Bids to be submitted separately on each of the above items or contracts; and all work done in accordance with the plans and specifications prepared therefor by Slocombe & Tuttle, Architects and Engineers, 337 17th Street, Oakland, California.

A cashier's or certified check or Surety Company Bid Bond for an amount not less than 5% of the amount of the bid shall accompany each proposal, drawn payable to the order of A. G. Winston, Clerk of said Board of Trustees, as a guarantee that the bidder will, after being notified of the acceptance of his bid, enter into a contract with said Board of Trustees, in accordance therewith and furnish surety bonds as required by the specifications. Said check or bidder's bond to be forfeited to the said School District should the bidder fail to execute the contract and furnish the bonds as above mentioned.

The Trustees reserve the right to reject any or all bids. Plans and specifications may be obtained from the Clerk of the Board or from the Architects.

By order of the Board of Trustees of the Monterey School District, Monterey, California.

H. D. SEVERANCE, President.

A. G. WINSTON, Clerk.

GEO. E. MACDONALD, Trustee.

Dated April 30, 1927.

### NOTICE TO CONTRACTORS

(Grant School No. 1—Oakland)

OFFICE OF THE SECRETARY OF THE BOARD OF EDUCATION OF THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tues-

day, the 17th day of May, 1927, at 9:45 A. M., at which time said bids will be opened for the erection and completion of the Grant School No. 1 Building of the Oakland School District, to be erected on the West side of Kempton Avenue approximately 100 feet Northwest of Fairmont Avenue. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

Separate bids will be received for:

(1) General Work.

(2) Awning Type Window Fixtures and Hardware.

(3) Slate Blackboards.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office herebefore mentioned. Plans taken out by bidders on or before May 17, 1927, shall be returned May 18, 1927. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award or to give bonds required for the faithful performance of the contract or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided, however, that in no case shall said check be required to be in excess of Five Thousand (\$5000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 17th day of May, 1927, at 9:45 A. M., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDMOND,  
Secretary of the Board of Education of Oakland, California.

### NOTICE TO CONTRACTORS

(Elevator Repairs—Kern County)

Notice is hereby given that sealed bids will be received by the Clerk of the Board of Supervisors of the County of Kern, State of California, up to 11 a. m. of May 25, 1927, for the furnishing of all labor and materials necessary for the alteration and repair to the elevator in the Kern County Courthouse, Bakersfield, California, in accordance with specifications prepared by Charles H. Biggar, Architect, 405 Bank of Italy Building, Bakersfield, California. Copies of same may be obtained from said Architect. Certified check or bidders' bond in the amount of 10 per cent of the amount bid, made to the order of the Clerk of the Board of Supervisors, as evidence of good faith that the bidder, if successful, will enter into a contract for the above work satisfactory to the Board of Supervisors and in addition thereto will furnish good and sufficient bonds therefor.

The Board reserves the right to reject any and all bids not deemed advantageous to the County and to waive any informality in any bid received.

By order of the Board of Supervisors of the County of Kern, State of California, adopted April 25, 1927.

F. E. SMITH,  
County Clerk and ex-Officio Clerk of the Board of Supervisors.

State Highway Engineer.

By H. S. COMLY,  
Division Engineer, Div. II

Dated: April 29, 1927.

May 5-12

#### NOTICE TO CONTRACTORS

(Suisun School District)

Notice is hereby given that sealed bids will be received by the Board of Trustees of the Suisun Grammar School District, Suisun Valley, Solano County, California, at the office of the County Superintendent of Schools, Fairfield, California, until 2 o'clock p. m., Monday, May 16, 1927, for the erection of a school building to be built in Suisun Valley, Solano County, California, according to plans and specifications prepared for the same by Coffman, Sahlgren & Stafford, the authorized architects.

Bids will be received for the work complete, with alternate propositions. Plans and specifications can be seen during office hours at the office of the Clerk of said Board at Suisun, California, and may be seen at or obtained from the office of the architects, 519 Forum Bldg., Sacramento, Calif.

A cash deposit of \$25 will be required from all prospective bidders on all copies of plans and specifications loaned out, as a guarantee of the return of the same.

All bids shall be presented on blank forms which may be procured from the office of the architects.

Each bid must be accompanied by a certified check on some responsible California Bank for a sum not less than ten per centum (10%) of the amount of the bid, made payable to Mr. M. R. Wolfskill, Clerk of the Board of Trustees, as a guarantee of good faith that the party to whom the contract may be awarded will, within ten days after the award is made, enter into the necessary agreement and furnish the necessary bonds for the faithful performance of said work, and in case the bidder to whom the contract is awarded fails to, or refuses to enter into said agreement, or to furnish said bonds, said check shall be forfeited to the said School District, in the manner provided by law. The Board of Trustees will not accept a Bidder's Bond in lieu of a certified check.

Each bid must be enclosed in a sealed envelope and addressed to Mr. M. R. Wolfskill, Clerk of the Board of Trustees, Suisun Grammar School District and endorsed "Proposal for Building School."

The Board of Trustees expressly reserves the right to reject any or all bids and to waive any informality in any bid received.

By order of the Board of Trustees, Suisun Grammar School District.

By M. R. WOLFSKILL, Clerk.

#### NOTICE TO BIDDERS

(Landscape Work, Etc.—San Rafael)

Bids will be received by the Board of Education, City of San Rafael, for landscape gardening of a portion of the San Rafael High School grounds in accordance with plans and specifications on file with the secretary. Bids are to be segregated under the headings of Grading and Fill, Concrete Walks, Curbs and Gutters, Plants and Planting.

All bids must be entered on or before 8 p. m., May 10, 1927, with the secretary of the board at the office in the San Rafael High School.

OLIVER R. HARTZELL,

Secretary.

#### NOTICE TO CONTRACTORS

(San Luis Obispo School District  
Hawthorne School)

Notice is hereby given that sealed bids will be required by the Board of Education of San Luis Obispo School District, County of San Luis Obispo, State of California, up until 7:30 o'clock p. m., on the 10th day of May, 1927, at which hour they will be opened at the office of A. H. Mabley, Superintendent of City Schools, which office is located in the High School Building, San Luis Obispo, for furnishing of all materials and labor required for the construction of a (1) room addition to the Hawthorne School.

Bids must be on a form provided and accompanied by a certified check in the amount of 10% of the bid, and made payable to the order of C. L. Smith, Clerk of the Board of Education. Bids shall be sealed and filed with the Superintendent of the City Schools of San Luis Obispo at the above specified time. The above mentioned check shall be given as evidence that the bidder will enter into contract if awarded the work, and will be declared forfeited if the successful bidder refuses to enter into said contract after being requested to do so by the Board of Education.

The successful bidder will be required to furnish (2) two bonds of a surety company, satisfactory to the Board of Education of the San Luis Obispo School District, (1) one covering an amount equal to fifty per cent of the contract price and (1) equal to twenty-five per cent of the contract price.

A deposit of ten dollars (\$10.00) is required for all drawings, which will be returned when the drawings are returned.

The Board reserves the right to reject any or all bids.  
By order of the Board of Education of the San Luis Obispo School District.  
Dated this 22nd day of April, 1927.

#### STATE OF CALIFORNIA CALIFORNIA HIGHWAY COMMISSION

##### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock p. m. on May 18, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Los Angeles and Orange Counties, between Naples and Anaheim Bay Bridge (VII—L. A.—Ora—60—E—A), about one and five-tenths (1.5) miles in length, to be paved with Portland cement concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,

J. P. BAUMGARTNER,

California Highway Commission.

R. M. MORTON,

State Highway Engineer.

E. FORREST MITCHELL,

Secretary.

Dated: April 18, 1927.

## Height Limit Ordinance Passed

The Board of Supervisors has passed to print Bill No. 8018, limiting the height of buildings hereafter erected in the area bounded by Fillmore, Jackson and Lyon streets and San Francisco Bay to forty feet. The proposed ordinance will come up for final passage of the Board of Supervisors, probably next Monday.

Section 1. No building, except as hereinafter provided, shall be erected in the City and County of San Francisco to a height greater than forty (40) feet, within the territory bounded by San Francisco Bay on the north, by Fillmore Street on the east, by Jackson street on the south and by Lyon Street on the west, excepting therefrom the westerly line of Fillmore Street from the southerly line of Broadway to the northerly line of Jackson Street, and the northerly line of Jackson Street from the westerly line of Fillmore Street to the easterly line of Steiner Street, to the depth of the rear lot lines of the lots fronting on said streets as shown on the Assessor's maps for the year 1927.

Section 2. No addition to or alteration or improvement of any building within the above-described district shall be made which shall increase the height of any building as limited by this ordinance.

Section 3. No limitation of the height of buildings in the County of San Francisco, as provided by this ordinance, shall apply to public buildings, churches, schools, steeples, towers, domes, cupolas, belfries (not used for human occupancy), nor to chimneys, gas holders, skylights, ventilators, pent houses, water tanks, flag staffs, railings, weather vanes, nor to other similar structures such as are usually erected or maintained above the roof line of buildings.

Section 4. The method of determining the height of buildings, for the purpose of this ordinance, shall be the same as provided in Ordinance No. 1008 (New Series), and the provisions of Section 78 shall apply within said territory.

Section 5. No building permit shall be issued by the Board of Public Works for the erection or alteration of any building or structure contrary to the provisions of this ordinance, and any permit so issued shall be void.

Section 6. Any person, firm or corporation violating any provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine not exceeding \$500 or by imprisonment for a term of not exceeding six months, or by both such fine and imprisonment. Such persons, firm or corporation shall be deemed guilty of a separate offense for each and every day during any portion of which any violation of this ordinance is committed.

Section 7. This ordinance shall take effect immediately.

Assembly Bill No. 1025 providing that counties having no road engineers shall require each supervisor to keep road and mileage records of all construction and maintenance work in his district has been given final passage by the State Senate.

## FUTURE BUILDING CODES WILL SERVE BIG AREA

Building codes of the future will not be written for single cities but will serve large areas, possibly several states, said H. E. Plummer, building commissioner of Portland, Ore., at the National Building Officials' Conference in Chicago. Mr. Plummer is president of the conference.

"Most cities in the past have adopted their codes on a hit or miss plan," said Plummer. "The result is confusion. It was recently brought to my attention that in the building ordinances of our 25 largest cities a reinforced concrete column of a certain diameter with the quality of the concrete and the amount of steel reinforcement the same in all cases, may support a load varying from 202,800 to 367,200 pounds. Now this column will carry the same load in Timbuctoo as it will in Iceland, or anywhere else. Nevertheless, the codes in our large cities differ on this fundamental point.

"As a reaction against this tendency, building officials are developing model codes, which cities may adopt. The one being prepared by the Pacific Coast Building Officials' conference is a case in point. This code, although not in its final form, has already been enacted by Sacramento and Alhambra, Calif., and probably will be used by many other cities, not only on the Pacific coast, but in all parts of the United States. The Florida State Building Officials' conference is using it as a model for a uniform code for that state, and commissioners in other sections of the country are studying it.

"A similar movement is under way in Kansas, where building inspectors and other officials are discussing a code which may serve all the cities in that state.

"These codes fix the general requirements which are the same for all parts of the country, but are so written that local authorities can insert provisions which have a direct bearing on the community or conform to existing state laws. For example, a model code could be adopted word for word, and provisions bearing on a local zoning law could be added to it."

R. W. Littlefield, general contractor, has moved to larger offices in the Howden Building, 1628 Webster street, Oakland.

## S. F. ARCHITECTS FEATURE ARCHITECTURAL EXHIBIT

The Northern California Chapter, American Institute of Architects, last Sunday opened an architectural exhibition comprising 600 items consisting of models, drawings, photographs and plans of structure, at the M. H. de Young Memorial Museum in Golden Gate Park, San Francisco. A guest exhibit from Southern California is also included. The exhibit will be featured during the entire month of May.

About one-third of the chapter's members have entered exhibits and an exceptionally fine display is presented from the University of California school of Architecture. Diplomas of merit will be awarded by the institute to buildings winning acclaim by a committee of judging architects. For the purpose of these awards only buildings constructed since 1924 will be considered.

Officers of the Northern California Chapter include John Reid Jr., president; Harris Allen, vice-president; Albert J. Evers, secretary-treasurer. The exhibition committee consists of Earl B. Bertz, chairman; Morris Bruce, H. H. Gutterson, R. W. Jeans, L. M. Mullgardt, C. A. Tantau and Harris Allen.

## RENO PLUMBERS UNION WILL SEEK TO AVOID STRIKE

Belief that differences between master and journeymen plumbers in Reno, Nevada, will be settled before a strike is called May 1 is expressed by Lee Tarbell, secretary of the Reno journeymen's union.

Everything possible is being done to avoid a strike, Tarbell declared, and headway is being made in negotiations relative to the demand of the journeymen for a \$1 a day increase, making the daily remuneration \$11 a day. Other factors enter into the differences between the two organizations.

After stating that the journeymen are continuing negotiations, Tarbell expressed confidence that a settlement would be reached.

The central trades and labor council, at a recent meeting, endorsed the new working rules of the plumbers, Tarbell said.

## CEMENT MERGER COMPLETED

Notice has been sent out by Pacific Portland Cement Company, successor to Pacific Portland Cement Company, Consolidated, and Old Mission Portland Cement Company, of completion of the merger. The company will operate cement plants at Redwood City, San Juan Bautista and at Cement, Solano County, Cal., and plaster plants at Plaster City, Imperial County, Cal., and Gerlash, Washoe County, Nevada.

## J. P. HALL IS NEW EDITOR FOR "CALIFORNIA HIGHWAYS"

J. P. Hall, owner of a newspaper at Arbuckle and more recently editor of the "Colusa Sun," has been appointed editor of "California Highways," the official journal of the State Highway Commission. Mr. Hall succeeds Frank B. Durkee, who in 1926 passed the state bar examination. Mr. Durkee assumes new duties with the highway commission as right-of-way assistant to Harry A. Encell, attorney for the road body.

Congratulations are due Mr. Durkee for his advance in position and to Mr. Hall for the April issue of "California Highways" which is brim full of ripe news and illustrations concerning our state road system.

## BUILDING COSTS IN STEADY RISE FIGURES SHOW

Construction costs rose during March, reaching the highest level they have occupied in two years. The average of these costs last month was slightly more than twice as great as the average registered in 1913, according to statistics compiled by the Associated General Contractors of America.

March was the third successive month to witness an increase. The latest rise was the most definite upward movements noted within any single month since early in 1923.

The increase is ascribed to higher prices of the basic construction materials. The average of material prices last month was the greatest since July, 1925.

The average of wages paid by contractors in the principal construction centers of the country during March showed no change from the figure recorded for February, when a slight rise over the January average was noted.

Gauged by a scale which places the 1913 average at 100 as its basis, construction costs as a whole reached the 201 level in March. At no time during the nineteen preceding months had the 200 mark been topped.

The March average was four points above the figure recorded for March, 1926. It was virtually equal to the March, 1925, average.

## NEW BAY BRIDGE INVOLVES \$50,000,000 EXPENDITURE

Chas. Josef Carey, San Francisco attorney, E. K. Taylor, ex-mayor of Alameda and N. A. Gray, consulting engineer, are seeking a franchise from the San Mateo County Supervisors to construct a \$50,000,000 bridge over San Francisco Bay from Candlestick Point, San Mateo County, to Ray Farm Island, Alameda county. The proposed structure would be 45,500 feet in length of which 15,000 feet would be of structural steel. It would be 60 feet wide, providing for both vehicular and pedestrian traffic. It would be supported by two double piers.

Preliminary work toward construction on the bridge has been based on the findings of the Navy Department in charting San Francisco bay relative to establishment of a navy yard at Mare Island.

The backers of the project declare that if the franchise should be granted the syndicate backing the project would make 100 borings to determine the best course for the construction work. A monthly fee of \$100 would be paid San Mateo County, while a bond of \$100,000 would be deposited within 10 days after the franchise is granted. A \$250,000 annual bond would also be paid the supervisors. The franchise would extend 50 years under the application.

The application for franchise will be considered at the June 6 meeting of the San Mateo county supervisors.

## CEMENT PLANTS IN ANTI-ACCIDENT SAFETY DRIVE

What is pronounced by the Portland Cement Association to be the greatest safety campaign ever instituted by an industry in the United States, will be held during June, when 150 cement plants will compete to see which one can operate the longest time without an accident. Fifty thousand workers will participate in the "race" and the winner will be awarded a trophy. Each plant will raise a large green and white safety flag June 1 and these banners will remain up as long as the establishment has no accidents resulting in the loss of time to any employee.

The campaign is conducted by the Portland Cement Association, a national organization to improve and extend the uses of concrete. It has a special department devoted to accident prevention and to this end co-operates with the National Safety Council.

In announcing the campaign, G. R. Gay, manager of the Santa Cruz Portland Cement Company, said:

"Every superintendent, department foreman and worker in the industry is making a signed pledge to support and carry out the detailed activities of the campaign. Although the five local plants have been quite active in movements to protect workmen, plans are now being made for a campaign which will dwarf all past effort and put us in the front rank so far as industrial accidents are concerned."

## STANDARD SANITARY PLANT HAS NEW MANAGER

Henry Creeger of Tiffin, Ohio, has replaced Paul Brikkholm as superintendent of the Pacific Pottery plant of the Standard Sanitary Manufacturing plant in Richmond.

Brikkholm, who has been acting superintendent of the pottery for the past year, has not announced his future plans, but Frank Kales, superintendent of the Pacific Coast division of the company, reported that he will not continue with the concern.

Creeger has been engaged in the pottery business for many years, and before coming to Richmond was assistant manager of the Standard plant in Tiffin.

The new million dollar plant at Richmond will be in operation before the end of May, and officials predicted that within two months the output will be tripled.

## LUMBER COMPANY SUED

Suit for \$14,031.40 damages for personal injuries sustained in an accident at Chestnut and Manning Aves., Fresno, on January 3rd, last, has been brought in the superior court in that city by Martin J. and Martha Rasmussen and their daughter, Doris, against the Fresno Lumber Company and the estate of J. G. Martin, late manager of the latter firm. The claim is made that Rasmussen and his daughter were seriously injured in a collision with a car driven by Martin and that the accident was caused by the latter's carelessness and negligence.

# The Quantity Survey And The General Contractor

(By C. L. Weeks, First Vice-President, American Institute of Quantity Surveyors)

Quantity survey, or the furnishing of a definite instrument of purchase, in the form of Bills of Quantities, in combination with drawings and specifications, would directly benefit the general contractor more than any other class, or branch of the construction industry.

As the contractor is the one whose business is most vitally affected by the illogical method of requiring each bidder to compile a set of quantities on which to base his price for construction work, it would seem natural that he would be the one to get out and fight for quantity survey, instead of waiting for the architect to force it on him.

It is true that the past few years have seen contractors in various parts of the country start experiments with quantity survey by the formation of quantity survey bureaus within their organizations, or by the support of private quantity survey bureaus or service, but the fact is that there is a general feeling among contractors that they should leave the matter to be settled by the architects.

## Architects Favor Survey

The architects, for the most part, are in favor of quantity survey and would like to furnish quantities with their plans and specifications, and would recommend to the owner the guarantee of the accuracy of the quantities by a form of agreement to pay the contractor for what actually goes into the building, but the contractor must at least meet them half way, and it has been my experience in many cases that where the architect has agreed to use quantity survey, he has met with the opposition of those contractors, who, for the most part, are serving selfish interests in the condemnation of the quantity system, seeking to substitute percentage or fixed-fee methods, or in other ways opposing, in their ignorance, the things that would help them most to place the contracting business on a basis that would lift it out of the evil conditions it is beset with in this country, and has been for years, with the exception of intermittent boom periods.

The quantity survey system is the only logical system, although its form may vary in different countries, and according to different customs and conditions. It is logical because all successful, honest business is based on fair competition. Fair competition, in turn, is dependent on two fixed elements, quantity and quality, and these elements determine price, which varies slightly according to the fluctuations of supply and demand. The reward, in fair competition, goes to those who merit reward on account of their ability, efficiency and integrity.

## Illegitimate Competition

When quantity becomes a variable element, which is the result of competitive bidding, where each bidder takes off the quantities in a superficial way and with insufficient time to get accurate quantities, so that every bidder has a different quantity on which to base his bid, the bulwarks of fair competition are shattered, and the result is that the doors are thrown wide open to every destructive force, and illegitimate competition, accompanied with incompetency, dishonesty and partiality, control the field.

## Quantity Survey Bureaus

The promotion or support of properly conducted quantity survey bureaus is the direct means by which contractors can help to bring the practice of a quantity survey system into general use. If, however, quantity survey bureaus are not conducted in accordance with the fundamental principles governing the logical practice of quantity survey as an economic factor, they are of no value.

To limit quantity survey bureaus to checking contractors' estimates of quantities is not an economy. Contractors might just as well hold pre-openings and give the too-low man the opportunity of going to the top of the list. This serves the same purpose and avoids the expense of conducting the bureau.

## Honest Co-Operation Aim

On the other hand, a quantity survey bureau, conducted with the idea of honest co-operation with the architect and engineer, free from price-fixing of every kind, adding a fair cost to each contractor's bid to cover the expense of the bureau, providing payment to be made by the successful contractor, results in immediate advantage to the contractor, and helps to persuade the architect to employ the complete quantity survey system, providing for it in his specifications.

## Benefits to Contractors

Such a quantity survey bureau will result in the following direct benefits to a contractors' organization:

1. Reduction in estimating expense by elimination of duplication.
2. Placing of estimating cost more directly upon the owner.
3. Elimination of loss on contracts taken at a figure too low on account of omissions or shortages in quantities.
4. Increased membership of organization.
5. More and greater profits.

Item No. 1: (Reduction in estimating expense by elimination of duplication). There will be a great saving in direct expenditure of money for estimating. For example, if it costs \$100 in either actual cost or time, which is the equivalent, for each contractor to take off the quantities on the average job, and there is an average of twelve bidders on every job, even though it cost the quantity survey bureau twice the amount of the average contractor to take off the work, which is possible, to assure accuracy and do the work more thoroughly than the average contractor does it, there would be a saving of \$1000 a job, for every building taken off.

## Estimators Needed

This does not mean, however, that the quantity survey bureau would do away with the estimators. They will still be needed to price the work. They will have more time to look into the matter of costs and pricing, and even if there are reductions in the estimating staffs, the quantity survey bureau can take on the best of the estimators no longer needed by the contractors.

Item No. 2: (Placing of estimating cost more directly upon the owner). This is taken care of by the contractor's allowing for the estimating cost and adding it directly to their items of cost, just as they would add in their

percentage for bond or the estimated cost of compensation, or any other cost item.

Item No. 3: (Elimination of loss on contracts taken at a figure too low, on account of omissions or shortages in quantities). A fund is established with the payments received from the successful contractors, which can be used as a guarantee to insure the contractors against loss by taking contracts too low on account of omissions or shortages in quantities. The only thing that would keep this fund down to a point where it would not be effective, would be lack of sufficient support by the individual members of the organization, or weakness in the organization that would result in too many contracts going to outsiders.

Item No. 4: (Increased membership of organization). If you operate a successful quantity survey bureau and prosper thereby, outside contractors will want to participate in this prosperity. By taking them in, you will increase it.

Item No. 5: (More and greater profits), is but a repetition of all the other items.

## Self-Supporting Bureaus

It is essential to establish quantity survey bureaus on a self-supporting basis. To require the contractors to continue to contribute will result in failure. It is logical that the owner should in the long run stand the expense. He does it now quite indirectly, although he may not know it. With the quantity survey bureau the charge is more direct. In regular quantity survey system the obligation of the owner to pay, is still more direct, and eventually becomes legalized, even if the project is abandoned and without notification to the owner that the quantity survey is being furnished.

It is not necessary for every member of a contractors' association to agree to operate through a quantity survey bureau, in order to get one started. It is necessary to have the moral support as an organization.

It is not necessary to have the active participation of every individual member. It is necessary, however, to get the active support of a sufficient number of individual members to hold down the cost to each individual, and to increase the chance of landing a sufficient number of contracts in competition with non-participants.

## Must Believe in Principles

Furthermore, a quantity survey bureau cannot be an entire success unless its members believe in the principles of quantity survey on an ethical basis. I mean by that, that if they are willing to set aside those unethical practices that unfair competition tends to force a contractor into as a means of self-preservation, and which I realize he can easily be forgiven for entering into, on account of the pressure that existing conditions force upon him, if they are unwilling to start on this proposed quantity survey bureau with everything on the table, and hold the thought that the architects and owners who are brought into contact with them on it, will be fair too, and agree with them that they are entitled to receive a dollar for every dollar's worth of building they give, they should not try to start it.

Quantity survey bureau operated these principles will result in doing the architects and owners into classes: On the one side we will have those who are desirous of playing fair, who are willing to give us a fair, specific instrument of purchase, who will agree that a contractor entitled to a fair margin of profit on his work; and, on the other side, we will have the architect who puts in little time as he can get by with his plans, who underestimates the work and tries to back his false estimates by deception in order to save face with the owner, and the owner seeking to hook a sucker.

#### Co-Operate With Architect

The right kind of quantity survey bureau should co-operate with the architect. They should do all in their power to help him in every possible legitimate way. They will help in his preliminary estimates, so that he will not have to make his wings over again by reason of the estimates being too high. They will help him get proper surveying and engineering. They will help him in calling attention to discrepancies and omissions in his plans and specifications, and ordinance violations. They will give him considerable assistance in improving his work by calling his attention to those things that always show up in a set of plans and specifications when the quantities are taken

The result will be that they will have his confidence. He will let them have the list of bidders on his work. They may even accept their recommendations as to the names on his list, if they will in turn give him a square deal. The eventual outcome will be that they will be in the specifications a provision for the furnishing of a quantity survey to all contractors bidding on the work, with a guarantee of the quantities, either by allowing the architect bidder to check up, with adjustment of discrepancies based on actual prices, or by making the quantities a part of the contract. These are ideal conditions in use in other countries, which stabilize the contracting business, and eliminate ill-considered competition and give the work to those contractors who are most efficient, have the greater buying power, and are in every way most desirable, instead of to those whose sole recommendation is the low price—in many cases low only through incompetency or with dishonest motives as a long factor.

#### Eliminate Fly-by-Night

As to the other class of architect, quantity survey bureaus should have him alone at the start, but as his strength increases they will find it wise to take the means of disposing of him by sending him back to the drafting table in the same way that they will eliminate the "fly-by-night" contractor and send him back to his tools, to his shoemaking or dressmaking. Quantity surveying has been charged with the crime of making contractors dressmakers and shoemakers—but this charge is ridiculous, and made only in ignorance of the true principles involved in the matter. Quantity survey bureaus may develop into an educational factor and thereby serve a valuable purpose in bringing to the attention of the contractor as well as to the architect, improved methods in all matters pertaining to quantities and costs. There is important work to be done in the standardization of units of measurement and estimating or quantity survey methods. In fact a complete American quantity survey system is yet to be developed, for I believe that neither present estimating methods of Amer-

ican contractors, or the complicated English bill of quantities, will entirely fill our bill—I look forward to the development of a condensed form, perhaps with the use of a code such as is employed in cost engineering, scientific and technical, remarkably accurate in terms of measurement, but leaving development for the purpose of pricing to the contractors' pricing engineer. This will mean increased efficiency and economy.

#### Use Detailed Estimates

Quantity survey bureaus should begin their operations by following the methods employed by the better organized contractors, using detailed estimates which can be co-ordinated with the prevailing cost engineering methods. The take-offs should have identifying notations and comprehensive segregations capable of flexible summarizing, for purposes of checking, as different contractors have different estimating methods.

The work should be limited at the start to excavation, cement, finish and rough carpentry, as few general contractors go outside of these lines in personal installation, buying material and paying for labor direct. In some cities, the "segregated" form of handling contracts is largely in vogue, and in such cases there may be need of keeping the quantity surveys separate for different trades, as certain contractors would be interested only in masonry, others in carpentry.

Certain crafts are being handled by their own quantity survey bureaus, and no good purpose would be gained by the general contractors entering their field, unless they had reason to believe that they were being operated at a disadvantage to the general contractors.

#### Carpenters' Survey

I had the pleasure of talking recently with Mr. O. H. Ulbricht, manager of the Master Carpenters' Association Quantity Survey Bureau of Milwaukee, who is on the coast on a vacation. He gave me some interesting information which is opportune at this time. This bureau has been in operation since March, 1921, and takes off only rough and finish carpenter work and sash and doors. It serves 350 carpenters and has turned out 1740 quantity surveys on larger work. It receives plans and specifications direct from 82 architects. It exacts fees of 1½% of the contract price, which is added by all bidders in its membership and paid by the successful bidders. The loss through contracts going to non-members and on account of abandonment of figured projects, principally the latter factor, is 47½%. There is no guarantee, but they have \$20,000 invested in gilt-edge securities.

#### Economic Proposition

Contractors should look on quantity survey as something more than a means of saving a little expense—it is, in fact, an economic proposition involving the entire structure of the construction industry. It reaches into every department of construction activity, and the effect of its application spells either success or failure. It starts with the first sketches and the land survey, and is not done with until long after the construction work is completed and when the last dollar is paid out. Involved as it is with cost, it has unlimited opportunities for development, and its application spells efficiency, economy and harmony that cannot be limited to any one class or separate interest. Owner, architect and engineer, sub-contractor and material dealer must share equally with the general contractor in the benefit to be derived from its proper use.

Therefore, they should keep in mind the fact that, although they have a perfect right to make use of it for their own exclusive, personal and selfish interests, it is passing through an evolutionary process, and if history repeats itself, the tendency towards specialization, which accompanies the introduction of efficiency methods, will eventually take its direct application out of their hands. They need have no misgivings, however, for the process will confer a further benefit upon them.

#### VALUE OF ARCHITECTURAL SERVICE

In a biographical sketch of a local captain of industry a Seattle paper quotes that gentleman as stating that one of his hobbies is the planning and construction of buildings. "I can build a structure while the average architect is planning it," he boasts.

We do not know whether the party quoted is more at fault than are the architects. His statement is somewhat vague. The buildings constructed by the subject of the sketch mentioned are hardly architectural masterpieces. And it is certain that he could not construct them as fast as an architect could plan the work.

There is one point which is outstanding: The average business man has no definite knowledge of the capabilities of the architect—of the real value of his services. The situation is the fault of the architects. They are too "professional"—too retiring to sell themselves, as a class, to modern business men, and as a result the public the architect loses, and such statements as made in the first paragraph are all too common today.—(Seattle Journal of Commerce).

#### IS THIS THE QUEREST LETTING?

According to a press report an expedient to which Tow Sawyer might have resorted was seen by contractors recently in the announcement of the North Jersey District Water Supply Commission that bidders for the contract to clear the site of the Wanauke reservoir of stumps must first engage in a tree-pulling contest. The winner is to secure the contract. The contest will be held on the reservoir grounds.

#### BUILDING, BUILDING, BUILDING

One of the most significant developments of the month was the publication of figures on building contracts awarded in March, which were the highest for any month on record, surpassing those of March last year by 4 per cent. One would be rash to conclude from this that building is headed for new records every month, such an eventuality being neither probable nor desirable, but the conclusion at least is justified that building is in for no sudden or drastic decline. In view of the importance of construction activities in the general business situation, indication of continued support from this quarter is decidedly reassuring.—(From National City Bank, N. Y. on General Business Conditions).

#### PROTESTS DAY LABOR

Representatives of the Sacramento Master Painters' Association at the last meeting of the Board of Education requested that the board discontinue use of the day labor system on school painting projects in favor of the contract system. The board promised consideration of the request.

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Contracts held by the Clark and Henry Construction Company of San Francisco for street improvements in Santa Rosa have been cancelled by the city council. About fifteen separate contracts are involved. This step was taken following the refusal of the city council to grant the request of the contractors to delay actual work on the streets, pending the determination of legal points raised relative to the proceedings as well as the validity of the patents under which some of the streets were to have been paved with the Willite patent pavement. When the work is resumed, the council will no doubt order cement concrete streets, according to reports.

The wetting of brick work for a period after laying does not add to the strength of the brick work, and is an unnecessary expense and trouble, according to the United States Bureau of Standards, as quoted by the Common Brick Manufacturers' Association of America in their monthly digest. Tests made by the bureau produced evidence that the variation in strength between walls which were sprinkled and those which were not was not great enough to justify on the part of the builders the added expense of wetting. It is expected that the bureau will issue soon a complete report of the results of the test.

A certificate creating an original bonded indebtedness of \$3,000,000 by the Sugar Pine Lumber Company has been filed with the county clerk at Fresno. The loan is to be made by the Pacific-Southwest Trust & Savings Bank with the execution of a trust deed covering certain properties. The certificate stated the debt was authorized by the stockholders at a special meeting held in Fresno March 8th.

The five-day week schedule without increase in pay was adopted by the Watsonville local, Carpenters' Union, by a vote of 80 to 17. The change is effective at once.

Bricklayers of Portland, Ore., failed to return to work last Monday and will remain out until arbitration committee has passed on their demand for \$12 a day. They are now receiving \$11. Following a meeting held by the contractors, the announcement was made that "they had nothing to arbitrate" until the men were back on their jobs and carried out their promise to "carry on" pending the action of the arbitration committee.

C. M. Cook, formerly connected with the Cook Lumber Company, who was recently adjudged bankrupt, appeared before Justice U. A. Southeimer at San Jose last Wednesday on a charge of selling real estate twice. The case was dismissed on motion of the district attorney because of lack of evidence.

A \$10,000,000 bond issue for the elimination of 550 grade crossings in California is authorized by a constitutional amendment by Senator Roy Fellom, which had passed the State Assembly. If the governor signs the measure it will have to be referred to the people at the next general election. Assemblyman B. J. Feigenbaum of San Francisco, who handled the measure in the assembly, declared that 200 persons were killed in California at grade crossings last year and 600 were injured. The railroad companies would share approximately 50 per cent of the expense.

Brick contractors and manufacturers of Portland, Ore., are considering requests for a \$1 a day increase for bricklayers.

If there is any doubt about this being a big country just grasp these figures issued by the United States Department of Labor. According to that authority 294 cities with a population of 42,700,350 provided new buildings last year for 480,773 families. The per capita expenditure for new buildings in these cities was \$84.90, of which \$49.39 was for housekeeping dwellings.

Five carpenters employed by Witter & Heitz at Healdsburg have submitted demands seeking a wage increase of \$1 a day. They now receive \$8 a day and threaten to strike unless paid that wage.

State Railroad Commission has reopened for further hearing and oral argument the proceeding brought on complaint of the Western Pacific Railroad Company against the Northwestern Pacific Railroad Company, in which the Railroad Commission is asked to order the establishment of joint rates on lumber from Western Pacific railroad points to Northwestern Pacific railroad points.

Although allotting nine first prizes, the League of Nations' jury of architects, (Geneva, Switzerland), which has been studying plans submitted for a new league palace, decided that it was unable to recommend execution of any one of the 377 plans. The first prizes of 12,000 Swiss francs each (about \$2400) were awarded to four French, two Italian, two German and one Swedish architect. Eighteen honorable mentions were made with the distribution of smaller prizes.

Los Angeles' building total for the month of April, 1927, fell short of that for the same month a year ago and also the total for March. During April, 1927, the city building department issued 3296 permits for improvements valued at \$10,458,622. In April, 1926, the department issued 3332 permits for construction estimated to cost \$11,207,289. For four months of 1927 Los Angeles' building total was \$37,274,499 as compared with \$40,602,469 for the corresponding period last year.

Five hundred bricklayers and affiliated trowel trades workers in Seattle who recently went on strike for a 5-day week and a \$1 a day increase are reported to be back to work, pending action of a meeting to be held next Saturday with the General Contractors Association of that city.

Hod carriers received a higher daily wage than passenger conductors and Chicago street sweepers are paid more money than passenger brakemen, statistics quoted at a railroad wage hearing in Chicago indicated.

All structures hereafter erected within the city limits of Watsonville, except private residences and private garages appurtenant thereto, must be of fireproof material, according to the provisions of an amendment to the fire ordinance passed by the city board of aldermen.

A comprehensive building ordinance designed to place building regulations in Hillsborough on a uniform scale with other cities throughout California, was enacted at the last meeting of the city trustees. Chief of Police Claude M. Hurschey has been appointed temporary building inspector, plumbing and electrical inspector, to serve until such time as a permanent officer is named.

Carpenters at Redding, Calif., lead a movement to form a union to affiliate with the state and national organization of journeymen. Twenty-four carpenters have already signed up in the organization. The local will comprise carpenters from every section of Shasta county. Following the organization it is expected an \$8 a day wage will be set by the local.

Working their laborers more than eight hours a day will cost Connolly & De Luca, Hetch Hetchy contractors \$6820. An examination of the company's books by Walter C. Mathewson, state labor commissioner, disclosed a total of 682 "overtime days," for which, under the state law a penalty of \$10 must be assessed for each overtime day.

The metropolitan water district act, permitting the formation of a district to divert a part of the water of the Colorado river through San Bernardino and Riverside counties and into Los Angeles county to supply cities and towns in those counties, has been signed by Governor C. C. Young.

Chicago Tribune has issued a "Book of Homes" containing 99 designs and floor plans of five and six-room houses. Architects from every section of the country are represented in the book. The designs are selected as among the best of the 800 submitted in The Tribune's recent \$7500 prize homes contest. The book sells for \$1 at The Tribune Public Service Office, One South Dearborn street, Chicago.

## ALONG the LINE

The Constant Angle Arch Dam Company of San Francisco has been commissioned by the Seattle city commissioners to prepare plans and specifications for a concrete arched dam to be constructed at Diablo Canyon on the Skagit River, to be a unit of the Skagit River power development project. This dam is to provide storage for the existing Gorge plant on the Skagit river, the intake of which is 1/2 miles below the proposed dam and will be used to supply head for the projected Diablo power house. The latter will have an ultimate capacity of 180,000 K. W. The proposed dam will be 365 feet in height, 880 feet in length at the crest and will involve 10,000 cubic yards of concrete. The cost is estimated at \$3,500,000.

Fred W. Pease, former city engineer at Porterville, has been named city manager, engineer and purchasing agent for that city, under the provisions of the charter which went into effect with the April election. Mr. Pease succeeds James Stewart as purchasing agent and engineer, no city manager being provided for under the old form of government.

The city trustees of Redding have declared the office of Charles Dozier, city engineer, vacant.

Gerald J. Fitzgerald, 1245 Waller St., San Francisco, has been granted a certificate by the State Board of Architecture, Northern District, to practice architecture in California.

Joaquin P. Rolita will operate from 125 Piedmont Ave., Oakland, under the firm name of California Marble & Granite Company.

Assembly Bill 151, requiring reports by contractors on public construction projects of the overtime worked by their employees, has received the signature of Governor C. C. Young.

Fred Cole Porter, 55, electrical contractor, died at his home 653 Santa Rosa Ave., Berkeley, May 5.

Fred B. Wilder has resigned as secretary of the Long Beach Builders' exchange and will be succeeded by secretary Bradford of the Redondo Chamber of Commerce.

Chas. E. Andrew, bridge engineer for the highway commission of the state of Washington since 1920, has been appointed bridge engineer of the California State Highway Commission. He fills the position formerly held by Harlan D. Miller, who died in October, 1926.

D. C. Henny, civil engineer of Portland, Ore., has accepted a place on the board of consulting engineers of the Los Angeles County Flood Control District. The other members of the board are J. J. Lippincott of Los Angeles, and James P. Reagan, former chief engineer of the flood control district.

Mark C. Thatcher, 62, pioneer sawmill operator of Shasta county, died at Redding, April 30, following an operation for appendicitis.

Edwin M. Tilden, son of E. M. Tilden, California lumber king, became the husband of Miss Mary Adele Campbell of Oakland, last Saturday.

## TRADE NOTES

F. A. Gawthorne will operate under the firm name of Acme Building Co., with headquarters at 1075 Washington street, San Francisco.

Geo. B. Lewis, Martin K. Smith and Oakes E. Erskine will operate from 244 Circular Ave., San Francisco, under the firm name of Lewis Hardwood Floor Company.

George Stiveson will operate in San Francisco under the firm names of California Cabinet Shop Company and California Greenhouse Construction Company.

Foster Pump Works, Inc., 36 Bridge St., Brooklyn, N. Y., manufacturing steam, power and rotary pumps desires to appoint a San Francisco individual or firm to represent it in this district. If interested, communicate with Clark C. Thompson, president of the company, at above address.

General offices of the Coos Bay Lumber Company have been moved from San Francisco to Bay Point, Contra Costa county. The company, however, will continue to maintain a branch office in San Francisco.

B. W. Cadwallader of Cadwallader-Gibson Lumber Co. has sailed for the Philippines to look over the company's plants in Luzon.

White Pine Products Co. of Reno, Nevada, has filed articles of incorporation at Oakland. The company is capitalized for \$150,000. Directors are: C. C. Kreis, F. C. Hutchins and Wm. L. Holloway, all of San Francisco.

Spencer Street Planing Mill and Herring's Mill have amalgamated and will hereafter operate under the firm name of Herring & Nutting.

E. A. Renaud, sales manager for Brandt & Co., Port-au-Prince, Haiti, handling the sale of machinery wishes to get in touch with manufacturers of deep well rotary pumps. If interested, communicate with Mr. Renaud, direct.

Joseph Hass will operate in the San Francisco district under the firm name of Plumbing Sheet Metal Products Company.

California Electrical Manufacturing Co., Inc. of Stockton, capitalized for \$75,000, has been incorporated at Stockton and will engage in the manufacture and sale of electric water heaters for homes and industrial plants. Officers of the company are: Paul E. Onwiler, president; Fred Brandt, vice-president; F. C. Gerard, secretary-treasurer. The plant is located at 318 East Lafayette street, Stockton, and the business will be developed gradually in connection with the plumbing business of Brandt Brothers.

Two of Oakland's paint and wall paper stores will be under one management next week when H. C. Swanson Company moves to the retail quarters of Uhl Brothers at 375 Twelfth street. The firms will consolidate and will operate under the firm name of Swanson-Uhl Wallpaper & Paint Company.

(Continued on Page Twenty)

## Limit Height Of Buildings— Urges Construction Expert

That city officials should pass ordinances limiting the heights of buildings is the opinion of Frank Burton of Detroit, consultant on buildings and zoning codes, declared at the annual meeting of the National Building Officials' Conference in Chicago, May 2.

"The high building is creating a serious problem," said Mr. Burton. "At present only 2 per cent of the buildings are over ten stories in height. Nevertheless, there are enough of them to cause traffic congestion in our large cities. Every day our city streets are taxed to their capacity by the crowds occupying these buildings. It is hard to imagine future conditions if the number of these tall buildings should materially increase.

"The skyscraper has also brought about certain fire hazards. If a fire reaches the top floors of a tall building, it must be allowed to burn itself out, because it cannot be extinguished at such a great height. As a consequence, insurance underwriters recommend that no building should be more than 125 feet high.

"These high structures furthermore create lighting and ventilating problems that are of general concern to people in the vicinity in which these buildings are located. Natural light

and natural ventilation can rarely be secured in buildings adjoining our skyscrapers, and as a consequence mechanical devices are required to supplement the work of nature.

"As a reaction against this tendency, many progressive builders are moving their offices away from the congested metropolitan areas to outlying sections of large cities, where buildings of moderate size can be erected profitably. Here in Chicago there are many important commercial centers outside the loop where low buildings house important business concerns. A survey will show that many of this city's leading establishments are located outside of the central business district.

"This counter tendency to erect low buildings is resulting in a more equitable distribution of land values. The price of real estate in a congested business district is so high that the average person can rarely comprehend the figure in which it is expressed. In other sections it is often negligible. When offices are housed in lower buildings spread over a large area, there will no longer be exorbitant land prices in section of the city, but an equitable distribution of real estate values over the city as a whole."

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## Carpenters' Union At Reno Protests Yearly License Fee

Declaring that members of the Reno (Nevada) city council were either imposed upon by a few contractors or took snap judgment in passing an ordinance fixing license fees of fifty dollars yearly on contractors, G. M. Gray and George Townsend, representing the Reno Carpenters' Union, appeared before the council and asked that the ordinance be amended or repealed entirely. The ordinance was passed at a recessed meeting held two weeks ago after it has been referred to the committee of the whole and went into effect immediately.

In registering the protest of the carpenters against the measure Gray told the council "that contractors of Reno wanted the carpenters' union to charge the general public two dollars more per day for labor than they charged the contractors and when the union refused to do this, the contractors 'framed' the license ordinance in order to prevent union carpenters from taking small contracts."

Townsend supplemented Gray's remarks with a statement that union

carpenters are allowed to take contracts by their union and that the larger contractors of Reno, under the guise of keeping out "fly-by-night" contractors, had the ordinance passed to shut out the union carpenters and for no other reason.

Representatives of plumbing, painting and electrical contractors also appeared in protest against the measure declaring that they were already paying a license tax to do business and did not think they should be assessed for an additional license. This phase of the matter was turned over to City Attorney Pike to investigate and it was explained by the mayor that the council had no idea that the ordinance would impose an additional license tax on business already paying a tax.

At the time the measure was passed members of the council discussed it briefly and it was stated at the meeting that Reno would probably secure \$2000 in revenue each year through the fees collected and it was adopted unanimously.

## TRAINING FOR BASIC BUILDING TRADES

"Hardly any men today are training for the six basic building trades," according to Frederick Horridge, who has just made a study of apprenticeship in these trades as a thesis for the degree of doctor of philosophy at the University of California.

Dr. Horridge's contribution to Vocational Education by the study of this new problem is considered a very important one, and surprising in the facts it brings to light. He points out that the supply of skilled craftsmen being trained is practically negligible when the actual extent of the construction industry is considered.

No other industry utilizes so large an amount of the activities of the other basic industries, or involves so large a proportion of the industry of the people, he says, pointing out that any slackening in the building program will be followed by depression in many other activities, such as industrial plants, various public works, transportation, products such as lumber and cement, and supplies such as furniture and textiles.

"In recent years there has been a serious shortage of well-trained workers in the building trades but so far little has been done to relieve the situation," says Horridge. "Since the new immigration law now in effect will materially cut down the supply of foreign workers, who are recognized as our most skilled craftsmen, an efficient training program becomes a vital necessity."

Among the six building trades the electrical trade had the highest number of apprentices in 1920. However

it is giving more attention to apprenticeship than any of the other basic building trades. Plumbers come next, bricklayers third, plasterers fourth, painters fifth and carpenters last.

The number of students and workers in preoccupational and trade extension courses is grossly inadequate to meet the current needs, he says, adding that the demand for apprentices is being met only to the extent of 11.2 per cent, or about one-ninth of the necessary supply is in training.

## HOD CARRIERS GET INCREASE

Under an agreement reached May 5 between the plastering contractors and hod carriers of Reno, Nevada, the latter will hereafter receive nine dollars a day instead of eight dollars, according to Geo. I. James, business agent for the Washoe Building Trades Council.

## CITY MANAGERS WILL MEET IN DUBUQUE

The International City Managers' Association will hold their annual convention in Dubuque, Iowa, next September. Plans for the convention, the largest entertained in that city for some time, are well under way, according to City Manager C. E. Douglas of that city. Secretary of Commerce Herbert Hoover is expected to be one of the principal speakers on the program. Chief of Police Vollmer, of Berkeley, California, will tell how his city operates a police department without patrolmen or motorcycle officers. All cities, regardless of their form of government, will be invited to send representatives to the convention.

## CALAVERAS CEMENT ENTERTAIN

A part of members of the Richmond Builders' Exchange were guests of the Calaveras Cement Company at the company's plant at San Andreas over the past week end. L. B. Kirby and George Bacigalupi, East Bay representatives of the company, acted as guides on the plant inspection tour. The party included Arthur J. Hurley, city building inspector of Richmond and Edward A. Hoffman, city engineer of Richmond.

## EXCHANGE BANQUET SET FOR NEXT MONTH

The thirty-seventh annual banquet of the San Francisco Builders' Exchange will be held Saturday evening June 11, at the Fairmont Hotel, it is announced by S. F. Cohn, chairman of the committee on arrangements.

Tickets and blue print of arrangements of tables will be available at the Builders' Exchange within the next few days. To avoid disappointments as regards table locations, the committee advises that early selections should be made.

Assisting Chairman Cohn on the Committee on Arrangements, are: W. Feary, N. A. Dickey and S. A. Schenck.

## EXCHANGE SECRETARY RESIGNS

Frank H. Pilling, secretary-manager of the Pasadena Builders' Exchange since its organization a year ago, has tendered his resignation to take effect June 1. He will engage in private business at Glendale. George V. Israel, secretary-manager of the Ventura Builders' Exchange will succeed Mr. Pilling as executive officer of the Pasadena Exchange.

## ENGINEERS TO MEET

The Los Angeles and San Francisco sections of the American Institute of Mining and Metallurgical Engineers will hold a joint meeting in the Yosemite Valley May 15 and 16.

There will be special music and evening programs. J. M. Hill, Custom House, is making arrangements for the trip. A special train is scheduled to leave San Francisco May 13 and return three days later.

## CALIFORNIA MATERIAL DEALERS MEET AT SACRAMENTO

A meeting of the California Material Dealers' Association was held in the Del Paso Golf Club, Sacramento, May 6th, with Alex. G. Rhodes, president of the association, presiding.

Representatives from San Francisco, Oakland, Stockton, San Jose, Hayward, San Leandro, Burlingame, Palo Alto and San Mateo were in attendance.

President Rhodes following a general discussion on matters affecting the dealers reported a healthy construction season in prospect.

A luncheon following the meeting was arranged by Carrol Stevens of Sacramento.

The next meeting of the association is scheduled for San Jose on June 10.

# Placing The College Graduate

(By Leslie W. Ganyard, Alumni Bureau of Occupations, U. of C.)

The rapid increase of personnel departments among all the larger business and industrial institutions of the country is evidence of the growing recognition of the business man's most perplexing problem—that of securing satisfactory human aid. Also in answer to this problem there have arisen institutions to find places for men and women which will give them an opportunity to develop their talents to the fullest extent in ways which will bring mutual satisfaction to themselves and their employers.

One of the most successful of these institutions has been the Alumni Bureau of Occupations of the University of California. This establishment, which is operated for the benefit of the graduates and students of the University of California by the California Alumni Association, has made a special study of fitting the individual to the position and as a consequence has won high regard from those employers who have made use of its service.

One of the clients of the Bureau recently wrote: "We cannot afford not to take people whom you recommend to us."

As the University of California is in effect the largest "Plant" in the state and one in which every taxpayer is a stockholder, it is the logical place for business men to look for competent young assistants. Having spent four years being made better citizens and better thinkers at the expense of the state, graduates of the University are generally thoroughly grounded in those fundamentals so necessary to real business success, and properly placed are capable of making a genuine contribution to the establishment they enter.

These facts are already recognized by many of the larger corporations who today look almost entirely to the universities for the material which they expect to develop into executives and administrators. But university graduates are also trained in scores of fields besides the industrial. Many of them are equally well equipped for mercantile, advertising and other fields.

The Alumni Bureau of Occupations, which is the center for placements for University of California's graduates is located at 310 Stephen's Union, Berkeley, and 855 N. Vermont Ave., Los Angeles.

surplus at a time when the market cannot possibly absorb it. It would be much better to work out a plan which would hold the stock at mills rather than dangling it before the eyes of buyers when they do not want it."

Selling by manufacturers direct at prices as low or lower than they would sell to wholesalers, selling of lumber in transit and devoting attention to volume of business rather than profits, were also scored by the speaker, as well as by Dwight Hinckley, of Cincinnati, former president of that body. Continued prosperity for this country, based upon a solid foundation, was predicted by President Underhill.

"A study of the attitude of the commercial leaders of our country," he said, "indicates constantly growing cheerfulness relative to business conditions."

"We are in strong financial condition as a nation and there are ample investment funds available for business enterprises at low rates. Contributing largely to this sound financial condition have been the remarkable achievements of the Treasury Department under Secretary Mellon, notably the reducing of Liberty bonds at 4½ per cent, and substitution of short term bonds at 3½ per cent."

"Besides this there is a gradual, steady improvement of affairs in Europe and increasing stability of financial structures abroad."

Mr. Underhill stated that one of the most important factors making for prosperous conditions in the United States is the great building construction program being carried out in every section.

Competition in business is proper, but dangerous in the credit field, said J. H. Tregoe, of New York, secretary of the National Credit Men's Association, during an address. "The giving of credit," he said, "is bound about by certain fixed rules and it is not safe to depart from these, merely to create a volume of business."

Members of the association have been compelled, when engaged in business disputes, to resort to arbitration, but they were freed from this obligation by a resolution adopted by the association, because, it was declared, there has been lack of co-operation in this regard from other large organizations.

## DEUSIKE RETURNS FROM STEEL STANDARDIZATION MEET

Mr. O. B. Deusike, president of the United States Metal Products Company, San Francisco, has just returned from an extended tour of the East.

Mr. Deusike's primary reason for going East was at the instigation of the Department of Standardization at Washington, D. C. Under the jurisdiction of Secretary Hoover, a meeting of the principal steel sash manufacturers was held for the purpose of standardizing steel sash as to correct terms for designation, sizes, type and methods ventilation. The meeting was a decided success and will in a short time result in standardized data being furnished.

The fact that Mr. Deusike was invited to attend this meeting indicates the recognition of Pacific Coast industry and illustrates the high esteem held by the United States Metal Products Company.

Leo S. Schoenfeld and Lloyd M. Abraham will operate from 277 Pine street, San Francisco, under the firm name of Richardson Roofing Company.

# Support Urged To Make Lumber Growing Profitable

(By H. R. Isherwood, Secretary-Treasurer, Concatenated Order of Hoo-Hoo)

One of the principal obstacles to extensive reforestation in many states is the existence of inequitable systems of taxing timber lands.

While some few states have enacted tax laws which encourage the investment of private capital in the growing of timber, the majority have laws which make this enterprise unprofitable and therefore unattractive to interests with the capital to invest.

Under present tax systems in many states, timber land is taxed every year. It takes many years to grow a tree to a size where it may be used as merchantable timber, and by that time the annual tax levy has eaten up any profit that should go to the land owner on his investment.

This condition has resulted many times in forcing the land owner to cut the timber before it has matured, because he cannot afford to let it grow and give it protection against fire and other enemies when by so doing he loses on his investment.

Foresters who have studied this problem have recommended the enactment of yield taxes on timber, and in those states which have revised timber tax laws the yield tax is in effect.

It provides for an annual levy on the land, exclusive of the timber, during the period of growth of the trees and for an additional tax when the timber is cut, on the basis of the yield.

A group of noted tax experts is now engaged in a five-year study of timber taxing methods, out of which it is hoped to evolve an equitable system under which timber growing on the basis of a continual crop will be encouraged.

Meantime, when state tax amendments are proposed under which timber growing will become a profitable enterprise, every citizen should consider the importance of the measure and support it.

If wheat were taxed to an extent which prohibited the chance of the farmer deriving a profit, it wouldn't be very long before we would have to turn to something other than bread as "the staff of life."

Idle land is not a source of great revenue in taxes, whereas the timberlands producing a continual crop would contribute substantially to community and state in taxes and in industrial progress on which taxes depend.

# Lumber Industry Methods Are Scored By Underhill

The lumber industry of the country is menaced by over-production, unfair competition between manufacturers and wholesalers and old-fashioned selling methods, declared F. S. Underhill of Philadelphia, president of the American Wholesale Lumber Association, in

an address at Atlantic City recently, before the annual convention of that body in the Ambassador Hotel.

"A way must be found," he said, "to keep the lumber output nearer the existing demand, whatever that may be, or to avoid attempting to market a

LOS ANGELES, Cal.—Arch. Richard D. King, 1124 Van Nuys Bldg., applied for building permit to erect four-story 84-room 31-family class C brick apt. house at s. e. corner of S. Western Ave. and Cambridge St. for Max Royer, owner; 95x125 ft., 7 store rooms, composition roof, skylights, cast stone trim, fire escapes, ornamental iron, plate glass, cement, oak and pine floors, hardwood and Oregon pine trim, tile mantels, baths, showers and drainboards, wall beds, electric refrigeration, gas radiators, automatic electric elevator, incinerator, laundry; \$110,000. (5090) 1st rep. Apr. 22; 2d Apr. 29. '27

SAN FRANCISCO—The Marian Realty Co., 110 Sutter St., recently purchased the property on the northeast corner of Pacific and Fillmore Streets. It is too early to state what improvements are to be made, but a large apartment house will probably be erected in time.

LOS ANGELES, Cal.—W. E. Chadwick, 417 Union League Bldg., is preparing preliminary plans for a 4-story and part basement, 62-room, brick apartment and store building, to be built on Santa Barbara St., near Figueroa St., owner's name withheld; 50 y 124 ft., est. cost, \$125,000.

SAN FRANCISCO—C. V. King, 41 Sutter Street, is consummating a deal to purchase the Stanford Court Apts. on the southeast corner of California and Powell Streets, a recent gift of L. H. Sly to the Berkeley Baptist Divinity School. It will be leased for a term of 20 years to the D. M. Linnard interests and will be operated in conjunction with the Fairmont Hotel. Further information will be given later.

LOS ANGELES, Cal.—Architect W. Douglas Lee, 709 Textile Center Bldg., has completed plans and will erect a seven-story Class A store and apartment building at 5200 Hollywood Blvd. for the Guardian Holding Co., Commercial Exchange Bldg. It will contain 189 rooms, dimensions 100x121 ft., reinforced concrete garage, 100x100 ft., stucco and cast stone facing, plate glass, ornamental iron work, steel sash, marble and tile work, hardwood and pine trim, wall beds, steam heating, elevators, refrigerating system, incinerator. The cost will be \$350,000.

PASADENA, Los Angeles Co., Cal.—E. E. B. Meinardus, 311 S. Vermont Ave., is preparing plans for a four-story and basement class C store, apt. and recreation center building to be erected at the northwest corner of Raymond Ave. and Holly St., Pasadena, for Henry C. Jensen, 1728 Westmoreland Ave., Los Angeles. The basement will be 24 feet deep and fitted up as a high class recreation center with billiard rooms and 12 bowling alleys. The upper stories will contain stores and apartments; dimensions, 70x180 feet, brick construction, pressed brick facing, terra cotta trim, plate glass, structural steel, wrought iron, pine trim, tiled baths, wall beds, elevators. Work will be done by the day and subcontract by owner.

TULARE, Tulare Co., Cal.—A. M. Rumley, Tulare, at \$25,000 has contract to erect two-story brick, 40-room apartments (four 4- and eight 3-room) on North K St., for W. J. Wilson and A. L. Johnson; hot and cold water system; gas steam radiators; stucco exterior.

## BONDS

COMPTON, Los Angeles Co., Cal.—The Board of Trustees of Compton Union High School District has called a special election for May 24 to vote on the question of issuing bonds in the sum of \$150,000 for erecting a gymnasium at the high school at Compton and for purchasing sites in the Enterprize and Willowbrook sections of the district.

BEVERLY HILLS, Los Angeles Co., Cal.—The board of trustees of Beverly Hills school district has called a special election for May 27 to vote on the question of issuing bonds in the sum of \$400,000 for additional school facilities. It is planned to erect a primary building in the section of the district east of Preuss Road, to erect an auditorium at the Beverly Vista school, and the erection of a new bldg. at the Hawthorne school site.

SONORA, Tuolumne Co., Cal.—Until July 7 bids will be received by county supervisors for purchase of \$12,500 bond issue of Curtis Creek School District, proceeds of sale to finance additions to present school.

SOLEDAD, Monterey Co., Cal.—Election will be held June 6 in Soledad School District to vote bonds of \$75,000 to finance erection of auditorium building and improvements to present grammar school.

INGLEWOOD, L. A. Co., Cal.—The proposed bond issue for \$150,000 for erecting a junior high school building at Inglewood failed to carry at the election last week.

SALINAS, Monterey Co., Cal.—Until June 6 bids will be received by county supervisors for purchase of \$15,000 bond issue of Pajaro School District; proceeds of sale to finance erection of a new school. Plans being prepared by Architect Ralph Wyckoff, Growers Bk. Bldg., San Jose.

VISALIA, Tulare Co., Cal.—County supervisors sell \$9500 bond issue of Earlimart School District; proceeds of sale to finance school improvements.

SAN MATEO, San Mateo Co., Cal.—City will call election shortly to vote bonds of \$50,000 to finance erection of new library building.

SUNNYVALE, Santa Clara Co., Cal.—City defeats proposal to issue bonds of \$35,000 to finance improvements in Civic Center.

SAN JOSE, Santa Clara Co., Cal.—Election will be held May 27 in Willow Glen School District to vote bonds of \$28,000 to finance erection of a new school. Trustees of district are H. L. Austin, E. W. Morrish and S. R. James.

COLTON, San Bernardino Co., Cal.—The city trustees have called a special election for June 3 to vote on the question of issuing bonds in the sum of \$45,000 for erecting a new fire station and jail building and for remodeling the city hall.

GERBER, Tehama Co., Cal.—Gerber Union Grammar School District sets May 28 as date to vote direct tax of \$5400 to finance one-classroom addition to the present school.

VISALIA, Tulare Co., Cal.—Election will be held June 3 in Laurel School District to vote bonds of \$11,000 to finance erection of a new school. Trustees of the district are: A. C. Harris, A. P. Kirkpatrick and R. S. Middleton.

## CHURCHES

Plans Being Figured  
CHURCH Cost, \$120,000  
BERKELEY, Alameda Co., Cal. Dana bet. Durant St. and Bancroft Way. First unit of brick and reinforced concrete church (auditorium and chapel).  
Owner—Trinity M. E. Church.  
Architect—Geo. Rushforth, 254 Pine St., San Francisco.

Ready for Bids in Two Weeks  
CHURCH BLDG. Cost, \$35,000  
Three-story frame and stucco church building (Bible school).  
Owner—Rev. D. E. Millard, New Christian Church.  
Architect—Starks & Flanders, Ochsner Bldg., Sacramento.

Structural Steel Contract Awarded

Other requests cover \$400,000 for a nurses' home at the San Francisco Hospital and \$200,000 for a new unit at the preventorium in San Mateo County.

## FROM THE CHICAGO BUILDING SUPPLY NEWS

Under date of Chicago, Illinois, December 29th, 1925, in "Short-Cuts to Better Business," the above live-wire, well-edited, weekly paper of wide circulation has the following to say about "PRATT'S CONCRETE MIX," or Sandy Pratt's near comedy in the Sacramento Bee (Development Section) each Saturday afternoon and the San Francisco Daily Pacific Builder on Tuesday and Thursday morning of every week. Here is the story: "Pratt's Concrete Mix"—A Newspaper Column. Find it hard to inject human interest into building supply advertising? You should see some of the advertising at Sacramento, and San Francisco, California, of the Pratt Building Material Co. It is as interesting as the "stuff"—to use newspaper men's language—of professional humorists. It is, in fact, a humor column, done in the well-known style of "K. C. B." whose work is a daily feature of a certain group of newspapers published throughout the country. This advertising column is headed with a reverse plate against the jet black of which is the title, "Pratt's Concrete Mix." Then the writer is given as "By Clarence Sand Pratt." Note the middle name! A sketch in a circle shows Mr. Pratt's face. Then is printed one of Sandy Pratt's K.C.B.-like stories, which appeared in the above papers last August. A photo of this ad is also printed with the following comment: "Here is the humor editorial style of newspaper ad run in a local daily by the Pratt Building Material Co. Picture of Clarence Sand Pratt is in right hand corner." The column was illustrated on the day the above appeared with the sketch of a fisherman holding a mammoth fish up for the consideration of the world. (Sandy Pratt was up in the Sierra Nevada mountains at the summer home of Claude M. Long, well known Stockton contractor). Beneath this sketch was a piece of explanatory matter, set editorial style. It read: "Fish grow big near Phillips, Eldorado Co., where Sandy Pratt, producer of clean sand, hard rock and washed gravel, is fishing at the dining-room table of Sandy's brother-in-law. Photos of some of the largest fish will be on exhibition at the 'Prattrock' display at the State Fair on 'San Francisco Day.'" Human interest in this stuff? We'll say so! When advertising of this sort "goes over," it has special advantages. For it builds up a "following"—people who look for it regularly in the newspaper. The personal viewpoint wins the good-will of readers—they feel they know the advertiser. The column gets talked about to an extent. "Pratt's Concrete Mix" demonstrates that human interest advertising copy can be written as effectively in the building supply field as in any other.

AND THEY say.  
THAT SANDY Pratt is conceited.  
AND IF they don't stop.  
PRINTING STUFF.  
LIKE THE above Chicago story.  
THEN SANDY himself.  
WILL HAVE to admit  
THAT MR. I. C. U. R. Conceited.  
DOES VISIT Sandy.  
FOR JUST about the time.  
SANDY'S HEAD become normal.  
SO SANDY can wear his hat.  
THEN SOME "literary giant."  
"SOMEWHERE IN America."  
TELLS THE dear public.  
THAT SANDY'S stuff is good.  
THEN SANDY'S folks.  
HAVE TO listen to a "recital."  
OF THE complimentary copy.  
AND A whole evening.  
IS ABSORBED while Sandy.  
PITCHES A few bouquets.  
INTO HIS lap.  
AND HIS dear relatives.  
PATIENTLY WAIT 'till someone.  
CAN CHANGE the subject.  
AND NOW, dear reader.  
WHEN YOU stop to consider.  
THAT SANDY Pratt, President.

OF THE Pratt Building Material Co.  
DOUGLAS 300—"easy to remember."  
IS NOT a writer.  
BUT A producer.  
OF SAND, rock and gravel.  
AT SACRAMENTO, Prattrock (near Folsom).  
MARYSVILLE AND Prattco (Monterey County).  
AND MAYHEW (Sacramento County).  
CENTRAL OFFICE—San Francisco.  
THEN YOU can't blame Sandy.  
FOR APPEARING conceited.  
IF PEOPLE talk this way  
ABOUT HIS near-literature.  
"I THANK you."

This pathetic picture shows Mr. N. O. Advertiser and his sad family after stone hearted sheriff, Hard Rock of Prattrock, California, closed the non-advertised business. The women folk cried so hard, that the tears ran down into the flat below and drowned one woman and three small children. Sandy Pratt, producer of sand, rock and gravel, finds it pays to advertise (see Chicago story at the head of this column) if your product and service are right.

POMONA, Cal.—The following bids were received by State Department of Public Works, Division of Architecture, Forum Bldg., Sacramento, for general work in connection with commissary and kitchen building (one building) and laundry building at Pacific Colony, Spadra, near Pomona.
